Report of Independent Auditors

The Plan Administrator and Participants of
Woodbury University 403(b) Retirement Plan for Employees

Report on the Audit of the Financial Statements in Liquidation

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Woodbury University 403(b) Retirement Plan for Employees, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits in liquidation as of September 30, 2025, and December 31, 2024, and the related statement of changes in net assets available for benefits in liquidation for the period from January 1, 2025 to September 30, 2025, and the related notes to the financial statements in liquidation.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Woodbury University 403(b) Retirement Plan for Employees financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of September 30, 2025, and December 31, 2024, and for the period from January 1, 2025 to September 30, 2025, stating that the certified investment information, as described in Note 7 to the financial statements in liquidation, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements in Liquidation section:

- the amounts and disclosures in the accompanying financial statements in liquidation, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements in liquidation related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements in Liquidation section of our report. We are required to be independent of Woodbury University 403(b) Retirement Plan for Employees and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements in Liquidation

Management is responsible for the preparation and fair presentation of the financial statements in liquidation in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements in Liquidation

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements in liquidation.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements in liquidation, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Woodbury University 403(b) Retirement Plan for Employees internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements in liquidation.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements in liquidation, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements in liquidation as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Emphasis of Matter – Plan Termination

As further discussed in Note 1 to the financial statements in liquidation, the Board of Trustees of Woodbury University resolved to terminate the plan effective June 3, 2024. As a result, the Plan uses the liquidation basis of accounting in presenting the financial statements. Our opinion is not affected with respect to this matter.

Woodbury University 403(b) Retirement Plan for Employees

Notes to Financial Statements in Liquidation

Note 1 – Description of Plan

The following description of the Woodbury University 403(b) Retirement Plan for Employees (the Plan) provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of Plan provisions.

General – The Plan was a 403(b) salary deferral and employer contribution plan covering substantially all employees of Woodbury University (the University), and was subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The University was the Plan's sponsor and served as Plan administrator.

Plan termination – On April 27, 2024, the Board of Trustees of the University adopted resolutions to terminate the Plan effective June 3, 2024 (termination date), as a result of the acquisition by and integration of the University with the University of Redlands. The Plan's provisions summarized in these financial statements were applicable prior to the Plan's liquidation. The Plan termination resulted in a transfer of \$29,434,350 out of plan assets and into individual contracts held by TIAA and CREF at the discretion of the participants.

Eligibility – Employees of the University, other than students, were eligible to participate in the Plan at any time after being hired. Employees, other than students and leased employees, were eligible to receive matching contributions from the University after completing one year or 1,000 hours of service and attaining age 21.

Employee contributions – The Plan provided for contributions from eligible employees. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Employees could contribute up to 100% of their eligible compensation. Participants could also contribute amounts representing distributions from other qualified plans and individual retirement accounts (IRAs).

Employer contributions – The University, at its discretion, matched 100% of discretionary employee contributions up to 5% of participant eligible compensation, and made a 5% nondiscretionary profit sharing contribution for all eligible employees. Effective November 2023, employer match and profit sharing contributions were ceased.

Contributions were subject to regulatory limitations.

Participant accounts – Each participant's account was credited with the participant's contribution, the University's contribution, and an allocation of Plan earnings, and charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting – Participants were fully vested in their salary deferrals and University contributions plus actual earnings thereon.

Woodbury University 403(b) Retirement Plan for Employees

Notes to Financial Statements in Liquidation

Plan loans – A participant were able to borrow from Teachers Insurance and Annuity Association of America (TIAA) and College Retirement Equities Fund (CREF), the insurance carriers of the Plan, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of his or her account balance secured by his or her TIAA Traditional Annuity Account balance. The participant was required to maintain a balance equal to at least 110% of his or her outstanding loan in the TIAA Traditional Annuity Account. Loan terms range from one to five years, or up to ten years for the purchase of a primary residence. Principal and interest was paid directly by the participant to TIAA-CREF and each payment reduced amounts secured by the participant's TIAA Traditional Annuity Account. Loans beared interest at rates that could be fixed or variable, depending on the annuity contract provisions, but participants' accounts were credited only with the guaranteed rate provided under the TIAA Traditional Annuity Account. As of September 30, 2025 and December 31, 2024, there were no outstanding Plan loans.

Notes receivable from participants – Participants were able to borrow from their fund accounts a minimum amount of \$1,000 to a maximum amount equal to the lesser of 50% of their account balance or \$50,000 minus the highest outstanding loan balance in their account during the preceding 12-month period. Participants could only have three outstanding loans at any given time. Loan terms ranged from one to five years or within a reasonable period of time that is not longer than ten years for the purchase of a primary residence. The loans were secured by the balance in the participant's account and generally beared interest at a rate commensurate with the rates that a bank or other professional lender would have charged for making a loan in similar circumstances. Principal and interest were paid directly to TIAA-CREF. As of September 30, 2025, there were no outstanding notes receivable.

Payment of benefits – On termination of service, incurring a disability, attaining age 59½, or on account of hardship, a participant could have elected to receive either a lump-sum amount equal to the value of the participant's account balance, a partial payment, installment payments over a period not to exceed the life expectancy of the participant or the joint and last survivor life expectancy of the participant and their designated beneficiary, or to apply the vested portion of their Individual account toward the purchase of an annuity contract.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared under the liquidation basis in accordance with accounting principles generally accepted in the United States of America (GAAP), using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with GAAP requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – Investments were participant-directed and were reported at fair and contract value as certified by the Plan's insurance carriers. Investments offered by the Plan comprise various registered investment companies, variable annuities, a real estate pooled separate account and the TIAA Traditional Annuity Accounts, which were guaranteed fixed annuity accounts. If available, quoted market prices were used to value investments.

Woodbury University 403(b) Retirement Plan for Employees

Notes to Financial Statements in Liquidation

The Plan invested in two types of TIAA Traditional Annuity Account contracts, fully benefit responsive and non-fully benefit responsive contracts, which were presented at contract value and fair value, respectively, on the statements of net assets available for benefits in liquidation. The contract value equaled the accumulated cash contributions and interest credited to the Plan's contract, less withdrawals.

Fair value was the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Contract value was the relevant measurement for assets invested in fully benefit-responsive investment contracts because contract value was the amount participants normally would have received if they were to initiate permitted transactions under the terms of the Plan.

Income recognition – Purchases and sales of securities were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date. Interest income was recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Contributions – Contributions from participants were recorded in the year in which the employee contributions were withheld from compensation.

Notes receivable from participants – Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants were reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan agreement.

Payments of benefits – Benefits were recorded when paid.

Expenses – Administrative expenses related to operating and maintaining the Plan were paid by the University; certain investment and transaction fees were paid by participants in the Plan.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities the Plan has the ability to access.

Woodbury University 403(b) Retirement Plan for Employees

Notes to Financial Statements in Liquidation

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used on September 30, 2025 and December 31, 2024.

Registered investment companies and the pooled separate account were valued using the market quotations or prices obtained from independent pricing services. Shares were valued at quoted market prices which represent the net asset value practical expedient (NAV practical expedient) of shares held by the Plan at year end.

The Plan had investments in the non-benefit responsive TIAA Traditional Annuity contracts which were presented at fair value, which approximates contract value, on the statements of net assets available for benefits in liquidation. Transactions involving the purchases and sales of individual TIAA Traditional Annuity contracts were not observable in a public marketplace, but contract value is a good approximation of fair value as supported by the fact that new contributions represented current transactions between willing buyers and sellers as prescribed in the relevant GAAP guidance. As these transactions continued to occur with continued participant contributions at current stated contract values, the market-observable presumption is that the contract value of current funding represents a good approximation of fair value based on the willingness of the participant to continue to contribute. For each contribution, TIAA continued to record a contractual liability for the current contribution and did not consider such liability to have any embedded gain or loss.

Notes to Financial Statements in Liquidation

The following tables disclose, by level, the fair value hierarchy of the Plan's assets at fair value as of September 30, 2025 and December 31, 2024:

Investment Assets at Fair Value as of September 30, 2025				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ -	\$ -	\$ -	\$ -
TIAA real estate pooled separate account	-	-	-	-
Traditional annuity non-benefit responsive	-	-	-	-
Total assets at fair value	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

Investment Assets at Fair Value as of December 31, 2024				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 23,268,439	\$ -	\$ -	\$ 23,268,439
TIAA real estate pooled separate account	201,415	-	-	201,415
Traditional annuity non-benefit responsive	-	-	3,309,197	3,309,197
Total assets at fair value	<u>\$ 23,469,854</u>	<u>\$ -</u>	<u>\$ 3,309,197</u>	<u>\$ 26,779,051</u>

The following table summarizes certain changes in the fair value of the Plan's Level 3 investments for the year ended September 30, 2025:

	TIAA Annuity Non-Benefit Responsive
BALANCE, beginning of year	\$ 3,309,197
Purchases	101,036
Sales	(167,524)
Plan liquidation	<u>(3,242,709)</u>
BALANCE, end of year	<u>\$ -</u>

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements:

Name	Fair Value 9/30/25	Fair Value 12/31/24	Valuation Technique	Significant Unobservable Inputs	Range of Input Values/ (Weighted-Avg)
TIAA Traditional Annuity: Non-Benefit Responsive	\$ -	\$ 3,309,197	Discounted cash flow	Risk-adjusted discount rate applied	N/A

The significant unobservable input used in the fair value measurement of the TIAA Traditional Annuity was the risk-adjusted market discount rate. Significant increases (decreases) in this input in isolation would result in a significantly lower (higher) fair value measurement.

Woodbury University 403(b) Retirement Plan for Employees

Notes to Financial Statements in Liquidation

The valuation methods used by the Plan may have produced a fair value calculation that may not have been indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believed its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

Note 4 – Guaranteed Investment Contracts with TIAA

The Plan had investments in fully benefit-responsive TIAA Traditional Annuity Contracts, in which contributions were maintained in a general account. The account was credited with earnings and charged for participant withdrawals and administrative expenses.

The TIAA Traditional Annuity was unallocated fixed-rate guaranteed annuities offered by TIAA, an insurance company, available as an investment option to Plan participants. Contributions to the annuities purchased a contractual or guaranteed amount of future benefits for the participant. The guarantees and returns of the annuities were backed by the claims-paying ability of TIAA. The Plan held Group Supplemental Retirement Annuity (GSRA) and Supplemental Retirement Annuity (SRA) contracts, which have no liquidity restrictions and were considered benefit-responsive.

TIAA Traditional Annuity provided a guaranteed minimum rate of interest of 1.00% to 3.00% for all premiums plus the potential for additional amounts that may have been declared by TIAA on a year-by-year basis and were not guaranteed for future years. When declared, additional amounts remained in effect for the 12-month period that begins each March 1. Together the minimum rate of interest and the potential additional amounts made up the crediting rate.

Certain events may have limited the ability of the Plan to transact at contract value with the issuer. Such events included the following: (1) amendments to the Plan Documents (including complete or partial Plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; or (5) premature termination of the contract. No events are probable of occurring that might limit the Plan's ability to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allowed the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events included the following: (1) An uncured violation of the Plan's investment guidelines; (2) a breach of material obligation under the contract; (3) a material misrepresentation; or (4) a material amendment to the agreements without the consent of the issuer.

Woodbury University 403(b) Retirement Plan for Employees

Notes to Financial Statements in Liquidation

Note 5 – Tax Status

The Plan had adopted a prototype Plan Document for which the Internal Revenue Service (IRS) had determined and informed the prototype plan by a letter dated August 7, 2017, that the prototype plan was designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan had been amended since receiving the opinion letter, the Plan's administrator and management believe that the Plan was designed and was currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 – Risks and Uncertainties

The Plan invested in various investment securities. Investment securities were exposed to various risks, such as interest rate, market volatility, and credit risks. It was reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could have materially affected a participant's account balance and the amounts reported in the financial statements. Given recent volatility in the financial markets, it was reasonably possible that investment values could have declined significantly in subsequent periods.

Note 7 – Certified Investment Information

The following information related to investments was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA and CREF, a qualified institution:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits in liquidation as of September 30, 2025, and December 31, 2024.
- Net appreciation in fair value of investments, dividends, interest, and interest income from notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits in liquidation for the period from January 1, 2025 to September 30, 2025.

Note 8 – Party-in-Interest Transactions

Certain Plan investments were managed by the insurance carriers or their affiliates. Any purchases and sales of these investments, while considered party-in-interest transactions under ERISA regulations, were permitted under the provisions of the Plan and were specifically exempt from the prohibitions of party-in-interest transactions under ERISA.

Note 9 – Reconciliation to Form 5500

The Form 5500 has certain items that differ from amounts shown on the accompanying financial statements. These differences relate to classification only and have no effect upon net assets available for benefits for either period.
