INDEPENDENT AUDITOR'S REPORT

To the Trustees and Plan Administrator
Defined Benefit Pension Plan of Wisconsin Community Services, Inc.
Milwaukee, Wisconsin

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Defined Benefit Pension Plan of Wisconsin Community Services, Inc., an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits (modified cash basis) as of June 30, 2025 and 2024, the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended, the statement of accumulated plan benefits (modified cash basis) as of June 30, 2024, and the related statement of changes in accumulated plan benefits (modified cash basis) for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Defined Benefit Pension Plan of Wisconsin Community Services, Inc.'s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of June 30, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 10 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting described in Note 2.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's

Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Defined Benefit Pension Plan of Wisconsin Community Services, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter — Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Emphasis of Matter — Subsequent Event

As discussed in Note 12 to the financial statements the board of directors of Wisconsin Community Services, Inc. resolved to terminate the plan upon a final determination of the sufficiency of the plan's assets to provide all plan benefits as of the final distribution date. A final determination of plan sufficiency was made on February 17, 2026, with a proposed distribution date of June 1, 2026. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting described in Note 2, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks.

- Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Defined Benefit Pension Plan of Wisconsin Community Services, Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Defined Benefit Pension Plan of Wisconsin Community Services, Inc.'s ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental Schedule H, line 4i—Schedule of Assets (Held at End of Year)(Modified Cash Basis) as of June 30, 2025, and Schedule H, line 4j—Schedule of Reportable Transactions (Modified Cash Basis) for the year then ended are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules (modified cash basis) we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules (modified cash basis), other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules (modified cash basis) related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NOTES TO FINANCIAL STATEMENTS
June 30, 2025 and 2024

NOTE 1—DESCRIPTION OF PLAN

The following description of the Defined Benefit Pension Plan of Wisconsin Community Services, Inc. (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan providing pension, disability, and death benefits to all eligible employees of Wisconsin Community Services, Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Effective June 30, 2009, the Plan was frozen and participants no longer accrue service. There are currently fewer than 30 active employees of the Company participating in the Plan.

The Plan is administered by the Company's executive director, chief financial officer, and human resources director. This group has overall responsibility for the operation and administration of the Plan. The group determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Company's board of directors.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount that will meet or exceed the annual minimum funding requirements of ERISA. During the years ended June 30, 2025 and 2024, the Company made contributions of \$239,000 and \$248,000, respectively, which exceeded the minimum funding requirements of ERISA.

Pension Benefits

Participants are eligible for pension benefits after terminating employment with vested rights. Participants become vested upon completion of 5 or more years of service, upon reaching age 55 if still employed, or if the Plan is terminated while a participant. Upon termination of employment, participants have the option of receiving their vested benefits in the form of a one-time lump sum payment or a monthly annuity payable for their lifetime. Participants may elect to defer payment of their benefits until a later date (if the value of the vested benefits is greater than \$1,000). Participants with vested benefits are entitled to annual pension benefits beginning at normal retirement age (65). The Plan permits early retirement, beginning at age 55, with reduced benefits.

Death and Disability Benefits

If a participant dies, a pre-retirement death benefit is generally paid to a surviving spouse. If a participant dies at age 55 or older, a pre-retirement death benefit equal to the value of the participant's vested accumulated pension benefits is paid to the participant's surviving spouse or surviving children if no spouse exists. Participants who become disabled can continue earning benefit accrual service beginning the later of 6 months after they become disabled or the effective date of Social Security Income payments. Benefit accrual service is accumulated until normal retirement age or death, at which time disabled participants will receive the normal pension benefits.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Accordingly, revenue is recognized when received rather than when earned and expenses are recorded when paid rather than when the obligation is incurred. Modifications to the cash basis of accounting include adjusting investments to fair value.

Use of Estimates

The preparation of financial statements in accordance with the modified cash basis of accounting requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by its contract holder. See Note 3 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses paid by the Company are excluded from these financial statements. Certain expenses incurred in connection with distributions paid by the Plan are recorded as deductions in the statement of changes in net assets available for benefits. In addition, certain investment-related expenses are included in net appreciation in fair value of investments.

NOTES TO FINANCIAL STATEMENTS
June 30, 2025 and 2024

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Subsequent Events

The plan has evaluated subsequent events through April 9, 2026, the date the financial statements were available to be issued.

NOTE 3—FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the contract holder. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurements authoritative literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

Pooled separate accounts- consist solely of investments in underlying mutual funds registered with the Securities and Exchange Commission and are carried at the net asset value at which the mutual fund shares are actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of June 30, 2025 and 2024.

DEFINED BENEFIT PENSION PLAN OF WISCONSIN COMMUNITY SERVICES, INC.
NOTES TO FINANCIAL STATEMENTS
June 30, 2025 and 2024

NOTE 3—FAIR VALUE MEASUREMENTS (continued)

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)
Pooled separate accounts at June 30, 2025	<u>\$ 7,776,007</u>	<u>\$ 7,776,007</u>
Pooled separate accounts at June 30, 2024	<u>\$ 9,937,660</u>	<u>\$ 9,937,660</u>

Mutual of America's general account (interest accumulation account) is also included in investments at fair value. However, the Plan has concluded that the general account is comparable to a cash equivalent and therefore exempt from classification in the fair value hierarchy.

Gains and losses (realized and unrealized) included in the change in net assets available for benefits for the years ended June 30, 2025 and 2024, are included in net appreciation in fair value of investments.

NOTE 4—CONTRACT WITH INSURANCE COMPANY

The Plan entered into a group annuity contract with Mutual of America Life Insurance Company (Mutual of America). The contract provides a general account and pooled separate accounts as investment alternatives. The Company may allocate contribution amounts to the general account or pooled separate accounts. Interest on amounts allocated to the general account, is paid at an effective annual yield at least equal to or greater than the minimum rate, if any, set forth in the contract. Mutual of America may change the current rate from time to time. The pooled separate account has subaccounts, which are funded by underlying funds. The subaccounts purchase shares of the underlying funds. Amounts allocated to the subaccounts will increase or decrease based on the investment performance of the underlying fund. Mutual of America has the full investment risk of the general account while the Plan has the investment risk of the pooled separate accounts. The Company generally may transfer all or any portion of the amounts held under the contract among the investment alternatives.

The general account's effective annual yield of 2.85% and 1.60% at June 30, 2025 and 2024, respectively, was determined by Mutual of America. Mutual of America also reserves the right to transfer funds between the accounts held under the contract. The Plan held \$4,111 and \$7,697 in the general account at June 30, 2025 and 2024, respectively.

Under the contract, Mutual of America will fix the amount of annuity payments to participants according to the provisions of the Plan, and guarantee payment, according to the form of the annuity selected by the participant and the amount applied from the contract for the purchase of annuity payments will depend on the applicable annuity purchase rates. Monthly benefit payments provided other than through the purchase of an annuity are not guaranteed by Mutual of America.

NOTE 4— CONTRACT WITH INSURANCE COMPANY (continued)

The general account's effective annual yield of 2.85% and 1.60% at June 30, 2025 and 2024, was determined by Mutual of America. Mutual of America also reserves the right to transfer funds between the accounts held under the contract. The Plan held \$4,111 and \$7,697 in the general account at June 30, 2025 and 2024.

Under the contract, Mutual of America will fix the amount of annuity payments to participants according to the provisions of the Plan, and guarantee payment, according to the form of the annuity selected by the participant and the amount applied from the contract for the purchase of annuity payments will depend on the applicable annuity purchase rates. Monthly benefit payments provided other than through the purchase of an annuity are not guaranteed by Mutual of America.

NOTE 5—ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances — retirement, death, disability, and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of July 1, 2024, are as follows:

The foregoing actuarial assumptions are based on the presumption that the Plan will continue; however, as described in Note 12, the Company plans to terminate the plan effective June 1, 2026. Different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits calculated for projected sufficiency of funds upon plan termination.

The computations of the actuarial present value of accumulated plan benefits were made as of July 1, 2024. Had the valuations been performed as of June 30, there would be no material differences.

NOTE 6—PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

DEFINED BENEFIT PENSION PLAN OF WISCONSIN COMMUNITY SERVICES, INC.
NOTES TO FINANCIAL STATEMENTS
June 30, 2025 and 2024

NOTE 6—PLAN TERMINATION (continued)

Benefits to be provided via contracts under which Mutual of America (Note 5) is obligated to pay the benefits will be excluded for allocation purposes.

Certain benefits under the Plan will be insured by the PBGC when the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

It is projected that all participants will receive their benefits when the Plan terminates based on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations.

NOTE 7—RISKS AND UNCERTAINTIES

Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 8—INCOME TAX STATUS

The Plan obtained its latest determination letter on September 17, 2012, in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9—PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by Mutual of America. Mutual of America is the contract holder as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

NOTE 9—PARTY-IN-INTEREST TRANSACTIONS (continued)

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party-in-interest transactions under ERISA.

NOTE 10—CERTIFIED INVESTMENTS

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at June 30, 2025 and 2024, and net appreciation in fair value of investments for the years then ended was obtained by management and agreed to or derived from information certified as complete and accurate by Mutual of America (the contract holder of the Plan).

NOTE 12—SUBSEQUENT EVENT

The Company's board of directors adopted a resolution on November 21, 2024, to terminate the Plan. The Company has engaged with Mutual of America to assist with plan termination services. The Plan was amended on January 16, 2025, to allow for plan termination. The Company has provided notices of intent to terminate and notices of plan benefits to all plan participants. The Company completed PBGC Form 500 Standard Termination Notice Single-Employer Plan and estimates as of February 17, 2026, that there will be sufficient plan assets to fund all plan obligations. The Company plans to terminate and liquidate the Plan effective June 1, 2026.

Plan name:	DEFINED BENEFIT PENSION PLAN OF WISCONSIN COMMUNITY SERVICES, INC.	EIN:	39-0808464
Plan sponsor:	WISCONSIN COMMUNITY SERVICES, INC.	PN:	001

Summary of plan provisions

Effective Date of Plan	November 1, 1967.
Effective Date of Latest Amendment	June 30, 2009.
Fresh Start Date	June 30, 1989.
Eligibility	Employees become Participants of this Plan after completion of one year of service, and attainment of age 21. Service with an organization in the health and social service field, within 3 years prior to employment with this employer counts towards the service requirement for eligibility. Effective June 30, 2009, no additional employees will be eligible to enter the plan.
Compensation	Compensation includes all wages, salaries, fees and amounts received for personal service rendered in the course of employment. Compensation includes contributions made to a salary reduction or deferred compensation plan. Prior to 2002, compensation for any plan year, for benefit purposes, is limited to \$150,000 adjusted for increases prescribed by the Secretary of the Treasury. For the 2002 plan year, EGTRRA increased prospectively the limit to \$200,000 annually. For prospective years after 2002, the \$200,000 limit will be indexed for inflation. For 2024, the compensation limit is \$345,000.
Final Average Earnings	The highest average monthly compensation for 36 consecutive months within the last consecutive 120 months of service. Compensation earned effective June 30, 2009 and later will not be reflected.
Social Security Average Monthly Wage	Monthly average of the Social Security Taxable Wage Bases for the 35 calendar years ending with the year the Participant attains Social Security Retirement Age.
Benefit Accrual Service	Years and months of participation under this Plan after the Effective Date of the Plan. Benefit Accrual Service shall also include participation under any other pension plan underwritten by Mutual of America. Benefit Accrual Service will cease effective June 30, 2009.

Summary of plan provisions

Vesting 100% upon completion of 5 years of service or upon attaining age 55. Benefits attributable to employment with a prior employer are 100% vested after 5 years of Vesting Service with this Employer. For employees hired before July 1, 1993 the vesting requirement is 100% after 3 years of Vesting Service or upon attaining age 55.

Retirement Dates

Normal The first of the month coincident with or next following the Participant's 65th birthday.

Early The first of the month on or after attainment of age 55 (but before age 65), on which the Participant elects to retire.

Deferred The first of any month following Normal Retirement Date on which the Participant elects to retire.

Frozen Accrued Benefit The Accrued Benefit as of the Fresh Start Date determined under the provisions of the Plan then in effect.

Benefit Formula The monthly Normal Retirement benefit is determined as follows:

For Participants Hired Before 12/1/2006

The greater of (A) or (B):

(A) The Frozen Accrued Benefit;

(B) The sum of 1.75% of Final Average Earnings multiplied by Benefit Accrual Service and 0.50% of Final Average Earnings in excess of the Social Security Average Monthly Wage multiplied by Benefit Accrual Service not greater than 35.

For Participants Hired on or After 12/1/2006

The sum of 1.25% of Final Average Earnings multiplied by Benefit Accrual Service and 0.50% of Final Average Earnings in excess of the Social Security Average Monthly Wage multiplied by benefit Accrual Service not greater than 35.

Summary of plan provisions

Accrued Benefit	The Accrued Benefit is computed under the Benefit Formula above using Final Average Earnings and Social Security Average Monthly Wage at date of determination assuming the Participant continues to earn Benefit Accrual Service until his Normal Retirement Age or date of determination, if later, and adjusted as follows: The portion of the retirement benefit based on total Benefit Accrual Service in the Benefit Formula above is multiplied by a fraction (not to exceed one) equal to actual Benefit Accrual Service divided by projected Benefit Accrual Service at Normal Retirement Age. The multiplication by this factor does not apply to the Frozen Accrued Benefit (item (A) in the Benefit Formula above).
Early Retirement Benefit	The Accrued Benefit reduced by 1/15 for each of the first 5 years and 1/30 for each of the next 5 years by which the Early Retirement Date precedes the Normal Retirement Date. A Participant with 20 “years of service” may retire early at age 62 with no reduction in Accrued Benefit, or reductions of 1/15 for each of the first 5 years and 1/30 for each of the next 2 years by which the Early Retirement Date precedes age 62. For this purpose “years of service” means years of Benefit Accrual Service with the Employer.
Deferred Retirement Benefit	The Accrued Benefit reflecting Final Average Earnings and Benefit Accrual Service to the Deferred Retirement Date.
Maximum Benefit	The annual benefit shall not exceed the lesser of (i) \$160,000 indexed after 2002 for inflation adjustments and (ii) 100% of the average compensation for the 3 consecutive years producing the highest average. For 2024, the dollar amount of \$275,000 is in the form of a non-refund life annuity. This amount is adjusted to reflect commencement before age 62 or after age 65 for forms of payment other than a non-refund life annuity and Cost of Living Supplements, if any. It is prorated for less than 10 years of participation in the Plan.
Minimum Accrued Benefit	The Accrued Benefit computed under the provisions of the plan as of the latest amendment adoption date.
Normal Form of Payment	A non-refund monthly life annuity.
Automatic Form of Payment	For a married Participant, a monthly Joint and 66 2/3% Survivor with 120 months certain and continuous annuity actuarially equivalent to the monthly benefit in the Normal form.
Optional Forms of Payment	The Plan provides other possible forms of annuity, all actuarially equivalent to the normal form of payment.

Summary of plan provisions

Lump Sum at Retirement	The Plan allows Participants to receive a single lump sum in lieu of a monthly annuity at retirement. The actuarial basis for determining the lump sum is different than for other optional forms. For the 2024 plan year, the interest rate is equal to the monthly spot segment rates based on high quality corporate bonds and mortality using the 2024 Unisex Mortality Table specified in IRS Notice 2023-73.
Death Benefit Before Retirement	If a partially or fully vested participant dies before retirement benefits have begun, the annual death benefit payable to the spouse is equal to 66 2/3% of the vested Accrued Benefit, reduced for early commencement, and further reduced to reflect the Automatic Form of Payment. If death occurs after age 55, or age 45 and 10 years of employment, then the amount payable to the Spouse is computed as above, except that the Participant is assumed to remain in service until his Normal Retirement Date instead of terminating a day before death.
Disability Annuity Credit	Periods of disability while a participant receives a Social Security Disability Income are also counted as Benefit Accrual Service excluding the first six months of disability and ending on Normal or Early Retirement Date. The compensation rate in effect immediately prior to disability is assumed to continue while disabled. Such compensation rate shall not exceed 120% of the compensation rate in effect one year prior to disability.

Actuarial cost method

Funding target and target normal cost

An actuarial cost method allocates the expected cost of a pension plan on a year-by-year basis. The primary objective is to accumulate enough assets prior to each participant's retirement to provide the promised pension benefits.

The Pension Protection Act of 2006 (PPA) requires plan sponsors to use the Traditional Unit Credit actuarial cost method in which the estimated accrued benefit is based on service and, if applicable, earnings as of the valuation date. The funding target is equal to the actuarial present value of all accrued benefits as of the valuation date. The target normal cost is the actuarial present value, as of the valuation date, of the expected increases in projected accrued benefits attributable to service expected to be completed during the plan year (i.e., if applicable, one year's salary growth is reflected in the determination of target normal cost).

For tax deduction purposes, the funding target may reflect the value of future pay increases on accrued benefits, if applicable.

PPA discounting method

The plan sponsor must choose between full yield curve spot rates or a segmented yield curve of 24-month average corporate bond rates. If the segmented yield curve is selected, the plan sponsor can use either the rates as of the month of the valuation or as of a lookback month, up to 4 months prior to the valuation date. If the full yield curve is selected, the rates as of the month of valuation must be used.

For purposes of this valuation, the following discounting method was used and is assumed to be approved by the plan sponsor:

Segment rates through the month of February preceding the valuation date, adjusted so each segment rate is no less than the applicable minimum percentage* of the corresponding 25-year average segment rate for the calendar year that contains the first day of the plan year and no more than the applicable maximum percentage of that 25-year average segment rate. The 25-year average cannot be less than 5.0% prior to application of the corridor.**

Asset valuation method

Plan assets for purposes of this actuarial valuation are valued under the Asset Averaging method, including, if applicable, discounted receivable contributions. The value is equal to the average of the fair market value of assets on the valuation date and the adjusted fair market value (including expected earnings) for the two earlier annual determination dates. Expected earnings are calculated using a rate no greater than the third segment rate of the segmented yield-curve in effect at the beginning of each valuation year. The resulting average value must fall between 90 and 110 percent of the fair market value of assets on the valuation date.

* Minimum is 95% through 2030, decreasing 5% per year beginning in 2031 until 70% is reached in 2035

** Maximum is 105% through 2030 and increasing 5% per year beginning in 2031 until 130% is reached in 2035

Actuarial assumptions

Miscellaneous Assumptions

Form of Payment:	Lump Sum
Expenses:	Assumed equal to prior year's actual expenses
Percent Married:	35.00%
Spouse's Age:	Wives assumed to be 3 years younger than husbands

Rationale for significant assumptions

Economic assumptions

- **Expected return on plan assets:** The assumption was selected by the client with input from their investment advisor. We believe the assumption is reasonable as it falls within a reasonable range of expected returns for the plan's asset allocation based on capital market assumptions.
- **ASC 960 pre-retirement discount rate:** This assumption is based on the **expected return on plan assets** assumption.
- **ASC 960 post-retirement discount rate:** The lump sum conversion interest is based on the long-term expectation of lump sum rates based on yields on high quality corporate bonds. The lump sum conversion mortality is based on the IRS lump sum mortality table for the current plan year.

Demographic assumptions

- **ASC 960 mortality:** The mortality base table and projection scale is based on the most recent mortality table and improvement scale published by the Society of Actuaries (SOA) and in our judgement, adequately reflects expected mortality rates as of the measurement date. The SOA elected not to release a new mortality scale since 2023 which would have included mortality data affected by the COVID-19 pandemic, but instead will continue to study emerging mortality experience and assess what mortality improvement scale options might be considered to be implemented in the future. As such, we have decided not to reflect any adjustments to the most recent mortality improvement scale. The plan's relatively small size would not support a credible mortality study.
- **Termination:** We believe that this assumption is representative of anticipated future experience. Historically, this assumption has not produced significant gains or losses for the plan. In addition, based on discussions with the plan sponsor, significant changes in termination patterns are not expected.
- **Retirement:** We believe that this assumption is representative of anticipated future experience. Historically, this assumption has not produced significant gains or losses for the plan. In addition, based on discussions with the plan sponsor, significant changes in retirement patterns are not expected.

Actuarial assumptions

Miscellaneous assumptions

- **Expenses:** The assumption is based on the expectation of expenses to be paid out during the plan year [assuming expenses will be similar to the prior year.], based on actual PBGC expenses projected for the year, and assuming non-PBGC related expenses will be similar to the prior year.
- **Form of payment:** We believe that this assumption is representative of anticipated future experience. Historically, this assumption has not produced significant gains or losses for the plan.
- **Spouse's age and percent married:** The employer does not have enough credible data to analyze spousal demographics. These assumptions are based on the actuary's experience with similar plans.

Statement by Enrolled Actuary	
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
