INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Insulators Local 45 Defined Contribution Pension Fund
Troy, MI

Opinion

We have audited the accompanying financial statements of Insulators Local 45 Defined Contribution Pension Fund (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of July 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of July 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement

resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Assets Held for Investment at End of Year and Reportable Transactions, together referred to as "supplemental schedules," are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

INSULATORS LOCAL 45 DEFINED CONTRIBUTION PENSION FUND
NOTES TO FINANCIAL STATEMENTS
JULY 31, 2025 AND 2024

Note A – Description of the Plan

The following brief description of Insulators Local 45 Defined Contribution Pension Fund (the “Plan”) is provided for general purposes only. For more complete information, refer to the plan document.

General

The Plan, and trust established under the plan, was established effective August 1, 2004 by a collective bargaining agreement between Master Insulators Association of Toledo, Ohio (the “Association”) and International Association of Heat and Frost Insulators and Allied Workers Local No. 45 of Toledo, Ohio (the “Union”). The Plan is a multi-employer defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Individuals covered by the Union’s collective bargaining agreement who are employed by contributing employers are eligible to participate in the Plan as of their first hour of service, as defined by the Plan document.

Contributions

Contributions are obtained directly from participating employers and are based on hours worked by participants at hourly rates specified in the collective bargaining agreements.

Participant Accounts

Individual credit accounts are maintained for each participant, with benefits limited to the amount contributed to the participant’s credit account plus or minus any allocation of income, expenses, forfeitures, gains, or losses. Allocations to participant credit accounts are based on account balances, as specified by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

The Plan provides the participants the option, during an annual election period, to transfer their entire credit account from the trustee-managed pooled portion of the Plan to the participant-directed investment portion of the Plan. Participants who do not make such an election will continue to participate in the trustee-managed pooled portion of the Plan.

Payment of Benefits

Upon termination of services due to death, disability, retirement, or termination of employment where benefits are vested, a participant may elect to receive one of the standard forms of payment: a joint and survivor annuity, an annuity contract, or a lump sum distribution.

Vesting

Participants become 100 percent vested in their participant account balance upon completion of at least 280 hours of work in a given plan year.

Participant Notes Receivable

Participants may borrow from their fund accounts a minimum of \$5,000 up to a maximum of 50 percent of their vested account balance once the participant’s credit account accumulates a minimum of \$10,000. The maximum amount of outstanding loans for a participant shall not exceed \$50,000. The loans are secured by the balance in the participant’s account. The loan interest rate is based on the prime rate charged by the Federal Reserve Bank, as listed in the Wall Street Journal on the first business day of the month in which the loan is granted.

Note B – Significant Accounting Policies

The following are significant accounting policies followed by the Plan:

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Cash

The Plan considers cash to include all monies in checking and savings accounts. The carrying value of cash approximates fair value based on its high level of liquidity.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If available, quoted market prices are used to value investments. Where a quoted market price is not available, investments are valued at estimated fair value. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded on the accrual basis. Net appreciation or depreciation includes the gains and losses on investments bought and sold as well as held during the year.

Participant Notes Receivable

Participants notes receivable are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of July 31, 2025 and 2024. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Contributions

The Plan is funded primarily by employer contributions received on behalf of active participants at hourly rates specified by the collective bargaining agreements. Employer contributions receivable represent amounts received from employers in August based on participants' credited hours worked prior to August; therefore, no allowance for doubtful accounts is required.

Concentrations of Credit Risk

Financial instruments that potentially subject the Plan to concentrations of credit risk consist principally of cash. Accounts at each institution are insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Note B – Significant Accounting Policies (Continued)

Operating Expenses

All expenses of maintaining the Plan are paid by the Plan. Administrative expenses are recorded during the period in which the Plan receives the benefit of goods or services.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through May 13, 2026, the date the financial statements were available to be issued, and no issues have come to our attention that would require recognition.

Note C – Plan Restatement

The plan document was amended and restated effective January 1, 2015 by action of the Board of Trustees.

Note D – Plan Termination

The Plan may be terminated at any time by the written agreement of the Union and Association, subject to the provisions of ERISA. In the event of termination of the Plan, once the Plan provides payment of all reasonable and necessary expenses, it will allocate asset income and appreciation to all credit accounts.

Note E – Tax Status

The Plan obtained its latest determination letter on March 31, 2016, in which the Internal Revenue Service states that the plan and the related trust, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's legal counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2022.

Note F – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- | | |
|----------------|---|
| <u>Level 1</u> | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. |
|----------------|---|

INSULATORS LOCAL 45 DEFINED CONTRIBUTION PENSION FUND
NOTES TO FINANCIAL STATEMENTS
JULY 31, 2025 AND 2024

Note F – Fair Value Measurements (Continued)

- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means;
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of this asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lower level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Management reviews and approves fair value measurement policies and procedures annually, and determines if the valuation techniques used to measure assets at fair value remain appropriate.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at July 31, 2025 and 2024. All plan assets are measured at fair value on a recurring basis.

Money market funds: The plan's investments consist of shares of various money market funds which are valued using amortized cost which approximates fair value.

Mutual funds: Valued at the closing price reported in the active market in which the individual securities are traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of July 31, 2025 and 2024:

Note G – Party-in-Interest Transactions

Fees paid during the year for legal, auditing, investment advisory and custody, and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

All investments in mutual funds held by the Plan are managed by The Trust Company, the investment custodian.

Note H – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
