NOTES TO FINANCIAL STATEMENTS
JULY 31, 2025 AND 2024

NOTE 1 DESCRIPTION OF PLAN

The following description of the MLSC Holding Co., Inc. Employee Stock Ownership Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

MLSC Holding Co., Inc. (the Company) established the Plan effective January 1, 2017. The Plan is a defined contribution plan intended to constitute an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan covers all employees of the Company who have completed the eligibility requirements including the completion of one hour of service and attainment of age 21, excluding non-resident aliens, employees covered by a collective bargaining agreement, and affiliate employees. The Plan is designed to invest primarily in securities issued by the Company and is authorized to borrow money for such investments.

The Plan purchased Company common stock through a series of transactions and notes payable to various stockholders of the Company and holds the stock in a trust established under the Plan (see Note 5). As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of July 31, 2025 and 2024 and for the year ended July 31, 2025, present separately the assets and liabilities and changes therein pertaining to:

- (a) the accounts of employees with vested rights in allocated common stock (allocated); and
- (b) common stock not yet allocated to employees (unallocated).

Contributions

Each year, the Company may contribute a discretionary percentage of its net earnings to the Plan as determined annually by the Company's Board of Directors. Contributions may be in the form of shares of common stock or cash. Contributions for each year are never less than the amount required to enable the Plan to discharge its current obligations, without regard to whether some or all of such contribution may fail to qualify for an income tax deduction by the Company. In order to receive an allocation of Company contributions, a participant must complete 1,000 hours of service and be employed on the last day of the Plan year unless termination is due to death, disability or retirement. Contributions by Plan participants are not permitted by the Plan. Contributions are subject to Internal Revenue Service (IRS) limitations.

NOTES TO FINANCIAL STATEMENTS
JULY 31, 2025 AND 2024

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings or losses are allocated to each participant's account based on the ratio of the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided by the participant's account.

Vesting

Vesting of participant's accounts is based on years of credited service with the Company. A participant's account becomes fully vested after six years of credited service with the Company, under a graded vesting schedule. A participant is fully vested upon reaching normal retirement age, death, or permanent disability.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution, unless eligible for floor price protection, in which case, shares are distributed.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Upon termination of service, a participant will receive a distribution of the vested portion of their account balance in accordance with the provisions of the plan. Distributions may be made in a lump sum or in substantially equal annual installments generally not exceeding five years, with distributions commencing no later than the end of the sixth plan year following the Plan year in which the participant terminates employment. The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. During the year ended July 31, 2025, the Company repurchased from participants 285,155 shares at prices determined from the independent appraisal.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants for the year ended July 31, 2025 were \$183,061. There were no balances in forfeited nonvested accounts as of July 31, 2025 and 2024.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

The shares of Company common stock are valued at estimated fair value. See Note 4 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

As provided in the Plan document, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Subsequent Events

The Plan has evaluated subsequent events through May 15, 2026, the date the financial statements were available to be issued.

NOTE 3 CERTIFICATION OF 2024 INVESTMENT INFORMATION

GreatBanc Trust Company, the qualified institution of the Plan, supplied the Plan administrator with a certification as to the completeness and accuracy of certain investment information as of July 31, 2024, in the accompanying financial statements. Certified assets as of July 31, 2024 were \$703,900.

NOTE 4 INVESTMENTS

The Plan's initial investment in Company securities consisted of 59,184 shares of the outstanding common stock of the Company. The Plan used proceeds from a term loan agreement with the Company to purchase 43,794 of the shares and cash consideration of \$7,000,000 to purchase 8,333 of the shares. The Plan also transferred in an additional 7,057 shares of common stock from existing Company retirement plans. The shares were acquired in July 2018 for \$840.08 per share, which was the estimated fair market value, as determined by independent appraisal, at that time. In October 2018, the Plan exercised a 1,000-for-1 stock split for each issued and outstanding share of Company common stock and divided them into 1,000 shares of common stock.

The estimated fair market value, as determined by independent appraisal, as of July 31, 2025 and 2024 was \$1.93 and \$1.04 per share, respectively.

During the year ended July 31, 2025, 1,751,779 shares were released and allocated to participants.

NOTE 5 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used as of July 31, 2025 and 2024.

Money Market Funds – Valued at the daily closing price as reported by the fund. Money market mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Stock – The fair value of Company common stock held by the Plan is valued at fair value based on an independent third-party appraisal. This appraisal is based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves Plan management's selection of an independent appraiser under contract for a term of three years with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP trustee, reviews in detail, discusses, and approves. The results of this process are documented in minutes of the Plan fiduciary.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of July 31:

NOTE 6 NOTES PAYABLE

On July 30, 2018, the Plan entered into a \$36,790,880 term loan agreement with the Company. The proceeds of the loan were used to purchase 43,794 shares of the Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The Plan has a note payable related to the purchase of Company stock as of July 31 as follows:

Description	2025	2024
Note Payable - MLSC Holding Co., Inc., Interest fixed at 3.060%, due December, 2042; Secured by unallocated MLSC Holding Co., Inc. common stock purchased with proceeds from this note and cash contributions from the Company	<u>\$ 28,605,725</u>	<u>\$ 29,782,635</u>

While the Company reserves the right to change the amounts and the timing of contributions to the Plan, the scheduled amortization of the Plan's loan and related Plan contributions for the next five years is as follows:

NOTE 7 PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Employee Stock Ownership Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 8 PLAN TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a determination letter dated September 14, 2021, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 RISKS AND UNCERTAINTIES

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 10 PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets, which consist primarily of Company common shares, are held by GreatBanc Trust Company (the Trustee). Company contributions are held and managed by the Trustee, who invests cash received as a result of cash contributions, interest income, and dividend income, and makes distributions to participants.

NOTE 10 PARTY-IN-INTEREST TRANSACTIONS (CONTINUED)

The Plan is administered by the Company and certain administrative functions are outsourced to a third-party administrator. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan invests in Company common stock and had indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As the Company is the Plan Sponsor, transactions involving Company common stock qualify as party-in-interest transactions. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.
