Independent Auditors' Report

To the Trustees
Miedema Produce, Inc.
Employee Stock Ownership Plan
Hudsonville, Michigan

Opinion on the 2025 Financial Statements

We have audited the financial statements of Miedema Produce, Inc. Employee Stock Ownership Plan (ESOP), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of March 31, 2025, and the related statement of changes in net assets available for benefits for the year ended March 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Miedema Produce, Inc. ESOP, as of March 31, 2025, and the changes in its net assets available for benefits for the year ended March 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2025 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2025 Financial Statements section of our report. We are required to be independent of Miedema Produce, Inc. ESOP and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2025 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Miedema Produce, Inc. ESOP's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2025 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Miedema Produce, Inc. ESOP's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Miedema Produce, Inc. ESOP's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2025 Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- The information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

2024 Financial Statements

The financial statements of Miedema Produce, Inc. ESOP as of December 31, 2024, were audited by Baker Holtz, who merged with Maner Costerisan, as of January 1, 2026. Their report dated January 13, 2025 expressed an unmodified opinion on those statements.

Note A - Description of Plan and Basis of Presentation

The following brief description of the Miedema Produce, Inc. Employee Ownership Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

General

Miedema Produce, Inc. (Company) established the Plan effective as of April 1, 2012 and operates in relevant part, as an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of ERISA. The Plan is administered by an Employee Benefits Administration Committee comprising of up to three persons appointed by Miedema Produce, Inc.'s Board of Directors.

The Plan purchased Company common stock using the proceeds of a loan borrowing (Note G) guaranteed by the Company, and holds the common stock in a trust established under the Plan. The borrowing is to be repaid over a period of twenty-four years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC. Shares vest fully upon allocation.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares of common stock once they are allocated under the provisions of the ESOP. Accordingly, the financial statements of the Plan as of March 31, 2025 and 2024, and for the year ended March 31, 2025, present separately the assets and liabilities and changes therein pertaining to the accounts of employees with vested rights in allocated common stock (Allocated) and common stock not yet allocated to employees (Unallocated).

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service provided they worked at least 1,000 hours during such Plan year, are at least age 21, and are in covered employment. An employee is in covered employment, unless they are a member of a collective bargaining unit, a leased employee, a nonresident alien receiving no earned income from sources within the United States, or not considered an employee of the Company.

(Continued)

Employer Contributions

Each Plan year the Company will decide whether to make a contribution to the Plan and the amount to be contributed. Contributions may be used to purchase Company stock, repay a loan which the Plan has used to purchase Company stock or may be invested in other investments.

Payment of Benefits

Distributions of vested account balances on account of death, disability, or retirement will be paid in five annual installments or, in the case of certain large accounts (generally an account exceeding \$1,105,000), up to 10 annual installments. Account balances of \$1,000 or less will be paid in one lump sum payment. Distributions of account balances on account of death or retirement will commence as soon as administratively possible after the end of the Plan year in which employment terminates. Distributions for other separations from service commence in the fifth plan year following the separation from service. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Employee Benefits Administration Committee should direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

(Continued)

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on years of service with the Company following the effective date of the Plan (April 1, 2012). Participants vest as follows:

<u>Years of Service</u>	<u>Vesting percentage</u>
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

A participant also becomes fully vested at the time of the participant's death, if the participant becomes disabled while employed or upon attainment of normal retirement age.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

(Continued)

Diversification

Diversification is offered to participants close to retirement so they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify will receive a distribution into the Company's 401(k) savings plan. If the Plan participant is not a participant in the Company's 401(k) savings plan, the participant will receive a cash distribution.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year.

(Concluded)

Note B - Summary of Significant Accounting Policies

The following are significant accounting policies followed by the Plan.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. The most significant assumptions and estimates relate to the valuation of Company common stock. While management believes it has consistently applied its best judgment in those areas requiring estimates, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The shares of Company stock are valued at fair value. See Note C for discussion of fair value measurements.

(Continued)

Operating Expenses

All expenses of maintaining the Plan are paid by the Company.

Subsequent Events

Note C - Fair Value

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2025 and 2024.

Non-Interest Bearing Cash: Valued at outstanding balance.

(Continued)

Common stock: Valued on an annual independent appraisal. The appraisal was based on a combination of the market and income valuation approaches consistent with prior years. The appraiser took into account historical and projected cash flow and net earnings, weighted average cost of capital, market comparables, and applicable discounts and premiums.

The Employee Benefits Administration Committee, under the supervision of the Company's Board of Directors, determines the fair value measurement policies and procedures in consultation with the Company's management. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy the Plan's assets at fair value as of March 31, 2025 and 2024:

	Assets at Fair Value as of March 31, 2025			
	Level 1	Level 2	Level 3	Total
Non-Interest Bearing Cash	\$ 621,073			\$ 621,073
Company Common Stock			\$ 45,265,229	45,265,229
Total	<u>\$ 621,073</u>	<u></u>	<u>\$ 45,265,229</u>	<u>\$ 45,886,302</u>
	Assets at Fair Value as of March 31, 2024

NOTES TO FINANCIAL STATEMENTS
March 31, 2025 and 2024

	<u>Company Common Stock</u>
Year Ended March 31, 2025	
Beginning Balance	\$ 46,475,162
Total gains or losses included in changes in net assets available for benefits	(303,366)
Purchases, issues, sales, and settlements:	
Distributions to Participants	<u>(906,567)</u>
Ending Balance	<u><u>\$ 45,265,229</u></u>

Gains and losses included in changes in net assets available for benefits for the year ended March 31, 2025, are reported in unrealized depreciation in estimated fair market value of investments.

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended March 31, 2025, there were no significant transfers into or out of Level 3.

Note D - Tax Status

The Plan obtained its latest determination letter in 2014, in which the Internal Revenue Service stated that the Plan, as then designated, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has not been amended since receiving the determination letter. Plan management and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirement of the IRC. Therefore, no provision for income taxes has been reflected in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan does not anticipate any adjustments to tax positions which would result in a material change to its financial position in the next 12 months.

Note E - Administration of Plan Assets

The Plan's assets are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note F - Investments

The Plan's investments in Company common stock at March 31, 2025 and 2024, are as follows:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	1,513	1,521	1,439	1,655
Cost	\$ 7,230,514	\$ 7,268,587	\$ 6,879,223	\$ 7,908,332
Fair Value	\$ 22,573,184	\$ 22,692,045	\$ 21,620,410	\$ 24,854,752

Note G - Loan Payable

In 2014, the Company entered into a \$14,600,000 term loan agreement with the Sponsor. The proceeds of the loan were used to purchase Sponsor Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants when principal and interest payments are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year payments, divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 134 and 127 shares being released and allocated for the Plan years ended March 31, 2025 and 2024, respectively. The agreement provides for the loan to be repaid over 24 years. The fair value of the note payable as of March 31, 2025, was \$8,472,809, determined by using interest rates currently available for issuance of debt with similar terms, maturity dates, and nonperformance risk. The loan bears interest at 3.32% and is due on March 31, 2037.

The scheduled amortization of the loan for the next five years and thereafter is as follows:

2026	\$ 590,678
2027	610,288
2028	630,550
2029	651,484
2030	673,113
Thereafter	<u>5,316,696</u>
Total	<u>\$ 8,472,809</u>

Note H - Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, including interest rate, market, and credit risks, as well as valuation assumptions based on earnings and cash flows. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note I - Related Party and Party-In-Interest Transactions

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. The Plan has a number of service providers. Such parties are parties-in-interest under ERISA.
