INDEPENDENT AUDITOR'S REPORT

To the Retirement Plan Committee
Carle Health Central Illinois Pension Plan
Peoria, Illinois

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of Carle Health Central Illinois Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of November 30, 2023, 2022, and 2021, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Carle Health Central Illinois Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from two qualified institutions, SEI Private Trust Company, as of and for the years ending November 30, 2023, 2022, and 2021 as well as Fidelity Management Trust Company, as of and for the year ended November 30, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of Carle Health Central Illinois Pension Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Carle Health Central Illinois Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Carle Health Central Illinois Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Carle Health Central Illinois Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental schedules (Schedules 1 through 3) are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

CARLE HEALTH CENTRAL ILLINOIS PENSION PLAN
Notes to the Financial Statements
November 30, 2023, 2022 and 2021

1. Description of Plan

The following description of the Carle Health Central Illinois Pension Plan, formerly, the UnityPoint Health | Central Illinois Pension Plan (the Plan) provides only general information. The Plan is comprised of the Plans formerly known as Progressive Health Systems Pension Plan (the Pekin Plan), the Methodist Medical Center Pension Plan (the Methodist Plan), and the Proctor Health Care Pension Plan (the Proctor Plan). The Methodist Plan and the Proctor Plan merged into the Pekin Plan on December 25, 2018. The Pekin Plan's Board of Directors approved a resolution to change the Pekin Plan year end from April 30th to November 30th effective November 30, 2018. The following information for each legacy plan has been included as each plan's participants retained their frozen benefits upon the date of merger. In addition, when all of these plans merged into the Pekin Plan it was renamed the UnityPoint Health | Central Illinois Pension Plan. Participants should refer to the applicable plan document for a more complete description of the respective plan's provisions.

The Plan was amended effective April 1, 2023, to reflect the transfer of Plan sponsorship to The Carle Foundation, to change the name from UnityPoint Health | Central Illinois Pension Plan to Carle Health Central Illinois Pension Plan, along with a corresponding change in EIN. The Plan was also amended during the 2023 Plan year to capture various other plan administrative and operational items.

(A) General

These plans are all subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Pekin Plan

The Pekin Plan was a noncontributory-defined benefit plan covering all full-time and part-time employees of Progressive Health Systems, Inc. (PHS) and its participating employers, Pekin Memorial Hospital and Pekin Memorial Hospital Foundation, except for employees categorized as "Registry" or "Relief Employees" and ProHealth employees. To be eligible, employees must have completed at least 1,000 hours of continuous employment during the plan year and be age 21 or older. Effective June 30, 2008, the Plan was frozen and no additional benefits were accrued under the Pekin Plan.

The Methodist Plan

The Methodist Plan was a noncontributory-defined benefit plan sponsored by the Methodist Medical Center of Illinois (the Medical Center) and covered substantially all employees of the Medical Center and participating employers adopting the Methodist Plan. Employees became eligible to participate in the Methodist Plan upon having

attained the age of 21 and completed one year of service in which at least 1,000 hours were worked. Participants were 100 percent vested upon completion of five years of service with at least 1,000 hours worked each year.

Effective December 31, 2006, employees were given the one-time irrevocable option to remain as active participants in the Methodist Plan or to begin participation in a new defined contribution plan and have their benefits frozen in the Methodist Plan. The accrued plan benefits and credited services for those electing the new defined contribution plan were frozen; however, vesting services were still earned and accumulated. New employees hired after September 30, 2006 are not allowed to participate in the Methodist Plan.

In November 2012, the Methodist Plan was amended to implement a freeze of the Methodist Plan so that all active participants ceased to accrue pension benefits effective January 1, 2013. As a result, beginning January 1, 2013, no additional years of benefit service shall be taken into account under the Methodist Plan, nor shall a participant's earnings or final average earnings include compensation for any period after December 31, 2012. The amount of participant's accrued benefit did not change after January 1, 2013. All participants covered under the Methodist Plan as of December 31, 2012 shall continue to be credited with years of credited service after that date for purposes of the vesting schedule.

The Proctor Plan

The Proctor Plan was a noncontributory-defined benefit plan sponsored by the plan administrator and covered substantially all employees of Proctor Health Care Incorporated (PHCI) and Proctor Hospital, a controlled affiliate of PHCI. The Proctor Plan also covered employees of the following PHCI affiliates: Professional Medical Associates, Proctor Health Systems and Belcrest Services, Ltd.

Effective December 31, 2008, the Board of Directors of PHCI approved a resolution to freeze the participants' accrued benefits. No employees were allowed to begin participating in the Proctor Plan after December 31, 2008, and no compensation earned or service performed after that were considered in the calculation of a participant's average compensation or accrued benefit. However, the Proctor Plan did take into account service completed after December 31, 2008 for purposes of determining vesting and eligibility to elect early retirement benefits.

(B) Funding Policy

The Plan sponsor's funding policy is to make the necessary contributions to meet minimum funding requirements, as determined by the Plan's independent actuary. No voluntary contributions are permitted and the minimum funding requirements were met for the plan years ending November 30, 2021, 2022, and 2023. On March 27, 2020, US President Donald Trump signed into law the Coronavirus Aid, Relief, and Economic Security Act (CARES Act). The CARES Act provides immediate and temporary relief

for retirement plan sponsors and their participants with respect to employer contributions, distributions and participant loans. The provisions of the CARES Act may be effective and operationalized immediately, prior to amending the plan document. Under the CARES Act, employers who sponsor Defined Benefit Plans had until January 2021 to make minimum required contributions originally due during 2020 and could choose to use the plan's adjusted funding target attainment percentage (AFTAP) for the plan year ending before January 1, 2020 as the AFTAP for the plan years that include the 2020 calendar year to avoid freezing benefits. The Plan Administrator elected these provisions for the plan year ending November 30, 2020, and elected to treat the AFTAP for the plan year ending November 30, 2019 as the AFTAP for the plan year beginning December 1, 2019.

(C) Merger

On October 24, 2018, the Board of Directors of Progressive Health Systems approved the merger of the Proctor Plan and Methodist Plan into the Plan on December 25, 2018. In connection therewith, the Proctor Plan and Trust and Methodist Plan transferred \$195,864,097 and \$57,732,784, respectively, of assets to the Plan.

(D) Pension Benefits

(i) *Participants previously in the Pekin Plan*

Benefits under the Pekin Plan were based on an employees' average annual compensation during their years of credited service. Normal retirement age for plan benefits was 65. Participants could elect to receive reduced benefits upon early retirement at age 55, provided that they have at least 15 years of service with PHS. The benefit formula was equal to 1.01 percent times annually earned salary, plus 0.36 percent of such salary in excess of 80 percent of the Social Security taxable wage base in effect at the beginning of the plan year for each year of service up to a maximum of 35 years, for service on or after May 1, 1989. Accrued benefits are payable as an annuity over the participant's lifetime or as a qualified joint and two-thirds survivor annuity.

(ii) *Participants previously in the Methodist Plan*

Employees with five or more years of service were entitled to monthly pension benefits beginning at normal retirement age (65). The benefit depended on the employee's service as an employee.

At retirement, employees will receive a benefit equal to 1.17 percent of their final average earnings multiplied by their number of years of benefit service plus 0.45 percent of their final average earnings in excess of the amount defined by the Social Security Table II in effect for the calendar year in which the participant's normal retirement occurs multiplied by their number of years of benefit service.

Any participant who was a participant in the Methodist Plan on December 31, 1999 will be entitled to a full or fractional year of benefit service for the purpose of determining the benefit prior to January 1, 2001. For each plan year beginning on or after January 1, 2001, a participant shall be entitled to a full year of benefit service upon reaching 2,000 hours of service during a plan year. In no event shall participants' monthly retirement income be less than an amount equal to the sum of their accrued benefit under the Methodist Plan as of December 31, 1993 based on the previous plan formula.

The Methodist Plan permitted early retirement for participants who have not reached the normal retirement age (age 65) but were at least 55 years old and have completed 10 years of credited service. A participant who retires on an early retirement date will be entitled to a monthly retirement income based on final average earnings and benefit service, reduced by 1/15 for each of the first five years and 1/30 for each of the next five years, by which the commencement of such monthly income precedes the participant's normal retirement date. If employees terminate before rendering five years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to contributions.

(iii) *Participants previously in the Proctor Plan*

Employees with five or more years of service were entitled to monthly pension benefits beginning at normal retirement age (65). The benefit depends on the employee's service as an employee. Normal benefits are 50 percent of the participant's average monthly compensation, less 50 percent of their primary Social Security benefit. The monthly benefit is reduced when a participant has less than 25 years of credited service.

Average monthly compensation is calculated as one-twelfth of the average compensation received during the five calendar years within the last 15 complete calendar years of credited service which will yield the highest average. The Proctor Plan permitted early retirement for participants who have not reached the normal retirement age (age 65) but are at least 55 years old and have completed 10 years of credited service. A participant who retires on an early retirement date will be entitled to a monthly retirement income based on final average earnings and benefit service, reduced by 1/15 for each of the first five years and 1/30 for each of the next five years, by which the commencement of such monthly income precedes the participant's normal retirement date. If employees terminate before rendering five years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to contributions.

The participants of the Pekin Plan, Methodist Plan and Proctor Plans maintained their individual accumulated benefits upon the plans merging into the Carle Health Central Illinois Pension Plan.

During 2019, the Carle Health Central Illinois Pension Plan had an involuntary participant lift out whereby the benefit obligation of certain participants were purchased and transferred to Principal resulting in no future obligation to the Plan. The lift out amount was \$52,022,902.

(E) Disability Benefits

In the event that a participant who has completed five years of service and has attained age 40 becomes totally and permanently disabled, benefits will be computed and paid assuming the participant had attained retirement age.

(F) Death Benefits

(i) *Participants previously in the Pekin Plan*

The spouse of a participant will receive a 66 2/3 percent survivor annuity, as defined in the Pekin Plan, upon the death of the participant. The surviving spouse annuity is equal to 66 2/3 percent of the participant's monthly benefit. This benefit is immediately payable to the spouse if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse may commence as of the earliest date the participant would have received benefits.

(ii) *Participants previously in the Methodist Plan*

The spouse of an employee will receive a 50 percent survivor annuity, as defined in the Methodist Plan, upon the death of the employee prior to actual retirement. The surviving spouse annuity is equal to 50 percent of the employee's monthly benefit based on taking early retirement on the day immediately preceding the employee's death. This benefit is immediately payable to the spouse if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse may commence as of the earliest date the participant would have received benefits.

(iii) *Participants previously in the Proctor Plan*

The spouse or dependent children of an employee will receive a survivor's benefit upon the death of the employee prior to actual retirement as long as the employee had been married for one year at the date of death.

(G) Vesting

(i) *Participants previously in the Pekin Plan*

Upon completion of five years of vesting service but prior to becoming eligible for a normal retirement benefit, a participant is entitled to a deferred vested termination benefit equal to a percentage of his or her accrued retirement benefit. Eligible employees are fully vested upon completion of five years of vesting service.

(ii) *Participants previously in the Methodist or Proctor Plan*

An employee is 100 percent vested upon completion of five years of service with at least 1,000 hours worked each year.

2. Significant Accounting Policies

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and the actuarial present value of accumulated plan benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

The Plan uses an independent consulting actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits (Note 5).

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sale of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments to Participants – Benefit payments to participants or their beneficiaries are recorded when paid.

Administrative Expenses – The Plan’s expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment-related expenses are included as an offset to net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Accumulated Plan Benefits – Accumulated plan benefits (Note 5) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- Retired or terminated employees or their beneficiaries.
- Beneficiaries of employees who have died
- Present employees or their beneficiaries.

Benefits under the Plan are based on employees' compensation during their years of credited service up to a maximum of 35 years. The accumulated plan benefits for active employees are based on their average compensation during the five years preceding the valuation date. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

Subsequent Events – In preparing the financial statements, the Plan Administrator has evaluated subsequent events through May 15, 2026, the date the financial statements were available to be issued.

3. Information Certified or Provided by SEI Private Trust Company (SEI) and Fidelity Management Trust Company (Fidelity), the Trustees

Certain information, as noted below, related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments at fair value as of November 30, 2023, 2022 and 2021, net appreciation (depreciation) in fair value of investments and interest and dividends for the years ended November 30, 2023, 2022 and 2021, were obtained by management and agreed to or derived from the information certified as complete and accurate by SEI Private Trust Company, and Fidelity Management Trust Company.

	2023	
Investments, at Fair Value	\$ 209,827,086	
Net Appreciation (Depreciation) in Fair Value of Investments	\$ 5,199,477	
Interest and Dividends	\$ 4,493,584	
	2022	2021
Investments, at Fair Value	\$ 216,331,900	\$ 263,318,268
Net Appreciation (Depreciation) in Fair Value of Investments	\$ (36,314,053)	\$ 30,167,269
Interest and Dividends	\$ 5,500,838	\$ 4,924,067

4. Fair Value Measurements

The Plan follows accounting guidance that establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at November 30, 2023, 2022 and 2021.

- *U.S. Treasury Securities* - Valued at the closing price reported on the open market.
- *Mutual Funds* - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission (SEC). These funds are required to transact at and publish their daily net asset value (NAV), calculated as the underlying assets owned by the fund, minus its liabilities, divided by the number of shares outstanding. NAV is a quoted price in an active market.
- *Money Market Funds* - Valued as units of participation rather than ownership of specific assets. The fair value of participation is the total value of the fund divided by the number of units outstanding and approximates cost.
- *Common Collective Trust (CCT)* – Investments in units of common collective trusts held with the trustee follow various investment strategies as defined for each fund and are stated at estimated fair market value and are valued based on the Net Asset Value of shares held by the Plan at year end. The Net Asset Value is determined by the trustee based on the market value of the underlying investments held in the pooled fund.

The methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of November 30, 2023:

	Level 1	Level 2	Level 3	Total
<i>Assets Included in the Fair Value Hierarchy:</i>

There are no unfunded commitments, or significant redemptions or restrictions on the investments measured at net asset value per share using the practical expedient as of November 30, 2023, 2022 and 2021.

5. Actuarial Present Value of Accumulated Plan Benefits

An actuary from Fidelity determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The actuarial present value of accumulated plan benefits was calculated using end of year census data.

Significant assumptions underlying the actuarial computations are:

- 2023 Actuarial Computations:
 - Discount rate: 6.65 percent
 - Mortality basis: Pri-2012 Mortality Tables with MP-2021 Mortality Improvement Scale applied on a generational basis.
 - Retirement: Graded rates from age 55.
 - Assumption changes: The PPA funding interest rates were updated from the August 2022 segment rates under ARPA to the August 2023 segment rates under ARPA, and the mortality assumption changed from the 2022 IRS Static Mortality Table to the 2023 IRS Static Mortality Table as prescribed by IRC Section 430.
- 2022 Actuarial Computations:
 - Discount rate: 5.90 percent
 - Mortality basis: Pri-2012 Mortality Tables with MP-2021 Mortality Improvement Scale applied on a generational basis.
 - Retirement: Graded rates from age 55.
 - Assumption changes: The PPA funding interest rates were updated from the August 2021 segment rates under ARPA to the August 2022 segment rates under ARPA, and the mortality assumption changed from the 2021 IRS Static Mortality Table to the 2022 IRS Static Mortality Table as prescribed by IRC Section 430.
- 2021 Actuarial Computations:
 - Discount rate: 5.20 percent
 - Mortality basis: Pri-2012 Mortality Tables with MP-2021 Mortality Improvement Scale applied on a generational basis.
 - Retirement: Graded rates from age 55.
 - Assumption changes: The PPA funding interest rates were updated from the August 2020 segment rates under ARPA to the August 2021 segment rates under ARPA, and the mortality assumption changed from the 2020 IRS Static Mortality Table to the 2021 IRS Static Mortality Table as prescribed by IRC Section 430.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The accumulated plan benefit information as of November 30, 2023, 2022 and 2021 year was as follows:

	2023	2022	2021
Vested Benefits:			
Participants currently receiving payments	\$ 141,892,901	\$ 145,460,626	\$ 147,029,179
Participants entitled to deferred benefits	38,121,059	35,743,538	44,030,936
Other Participants	39,149,950	54,211,401	64,045,020

Total Actuarial Present Value of Accumulated Plan Benefits	<u>\$ 219,196,443</u>	<u>\$ 235,448,934</u>	<u>\$ 255,105,135</u>

The changes in the actuarial present value of accumulated plan benefits in 2023, 2022, and 2021 were as follows:

	2023	2022	2021

6. Administrative Expenses and Party-In-Interest Transactions

A transaction with a plan service provider or a participant of the Plan qualifies as a party-in-interest transaction. Service provider fees, either directly or indirectly, are paid to the investment trustee, third-party administrator, record keeper and insurance provider. Of these fees, \$2,695,473, \$3,291,213, and \$3,196,463 are included in administrative expenses on Exhibit B for the years ended November 30, 2023, 2022, and 2021, respectively. Other investment fees are netted with investment earnings. Expenses incurred in the administration of the Plan were also paid by the plan sponsor.

Additionally, certain plan investments are both held and managed by the investment trustees.

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees who are eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.
- Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations discussed below.
- Vested benefits not insured by the PBGC.
- All nonvested benefits.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

8. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated July 10, 2012, that the Plan and related trust as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (Code). The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's legal counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with certain investment securities and the valuation techniques used for these investments, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term could be material to the financial statements.

10. Transfer of Assets

In July 2023, the Plan transitioned from SEI Private Trust Company to Fidelity Management Trust Company. At that time, all assets were transferred to Fidelity, except for certain funds totaling \$21,911,556 as of November 30, 2023. Those assets remained with SEI Private Trust Company to satisfy certain liquidation sale timing restrictions.

11. Subsequent Event

In 2024, the Plan transferred certain retiree pension obligations to an insurance company through the purchase of a group annuity contract. As a result, benefit payments for affected participants are now paid directly by the insurer, and the Plan no longer has any future obligation for those benefits.

ERISA Interest Rates as required by IRC Section 430 based on plan sponsor election of the look-back month for the segment rates:

“Minimum” means for the purpose of calculating the PPA funding liability and normal cost for the minimum required contribution.

“Maximum” means for the purpose of calculating the PPA funding liability and normal cost for the maximum tax-deductible contribution.

Actuarial Assumptions and Methods (continued)**Mortality:**

ERISA: IRS 2021 Static Mortality Table using separate tables for annuitants and non-annuitants as prescribed by IRC Section 430. These tables include future mortality improvement of 8 years for males and 9 years for females with the following adjustments: For ages below 80, the projection period is increased by 1 year for each year below age 80. For ages above 80, the projection period is reduced (but not below zero) by 1/3 year for each year above 80 (previously IRS 2020 Static Mortality Table using separate tables for annuitants and non-annuitants as prescribed by IRC Section 430).

UnityPoint Health

Central Illinois Pension Plan

2021 Plan Year

EIN: 37-1111135

Plan Number: 006

Actuarial Assumptions and Methods (continued)

Marital Status: 50% of males and females are assumed married, with females 1 years younger than males based on the assumption by the prior actuary for this plan.

Maximum Benefit: \$230,000 for 2021. For determining limitations under funding amounts, no future increases in the IRC Section 415 limit have been reflected.

Maximum Salary: \$290,000 for 2021. For determining limitations under funding amounts, no future increases in the salary limit have been reflected.

Form of Payment: It has been assumed benefits will be paid in the normal annuity form applicable to the particular benefit. To the extent optional forms of payment are elected and conversions are determined under an actuarial basis, which differs from the basis funded in the valuation, gains or losses will occur. These gains or losses will be recognized through the routine application of the actuarial cost method. Other optional forms are roughly actuarially equivalent on the valuation basis, so no significant gains or losses are anticipated.

Decrement Timing: Middle of year decrements (except that retirement is assumed to occur at the beginning of the year for ages where the assumed retirement rate is 100%)

Actuarial Value of Plan Assets for Funding Purposes:

The actuarial value of assets is equal to:

- a) the market value of assets, including discounted receivables, on the valuation date, less
- b) the following percentages of prior years' investment gains (losses):
 - i) 67% of the prior year, and
 - ii) 33% of the second prior year,

Investment gains and losses are defined as the excess or deficiency of the expected return on the market value (at an assumed rate of 7.00%, not to exceed the third segment rate for that year) over the actual return on the market value of assets, including discounted receivables, for any given year.

- c) The actuarial value of assets can be neither less than 90% nor greater than 110% of the market value of assets, including discounted receivables.

Shortfall Amortization Charge for ERISA Funding Purposes: Per IRC Section 430(c), the shortfall amortization charge for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to any shortfall amortization base which has not been fully amortized. The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 15-year period beginning with such plan year.

Actuarial Cost Method: The unit credit cost method is used for ERISA funding target (FT) . Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service, salary and negotiated benefit increases to date. The liability is then equal to the present value of all benefits (PVAB) for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings, or negotiated benefit increases, to date in both cases. The total normal cost is based upon the sum of the individual normal costs. The target normal cost for funding is equal to the total normal cost plus assumed administrative expenses expected to be paid from the trust.
