Independent Auditor's Report

The Plan Administrator
The Jewish Guild for the Blind
Bargaining Unit Employees' Pension Plan
New York, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Jewish Guild for the Blind Bargaining Unit Employees' Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of June 30, 2025 (in liquidation) and June 30, 2024 (ongoing), and the related statement of changes in net assets available for benefits for the year ended June 30, 2025 (in liquidation), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of June 30, 2025 and 2024, and for the year ended June 30, 2025, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Plan Termination and Liquidation Basis of Accounting

As further discussed in Note 2 to the financial statements, the Board of Directors of the Plan approved a plan of liquidation on April 14, 2025, and management determined liquidation is imminent. As a result, the Plan changed its basis of accounting from the going-concern basis of accounting used in presenting the 2024 financial statements to the liquidation basis of accounting used in presenting the 2025 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The ERISA-required Supplemental Schedule H, line 4i- Schedule of Assets (Held at End of Year) as of June 30, 2025 and Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended June 30, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified

investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agrees to, or are derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

1. Description of the Plan

The following description of The Jewish Guild for the Blind Bargaining Unit Employees' Pension Plan (the Plan) is provided for general information purposes. Participants should refer to the comprehensive Plan document for a complete description of the Plan's provisions.

General

The Plan is a noncontributory defined-benefit pension plan that covers all eligible employees of The Jewish Guild for the Blind (the Plan Administrator or the Guild) who are covered under a collective bargaining agreement and provides for retirement, death, and disability benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was frozen to both new participants and credited earnings, as of June 30, 2011.

On April 14, 2025, the Board of Directors of the Jewish Guild for the Blind passed a resolution to terminate the Plan. Effective June 30, 2025, all participants were fully vested in their account balances. Subsequent to year-end through the date of this report, \$5,044,060 of lump sum payments have been liquidated and distributed to participants. The Plan is currently in the process of purchasing annuity contracts for the remaining participants who did not opt for a lump sum distribution.

Pension Benefits

Employees with five or more years of service are entitled to annual pension benefits beginning at normal retirement age (65) equal to 1.5% of their average monthly pay multiplied by the number of benefit accrual months. The Plan permits early retirement at ages 55 to 64. Employees may elect to receive their retirement benefit as a lump-sum distribution upon retirement or termination, or they may elect to receive their benefits as a life annuity payable monthly from the employee's date of retirement. As a result of the Plan's benefit accrual freeze, average monthly pay will not include any earnings after June 30, 2011, and benefit service will not include any service after June 30, 2011.

Death and Disability Benefits

If a married employee dies after vesting in the Plan, but prior to commencement of retirement income, an eligible spouse will be entitled to a lifetime income equal to 50% of the reduced retirement income to which the employee would have been entitled at the time had the Joint and 50% Survivor option been elected with the spouse as the beneficiary.

If an active employee with at least ten years of vesting service and who is under the age of 65 becomes permanently disabled, the employee will be entitled to immediate commencement of their retirement benefit. The benefit will be paid under the Joint and 50% Survivor option if the employee is married or the single life annuity option if the employee is single.

Funding Policy

The Plan's funding policy is for the Guild to make annual contributions to the Plan in amounts that will meet or exceed the annual ERISA minimum funding requirement. For the year ended June 30, 2025, the Guild made a \$119,400 contribution. For the year ended June 30, 2025, the Guild

The Jewish Guild for the Blind Bargaining Unit Employees' Pension Plan

Notes to Financial Statements

met the minimum funding requirements. The Guild contributes such additional amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan members.

Vesting

Participants become 100% vested at the completion of five years of vesting service, or attainment of normal retirement age of 65.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying 2024 financial statements of the Plan were prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP).

The 2025 financial statements have been prepared under the liquidation basis. This basis was adopted when liquidation was deemed imminent in accordance with Accounting Standards Update (ASU) 2013-07, *Liquidation Basis of Accounting*. Plan management determined that liquidation was imminent upon adoption of the resolution to terminate the Plan on April 14, 2025. Under the liquidation basis of accounting, assets are measured at their net realizable value, estimated by fair value reduced by surrender charges, penalties and redemption charges, and disposal expenses, to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process. Liabilities are measured using the accrual basis of accounting, including any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

Use of Estimates

The preparation of the Plan's financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

The Jewish Guild for the Blind Bargaining Unit Employees' Pension Plan

Notes to Financial Statements

Administrative Expenses

The Plan provides that all administrative expenses of the Plan, including, but not limited to, investment fees, actuarial fees, insurance fees, and other expenses be paid from the assets of the Plan. Fees paid for services rendered by parties in interest are based on customary rates for such services.

3. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at June 30, 2025 and 2024. The following is a description of the valuation methodologies used for assets measured at fair value:

Money Market Funds - Money market funds are valued at the daily closing price as reported by the fund, which represents the net asset value (NAV) of shares held by the Plan at year-end.

Common/Collective Trusts (CCTs) - CCTs are valued at the NAV of units held. The NAV is based on the fair value of the underlying investments held by the CCT less its liabilities. The fair value of the underlying investments is determined using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments, including matrix pricing. The CCTs are classified within Level 2 of the fair value hierarchy as the unit price is not quoted in an active market.

The Jewish Guild for the Blind Bargaining Unit Employees' Pension Plan

Notes to Financial Statements

Private Equity Fund - As a practical expedient to fair value, alternative investments are measured at their NAV or equivalent provided by the fund manager. The value is reviewed and evaluated by management. The reported value may differ significantly from the values that would have been used had a ready market for these investments exist.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present the Plan's fair value hierarchy for those assets measured at fair value:

June 30, 2025 (In Liquidation)

	Level 1	Level 2	Total
Money market funds	\$ 5,196,756	\$ -	\$ 5,196,756

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The Jewish Guild for the Blind Bargaining Unit Employees' Pension Plan

Notes to Financial Statements

The following represents the liquidity provisions of investments valued at NAV as a practical expedient to fair value:

June 30,

	Fair Value		Redemption Frequency	Redemption Notice Period
	2025 (In Liquidation)	2024 (Ongoing)		
Private equity fund ^(a)	\$ 26,001	\$ 23,149	N/A	N/A
Total	\$ 26,001	\$ 23,149		

^(a) *Private equity Fund* - Private equity consists of investments directly into private companies or buyouts of public companies that result in a delisting of public equity. These funds have no redemption periods as the investments are locked up for the life of the fund.

There are no unfunded commitments as of June 30, 2025 and 2024.

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based upon the average of the employees' highest five consecutive years' annual earnings prior to their normal retirement date subject to limitations of law. The accumulated plan benefits for active employees are based on their highest five consecutive years' annual earnings preceding the valuation date. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered prior to June 30, 2011. In a terminating plan, assumptions for the present value of accumulated plan benefits should generally consider the possibility of additional potential costs of annuitizing participants, were participants to elect so.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, withdrawal, or retirement) between the valuation date and the expected date of payment.

Notes to Financial Statements

5. Certified Investment Information

Certain information disclosed in the accompanying financial statements and ERISA-required supplemental schedules, related to investments held at June 30, 2025 and 2024, and net appreciation in fair value of investments and interest and dividend income for the year ended June 30, 2025, was obtained by management and agreed to or derived from information certified as complete and accurate by The Bank of New York Mellon, a qualified institution.

Investments in the private equity fund in the amount of \$26,001 and \$23,149 as of June 30, 2025 and 2024, respectively, and related net appreciation in fair value of investments of \$2,852 for the year ended June 30, 2025 (in liquidation) are not certified.

6. Related Party and Party-in-Interest Transactions

Certain of the Plan's investments are in funds and accounts that are managed by the trustees of the Plan. The trustees of the Plan hold the Plan's assets and invest interest and dividend income and cash received and also initiate distributions to participants. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. For the year ended June 30, 2025, total fees paid to maintain the Plan were \$299,515 of which \$82,453 was paid to the trustees. These transactions qualify as party-in-interest transactions, which are exempt from prohibited transaction rules under ERISA.

7. Plan Termination

The Guild has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. On April 14, 2025, as described in Note 1, the Guild resolved to terminate the Plan effective June 30, 2025. Participants became 100% vested in their accounts as of the termination date.

8. Tax Status

The Internal Revenue Service (IRS) has ruled, in a letter dated February 10, 2016, that the Plan qualifies under Section 401(a) of the Internal Revenue Code (the Code) and is, therefore, not subject to tax under the present income tax laws. Although this Plan has been amended, the Plan's administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code and continues to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan holds various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values

The Jewish Guild for the Blind Bargaining Unit Employees' Pension Plan

Notes to Financial Statements

of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

As of June 30, 2025 and 2024, there were five and four investments held that individually accounted for more than 10% of total investments, respectively. See the supplemental Schedule of Assets (Held at End of Year) for a complete listing of investments held at June 30, 2025.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would-be material to the financial statements.

10. Subsequent Events

The Plan has evaluated all transactions and events that occurred after June 30, 2025 through April 14, 2026, which is the date that these financial statements were available to be issued, and there were no subsequent events requiring adjustments to the financial statements or disclosures as stated herein, except as discussed in Note 1.

Actuarial Methods

The valuation of retirement benefits is determined under the "Unit Credit Actuarial Cost Method", as prescribed by the Pension Protection Act of 2006 (PPA). In this method, the regular Plan cost arises from two sources: a Normal Cost and an Amortization Payment for the Funding Target Shortfall.

The Funding Target is determined as the actuarial present value of accrued benefits as of the valuation date. The Shortfall is equal to the Funding Target less the Plan Assets, reduced by the Carryover Balance and Prefunding Balance.

The Normal Cost is the actuarial present value of benefits expected to accrue during the valuation year plus anticipated administrative expense, if any.

For the Plan's ERISA funding requirements, incremental Funding Shortfall amounts are amortized over a fifteen-year period, and the related shortfall amortization payment is determined on the first valuation date following the plan year in which it arises based on the segment rates used for ERISA minimum funding purposes on that date, as prescribed under IRC Section 430.

Asset Valuation Method: 2 year (3-point) Average Value of Assets as permitted under IRS Notice 2009-22, not less than 90% nor greater than 110% of Adjusted Market Value of Assets on the valuation date.

Actuarial Assumptions

Economic Assumptions

Interest Rates:

PPA Funding: Segment rates with four month lookback period (February 29, 2024)

Segment 1 Interest Rate: 4.75%

Segment 2 Interest Rate: 5.12%

Segment 3 Interest Rate: 5.59%

Stabilization Rates:

Segment 1 Interest Rate: 4.64%

Segment 2 Interest Rate: 5.12%

Segment 2 Interest Rate: 5.10%

Rationale: This assumption is a prescribed assumption, set by the Internal Revenue Code Section 430. The sponsor has elected to utilize a 4-month look-back, with rates averaged over a 24-month period, limited to applicable minimum and maximum values in accordance with funding stabilization rules. These rates are utilized for purposes of calculating the Plan's Funding Target and Target Normal Cost for minimum funding purposes under ERISA and related tax codes.

FASB ASC Topic 960: 7.25%, compounded annually.

This is the assumed rate of return for the Plan's entire portfolio of assets, net of investment expenses and including inflation. This assumption represents an estimate of future experience and is based in part on observations of estimates inherent in market data.

Rationale: In developing the investment return assumption, we reviewed the Plan's historical investment performance along with forward-looking data such as projections of inflation and total return growth. Mean returns, standard deviations and correlations between investment categories were determined and used in the investment return assumption in conjunction with the historical and projected information.

CPI:

Assumption: 2.50%, compounded annually. This assumption represents an estimate of future experience and is based in part on observations of estimates inherent in market data.

Rationale: This assumption is based on current capital market assumptions.

Expense Provision:

Assumption: \$160,000

Rationale: In developing the expense provision, we reviewed the Plan's historical administrative expenses as well as anticipated fees for the next plan year, which includes an estimate of PBGC premiums.

Change in Assumption: The administrative expense provision was updated to better reflect anticipated plan experience.

Demographic Assumptions

Mortality PPA Funding:

Assumption: The generational mortality tables as promulgated by the IRS for plan years beginning in 2024.

Rationale: These mortality tables are among those mandated for use under PPA for ERISA funding valuations.

Change in Assumption: Mortality tables were updated from the statutory tables applicable for 2023 to the statutory tables applicable for 2024.

Mortality FASB ASC Topic 960:

Assumption: PRI-2012 Blue Collar Employee/Retiree Sex-distinct Mortality Tables, with Contingent Survivor Table for current beneficiaries, with full generational projection using Scale MP-2021.

Rationale: We have reviewed the plan's historical experience to develop the assumption. This selected assumption is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

Withdrawal:

Assumption: T-10 turnover table. Rates are illustrated below:

Age	Withdrawal Rates
20	17.95%
25	17.24%
30	16.22%
35	14.88%
40	13.13%
45	10.88%
50	7.97%
55	4.45%
60	1.22%

Rationale: We have reviewed the plan's historical experience to develop the assumption. As per our Experience Study dated July 21, 2022, this selected assumption is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

Retirement:

Participants are assumed to retire as follows:

Age	Retirement Rates for Active Participants	Retirement Rates for Terminated Vested Participants
55-59	3%	4%

Marriage and Beneficiary Age Difference:

Assumption: 80% of future retirees are assumed to be married with females three years younger than males.

Rationale: The number of covered participants is not large enough to have credible experience for preretirement deaths. We believe the marriage assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

Spouse Death Benefit:

Assumption: Assumed to commence on date member would have reached age 55.

Rationale: The number of covered participants is not large enough to have credible experience. We believe the recommended assumption is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

Form of Payment:

Assumption: 65% Lump Sum and 35% annuities for active and terminated vested participants respectively.

Rationale: We have reviewed the plan's historical experience to develop the assumption. As per our Experience Study dated July 21, 2022, this selected assumption is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

Form of Payment Conversion Mortality: Lump sums are valued in accordance with PPA requirements applicable for the valuation year. For FASB ASC Topic 960, lump sums are valued utilizing the applicable mortality table for 2024 in accordance with Internal Revenue Code Section 417(e) and provided in IRS Notice 2042-42.
