Independent Auditors' Report

To the Plan Participants and Plan Administrator
The Pension Plan for Employees of KBC Bank N.V., New York Branch:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of The Pension Plan for Employees of KBC Bank N.V., New York Branch (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2024 and for the year then ended, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. generally accepted accounting principles.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, line 4j - Schedule of Reportable Transactions for the year ended December 31, 2024 and Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditors' Report on the 2023 Financial Statements

Other auditors performed an audit of the 2023 financial statements of The Pension Plan for Employees of KBC Bank N.V., New York Branch. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated October 17, 2024 indicated that (a) the amounts and disclosures in the 2023 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2023 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2023 supplemental

schedules, other than the information in the 2023 supplemental schedules that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2023 supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

The Pension Plan for Employees of KBC Bank N.V., New York Branch

Notes to Financial Statements

December 31, 2024

1. Description of the Plan

The following description of the Pension Plan for Employees of KBC Bank N.V., New York Branch (the “Plan”) provides only summary information. Participants should refer to the restated plan document dated August 1, 2023 for a more complete description of the Plan’s provisions.

General

The Plan is a non-contributory defined benefit plan. All United States (“U.S.”) employees (except those who are covered by a pension plan maintained by KBC Bank outside of the U.S. of KBC Bank N.V., New York Branch (the “Bank” or “Employer”), or who were hired after June 30, 2017), are included in the Plan upon completion of one year of employment and attainment of age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The trustee of the Plan is Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company.

KBC Bank, New York Branch also known as (“KBC”, “Plan Sponsor” or the Plan Administrator”) administers the Plan. The Plan Administrator, with respect to the investment of the Plan assets and other matters, is the Retirement Committee of the Employer, whose members are also employees of the Bank. The Retirement Committee has the authority to direct Principal Trust Company to invest in specific investments, which under the terms of the annuity contract, may be made only upon written direction of the Retirement Committee or which are made in accordance with the specific provisions of the Plan.

Effective June 30, 2017, the Plan was amended to freeze entry into the Plan. After June 30, 2017, no employee who was hired or rehired after that date or was not eligible as of such date may join or rejoin the Plan as an active participant. Existing participants prior to that date continue to accrue benefits.

Effective August 1, 2023, the Plan was amended to add a single sum payment option to the participant in lieu of all other benefits under this plan from his/her Accrued Benefit.

Principal Life Insurance Company is the Recordkeeper and Principal Trust Company is the Custodian of the Plan.

1. Description of the Plan (continued)

Contributions

The Bank contributes such amounts as are calculated on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to participants. The amount of annual contributions to the Plan is determined by actuarial calculations and based on updated annual census data provided by the Bank. The Bank made a contribution to the Plan in the amount of \$7,570,253 for the year ended December 31, 2024. The Plan has met the ERISA minimum funding requirements for 2024.

Vesting

Benefits are fully vested after completion of 5 years of service and amount to 1.4% of the participant's annual average compensation up to covered compensation, as defined in the Plan document plus 1.94% of the participant's annual average compensation in excess of covered compensation multiplied by the number of years of vesting service up to 25 years. Certain limits apply to compensation of employees hired after January 1, 2007 and should not exceed \$210,000. Normal retirement age is 65, but the Plan permits early retirement at ages 55 to 64 after completion of at least 5 years of service.

Payment of Benefits

The normal form of benefit paid under the Plan is a 10-year certain and continuing annuity for unmarried participants and a qualified joint survivor annuity for married participants. The participants' vested benefits are subject to reductions based on an early retirement date.

If a vested participant dies, his or her spouse will be entitled to a death benefit under a 50% survivor form. If a retiree under this plan dies, his or her spouse may become a survivor annuitant depending on the type of annuity that was elected by the retiree.

Investments

Principal Trust Company manages the assets within the annuity contract that consists of pooled separate accounts pursuant to the terms of a group annuity contract effective December 1, 2007.

Lord Abbett, BlackRock and American Funds manage the assets within their respective mutual funds.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States ("U.S. GAAP").

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates that affect the reported amounts in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Investment Valuation

The Plan's investments are recorded at fair value as follows:

Shares of Registered Investment Companies (i.e. mutual funds) – Shares of registered investment companies are valued at the quoted net asset values on the last business day of the Plan year.

Pooled Separate Accounts – Pooled separate accounts are valued at the close of the business day based on its closing unit value, which is based on the fair value of the underlying investments held by the account. The value of the account is expressed in units. The unit value is the dollar value of one unit and is determined at the close of each business day by dividing the fair value of each account's portfolio of underlying investments and other assets less liabilities, by the total number of units in the account. Pooled separate accounts can be redeemed on a daily basis.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recognized on the ex-dividend date. Net realized and unrealized gain (loss) on investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded when paid.

3. Income Tax Status

The Plan and the related trust established under the Plan are qualified under the appropriate sections of the Internal Revenue Code and the related trust is intended to continue as a qualified trust and remain exempt from taxation. The appropriate versions of the Plan and the related trust documents have been filed with the Internal Revenue Service for a determination letter, and the Plan received a determination letter on November 1, 2013. Subsequent to this determination by the Internal Revenue Service, the Plan was restated effective January 1, 2019 to the Principal Financial Group Defined Benefit Volume Submitter Plan, which received a determination letter on February 28, 2023. The Plan continues to operate in accordance with the terms of the Plan document, as amended, and in accordance with the determination letter dated March 30, 2018, in a manner that does not jeopardize its tax status. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance

3. Income Tax Status (continued)

with the applicable requirements of the Code and, therefore, believes that the Plan, as amended and/or restated, is qualified and the related trust is tax exempt.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024 and 2023, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments that are attributable under the Plan's provisions to services rendered by the employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) terminated employees or their beneficiaries, (b) present employees or their beneficiaries, (c) retired employees or their beneficiaries and (d) beneficiaries of deceased employees. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable, to employee service rendered as of the valuation date. The most recent actuarial valuation was performed as of January 1, 2025. Had the actuarial valuation been performed as of December 31, 2024, the results would not be materially different.

The following is a summary of the actuarial present value of accumulated plan benefits:

	December 31	
	2024	2023
Vested benefits		
Vested, receiving payments	\$ 24,675,563	\$ 23,103,240
Other vested benefits	23,337,328	23,840,881
Total vested benefits	\$ 48,012,891	\$ 46,944,121
Non-vested benefits	-	-
Total actuarial present value of accumulated plan benefits	\$ 48,012,891	\$ 46,944,121

4. Actuarial Present Value of Accumulated Plan Benefits (continued)

The changes in the actuarial present value of the Plan's accumulated plan benefits are as follows:

	Year Ended December 31, 2024
Actuarial present value of accumulated plan benefits at beginning of year	\$ 46,944,121
Increase for interest due to decrease in the discount period	2,599,946
Benefits paid	(3,504,333)
Benefits accumulated and plan experience	834,963
Change in Assumptions	1,138,194
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 48,012,891</u>

The actuarial present value of accumulated plan benefits is determined by an actuary from Principal Life Insurance Company and is that amount that results from applying actuarial assumptions to adjust accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

4. Actuarial Present Value of Accumulated Plan Benefits (continued)

The more significant assumptions underlying the actuarial computations as of December 31, 2024 and 2023 are as follows:

Accumulated plan benefits valuation interest rate	5.50% as of December 31, 2024 5.75% as of December 31, 2023
Mortality basis	In 2024, based on Pri-2012 white collar base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2024). In 2023, based on Pri-2012 white collar base rate mortality table projected generationally using the Principal Mortality Improvement Scale (Principal 2023).
Retirement	Age 65

The above actuarial assumptions are based on the presumption that the Plan will continue. If the Plan was to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

5. Administrative Expenses

Principal Life Insurance Company deducts investment advisory services charges from the Plan's investments.

Other administrative expenses are paid by the Employer. In addition, the Plan receives services from the Employer at no charge.

6. Related-Party Transactions

Plan investments are managed by Principal Life Insurance Company, and, therefore, it is a party-in-interest. During the year ended December 31, 2024, Principal Life Insurance Company received contract administrator fees of \$101,496. Other administrative expenses are paid by the Employer. In addition, the Plan receives services from the Employer at no charge.

7. Plan Termination

Although it has not expressed any intent to do so, the Bank has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated among the participants and beneficiaries in the order prescribed by ERISA and its related regulations. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (“PBGC”) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors’ pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefits protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination subject to a statutory ceiling, which is adjusted periodically, on the amount of an individual’s monthly benefits that PBGC guarantees. Whether all participants would receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor, the Bank, and the level of benefits guaranteed by the PBGC.

8. Information Certified by Principal Trust Company

The investment balances and investment related activity, included on the Statements of Net Assets Available for Benefits, the Statement of Changes in Net Assets Available for Benefits, Notes to the Financial Statements and the Supplemental Schedules have been certified by Principal Trust Company in accordance with 29 CFR 2520.103-8(c) of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

9. Fair Value Measurement

Accounting Standards Codification (ASC) 820, Fair Value Measurement, as issued by Financial Accounting Standards Board (FASB), provides a consistent definition of fair value which focuses on exit price, the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 also prioritizes, within the measurement of fair value, the use of market-based information over entity specific

9. Fair Value Measurement (continued)

information and establishes a three-level hierarchy for fair value measurements based on the observability of the inputs used in the valuation of an asset or liability as of the measurement date.

- Level 1 – quoted prices (unadjusted) for identical assets or liabilities in active markets.
- Level 2 – inputs other than quoted price included within Level 1 that are observable for valuing the asset or liability, either directly or indirectly. Observable inputs include quoted price for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market observable inputs.
- Level 3 – significant unobservable inputs including financial instruments for which there may be little or no market activity.

The inputs or methodology used for valuing assets are not necessarily an indication of the risk associated with investing in those assets. The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following table presents the assets carried at fair value based on the ASC 820 valuation hierarchy:

Investments	December 31, 2024			
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$1,419,223	-	-	\$1,419,223
Pooled Separate Accounts	49,258,788	-	-	49,258,788
Total investments at fair value	\$50,678,011	-	-	\$50,678,011

Investments	December 31, 2023			
	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 964,951	-	-	\$ 964,951
	\$ 964,951	-	-	\$ 964,951

Investments measured at net asset value:

Pooled Separate Accounts	\$ 44,558,800
Total investments at fair value	\$ 45,523,751

9. Fair Value Measurement (continued)

During 2024, Plan management re-evaluated the fair value hierarchy classification of the investment in the Pooled Separate Accounts. Plan management determined the investment structure has a readily determinable fair value, and classified the investment as such in the disclosure. The 2023 comparative data has not been modified and these positions remain recorded as NAV as a practical expedient. Plan management determined this is immaterial to the 2023 financial statements and it does not affect the net assets available for benefits or the change in net assets available for benefits.

Other than as described above, there were no transfers between levels during the years ended December 31, 2023 and 2024.

10. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The Plan invests in various investments. In general, these investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in investment risks in the near term would materially affect the amounts reported in the statements of net assets available for benefits.

11. Subsequent Events

The Plan's Administrator has evaluated and states that there are no material subsequent events through April 27, 2026, the date the financial statements were available to be issued.

Assumptions prescribed by law

Mortality	Before benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female. During benefit payment period IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.
-----------	---

Assumptions selected by actuary

Inflation	2.40% increase per year. Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.
Asset return	6.00% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets. This is the best estimate available of upcoming year's expenses.
Retirement	Active and inactive participants are assumed to retire at normal retirement age as defined in Plan provisions. This assumption is based on the results of recent experience analysis and anticipated future experience.
Upcoming year salary increase	The preceding year's salary is increased by 4.50% at each age. Note: not used for Plan accounting calculations. Expected salary increase is composed of salary inflation, a real wage growth and a merit increase. This reflects company salary increase philosophies along with more recent experience of the plan participants.
Disability	None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.
Marriage	100% married; husbands are 3 years older than wives. This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

Withdrawal	2003 Society of Actuaries Small Plan Age Table, multiplied by 1.00. We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.00 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.
Wage base increase	3.50% per year. Our Wage Base increase assumption are based on inflation and the real wage differential forecast from Social Security Trustee Report. Based on average annual real wage growth forecast from the Social Security Trustee report and historical averages, our best estimate places this assumption at 3.50%.
Form of benefit	50% of active participants will elect a benefit paid in a lump sum at the assumed retirement ages. The remaining active participants will elect a monthly annuity on the normal form at the assumed retirement ages. 50% of active participants who terminate before the earliest assumed retirement age are assumed to receive a single sum paid immediately. Participants who are already terminated on the valuation date are assumed to receive their benefit on the normal form at the assumed retirement ages. This assumption is based on anticipated future experience.
Methods prescribed by law	
Liability measure	Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Benefit accrual	All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target. The portion based on the plan's definition of accrued benefit. The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement. The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.

Methods selected by plan sponsor

Asset method The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates 24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. You elected this Standard interest method for the 01/01/2024 plan year and the method must be used for five years before a change can be made.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
5.01%	5.13%	5.15%

Methods elected by actuary

Retirees Assets and liabilities for current and future retirees are included.

Vested benefits A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality Based on Pri-2012 white collar base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2023).

Mortality base rates

Before benefit payment period
Employee amount-weighted, male and female

During benefit payment period
Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The White collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement Principal 2023 MI scale is based on MIM-2021-v4 application tool issued by SOA in October 2023 with the following parameters:

Parameter	Principal 2023
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2029/2029
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2023
COVID-19 or Excess load	None ¹

¹Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments. See [Mortality documentation](#) for rationale and additional information.

EIN 52-2100337 Plan No. 003

Interest rate used to value liabilities	5.75% The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.
Treatment of administrative expenses	No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses. Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer. Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.
Basis for lump sums	Interest rate Based on the three segment yield curve: 3.55%/3.95%/4.95% The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.55%/3.95%/4.95%. For details, see Corporate AA yield in Table 3 of Long-Term Capital Market Assumptions link. Mortality IRS Prescribed lump sum mortality for 2024. Future years are projected to decrement date with SOA mortality improvement scale MP-2021 as adjusted by the IRS Document Number 2023-23267. This assumption reflects current law as provided by the IRS.

The market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF. Schedule H, Schedule I and Form 5500-SF use the full value of contributions received after plan year end. Line 2a includes the value of \$1,088,936 contributions received after the plan year end with a discounted value of \$1,055,624.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
 The Pension Plan for Employees of KBC Bank N. V., New York Branch
 EIN 52-2100337 Plan No. 003

Active participants are expected to retire at the plan’s assumed retirement age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

Schedule SB, Part V - Summary of Plan Provisions
The Pension Plan for Employees of KBC Bank N. V., New York Branch
EIN 52-2100337 Plan No. 003

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed 12/31/2019 through amendment #1 signed 5/19/2023.

Plan eligibility

Age	Attained age 21.
Service	1,000 hours of service.
Entry date	The entry date for an eligible employee is the earliest monthly date on which he meets all the entry requirements. Entry into the plan was frozen effective June 30, 2017.

Normal retirement benefit

Age	Attained age 65.
Form	Monthly annuity payable for 10 years certain and life thereafter (qualified joint and survivor annuity for married participants not electing otherwise).
Amount (accrued benefit)	The product of a) and b) below: a) 1.4% of average compensation up to the integration level, plus 1.94% of average compensation in excess of the integration level, multiplied by credited service. b) Accrual Service (maximum 25 years). The monthly accrued benefit shall not be less than the accrued benefit under the plan as of January 1, 2006. The monthly accrued benefit shall not be less than \$100.

Early retirement benefit

Age	Attained age 55.
Service	5 years of vesting service.
Form	Same as normal retirement benefit.
Amount	Accrued benefit on early retirement date reduced by 6 2/3% for each year up to five and 3 1/3% for each year between five and ten that the early retirement date precedes normal retirement date.

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on late retirement date or accrued benefit on normal retirement date actuarially increased to late retirement date.

Termination benefit

Vesting percentage	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Death benefit

Eligibility	Qualified married participant fully or partially vested in an accrued benefit.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs before the participant's earliest retirement date, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day. If death occurs after the participant's earliest retirement date, the spouse is entitled to a monthly life annuity equal to the benefit which would have been payable had the participant retired. The plan also provides a similar death benefit for participants not eligible for the QPSA.

Definitions

Average compensation

The monthly average of compensation received for the latest 5 years. Compensation is limited to \$210,000 annually.

Integration level

The monthly average of the social security taxable wage bases (in effect under section 203 of the social security act) for each year in the 35-year period ending with the year the employee attains social security retirement age.

Optional forms of benefit payments

The optional forms of benefit payments are:

- Monthly annuity payable for life or 10 years certain and life.
- A straight life annuity.
- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50 and 75.
- Single sum payment equal to the present value of the retirement benefit.

The optional form conversion basis is 7.0% interest and the UP84 mortality table (3 year setback for beneficiaries) for payments other than lump sums. The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the third calendar month preceding the first day of the stability period which is the plan year.

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Schedule SB, Line 25 – Change in Method

The Pension Plan for Employees of KBC Bank N. V., New York Branch

EIN 52-2100337 Plan No. 003

The Employee Retirement Income Security Act of 1974, Section 103(c)(4), requires the plan administrator to furnish an explanation of a change in the enrolled actuary as part of the annual report. There was a change in enrolled actuaries since last year. The actuarial valuation work continues to be done by Principal Life Insurance Company. However, the individual involved with this plan as the enrolled actuary has changed due to a change in the plan assignment among enrolled actuaries at Principal Life Insurance Company.

Schedule SB, Line 24 – Change in Actuarial Assumptions
The Pension Plan for Employees of KBC Bank N. V., New York Branch
EIN 52-2100337 Plan No. 003

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The form of benefit and basis was updated to include a 50% lump sum assumption.

The assumed asset return for the current year has decreased from 6.25% to 6.00%. This rate is used in the calculation of the actuarial value of plan assets.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
