Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **BAKER TILLY US, LLP**

(2) EIN: **30-1413443**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		☒	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.		☒	

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year?..... ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

The Plan Administrator of
Diamond Foods, Inc. Bargaining Unit Pension Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Diamond Foods, Inc. Bargaining Unit Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of July 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended July 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Diamond Foods, Inc. Bargaining Unit Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of July 31, 2025 and 2024, and for the year ended July 31, 2025, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Diamond Foods, Inc. Bargaining Unit Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Diamond Foods, Inc. Bargaining Unit Pension Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Diamond Foods, Inc. Bargaining Unit Pension Plan's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Diamond Foods, Inc. Bargaining Unit Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, line 4(i) – schedule of assets (held at end of year) and Schedule H, line 4(j) – schedule of reportable transactions as of and for the year ended July 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Diamond Foods, Inc. Bargaining Unit Pension Plan

Notes to Financial Statements

Note 1 – Description of Plan

The following brief description of the Diamond Foods, Inc. Bargaining Unit Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined benefit pension plan providing benefits to all eligible employees of the Plan sponsor, Diamond Foods, Inc. (the Company), and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Company froze the Plan effective July 31, 2010 (the freeze date). No new benefits shall accrue after the freeze date. Years of service after the freeze date are not taken into account in determining a Participant's credited service and accrued benefit under the Plan. However, a Participant's years of service after the freeze date are counted to determine the Participant's vested interest in their accrued benefit and their eligibility for early retirement benefits.

The Plan is administered by the Diamond Foods, Inc. Pension Committee (the Committee). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Board of Directors of the Company.

Eligibility – Prior to August 1, 1998, eligible employees were any employee hired in one of the positions classified as a benefited position. After August 1, 1998, an eligible employee is any employee who by specific reference to the Plan is required to be covered according to the terms of a collective bargaining agreement or a set of Terms and Conditions. Excluded from eligibility are salaried employees, nonresident aliens and contract employees. See the Plan document for specific details on eligibility requirements.

Payment of benefits

Pension benefits and vesting – Employees with five or more years of service, before the freeze date, are entitled to annual pension benefits beginning at normal retirement age (62). Annual pension benefits are based on years of credited service times a rate set by the Plan. The Plan permits early retirement at age 55 if the participant has completed at least ten years of vesting service. In the case of early retirement, payment of normal benefits is either deferred until normal retirement age or commenced at early retirement age and reduced based on the number of years prior to age 62 that the individual retires. Prior to August 1, 2017, employees could elect to receive the value of their accumulated plan benefits as an annuity, payable monthly from retirement. Effective June 1, 2025, employees may elect to receive a benefit equal to his Normal Retirement Benefit or Delayed Retirement, beginning as of the first day of any month coinciding with or following the later of: (i) Age 62 and (ii) the participant's election to receive an in-service retirement benefit hereunder; without regard as to whether the participant terminates employment with the employer or all affiliates. Effective June 1, 2025, the involuntary cash-out amount was increased from \$5,000 to \$7,000. For annuity starting dates between March 28, 2005, and December 16, 2018, if the present value of the accrued benefit is between \$1,000 and \$5,000, the participant may elect to receive a lump sum cash out of their accrued benefit.

Diamond Foods, Inc. Bargaining Unit Pension Plan

Notes to Financial Statements

Death and disability benefits – In the event of the death of a vested participant before retirement, the participant's spouse is entitled to the standard form of pension benefit. A participant that becomes permanently and totally disabled is eligible for the normal monthly pension benefit if the participant has completed at least ten years of vesting service and attained the age of 55.

Note 2 – Summary of Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment valuation – The investments are stated at fair value. The Plan's trustee, Principal Bank, certifies the fair value of all investments. If available, quoted market prices are used to value investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Payment of benefits – Benefit payments to participants are recorded upon distribution.

Expenses – The Plan's expenses are paid by the Plan or the Company, as specified in the plan document. Expenses that are paid by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are deducted from investment earnings, as disclosed in the investment prospectus, and thus are not separately disclosed in the accompanying financial statements.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through May 13, 2026, which is the date the financial statements were available to be issued.

Diamond Foods, Inc. Bargaining Unit Pension Plan

Notes to Financial Statements

Note 3 – Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service, rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of August 1, 2025 and 2024, were (a) mortality assumptions using PRI-2012 blue collar (amount-weighted) with scale MP-2021 from 2012 as adjusted by IRS for 2024 valuation, (b) The age 62 retirement decrement probability was increased from 30% to 45% to reflect the fact that the in-service retirement option (ability for employees to commence payments without terminating employment) was added to the plan during the 2025 year, and (c) investment return assumptions using average rates of 7% per year pre-decrement and 5% per year post-decrement for active participants and a 7% average rate of return for non-actives. The lump sum payment option was added to the Plan in 2019, consequently, all active employees are assumed to elect the lump sum form of payment at decrement, with lump sum conversions at 5% interest.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of August 1, 2025 and 2024. Had the valuations been performed as of July 31, there would be no material differences.

Note 4 – Funding Policy

Employee contributions – Contributions by participants are not required or permitted by the Plan.

Employer contributions – The Company's funding policy is to make annual contributions to the Plan based upon estimates prepared by the consulting actuary using acceptable actuarial principles, such that, all benefits will be fully provided for by the time employees retire. The Company has implemented the pension funding relief provisions of The American Rescue Plan Act of 2021. These provisions have resulted in reduction of and deferral of minimum funding requirements.

The Company's contributions for 2025 and 2024 exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 5 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Diamond Foods, Inc. Bargaining Unit Pension Plan

Notes to Financial Statements

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at July 31, 2025 and 2024.

Registered investment companies (mutual funds) – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

Cash equivalents – Valued based on net asset values of the shares held by the Plan at year end.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables disclose, by level, the fair value hierarchy of the Plan's assets at fair value as of July 31, 2025 and 2024:

Note 6 – Certified Investment Information

The following information related to investments was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Bank, the trustee of the Plan and a qualified institution:

- Investments reflected on the accompanying statements of net assets available for benefits as of July 31, 2025 and 2024.
- Net appreciation in fair value of investments, dividends, and interest reflected on the accompanying statement of changes in net assets available for benefits for the year ended July 31, 2025.
- Investments reflected on the schedule of assets (held at end of year) as of July 31, 2025.
- Transactions reflected on the schedule of reportable transactions for the year ended July 31, 2025.

Note 7 – Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated June 9, 2017, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt..

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 – Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination, if any.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed below).
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All nonvested benefits.

Diamond Foods, Inc. Bargaining Unit Pension Plan

Notes to Financial Statements

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2025, the ceiling is \$7,790 per month. That ceiling applies to those annuitants who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible, that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 10 – Party-in-Interest Transactions

Certain Plan investments are managed by the trustee; transactions with this entity qualifies as exempt party-in-interest transactions.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

All calculations in this report assume the plan will be ongoing and use the unit credit actuarial cost method to develop costs and liabilities.

Actuarial Cost Method

The actuarial accrued liability and normal cost under the unit credit actuarial cost method are used to determine the minimum required contribution under IRC Section 430 for the plan. Under this method, actuarial accrued liability is the total present value of benefits accrued under the plan formula at the valuation date for all participants (both active and nonactive). Normal cost is the total actuarial present value of additional benefits expected to be earned during the plan year by active participants under the assumed retirement age, plus administrative expenses expected to be paid during the year.

As required by IRC proposed regulation section 1.430(d)-1, the determination of both the target liability and target normal cost (IRC section 430 terms for accrued liability and normal cost) includes any plan provisions that are adopted on or before the valuation date and become effective during the plan year.

Vested liabilities are based on the same methods and assumptions used for accrued liabilities, but exclude:

- Benefits for participants with less than 5 years of service as of the valuation date
- Increased retirement benefits dependent on service for participants with less than the required years of service on the valuation date.

Asset Valuation Method

The actuarial value of assets is determined by smoothing investment gains and losses (the excess/shortfall of the actual investment return over the expected return), in accordance with procedures described in IRS Notice 2009-22. The preliminary actuarial value of assets is equal to the market value of assets (including discounted receivable contributions) plus 2/3 of the loss/(gain) for the prior year and 1/3 of the loss/(gain) for the second prior year. Expected returns are based on the lesser of the third segment rate used for IRC Section 430 and 7.0%. If the resulting asset value is outside a 90% to 110% market value corridor, an additional adjustment maintains the actuarial value of assets at the appropriate corridor limit.

Economic Assumptions

IRC Section 430 Interest Rates The plan sponsor has elected to use 24-month-average segment rates based on the corporate bond yield curve with a 4-month lookback – limited to be no less (more) than 95% (105%) of the average of segment rates over 25 years, subject to a 5% floor.

Segment rates used to discount expected benefit payments from the expected distribution date to the valuation date:

	PPA 24-month Average	ARPA 25-year Average	Funding Rates Limited by Corridor
■ 0-5 years	4.75%	5.00%	4.75%
■ 5-20 years	5.18%	5.13%	5.18%
■ 20+ years	5.16%	5.88%	5.59%
■ Effective Rate	5.15%	N/A	5.30%

Rate of Return on Plan Assets 7.00%

Salary Increases N/A

Expenses \$20,000

Demographic Assumptions

Assumptions are made about survival, marital status, and the causes and timing of separation from service. Retirement and termination rates are expected to approximate your experience.

Retirement The percentage of employees expected to retire each year depends on age:

Age	Percent Expected to Retire
55-59	2%
60	10
61	5
62	30
63	10
64-69	20
70-74	40
75+	100

Diamond Foods, Inc. Bargaining Unit Pension Plan**EIN/PN: 81-4577932/001****2024 Schedule SB (Form 5500) Attachment**

Termination

The percentage of employees expected to terminate each year depends on age; sample probabilities are:

<u>Age</u>	<u>Percent Expected to Terminate</u>
20	6.6%
25	5.3
30	4.8
40	3.8
50	1.5
55	0.3
60	0.0

No terminations (other than retirements) are assumed once an employee becomes eligible for early retirement.

Disablement

The percentage of employees expected to become disabled each year depends on age; sample probabilities are:

<u>Age</u>	<u>Expected Disabling</u>
20	0.05%
25	0.06
30	0.06
40	0.10
50	0.41
55	0.69
60	1.18

Disabled decrements continue after early retirement eligibility.

Mortality (healthy lives)

The combined static small-plan mortality table of Reg. §1.430(h)(3)-1(b)(2).

Mortality (disabled participants)

Rev. Ruling 96-7 post-1994 disabled mortality table; sample rates are:

	<u>Males</u>	<u>Females</u>
40	3.84%	2.06%
55	5.31	3.26
70	7.33	5.13
85	13.33	10.94

Diamond Foods, Inc. Bargaining Unit Pension Plan**EIN/PN: 81-4577932/001****2024 Schedule SB (Form 5500) Attachment**

Decrement timing and adjustment	Pre-retirement active decrements are assumed to occur beginning-of-year. Nonactive mortality is uniform throughout the year. Active mortality decrement probabilities are determined from the mortality rates shown above by adjusting for competing decrements.
Payment form elections	Active participants and their beneficiaries are assumed to elect the lump sum upon decrement. Vested terminated participants are assumed to elect the life annuity with 4 years certain commencing at normal retirement age.
Preretirement marital characteristics	Wives are assumed to be three years younger than their husbands; 80% of participants are assumed to be married.

Non-prescribed assumptions are estimates of future plan experience, based mainly on past experience. For each such assumption, experience is compared to the assumption and appropriate adjustments are made if deviations are significant and expected to continue in the future.

Financial and Census Data

The value of assets is based on unaudited financial statements submitted by Principal. The census data submitted by Diamond Foods, Inc. as of the valuation date appears consistent with that of the prior valuation.

Benefits Not Included in the Liabilities

To the best of our knowledge, all benefits have been included in liabilities.

Events and Trends Not Taken Into Account

To the best of our knowledge, no event or trend has been omitted which may require a material change in plan costs or required contribution rates.

Actuarial Standards of Practice (ASOP) Disclosures

- In our opinion, the combined set of assumptions (other than those prescribed by law) does not have significant bias.
- Retirement, termination, death, and disability benefits are regarded as vested based on each participant's years of vesting service and the plan's vesting schedule.

Diamond Foods, Inc. Bargaining Unit Pension Plan

EIN/PN: 81-4577932/001

2024 Schedule SB (Form 5500) Attachment

- Benefit payment default risk or the financial health of the plan sponsor was not taken into account when performing the valuation.
- The IRS prescribed the interest rates and mortality assumptions.
- No provision was made for future mortality improvement beyond that inherent in the tables used.
- In preparing the results, the actuary used ProVal valuation software developed by Winklevoss Technologies, LLC. This software is widely used for the purpose of performing pension valuations. We coded the plan provisions, assumptions, methods, and participant data summarized in this report, and reviewed the liability and cost outputs for reasonableness. We are not aware of any material weaknesses or limitations in the software and have determined it is appropriate for performing this valuation.

Changes in Actuarial Methods or Assumptions Since the Previous Valuation

The interest segment rates were changed to those shown above as required by law, changing the effective interest rate to 5.30% from 5.27%. This reflects the MAP-21 corridor around the 25-year average of corporate bond yields for 2024 valuations, as amended by ARPA.

The post-age-62 retirement probabilities were changed from 10% per year and 100% at age 70 to the rates shown above, to reflect the plan's actual experience in recent years.

The healthy lives mortality table was updated as required by law.

There were no other material changes in methods or assumptions.

Schedule SB, Part V – Summary of Plan Provisions

The plan provisions as described below were in effect through July 31, 2010. On July 31, 2010, participants' accrued benefits were frozen, and the plan was closed to new entrants.

General Provisions

Effective date	September 15, 1992
Eligible employee	Any employee of Diamond Foods, Inc. who, by specific reference to the plan, is required to be covered by the plan according to the terms of a collective bargaining agreement or a set of <i>Terms and Conditions of Employment</i>, but specifically excluding: (a) Salaried employees (b) Leased employees (c) Collectively bargained employees who have not bargained into the plan (d) Nonresident aliens receiving no earned income from Diamond Foods, Inc.
Participation eligibility	Eligible employees first credited with an hour of service before March 29, 2002 enter the plan on the first day of the month coincident with or next following the completion of 120 days of service. Eligible employees first credited with an hour of service on or after March 29, 2002 enter the plan on the first day of the month coincident with or next following the completion of 180 days of service.
Vesting	100% vested after 5 years of service; 0% vested before that. A year of service is a plan year during which an employee is credited with at least 1,000 hours of service.
Contributions	Diamond Foods, Inc. pays the full plan cost.

Benefit Eligibility

Normal retirement	The later of (a) and (b): (a) Age 62 (b) 5th anniversary of entry into the plan
Early retirement	The later of (a) and (b): (a) Age 55 (b) 10 years of service

Diamond Foods, Inc. Bargaining Unit Pension Plan**EIN/PN: 81-4577932/001****2024 Schedule SB (Form 5500) Attachment**

Delayed retirement	Termination of employment after normal retirement date.
Preretirement death	Married for at least one year at death after completion of five years of service.
Vested termination	Full vesting in the accrued benefit occurs at the earlier of completing 5 years of service or reaching normal retirement age. Benefits are payable at retirement eligibility (62 & 5 or 55 & 10).
Disability retirement	Mental or physical inability to engage in gainful employment, which is evidenced by receipt of Social Security disability benefits, and which occurs prior to termination of employment and after attainment of early retirement eligibility.

Accrued Benefit

For each year of credited service under the plan after September 15, 1992:

\$58.24* per month multiplied by the number of years of credited service to a maximum of 20 years**

plus

\$77.17* per month multiplied by the number of years of credited service in excess of 20 years**

* For the 1992 and 1993 plan years only, the monthly accrual rates are \$66.98 for service under 20 years and \$88.75 for service over 20 years.

** Total years of service are used to determine which benefit rate applies. For example, the benefit amount for an employee with 15 years of service prior to September 15, 1992 would be calculated at the higher rate after 5 years of credited service in the Diamond Foods, Inc. Bargaining Unit Pension Plan, since that employee would then have a total of 20 years of service.

Diamond Foods, Inc. Bargaining Unit Pension Plan**EIN/PN: 81-4577932/001****2024 Schedule SB (Form 5500) Attachment**

Pension Amount

Normal retirement	The accrued benefit.
Early retirement	For participants whose age plus vesting service equals or exceeds 85 upon early retirement, the accrued benefit, based on credited service to early retirement date, is reduced by 5% for each year that benefit commencement precedes normal retirement. For participants whose age plus service is less than 85 upon early retirement, greater (roughly actuarial equivalent) reductions apply.
Delayed retirement	The accrued benefit, based on years of credited service through the participant's actual retirement date, or the actuarial equivalent of the normal retirement benefit, if greater.
Preretirement death	Fifty percent (50%) of the amount the participant would have received under the 50% joint and survivor benefit form had the participant separated from service on his date of death (applies for death from active employment only), commenced retirement benefits as early as possible thereafter, and died the next day. A temporary monthly annuity of \$384 if the participant and eligible spouse have any children under the age of 18, or \$192 if not, payable to the participant's spouse until the spouse attains age 62.
Disability retirement	The accrued benefit, without reduction for early commencement.

Forms of Benefit

Normal form	Life annuity with four-year period certain.
Automatic form	Qualified 50% joint and survivor annuity if the participant is married as of the annuity starting date.
Optional forms	(a) Life annuity (b) Life annuity with ten-year period certain (c) Life annuity with fifteen-year period certain (d) 75% and 100% joint and survivor annuities (e) Social Security level income (f) Lump sum Non-lump-sum optional-form benefits are the actuarial equivalent of the normal form based on 8% interest and the UP-1984 unisex mortality table.

EIN/PN: 81-4577932/001

2024 Schedule SB (Form 5500) Attachment

Schedule SB, line 24 – Change in Actuarial Assumptions

- The interest segment rates were changed to those shown above as required by law, changing the effective interest rate from 5.27% to 5.30%.
- The post-age-62 retirement probabilities were changed from 10% per year and 100% at age 70 to 10% at age 63, 20% per year from ages 64 to 69, 40% per year from ages 70 to 74, and 100% at age 75, to reflect the plan's actual experience in recent years.
- The healthy-lives mortality table was changed from the 2023 Combined Static Table to the 2024 Combined Static Table, as required under IRC Section 430.
- There were no other changes in methods or assumptions.
