RSM US LLP

Retirement and Benefits Committee
The Legal Aid Society Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Legal Aid Society Retirement Plan (Plan No. 001—a defined benefit plan) (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of June 30, 2025 and 2024, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended June 30, 2025 and 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate to their best of their knowledge.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by a qualified institution and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter—Plan Termination

As discussed in Note 10 to the financial statements, the Board of Directors of The Legal Aid Society, by resolution dated December 15, 2025, approved the termination of the Plan and plan liquidation effective April 1, 2026. Our opinion has not been modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters—Supplemental Schedules Required by ERISA

The supplemental schedules, schedule H, line 4i—schedule of assets (held at end of year) as of June 30, 2025, and schedule H, line 4j—schedule of reportable transactions for the year ended June 30, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or are derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Plan Description

The following brief description of The Legal Aid Society Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions. This Plan has the same name as another plan sponsored by The Legal Aid Society (the Society or Plan Sponsor), identified as Plan No. 006, which is a defined contribution plan.

General: The Plan is a noncontributory defined benefit pension plan covering all employees (except union member employees) of the Society hired prior to December 1, 2004, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Society's Retirement and Benefits Committee (the Committee), which is appointed by the Board of Directors of the Society and is responsible for carrying out provisions of the Plan. All plan investments are held by BNY Mellon, N.A., as the trustee of the Plan. Certain administrative expenses are paid by the Plan.

Plan amendments: On December 1, 2004, the Plan was amended to limit the participation and accrual of benefits to employees hired on or before November 30, 2004. A defined contribution plan (Plan No. 006) was established by the Society for all employees (except union member employees) employed on that date or hired thereafter. By amendment dated September 22, 2008, the Plan was amended to modify the method used to determine the lump-sum amount of cash balance benefits for participants who received a lump-sum distribution prior to August 17, 2006, which resulted in an immaterial adjustment. In addition, the amendment made certain technical changes to wording, and to clarify the definition and rights of domestic partners. Such amendments were made at the request of the Internal Revenue Service (IRS) and were effective as of July 1, 1999. The Plan was restated December 17, 2010, and July 1, 2015, to incorporate recent legislation and regulations. The Plan was amended effective June 1, 2025, to allow participants to take an in-service distribution at any time after the April 1 following the calendar year in which the participant attains age 70½.

Pension benefits: Pursuant to a plan amendment on July 1, 1999, the Plan included a cash balance formula for benefit calculations and allowed for employees to become eligible to participate in the Plan immediately upon the date of hire. Under the cash balance formula, a cash balance account is maintained for each employee. An initial cash balance account was allocated to active participants on July 1, 1999. The account is increased each year by pay-related credits and interest credits. Pay-related credits were not granted after November 30, 2004. Interest is credited to the account at a rate of 6.5% per year through June 30, 2004, and 5% per year thereafter.

A participant becomes 100% vested after completing five years of service (effective July 1, 2008, three years if covered by the cash balance provisions of the Plan), or attainment of normal retirement date (NRD) as defined by the Plan, whichever occurs earlier. A participant's vested interest is distributable upon termination, disability, retirement or death. Payment is generally made in an annuity or a lump sum.

Participants who were hired before July 1, 1999, and earn benefit service after that date, are entitled to a benefit equal to the greater of 2% of their final average pay per year of service or a cash balance formula. Employees hired after July 1, 1999, receive benefits under the cash balance formula. Compensation earned after November 30, 2004, is not recognized. Benefit service is not credited after November 30, 2004.

(Plan No. 001—a defined benefit plan)**

Notes to Financial Statements

Note 1. Plan Description (Continued)

The Plan allows for employees who terminate employment: (i) on or after attaining age 55 with at least 30 years of vesting service or (ii) on or after attaining age 62 with at least 25 years of vesting service to receive their final average pay benefits before their normal retirement date (NRD) which are equal to the NRD benefits reduced by 1/12 of 1.5% and 1/12 of 3% for employees meeting criteria (i) and (ii), respectively, for each month's payment to be made prior to reaching age 65. Final average pay benefits for participants who do not meet these requirements are reduced actuarially prior to age 65.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Actuarial present value of accumulated plan benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on their compensation during the six years ending on the valuation date. Benefits payable under all circumstances, retirement, death, disability and termination of employment, are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Payment of benefits: Benefits are recorded when paid.

Funding policy: The Society's funding policy is to make contributions to the Plan in amounts that are actuarially calculated to cover the costs of benefits to be provided by the Plan. The Plan is subject to the minimum funding requirements of ERISA. The minimum funding requirement was met for the years ended June 30, 2025 and 2024.

Subsequent events: The Plan evaluates events occurring after the date of the financial statements to consider whether or not the impact of such events needs to be reflected and/or disclosed in the financial statements. Such evaluation is performed through the date the financial statements are available for issuance, which was April 10, 2026, for these financial statements.

Note 3. Information Certified and Provided by the Trustee

The following is a summary of the Plan's asset information as of June 30, 2025 and 2024, and for the years then ended, included throughout the Plan's financial statements and ERISA-required supplemental schedules, obtained by management and agreed to or derived from information certified as complete and accurate by the trustee, a qualified institution:

	2025	2024
Investments at fair value:		
Registered investment companies	\$ 1,495,735	\$ 42,831,633
Corporate bonds	47,601,204	10,906,373
Money market fund	269,939	841,977
U.S. government securities	1,999,615	-
Limited partnership	572,614	562,877
	<u>\$ 51,939,107</u>	<u>\$ 55,142,860</u>

The trustee also certified to the completeness and accuracy of \$1,988,507 and \$5,660,026 of net appreciation in the fair value of investments and \$1,717,398 and \$1,478,536 of dividends and interest, including \$672,039 and \$168,720 of dividends and interest receivable, related to the aforementioned plan assets for the years ended June 30, 2025 and 2024, respectively.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

**The Legal Aid Society Retirement Plan
(Plan No. 001—a defined benefit plan)**

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2025 and 2024.

Registered investment companies: Valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price, which constitutes an active market.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

U.S. government securities: Valued based on observable market data, including the closing price reported in the active market in which the security is traded.

Money market fund: Fair value is based on the NAV at the end of the plan year as determined by the issuer based on the fair value of the underlying assets. The NAV is not a public-quoted price in an active market. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value.

Limited partnership: Valued at the NAV of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund/trust less its liability. This practical expedient is not used when it is determined to be probable that the fund/trust will sell the investment for an amount different than the reported NAV.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of June 30, 2025 and 2024:

Type of Investment	Investments at Fair Value as of June 30, 2025			
	Level 1	Level 2	Level 3	Total
Investments at fair value:

- a. In accordance with the Fair Value Measurements topic, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The following table sets forth additional disclosures of the Plan's investment whose fair value is estimated using NAV per share as of June 30, 2025 and 2024:

Investment	June 30		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2025	2024			
BNY Mellon Money Market Fund (b)	\$ 269,939	\$ 841,977	\$ -	Daily	None
Energy Dynamics Fund LT (c)	572,614	562,877	-	Monthly	90 day
	<u>\$ 842,553</u>	<u>\$ 1,404,854</u>			

- b. BNY Mellon Money Market Fund is an open-ended fixed income mutual fund managed by BNY Mellon Fund Advisers. The fund invests in fixed income markets of countries across the globe. It invests in money market instruments. The fund invests in dollar denominated securities issued or guaranteed as to principal and interest by the U.S. government or its agencies or instrumentalities; certificates of deposit, time deposits, bankers' acceptances, repurchase agreements; asset-backed securities; high grade commercial paper, corporate obligations, taxable municipal obligations, floating or variable rate securities which are rated high quality and have short-term maturities.
- c. Energy Dynamics Fund is a long/short equity hedge fund managed by Clean Energy Transition, based in London, United Kingdom. It invests in core energy sectors, including oil and gas, renewables and utilities, as well as energy-linked sectors like capital goods, transport and mining.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

Note 5. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and expected date of payment. The significant actuarial assumptions underlying the June 30, 2025 and 2024, valuations are as follows:

Discount rate	2025: 5.30% 2024: 7.00%
Mortality basis	Pi-2012 Private Retirement Total Data Mortality Tables and projected generationally with Mortality Improvement Scale MP-2021 as of June 30, 2025. Pri-2012 Private Retirement Total Data Mortality Tables and projected generationally with Mortality Improvement Scale MP-2021 as of June 30, 2024.
Retirement	Rates of retirement are assumed to range from 5.5% at age 55 to 7% at age 62, with 100% at age 75.

**The Legal Aid Society Retirement Plan
(Plan No. 001—a defined benefit plan)**

Notes to Financial Statements

Note 5. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of July 1, 2025 and 2024. Had the valuations been performed as of June 30 there would be no material differences.

The actuarial present value of accumulated plan benefits as of June 30, 2025 and 2024, is as follows:

	2025	2024
Vested benefits:		
Participants currently receiving benefits	\$ 38,415,225	\$ 35,733,417
Other vested participants	8,168,552	8,001,888
Total vested benefits	46,583,777	43,735,305
Nonvested benefits:	405	2,840
Total actuarial present value of accumulated plan benefits	<u>\$ 46,584,182</u>	<u>\$ 43,738,145</u>

The changes in the actuarial present value of accumulated plan benefits for the year ended June 30, 2025, as determined by the actuary are summarized as follows:

Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 43,738,145</u>
Change attributable to:	
Benefits paid	(5,855,149)
Interest earned on accumulated plan benefits	2,878,158
Change in assumptions	4,937,836
Benefits accumulated and other plan experience	885,192
Net increase	<u>2,846,037</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 46,584,182</u>

Note 6. Plan Termination

The Society, by action of its Executive Committee, may terminate the Plan for any reason at any time. In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (the PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits, should the Plan be terminated at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and time of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guarantee while other benefits may not be provided for at all.

**The Legal Aid Society Retirement Plan
(Plan No. 001—a defined benefit plan)**

Notes to Financial Statements

Note 7. Tax Status

The IRS has determined and informed the Society, by a letter dated May 18, 2017, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (the Code). The Plan has been amended since receiving the determination letter. However, the Society believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 9. Party-in-Interest and Related-Party Transactions

Certain plan investments are shares of funds managed by BNY Mellon N.A. and their affiliates, which are affiliated with the trustee of the Plan. The transactions in these investments qualify as exempt party-in-interest transactions under ERISA.

Fees paid by the Plan to BNY Mellon N.A., the trustee, for investment management and trustee fees amounted to \$279,250 and \$234,267 for the years ended June 30, 2025 and 2024, respectively.

In addition, as described in Notes 1, 2 and 5, the Plan has several other arrangements with service providers related to plan operations. Transactions with these providers qualify as exempt party-in-interest transactions under ERISA.

Note 10. Subsequent Event

On December 15, 2025, the Board of Directors of The Legal Aid Society adopted a resolution to terminate the Plan, effective April 1, 2026, and offer in connection with the plan termination a special, one-time lump sum window option to eligible participants, in full satisfaction of their benefits under the Plan. The Plan applied for approval for the termination from the IRS during February 2026, and intends to file for approval from the PBGC in April 2026. All participants will become fully vested as of April 1, 2026 and will have the option to receive a lump sum payment or an annuity for the value of their accumulated benefits, upon termination. The estimated effect of the plan termination on the accumulated benefit obligation is not known at this time.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Funding assumptions selection and rationale

Actuarial standards of practice ("ASOPs") 27 and 35 require me to provide the information and analysis that led me to recommend the plan sponsor select assumptions that have a significant effect on the measurement. The assumptions that have a significant effect on the measurement are retirement rates, termination rates, option form elections, discount rate, and expected return on assets. The assumptions for active withdrawal experience, form of payment elections (for those who elect an annuity), form of payment assumptions (lumps sum versus annuity), and marital assumptions are based on an experience study submitted June 2023. The actuary has determined that these demographic and other noneconomic assumptions are reasonable. We monitor the reasonableness of the retirement rates, termination rates, and optional form elections (including lump sum take rates) assumed in our valuation annually through gain/loss analyses and through periodic experience studies. We also monitor the reasonableness of the expected return on assets (EROA) by using an economic multifactor forecasting model. In selecting the expected return on plan assets the actuary reflected an approximate asset allocation of 70% Growth/Equity, 25% Fixed Income, and 5% Other investments. The remaining assumptions have no significant impact on the plan's benefit obligations.

Use of Models

Actuarial Standard of Practice No. 56 ("ASOP 56") provides guidance to actuaries when performing actuarial services with respect to designing, developing, selecting, modifying, using, reviewing, or evaluating models. Gallagher uses third-party software in the performance of annual actuarial valuations and projections. The model is intended to calculate the liabilities associated with the provisions of the plan using data and assumptions as of the measurement date under the funding rules specified in this report. Further, the model applies those funding rules to the liabilities derived and other inputs, such as plan assets and contributions, to generate many of the exhibits found in this report. Gallagher has an extensive review process whereby the results of the liability calculations are checked using detailed sample output, changes from year to year are summarized by source, and significant deviations from expectations are investigated. Other funding outputs are similarly reviewed in detail and at a high level for accuracy, reasonability and consistency with prior results. Gallagher also reviews the model when significant changes are made to the software. The review is performed by experts within the company who are familiar with applicable funding rules as well as the manner in which the model generates its output.

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (continued)

The following assumptions and methods are prescribed by ERISA, as currently amended.

Interest rates

	2024 Plan Year	2023 Plan Year
Funding Rates – Constrained*		
First Segment Rate	4.75%	4.75%
Second Segment Rate	5.12%	5.00%
Third Segment Rate	5.59%	5.74%
Effective Interest Rate	5.17%	5.12%
Funding Rates – Unconstrained**		
First Segment Rate	4.64%	2.50%
Second Segment Rate	5.12%	3.83%
Third Segment Rate	5.10%	4.06%
Effective Interest Rate	5.06%	3.75%
PBGC Premium Funding Target Rates		
First Segment Rate	4.64%	2.50%
Second Segment Rate	5.12%	3.83%
Third Segment Rate	5.10%	4.06%
Effective Interest Rate	5.06%	3.75%

* Used for minimum funding and benefit restriction purposes.

**Used for ERISA 4010 reporting purposes.

The interest rates used for funding purposes are the Segment Rates with 4-month lookback, constrained in accordance with relevant legislation.

Mortality

Mortality tables mandated by applicable law and regulation as specified in IRS Regulation 1.430(h)(3)-1, as amended in the Federal Register on October 20, 2023, in TD 9983, 88 FR 72357, applied on a fully generational basis using the IRS 2024 Adjusted Scale MP-2021 Rates mortality improvement scale.

Actuarial cost method

The Funding Target is the present value of accrued benefits. The Target Normal Cost is the expected plan related expenses to be paid from plan assets during the year.

The Legal Aid Society Retirement Plan

EIN/PN: 13-5562265 / 001

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding/PBGC Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under PPA.

Cash Balance interest crediting rate

5.00% per annum, in accordance with the interest rate determined by the Retirement Plan Committee.

Expenses

Expected plan related expenses of \$640,000 were added to the Target Normal Cost. This was determined as an average of non-PBGC premium expenses paid from the trust over the last two years, each adjusted for inflation to the valuation date at an assumed annual rate of 3.00%, plus the expected PBGC premium for the current year, rounded to the nearest \$10,000.

Actuarial Basis for Converting Annuities to Lump Sums and Cash Balance Accounts to Annuities

Current Year Mortality

IRS 2024 417(e) Applicable Mortality table, as amended by IRS Notice 2023-73

Prior Year Mortality

IRS 2023 Applicable Mortality Table under IRC Section 417(e) as described in the Appendix of IRS Notice 2022-22 (reflects RP-2014 rolled back to 2006 and projected with Mortality Improvement Scale MP-2021).

Form of Payment Assumption - Lump Sums and Annuities

The assumed percentage of participants electing a lump sum and the percentage of participants electing an annuity based on age at retirement are as follows.

Age at Commencement	Percentage Electing a Lump Sum Distribution	Percentage Electing an Annuity
prior to 60	100.00%	0.00%
60 – 64	65.00%	35.00%
65 – 69	50.00%	50.00%
70 and later	65.00%	35.00%

Commencement Assumptions

The assumed percentage of participants electing to commence their benefit immediately after termination is summarized as follows.

Age at Termination	Percentage Electing to Commence Immediately after Termination	Percentage Electing to Defer Commencement to Age 65
prior to 60	25.00%	75.00%
60 – 64	75.00%	25.00%
65 and later	100.00%	0.00%

The Legal Aid Society Retirement Plan

EIN/PN: 13-5562265 / 001

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods (continued)

Terminated vested participants are assumed to commence at age 65 or immediately if older.

Active participants are assumed to commence immediately upon termination following attainment of age 55 with 30 years of service or age 62 with 25 years of service.

Frequency of optional payment forms for participants who elect annuities.

At commencement participants are assumed to elect the following optional forms of payment at the following rates:

Form of Payment	Males	Females
100% Joint & Survivor	25.00%	13.00%
75% Joint & Survivor	6.00%	2.00%
50% Joint & Survivor	24.00%	30.00%
10-Year Certain & Life Annuity	5.00%	10.00%
5-Year Certain & Life Annuity	40.00%	45.00%

Separation from Service

Age	Current Year Assumption
<35	7.20%
35	7.20%
40	6.80%
45	3.60%
50	1.30%
55	5.50%
60	5.50%
61	5.50%
62-64	7.00%
65-67	13.00%
68-69	15.00%
70	36.00%
71-74	36.00%
75	100.00%

Marital percentage

100% of participants are assumed to be married in order to make provision for benefits which might be payable to orphans. Husbands are assumed to be 2 years older than their wives. The spouse's benefit was valued based on the assumption that there would always be a living spouse at the time of death, in order to make provision for benefits which might be payable to orphans.

The Legal Aid Society Retirement Plan
EIN/PN: 13-5562265 / 001

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods (continued)

Miscellaneous

The valuation was prepared on an on-going-plan basis. No provision has been made for contingent liabilities with respect to non-vested terminated participants who may be reemployed.

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including the discounted value of accrued contributions, reduced by 2/3 of the gain/(loss) for the immediately preceding plan year and reduced by 1/3 of the gain/(loss) for the plan year before that. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by current law and regulation to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2024 Expected Return	7.00%	5.59%	5.59%
2023 Expected Return	7.00%	5.74%	5.74%
2022 Expected Return	6.50%	5.92%	5.92%

Summary of Changes from the July 1, 2023 Valuation

- The interest rates were updated in accordance with IRS published rates applicable to the valuation date. These rates are constrained in accordance with relevant legislation.
- Mortality tables were updated for non-disabled participants mandated by applicable law and regulation as specified in IRS Regulation 1.430(h)(3)-1, amended in the Federal Register on October 20, 2023, in TD 9983, 88 FR 72357, applied on a fully generational basis using the IRS 2024 Adjusted Scale MP-2021 Rates mortality improvement scale.
- Lump sum mortality assumption for converting to optional forms subject to IRC Section 417(e) was updated from 2023 IRS 417(e) Applicable Mortality to 2024 IRS 417(e) Applicable Mortality.
