Notes to Financial Statements

NOTE 1 – DESCRIPTION OF PLAN

The following description of Hopes Community Action Partnership, Inc. Tax Sheltered Annuity Plan (the “Plan”) provides only general information. Participants should refer the Plan document for a more complete description of the Plan’s provisions.

General

The Organization established the Plan to provide employees with systematic means of savings and investing for the future. All permissible employees are eligible to enroll in the Plan. Deferrals begin as soon as administratively feasible subsequent to enrollment. The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Plan Contributions

Participants may contribute a portion of their base pay by means of payroll deductions, subject to certain discrimination tests prescribed by the Internal Revenue Code and other limitations specified in the Plan.

Participant Accounts

Each participant’s account is credited with a pro-rated share, based on payroll, of the Organization’s discretionary contributions and Plan gains and losses. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant’s accounts.

Vesting

Participants are immediately vested in the voluntary contributions and actual earnings thereon.

Distributions

Upon retirement, disability, termination or death, a participant or beneficiary receives the entire amount credited to the participant’s account in either a lump sum or, at the participant’s election, in annual installments. Upon termination, other than by retirements, disability, or death, a participant becomes eligible to receive the current value of the participants’ vested account in a lump sum.

Participant Investment Rollovers

Participants are allowed to transfer or rollover funds into the Plan from other qualified or Annuity Plans.

Notes to Financial Statements

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America, except for distributions paid to participants which are prepared on the cash basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosures. Accordingly, the actual amount could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Notes Receivable from participants

Participants may borrow from their account balances with interest charged. Minimum and maximum loan amounts, interest rates, and terms are defined in the Plan document. The loans are secured by the balance in the participant's accounts. Principal and interest are paid ratably through payroll deductions. A participant loan is considered to be in default and/or past due when payments have ceased prior to being repaid in full. Interest earned on notes receivable from participants is accounts for and presented on a separate line item on the statement of changes in nets assets available for benefits.

Investment Valuation and Income Recognition

At June 30, 2025, the Plan's investments were held in various insurance contracts and annuities and are stated at fair value. The net appreciation in the fair value of investments includes realized and unrealized gains and losses on the fair value of investment held by the Plan. Purchases and sales of investments are recorded on a settlement date basis. Interest income is accrued as it is earned and dividends are recorded as of the ex-dividend date.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of net assets available for benefits for defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount that participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts. The Statement of Net Assets Available for Benefits presents the fair value if the investment as well as the adjustment of the fully benefit responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Hopes Community Action Plan, Inc. Tax Sheltered Annuity Plan

Notes to Financial Statements

Management fee and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation in fair value of investments.

The change in net unrealized appreciation/depreciation of investments held from the beginning of the plan year to the end of the plan year is included with realized gains/losses as net investment income/loss reported in the accompanying statement of changes in net assets available for benefits.

Contributions

Contributions are recorded in the period for which the Organization makes such discretionary contributions.

Distributions

Distributions are record when paid. At June 30, 2025, there were no benefits processed and approved for payment, but not paid.

Expenses

Certain expenses of the Plan's administrative expenses are paid by the Organization. Other expenses are paid from plan assets and deducted from participant accounts in accordance with the Plan document.

Subsequent Events

For the year ended June 30, 2025, the Plan has evaluated subsequent events for potential recognition and disclosure through April 8, 2025, the date the financial statements were available to be issued.

NOTE 3 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE 4 – INVESTMENTS (UNAUDITED)

The Pan's investments were held and administered by Principal Trust Company. All investment information presented in the accompanying financial statements and supplemental schedules, including investments gold and net appreciation/depreciation in fair value of investments and interest and dividends, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Principal Trust Company.

The fair value of investment that represented 5% of more of net assets available for benefits as of June 30, 2025 were as follows:

NOTE 5 – FAIR VALUE MEASUREMENTS

Fair Value Measurement in accordance with current accounting standards establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other mean.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Hopes Community Action Plan, Inc. Tax Sheltered Annuity Plan

Notes to Financial Statements

NOTE 5 – FAIR VALUE MEASUREMENTS (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at June 30, 2025:

- Custodial Accounts – Valued at the net asset value (NAV) of shares held by the plan at year-end
- Annuity Accounts- Valued at fair value of underlying investments considering the creditworthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, with the fair value hierarchy, the Plan's investment assets at fair value as of June, 30 2025:

Investment Assets at Fair Value as of June 30, 2025

	Level 1	Level 2	Level 3	Total

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Organization has the right under the Plan to terminate the Plan subject to the provisions of ERISA. However, no such action may deprive any participant or beneficiary under the Plan of any vested right.

NOTE 7 – TRANSACTIONS WITH PARTIES IN-INTEREST

The Plan invests in allocated insurance contracts and annuities sponsored by the plan's custodian, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transaction. Administrative fees related to the administration of the Plan are paid by the Plan. Other administrative fees are paid by the Plan sponsor on behalf of the Plan.

NOTE 8 – TAX STATUS

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
