INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of Rollins 401(k) Savings Plan

Opinion

We have audited the financial statements of Rollins 401(k) Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditor's Report on the 2023 Financial Statements

The 2023 financial statements of the Plan were audited by predecessor auditors whose report dated June 27, 2024 expressed an unmodified opinion on those financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule of Delinquent Participant Contributions for the Year Ended December 31, 2024 are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records

used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. DESCRIPTION OF PLAN

The following brief description of the Rollins 401(k) Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan, as amended and restated, is a defined contribution plan covering all eligible employees of Rollins, Inc. (the “Company” or “Administrator”) and its subsidiaries that are eligible to participate in the Plan. The exceptions are for those who are members of a collective bargaining unit, who are not eligible to participate in the Plan under the terms of the applicable collective bargaining agreement, and employees of PCO Services, Inc. (the Company’s Canadian subsidiary). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

The Plan has designated the Plan investment fund invested primarily in Rollins, Inc. common stock as an employee stock ownership plan within the meaning of Section 4975(e)(7) of the Internal Revenue Code (the “Code”). The administrative committee may allow participants to elect to receive dividends on Rollins, Inc. common stock in cash as taxable compensation or to have such dividends paid to the Plan and reinvested in Rollins, Inc. common stock with taxes deferred. Participants may exercise voting, tendering and similar rights with respect to shares of Rollins, Inc. common stock held in their accounts under the Plan document.

Effective December 31, 2024, the Fox Pest Control 401(k) Plan was merged into the Plan. In connection with the merger, plan assets of \$6,160,429 were transferred to the Plan and are reflected as “Transfers from plan merger” on the statement of changes in net assets available for benefits.

Eligibility

Most employees are eligible to make employee contributions to the Plan on the first day of the calendar quarter that coincides with or next follows the date on which they complete three months of service. Generally, participants are eligible to receive matching contributions at the same time they are eligible to make employee contributions to the Plan.

The Company may establish different eligibility requirements and enrollment procedures with respect to employees who are employed as a result of a corporate transaction.

Contributions

Contributions to the Plan include (i) salary reduction contributions authorized by participants, (ii) matching contributions made by the Company, (iii) discretionary contributions made by the Company; and (iv) participant rollovers from another qualified plan. Participants have the option to make Roth elective salary reduction contributions to the plan.

Eligible employees are automatically enrolled in the Plan, and pre-tax contributions are withheld at 3% of eligible compensation (4% effective January 1, 2025) unless the employee elects differently. Participants may contribute from 1% to 75% of their compensation to the Plan via payroll deductions, except for highly compensated employees who may contribute from 1% to 8.5% of their compensation. Contributions by participants are not to exceed the annual maximum limitations of the Code, which for 2024 was \$23,000. Participants age 50 or older may also make additional “catch-up” contributions limited to \$7,500 in 2024.

Generally, the Company matches contributions dollar for dollar on the first 3% and 50 cents for every dollar on the next 3% a participant contributes of eligible compensation. The Company matching contribution is made every payroll period, and following each Plan year, the Company will make a “true-up” matching contribution calculated under the same formula as the payroll period match but determined on an annual basis and reduced by the payroll period matching contributions received by the participant during the year. To be eligible for a true-up matching contribution, a participant must be employed on the last day of the year or be receiving severance and not designated on the payroll system as having been terminated as of the last day of the Plan year.

For the year ended December 31, 2024, the Company contributed \$32,565,274 in matching contributions, net of forfeitures.

Participant Accounts

Individual accounts are maintained for each participant of the Plan. Each participant’s account is credited with the participant’s contributions, rollovers, the Company’s contributions and earnings on the investments in their account and is charged with certain administrative expenses, participant withdrawals and losses on the investments in their account. Participants direct the investment of their contributions and the Company’s contribution into various investment options offered by the Plan. Participants may change their investment options on a daily basis. The default investment fund is selected by the Plan administrator. The Plan administrator has elected GoalMaker (an asset allocation model based on the participant’s expected retirement date which includes various fund options offered by the Plan) as the default investment option. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Notes Receivable from Participants

Participants may borrow from their accounts for loans up to the lesser of 50% of the individual participant’s vested account balance of employee contributions plus actual earnings thereon or \$50,000. Principal and interest are paid ratably through payroll deductions. Loan terms range from 1 to 25 years. Participant loans are secured by the balance in the participant’s account and bear interest at a rate equal to prime plus 2%. Interest rates are updated quarterly. The update takes place on the last business day of the calendar quarter effective for loans made on or after the first business day of the subsequent quarter. Interest rates on outstanding loans as of December 31, 2024 ranged from 3.22% to 10.50%. Participants may only have one loan outstanding at a time.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Participants who previously participated in predecessor plans may be subject to different vesting schedules than those outlined below. Generally, active participants currently vest in Company matching contributions plus actual earnings thereon based on the following schedule:

	<u>Vested Percentage</u>
Years of service:	
Less than one	0 %
One, but less than two	20 %
Two, but less than three	40 %
Three, but less than four	60 %
Four, but less than five	80 %
Five or more	100 %

Forfeitures

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeited non-vested accounts are used to reduce employer contributions or to pay administrative expenses. Total forfeitures used to reduce employer contributions were \$2,884,589 in 2024. Forfeited non-vested, unallocated accounts were \$47,050 and \$62,022 at December 31, 2024 and 2023, respectively.

Payment of Benefits

Upon retirement, death, total and permanent disability, or termination for any reason, the participant or their beneficiary may receive the total value of their vested account in either a lump sum distribution, a rollover of assets into another qualified plan, or in systematic distributions.

A participant may also elect to withdraw all or a portion of his or her account at any time through hardship provisions as defined by the Code and subject to approval by the Company.

The Plan provides that if an employee terminates employment and their vested account balance in the Plan is more than \$1,000 but not more than \$5,000 (\$7,000 effective October 1, 2024), and they do not elect either to receive or roll over a single lump-sum payment, their account will be rolled over into an Individual Retirement Account ("IRA").

Participants who are active employees may withdraw all or a part of their accounts, including the Company matching contributions, upon reaching age 59 1/2 or upon becoming disabled.

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan or the Plan sponsor, as provided in the Plan document. All investment transaction fees and recordkeeping fees are paid by participants through a per-participant charge. Advisory, audit and other fees not covered by the per-participant charge are paid with revenue-sharing amounts, with any excess amounts returned to the Plan to pay for Plan expenses. The Company paid all other administrative expenses of the Plan during 2024. The Company does not expect reimbursement from the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States.

Investments held by a defined contribution plan are required to be reported at fair value, except for the fully benefit-responsive investment contract. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to the fully benefit-responsive investment contract because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in those assets and liabilities, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's administrative committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are carried at their unpaid principal balance. Interest income is recognized when received, primarily per pay period. Participant notes receivable that are 90 days past due are considered delinquent and recorded as distributions based on the terms of the Plan agreement.

Payment of Benefits

Benefit payments are recorded when paid. There is no hold period for participants who elect to withdraw from the Plan to receive their funds. There were no participants, who elected to withdraw from the Plan, but had not yet been paid at December 31, 2024.

Risks and Uncertainties

The Plan provides various investment options to its participants. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the value of the participants' account balances and the amounts reported in the financial statements.

Concentrations of Investments

Included in investments at December 31, 2024 and 2023, are shares of the Company's common stock of \$317,549,115 and \$337,911,434, respectively. This investment represents 28 percent and 31 percent of total investments at December 31, 2024 and 2023, respectively. A significant decline in the market value of the Company's stock would significantly affect the net assets available for benefits. The Plan's exposure to credit risk and additional market risk is limited by the diversification of investments across multiple participant-directed fund elections, which are further diversified into varied financial instruments.

Subsequent Events

The Plan has evaluated subsequent events through the date of the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1	Quoted prices in active markets that the Plan has ability to access for identical assets or liabilities
Level 2	Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
Level 3	Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Asset Valuation Techniques - Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following describes the valuation methodologies used for assets measured at fair value:

Mutual funds and common stock – These investments consist of various publicly-traded mutual funds and the Company's common stock. These investments are valued at the closing price reported on the active market on which the individual securities are traded.

Pooled separate accounts – As of December 31, 2024, these investments were valued by using the net asset value of the funds at year-end as a practical expedient. The net asset value (NAV) is not a publicly-quoted price in an active market and is determined based upon the fair value of the underlying investments. The accounts have no unfunded commitment and redemption restrictions as participant transactions may occur daily. As of December 31, 2023, these investments were traded and valued daily using their NAV at levels 1 and 2.

Fair value information for investments that are measured on a recurring basis was as follows at December 31, 2024 and 2023:

Fair Value Measurements at December 31, 2024				
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 414,659,871	\$ —	\$ —	\$ 414,659,871
Rollins Inc. Common Stock	317,549,115	—	—	317,549,115
Total investments in fair value hierarchy	732,208,986	—	—	732,208,986
Investments measured at net asset value ⁽¹⁾⁽²⁾				231,347,799
Total Investments, at fair value				<u>\$ 963,556,785</u>

⁽¹⁾ In accordance with ASC 820-10, investments that were measured at net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

⁽²⁾ The Capital Group EuroPacific Growth Pooled Separate Account wholly invests in the Capital Group EuroPacific Growth Trust, a common collective trust, which aims to provide long-term growth of capital by investing in attractively valued companies in developed and emerging markets that are positioned to benefit from innovation, economic growth, increasing consumer demand, or a turnaround in business conditions. Other pooled separate accounts are direct filing entities.

Fair Value Measurements at December 31, 2023				
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 388,139,785	\$ —	\$ —	\$ 388,139,785
Pooled Separate Accounts	136,703,732	68,824,951	—	205,528,683
Rollins Inc. Common Stock	337,911,434	—	—	337,911,434
Total Investments, at fair value	862,754,951	68,824,951	—	931,579,902

4. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan holds a synthetic guaranteed investment contract (“GIC”), which meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan.

Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses.

The synthetic GIC is a wrapper contract paired with underlying investments which are owned by the Plan. The underlying investment consists of a common collective trust fund, which invests in high-quality, intermediate fixed income securities. The wrapper contract represents an agreement for the wrap issuer, such as a bank or insurance company, to make payments to the Plan in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Plan and provides a guarantee that the credit rate will not fall below 0%. Cash flow volatility (for example, timing of benefit payments) as well as asset

underperformance can be passed through to the Plan through adjustments to future contract crediting rates. Formulas are provided in the contract using an explicit formula that adjusts renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets. Crediting rates are reviewed semi annually for resetting. The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contract is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

There are no reserves against the contract value for credit risk.

Certain events, such as Plan termination, Plan merger, failure of the Plan to maintain tax- exempt status, or material breach of contract, might limit the ability of the Plan to transact at contract value with the contract issuer or allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the Plan participants.

The synthetic GIC is directly managed by Empower Annuity Insurance Company (EAIC).

5. FEDERAL INCOME TAX STATUS

The Plan obtained its latest determination letter on February 17, 2016, in which the Internal Revenue Service ("IRS") determined that the Plan's terms at the time of the determination letter application were in compliance with applicable requirements of the IRC and therefore, is exempt from taxation. In December 2016, the IRS began publishing a Required Amendments List ("List") for individually designed plans that specifies changes in qualification requirements. The List is published annually and requires plans to be amended for each item on the List, as applicable, to retain their tax exempt status. The Plan has been amended since receiving the determination letter, however, the Plan administrator believes the Plan is currently designed and being operated in compliance with applicable requirements of the IRC. Therefore, no provision of income taxes has been included in the Plan's financial statements.

6. RELATED PARTY TRANSACTIONS AND EXEMPT PARTY-IN-INTEREST TRANSACTIONS

At December 31, 2024 the Plan held approximately 6.8 million shares of Rollins, Inc. common stock; whereas at December 31, 2023 the Plan held approximately 7.7 million shares of Rollins, Inc. common stock. The fair value of the Plan's investment in Rollins, Inc. common stock at December 31, 2024 and 2023 was \$317,549,115 and \$337,911,434, respectively. During 2024, the Plan received approximately \$4,450,242 in dividends on Rollins, Inc. common stock, which was used to purchase additional shares of that stock.

At December 31, 2024 and 2023, the Plan investments include a synthetic GIC that is directly managed by EAIC, a service provider for the Plan. Additionally, at December 31, 2024 and 2023, the Plan investments include pooled separate accounts that are directly managed by EAIC. Transactions in these securities qualify as party-in-interest transactions.

The Plan also issues loans to participants, which are secured by the vested balances in the participants' accounts.

The administrative expenses that are paid to service providers of the Plan represent party-in-interest transactions.
