INDEPENDENT AUDITOR'S REPORT

To The Trustees of
DE Corp.
Employee Profit-Sharing Plan

Opinion

We have audited the accompanying financial statements of DE Corp. Profit-Sharing Plan (the "Plan") (Formerly, DE. Corp Employee Stock Ownership Plan), an employee benefit plan subject to the Employee Retirement Security Act of 1974 (ERISA), which comprise the statements of net assets available for distribution as of December 31, 2025 and 2024 (in Liquidation), and the related statement of changes in net assets available for benefits for the year then ended (in Liquidation), and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for distribution of DE Corp. Profit-Sharing Plan as of December 31, 2025 and 2024 (in Liquidation), and the changes in its net assets available for distribution for the years then ended (in Liquidation), in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of DE Corp. Profit-Sharing Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter—Plan Termination and Liquidation Basis of Accounting

The Board of DE Corp. elected to terminate the Employee Stock Ownership Plan effective March 11, 2024. Upon the decision to terminate the Employee Stock Ownership Plan provisions, Plan amendments were adopted to remove its ESOP status and retain its 401(a)-tax status as profit-sharing plan. With the termination of the ESOP, all participants became fully vested in the profit-sharing plan, and management adopted a plan to liquidate the Plan assets.

ASC 205-30 requires the Plan to prepare its financial statements using the liquidation method of accounting when liquidation is imminent. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the distributions due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore it is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

DE Corp.
Employee Profit-Sharing Plan
Notes to Financial Statements
December 31, 2025, and 2024

NOTE 1—DESCRIPTION OF THE PLAN

The following brief description of the DE Corp. Employee Profit-Sharing Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

As authorized by the Plan document, the DE Corp. board of directors voted to terminate the ESOP effective March 11, 2024, and amended the Plan to qualify as an Employee Profit-Sharing Plan thereby satisfying the requirements of I. R. C. section 401(a). All participants became 100% vested in the Employee Profit-Sharing Plan. The Plan is considered terminated when all the assets are distributed to participants.

After the conversion to a profit-sharing plan, all the Company shares were sold, and the proceeds from the sale were transferred to a newly created trust (DE Corp. Employee Stock Ownership Trust) “the Trust”, or “the ESOT”, which is administered by TI-Trust acting as Plan trustee and custodian. All participants of the ESOP became participants of the Profit-Sharing Plan.

TI-Trust administers the assets of the Plan for the exclusive benefits of the participants. TI-Trust invested the Plan assets in money market funds to protect the value of the assets for the benefit of the participants.

As of January 1, 2024, the Plan owned 224,343 shares of Engineering Holding Corporation’s common stock, representing approximately 78.2% of the outstanding shares. As mentioned earlier, upon termination of the original plan (ESOP), the EHC shares were sold during the first quarter of 2024 at an estimated price of \$196.33 per share.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management’s Review

Management has evaluated subsequent events through May 4, 2026, the date on which the financial statements were available to be issued.

Basis of Accounting

The accompanying financial statements have been prepared using the liquidation basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). Under ASC 205-03, liquidation basis of accounting is used when an entity no longer expects to continue as a going concern and plans to liquidate its assets and settle its

DE Corp.
Employee Profit-Sharing Plan
Notes to Financial Statements
December 31, 2025, and 2024

liabilities. The assets are measured at net realizable value and liabilities are measured at settlement amounts.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect reported amounts of net assets, liabilities and changes therein and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates. When the Plan was terminated, DE established \$168K escrow account to pay costs associated with the termination and liquidation, including audit and administration costs, except trustee fees which were paid from the Plan assets. Therefore, no liquidation costs were accrued for the years ended December 31, 2025, or 2024.

Investment Valuation and Income Recognition

Investments of the Plan, are reflected at the net realizable value except for investment in stock, which is valued at fair value. Net realizable value is the estimated cash proceeds from the sale of an asset less costs of sale like commissions, legal fees, or disposal costs. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for discussion of fair value measurements. Sales of investments are recorded on a trade-date basis. Dividends are recorded on the date when received, and interest income is recorded on an accrual basis. Net gains include realized and unrealized gains and losses on investments sold during the year, as well as appreciation or depreciation of the investments held at the end prior year.

Distribution of Assets

Distributions made to participants or beneficiaries are recorded when paid.

Administrative Expenses

Administrative expenses may be paid by the escrow account or by the Plan. For the years ended December 31, 2025, and 2024 Trustee fees were paid by the Trust. Other administrative expenses of the Plan typically consist of legal fees, audit fees, and participant account allocation, were paid from the escrow account established by DE Corp.

Risks and Uncertainties

Prior to the liquidation of the Plan assets, the Plan provided for investment in the Company's common stock, other marketable securities, partnerships and interest-bearing cash. The Plan's

DE Corp.
Employee Profit-Sharing Plan
Notes to Financial Statements
December 31, 2025, and 2024

performance was impacted by the market volatility of the marketable securities investments. Due to the level of risk associated with investment securities, it was reasonably possible that changes in the value of investments could occur in the near term and that such changes could affect participants' account balances and the amounts reported in the financial statements.

NOTE 3—CONCENTRATIONS

Substantially all of the Plan's net assets as of December 31, 2025 and 2024 were invested in either money market or interest-bearing cash accounts.

The Plan and holds its cash in high credit institutions. Balances as of December 31, 2025 and 2024 exceeded the FDIC insurance limits.

NOTE 4—FEDERAL INCOME TAX STATUS

Plan termination requires approval from the IRS before implementing initial termination steps. Therefore, the Company obtained a letter of determination on July 10, 2025, in which the Internal Revenue Service stated that the Plan, as amended on June 5, 2023, was in compliance with the applicable requirements of the IRC. The IRS also stated that the determination applies to the conversion of the Plan as of March 11, 2024.

The Company believes that the profit-sharing plan was qualified as a tax exempt entity for the periods ending December 31, 2025, and 2024. Therefore, no provision for income tax has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the profit-sharing plan and has concluded that, as of December 31, 2025, and 2024, there are no uncertain positions taken that would require recognition of a liability or disclosure in the financial statements.

NOTE 5—PARTY-IN-INTEREST TRANSACTIONS

Prior to the Plan conversion, the Plan provided for investment in Company common stock. The Company qualifies as a party-in-interest (party that is prohibited from doing business with the plan). These transactions with the party-in-interest are covered by an exemption from the "prohibited transactions" provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA) and the IRC.

DE Corp.
Employee Profit-Sharing Plan
Notes to Financial Statements
December 31, 2025, and 2024

NOTE 6—DISTRIBUTIONS

In accordance with the Plan document and applicable provisions of the Internal Revenue Code and ERISA, upon termination, the Plan began distributing its assets to eligible participants and beneficiaries.

Distributions to participants were made according to their elections, or as required by ERISA rules. During the years 2025 and 2024 the Plan distributed \$32,592,966 and \$33,691, respectively.

Distributions were made either as cash payments or direct rollovers to individual retirement accounts or other qualified plans, at the participants' election. Amounts not immediately distributable due to unlocatable participants were submitted to the Pension Benefit Guaranty Corporation (PBGC) as required by ERISA.

The termination and distribution of the ESOP did not result in any material contingent liabilities to the Company, or to the Trust, as of December 31, 2025, or 2024.

NOTE 7—FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

DE Corp.
Employee Profit-Sharing Plan
Notes to Financial Statements
December 31, 2025, and 2024

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Substantially all the assets of the Trust were invested in money market or interest bearing accounts. Therefore, no appraisals were necessary as of December 31, 2025 or 2024.

Interest-bearing cash and mutual funds: These funds are valued daily based on quoted market prices.

Stocks: These investments are valued at the closing price reported by the active market in which the individual securities are traded.

Money Market Funds: These investments are valued daily based on known exchange or established markets.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

	December 31, 2025			
	Level 1	Level 2	Level 3	Total
Non-interest-bearing cash	\$ 42,218	\$ -	\$ -	\$ 42,218
Interest-bearing cash	-	-	-	-
Stocks	-	-	-	-
