Independent Auditor's Report

**To the Plan Administrator
Epiphany School 403(b) DC Plan
Seattle, Washington**

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Epiphany School 403(b) DC Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of August 31, 2025, 2024, and 2023, and the related statements of changes in net assets available for benefits for the years ended August 31, 2025 and 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution and an agent on behalf of a qualified institution as of August 31, 2025, 2024, and 2023, and for the years ended August 31, 2025 and 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution and an agent on behalf of a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplementary information, as listed in the accompanying table of contents, is presented for purposes of additional analysis and is not a required part of the financial statements but is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplementary information, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplementary information that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplementary information, other than the information in the supplementary information that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplementary information agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution and an agent on behalf of a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

EPIPHANY SCHOOL 403(b) DC PLAN

Notes to Financial Statements For the Years Ended August 31, 2025 and 2024

Note 1 - Plan Description

The following description of the Epiphany School 403(b) DC Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering substantially all employees of Epiphany School (the School). The Plan is designed to comply with Section 403(b) of the Internal Revenue Code (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF) are the issuers of annuity contracts of the Plan. TIAA also provides recordkeeping services. TIAA Trust, N.A. serves as directed custodian of certain plan assets.

Eligibility - Employees are immediately eligible to make pre-tax salary deferrals. Employees are required to complete one year of service and be at least 21 years old to be eligible to receive matching contributions. A year of service is defined as 12 months of service with 83^{1/3} hours of services completed in each month.

Contributions - Participants may elect to defer up to 100% of their eligible compensation as pre-tax contributions. Effective January 1, 2026, the Plan was amended to allow participants to defer up to 100% of eligible compensation as Roth contribution. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The plan also allows participants with at least 15 years of service with the School to make qualified organization catch-up deferrals as defined in the plan document. Participants may also contribute amounts representing distributions from other eligible retirement plans (rollover). The School makes matching contributions equal to 7% of eligible compensation for all participants that defer at least 3% of eligible compensation. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts - Each participant's account is credited with the participant's contributions and matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their account into various investment options offered by the Plan.

Vesting - Participants are immediately 100% vested in all contributions to their account plus actual earnings thereon.

Payment of Benefits - Upon termination of service, retirement, death, or disability, a participant or beneficiary may elect to receive a lump-sum distribution equal to the value of the participant's vested account, installment payments, or an annuity. Participants who have attained age 59^{1/2} may also elect to receive a distribution of all or any portion of their vested account prior to termination of employment (in-service withdrawals). Participants may also elect to receive in-service withdrawals from balances rolled into the Plan.

Note 2 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

EPIPHANY SCHOOL 403(b) DC PLAN

Notes to Financial Statements For the Years Ended August 31, 2025 and 2024

Note 2 - Continued

Investment Valuation and Income Recognition - Investments are reported at fair value except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statements of changes in net assets available for benefits.

Administrative Expenses - Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the School. Expenses that are paid by the School are excluded from these financial statements. Transaction based fees benefit payments are charged directly to participant accounts. Certain investment related expenses are charged directly against the fund's investment performance and, therefore, are not separately disclosed in the accompanying financial statements.

Subsequent Events - The Plan's management has evaluated subsequent events through April 24, 2026, the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than the quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Unobservable inputs that are significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

EPIPHANY SCHOOL 403(b) DC PLAN

Notes to Financial Statements For the Years Ended August 31, 2025 and 2024

Note 3 - Continued

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of August 31, 2025, 2024, and 2023.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Variable Annuity Accounts - College Retirement Equities Fund (CREF) is a registered investment company and consists of eight accounts which fund variable annuity contracts issued by TIAA. TIAA Separate Account VA-3 consists of various TIAA Access accounts which fund variable annuity contracts issued by TIAA. The fair values of accumulation units held in CREF accounts and TIAA Access accounts are based on each account's daily published NAV. NAV is based on the market value of its underlying securities determined by market quotations or prices obtained from independent pricing sources. The CREF Money Market Account is valued at amortized cost, which approximates fair value. Accumulation units in CREF accounts and TIAA Access accounts are available for transactions at the closing accumulation unit value on any day the New York Stock Exchange (NYSE) is open for business.

Pooled Separate Account - The TIAA Real Estate Account (REA) is an insurance company separate account of TIAA investing mainly in real estate and real estate-related investments. The REA, as an investment option available and permitted under the governing plan, funds variable-annuity contracts issued by TIAA. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The REA also holds liquid, fixed-income investments. These are generally priced using quoted prices in active markets or values obtained from independent pricing sources. Accumulation units in the REA are available for transactions at the closing accumulation unit value on any day the NYSE is open for business. Transfers out of the REA are limited to one per calendar quarter.

Fixed Annuity Contracts - the TIAA Traditional Annuity (TIAA Traditional) is an unallocated fixed-annuity contract that's fully and unconditionally guaranteed by TIAA. TIAA Traditional provides a guarantee of principal, a guaranteed minimum rate of interest, and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the "declaration year," which begins each March 1. Additional interest isn't guaranteed for future years. Contributions to a participant's account purchases a guaranteed amount of lifetime annuity income. When a participant's account in TIAA Traditional is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside of the plan and doesn't represent an obligation of the Plan.

EPIPHANY SCHOOL 403(b) DC PLAN

Notes to Financial Statements For the Years Ended August 31, 2025 and 2024

Note 3 - Continued

TIAA issues various types of contracts as funding vehicles for retirement plans. Certain contract types contain liquidity restrictions on the redemption of TIAA Traditional Annuity accumulations, which could impact the value realized upon exiting the contract. The TIAA Traditional Annuity that is not considered fully benefit-responsive is offered through the Retirement Annuity (RA) and Retirement Choice (RC) contract types. For RA contracts, participant initiated transfers or withdrawals can only be made in ten annual installments over nine years and lump-sum withdrawals are not permitted unless small-sum conditions are met. For RC contracts, participant-initiated lump-sum withdrawals are permitted within 120 days following termination of employment and are subject to a 2.5% surrender charge. Transfers outside the 120 day window may only be made in 84 monthly installments.

The TIAA Traditional Annuity is reported at contract value which is the aggregation of contributions, plus interest, less any withdrawals. Contract value approximates a discounted cash flow value (fair value) calculated using an appropriate risk-adjusted market discount rate which correlates closely with historical crediting rates for these contracts. Fair value is determined annually for financial statement reporting purposes.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31:

Value Hierarchy	\$ 12,173,888	\$ -	\$ 854,286	\$ 13,028,174

The Plan's TIAA Access accounts were previously excluded from the fair value hierarchy following ASU 2015-07 guidance. During the current year, management reexamined the nature and characteristics of these investments and determined they would meet the criteria for a readily determinable fair value measurement and should be presented within the fair value hierarchy. This presentation has been retrospectively applied.

The following tables sets forth a summary of certain changes in the fair value of the Plan's Level 3 fixed annuity contracts for the years ended August 31, 2025 and 2024:

Year Ended August 31, 2025-		
Purchases		\$ 24,863
Issuances		\$ -

Year Ended August 31, 2024-		
Purchases		\$ 108,730
Issuances		\$ -

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, the significant unobservable inputs, and the ranges of values for those inputs as of August 31:

	Valuation Technique	Unobservable Inputs	August 31, 2025 Range (Average)	August 31, 2024 Range (Average)	August 31, 2023 Range (Average)
TIAA Traditional Annuity - RA	Discounted cash flow	Risk-adjusted discount rate	3.55% - 6.50% (3.97%)	3.65% - 6.50% (3.95%)	3.7% - 6.25% (3.90%)
TIAA Traditional Annuity - RC	Discounted cash flow	Risk-adjusted discount rate	3.80% - 6.75% (4.22%)	3.90% - 6.75% (4.20%)	3.95% - 6.5% (4.1%)

Note 4 - Fully Benefit-Responsive Investment Contracts

The TIAA Traditional Annuity and TIAA Stable Value Annuity are fixed-rate annuity contracts. Contributions buy a contractual or guaranteed amount of future benefits for the investing participant. The contracts guarantee principal and a minimum interest rate, and provide the opportunity for additional amounts in excess of the guaranteed rate. Allocations to TIAA Traditional Annuity and TIAA Stable Value Annuity are backed by TIAA's claims-paying ability. With respect to the TIAA Traditional Annuity, these additional amounts, when declared by the TIAA Board of Trustees, remain in effect for the declaration year, which begins each March 1 for accumulating annuities. With respect to TIAA Stable Value, these additional amounts, when declared by the TIAA Board of Trustees, remain in effect from January 1 through June 30 and from July 1 through December 31. Additional amounts aren't guaranteed.

TIAA issues various types of contracts as funding vehicles for retirement plans. Certain contract types contain liquidity restrictions on the redemption of TIAA Traditional Annuity accumulations, which could impact the value realized upon exiting the contract. The Plan holds Supplemental Retirement Annuity (SRA) and Retirement Choice Plus (RCP) contract types which are liquid contracts and benefit responsive.

The TIAA Traditional Annuity and TIAA Stable Value are reported at contract value. Contract value is the relevant measure for fully-benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value equals the accumulated cash contributions, interest credited to the plan's contracts, and transfers, if any, less any withdrawals and transfers, if any. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with TIAA and that also would limit the ability of the Plan to transact at contract value with participants.

Note 5 - Certified Information

Certain information in the accompanying financial statements and supplementary information related to investments held as of August 31, 2025, 2024, and 2023, and investment income or loss for the years ended August 31, 2024 and 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA and CREF, qualified institutions. TIAA Trust, N.A. has authorized TIAA to certify on their behalf. The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplementary information.

Note 6 - Party-in-Interest Transactions

The Plan's investments include mutual funds managed by an affiliate of TIAA and fixed and variable annuity contracts issued by TIAA and CREF. TIAA is the Plan's recordkeeper. Therefore, transactions with these investments and fees paid by the Plan to TIAA qualify as party-in-interest transactions. The Plan pays certain expenses related to plan operations to various service providers. These are party-in-interest transactions.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the School has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 8 - Tax Status

Management has adopted a TIAA pre-approved 403(b) plan document. TIAA received an approval letter from the IRS dated August 7, 2017, which states that the form of the plan document satisfies the applicable provisions of Section 403(b) of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the IRS; however, the Plan's management believes that the Plan is designed, and is currently being operated, in a manner that would not jeopardize the tax benefits associated with these arrangements. The Plan is subject to audits by the IRS; however, there are currently no audits for any tax periods in progress.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Delinquent Contributions

The School determined there were instances during each of the plan years from 2021 through 2025 in which participant deferral contributions were not deposited as plan assets within the time limitation stipulated under the Department of Labor's regulations. Delinquent contributions are prohibited party-in-interest transactions under ERISA and also represent related party transactions between the Plan and the plan sponsor. In total, \$489,327 in deferral contributions were identified as delinquent. In October 2025, lost earnings were calculated and remitted for delinquent contributions from the 2021, 2022, and 2023 plan years.
