Independent Auditor's Report

Board of Trustees
NAHS Employee Stock Ownership Plan
Mission Viego, California

Opinion on the 2024 Financial Statements
We have audited the financial statements of NAHS Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statement of net assets available for benefits as of December 31, 2024, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of NAHS Employee Stock Ownership Plan as of December 31, 2024, and the changes in net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Basis for Opinion on the 2024 Financial Statements
We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of NAHS Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2024 Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about NAHS Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 Financial Statements
Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

"Wipfli" is the brand name under which Wipfli LLP and Wipfli Advisory LLC and its respective subsidiary entities provide professional services. Wipfli LLP and Wipfli Advisory LLC (and its respective subsidiary entities) practice in an alternative practice structure in accordance with the AICPA Code of Professional Conduct and applicable law, regulations, and professional standards. Wipfli LLP is a licensed independent CPA firm that provides attest services to its clients, and Wipfli Advisory LLC provides tax and business consulting services to its clients. Wipfli Advisory LLC and its subsidiary entities are not licensed CPA firms.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of NAHS Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about NAHS Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2024 Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024, is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

2023 Financial Statements

The financial statements of NAHS Employee Stock Ownership Plan as of December 31, 2023, were audited by other auditors whose report dated March 14, 2025 expressed an unmodified opinion on those statements.

NAHS Employee Stock Ownership Plan
Notes to Financial Statements

Note 1: Description of Plan

The following description of the NAHS Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, which was established on June 29, 2018, is a leveraged employee stock ownership plan, which is designed to provide eligible employees the opportunity to participate in ownership of their employer. NAHS Holding, Inc. (the "Company") is the Sponsor of the Plan. The Plan is intended to satisfy the requirements of an Employee Stock Ownership Plan, as defined under Section 4975(e)(7) of the Internal Revenue Code ("IRC"), and as a stock bonus plan under Section 401(a) of the IRC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

The Plan purchased Company common shares using proceeds from borrowings from the Company (Note 5) and holds the stock in a trust established under the Plan. As the Plan makes each loan payment, an appropriate percentage of stock is allocated to eligible participants' accounts in accordance with applicable regulations under the IRC.

The borrowings are collateralized by the unallocated shares of stock and are guaranteed by the Company. The lender has no rights against shares once they are allocated under the Plan. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of participants with vested rights in allocated stock ("allocated"), and (b) common stock not yet allocated to participants ("unallocated").

Plan Administration

The Company's Board of Directors serves as fiduciary of the Plan and has the responsibility to appoint, monitor, and oversee the Plan Trustee. An independent third party, David Williams of Argent Trust Company, serves as Trustee and custodian of the Plan's assets. The Trustee oversees the valuation process and the accounting of the Plan's transactions pertaining to the accounts of participants with vested rights in allocated and unallocated stock. Blue Ridge Associates is the recordkeeper of the Plan.

Eligibility

Substantially all employees of the Company are eligible to participate in the Plan upon reaching age 21 and completing one year of employment, as defined in the Plan document. An employee who is eligible becomes a participant on the first day of the Plan year following attainment of the above requirements.

Contributions

The Company is obligated to make contributions in cash to the Plan equal to the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loans. The payment of debt releases a pro rata number of shares based on the interest and principal paid in the current year as a percentage of total required interest and principal payments during the entire term of the loans. The Company remits contributions to the Plan annually.

Note 1: Description of Plan (Continued)

Contributions (Continued)

Participants eligible to receive an allocation of the Company's common stock and, if applicable, discretionary cash or stock contributions for any Plan year shall include only those participants who are eligible employees on the last day of the Plan year and have completed 1,000 hours of service during the Plan year.

The Company is allowed to make additional discretionary contributions to the Plan in cash or Company common stock. A discretionary cash contribution of $994,631 was made during 2024.

Participant contributions are not permitted.

Participant Accounts

Each participant's employee stock ownership account is credited as of the last day of each plan year with an allocation of shares of the Plan's common stock released by the Trustee from the unallocated account, forfeitures, plan earnings or losses, and the Plan's discretionary cash contributions, if any. Allocations are based on a uniform percentage of allowable compensation. The benefit to which a participant is entitled is the participant's vested account balance.

Vesting

Vesting in Company common stock is based on the number of years of credited service. Participants vest at a rate of 20% each year beginning with the second year of credited service and become fully vested after six years of credited service.

Participants are considered to have completed one year of service for purpose of vesting upon the completion of 1,000 hours of service at any time during a calendar year. Forfeiture of a participant balance occurs at the earlier of (a) the participant taking a distribution and is less than 100% vested, or (b) the last day of the Plan year in which the participant incurs five consecutive one-year breaks in service.

If participants terminate due to normal retirement (age 65), death or disability, as defined by the Plan document, they become 100% vested in their entire balance as of their termination date.

Forfeitures

Forfeitures are portions of participant account balances that participants surrender by terminating employment prior to becoming fully vested. The forfeitures are allocated to the remaining participants based on the participants' annual compensation relative to the annual compensation of all Plan participants. Forfeitures of terminated nonvested account balances allocated to remaining participants totaled $200,320 for the year ended December 31, 2024. There were no unallocated forfeitures at December 31, 2024 or 2023.

Note 1: Description of Plan (Continued)

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant or a participant's beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in the form of cash. The payments may be made in either a lump-sum amount or in substantially equal annual installments generally over a period not to exceed five years. A special rule may spread the distribution of the Company Stock in the account of participants with large account balances over a longer period of time. Force-out payments are also made to participants who have separated from service and have a balance less than $5,000.

Administrative Expenses

Administrative expenses of the Plan are generally paid by the Company.

Voting Rights

The Company common stock held in the Plan will be voted by the Trustee. However, participants are entitled to direct the Trustee on how to vote the shares of Company common stock allocated to their account with respect to approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all of the assets of a trade or business. If a participant does not notify the Trustee of how they would like their shares of Company common stock to be voted with respect to any of the transactions described above, those shares will be voted at the discretion of the Trustee.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Employee Benefits Administration Committee directs the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

Put Option

Under federal income tax regulations, the Company's common stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Note 1: Description of Plan (Continued)

Diversification

Diversification is offered to participants who are at least 55 years old and have participated in the Plan for at least 10 years (a "Qualified Participant") so they have the opportunity to allocate part of the value of their investment in the Company's stock into other investments. During each of the first five years of eligible diversification, participants may elect to receive a cash distribution of up to 25% of the total number of shares in Company stock that have been allocated to the participant during the qualified election period (reduced by the number of shares of Company stock previously distributed in cash pursuant to a prior election). In the sixth year of eligible diversification, the percentage of shares that can be distributed increases to 50%. There were no diversifications during the year ended December 31, 2024.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

The financial statements include NAHS Holding, Inc. common stock whose value has been estimated by an independent valuation specialist in the absence of a readily ascertainable market value. Because of the inherent subjectivity in any valuation, the estimated value may differ significantly from the value that would have been used had a readily available market for the securities existed, and the difference could be material.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through May 4, 2026, which is the date the financial statements were available to be issued.

Note 3: Investments

The Plan's investments in Company common stock at December 31 are as follows:

	2024		2023	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	350,138	649,862	300,149	699,851
Acquisition cost	$ 1,182,346	$ 2,194,454	$ 1,013,543	$ 2,363,257
Fair value	6,806,692	12,633,308	1,998,993	4,661,007

Note 4: Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority level; Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1); and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available.

Following is a description of the valuation methodology that is used for assets measured at fair value. There have been no changes in the methodology used as of December 31, 2024 and 2023.

NAHS Holding, Inc. common stock: Shares of NAHS Holding, Inc. common stock are valued at fair value based upon an independent appraisal. This appraisal was based upon an income-based approach, which is an acceptable valuation method. The appraisal took into account historical financial information in estimating the fair value. Additionally, this approach utilized a variety of unobservable inputs such as EBITDA, net income, weighted average cost of capital, discount rate, and discount for lack of marketability. This method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4: Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2024 and 2023. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

	Fair Value of Assets as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Company common stock	$ -	$ -	$ 19,440,000	$ 19,440,000

	Fair Value of Assets as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Company common stock	$ -	$ -	$ 6,660,000	$ 6,660,000

Changes in Fair Value of Level 3 Assets

The table below set forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2024:

Balance, beginning of year	$ 6,660,000
Net appreciation in fair value	12,780,000
Balance, end of year	$ 19,440,000

Note 5: Notes Payable - Related Party

The Plan entered into four term loan agreements. The proceeds of the loans were used to purchase Company common stock. Unallocated shares are collateral for the loans. Payments on the notes are due in annual principal and interest installments of $224,650 and will be repaid through 2037. The loans bear interest at a fixed rate of 3.05%. Interest expense was $77,136 in 2024.

The scheduled amortization of the loans principal for the next five years and thereafter is as follows:

2025	$ 152,014
2026	156,650
2027	161,428
2028	166,351
2029	171,425
Thereafter	1,573,654
Total	$ 2,381,522

Note 6: Related-Party Transactions and Party-in-Interest Transactions

Plan investments are shares of Company common stock. NAHS Holding, Inc. is the Plan sponsor and lender to the Plan, as defined by the plan document and, therefore, these transactions qualify as party-in-interest transactions. These transactions are not prohibited transactions as defined by Department of Labor's regulations.

Except as noted in Note 1 and Note 5, as of December 31, 2024 and 2023, the Plan had no amounts due to or from the Company. There were no shares of the Company's common stock purchased or distributed in 2024.

The Plan held 1,000,000 shares of the Company's common stock at December 31, 2024, and 2023.

Note 7: Tax-Exempt Status of the Plan

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated November 25, 2019, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Note 8: Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in values of common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
