Independent Auditor's Report

To the Trustees and Plan Administrator
Worth Higgins & Associates, Inc.
Employee Stock Ownership Plan
Richmond, Virginia

Opinion

We have audited the financial statements of Worth Higgins & Associates, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Worth Higgins & Associates, Inc. Employee Stock Ownership Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Worth Higgins & Associates, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Worth Higgins & Associates, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Worth Higgins & Associates, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Worth Higgins & Associates, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) for the year ended December 31, 2024, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Worth Higgins & Associates, Inc. Employee Stock Ownership Plan

December 31, 2024 and 2023

Note A - Plan Description

The following description of the Worth Higgins & Associates, Inc. Employee Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan’s provisions.

General

Worth Higgins & Associates, Inc. (the “Company”) established the Plan effective as of July 1, 1999 as a leveraged employee stock ownership plan (ESOP). The Plan is designed to comply with Code 4975(e)(7) and regulations thereunder of the Internal Revenue Code of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA) as amended.

Eligibility

Employees of the Company are generally eligible to participate in the Plan after six months of service providing they have attained 21 years of age. Participants who do not have at least 1,000 hours of service during such plan year or are not employed on the last working day of the plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions

As determined by the Board of Directors of the Company, employer contributions may be paid in cash and/or in Company stock. The amounts of any employer contributions that are paid in the form of Company stock shall be based upon the fair market value of the stock as of the date such shares are contributed to the trust.

Payment of Benefits

If employment ends due to death, disability, or retirement at (or after) age 65, distributions will begin no later than the end of the plan year following the plan year in which employment ends. Distributions for other separations of service commence no later than the end of the sixth plan year following the plan year in which employment ended. Distributions are made in cash, Company stock, or a combination of both, at the time and in a manner determined by the Trustees in their sole discretion. Distributions are paid in a single lump sum or in substantially equal annual installments over a period not longer than five years.

Under the provisions of the Plan, the participant has the option to sell and the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan at prices determined from the annual independent appraisal.

Administrative Expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan and these expenses can be significant.

Worth Higgins & Associates, Inc. Employee Stock Ownership Plan

December 31, 2024 and 2023

Note A - Plan Description - Continued

Voting Rights

All Company stock in the Plan shall generally be voted by the Trustees at the discretion of the plan administrator. However, with respect to certain fundamental corporate matters, each participant may be entitled to exercise voting rights attributable to the shares allocated to his or her account. For decisions requiring participant voting, the Trustees are not permitted to vote any allocated share for which instructions have not been given by a participant. Any unallocated shares will be voted at the direction of the plan administrator on behalf of the collective best interest of plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of the plan year with an allocation of Company stock or cash, as determined by the Board of Directors. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based upon a participant's eligible compensation, relative to total eligible compensation.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the Company contribution balance in his or her account based on total years of service with the Company. Participants vest 20% per year of service, starting with year 2, and are 100% vested after six years of service.

Put Option

Under Federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification will be offered to participants when required by the Plan so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the stock allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify their account receive a cash distribution.

Notes to Financial Statements

Worth Higgins & Associates, Inc. Employee Stock Ownership Plan

December 31, 2024 and 2023

Note A - Plan Description - Continued

Forfeited Accounts

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the plan year. For the plan years ending December, 31, 2024 and 2023, forfeitures of terminated non-vested account balances were purchased and retired by the Company. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances. Forfeitures amounted to \$3,407 for the year ended December 31, 2024.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The shares of Company common stock are valued at estimated fair value. See Note F for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan management has evaluated all subsequent events through October 15, 2025, which is the date these financial statements were available to be issued.

Notes to Financial Statements

Worth Higgins & Associates, Inc. Employee Stock Ownership Plan

December 31, 2024 and 2023

Note C - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company, by a letter dated September 25, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits; however, there are currently no audits for any tax periods in progress.

Note D - Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Employee Benefits Administration Committee should direct the Trustee to pay all liabilities and expenses, if any, of the trust fund and to sell shares of financed common stock held in the loan expense account to the extent it determines such sale to be necessary in order to repay the loan.

Note E - Investment in Worth Higgins & Associates, Inc. Common Stock

The following table presents investments that represent the Plan's investments in Worth Higgins & Associates, Inc. common stock as of:

Note F - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no significant changes in methodologies used as of December 31, 2024.

Common Stock

The fair value of the Company common stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon the income valuation technique. The appraiser took into account historical and projected cash flow, net income, return on assets, return on equity, and estimated fair value of Company assets and liabilities.

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from reviewed financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP trustee, reviews in detail, discusses, and approves.

Note F - Fair Value Measurements - Continued

The selection and oversight of the independent appraiser are the fiduciary responsibility of the Plan's trustees in accordance with the requirements of ERISA Section 404(a)(1). The trustees and Plan management perform an annual review of the appraiser's qualifications, independence, and valuation methodology to ensure that the valuation process is consistent with generally accepted appraisal standards and Department of Labor guidance.

The appraiser engaged by the Plan has represented that it is independent of Worth Higgins & Associates, Inc., the Plan, and any related parties, and that it has no financial interest in the outcome of the valuation. The appraiser is compensated on a fixed-fee basis that is not contingent upon the appraised value of the Company's stock.

The trustees review and approve the valuation report, including the assumptions and conclusions, as part of their fiduciary oversight process each year. Documentation of such review and approval is maintained in the Plan's governance records. The trustees conclude that the valuation prepared by the independent appraiser represents a reasonable estimate of the fair value of the Company's common stock as of the valuation date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:

	Fair Value	Fair Value Measurements at the End of the Reporting Period Using Significant Unobservable Inputs (Level 3)
<u>December 31, 2024</u>		
Company common stock	<u>\$ 4,667,995</u>	<u>\$ 4,667,995</u>
<u>December 31, 2023</u>		
Company common stock	<u>\$ 4,793,486</u>	<u>\$ 4,793,486</u>

Level 3 Fair Value Measurements

The fair value of the Company common stock is based on an annual independent appraisal. The appraisal was based on a combination of the market, income and asset valuation approaches consistent with prior years. The appraiser took into account historical and projected cash flows and net earnings, weighted average cost of capital, market comparables, and applicable discounts and premiums.

The Company's Board of Directors determines the fair value measurement policies and procedures in consultation with the Company's chief financial officer.

Level 3 Fair Value Measurements – Continued

Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in fair market value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The following table provides the quantitative information about level 3 fair value measurements at December 31, 2024:

Asset	Fair Value	Valuation Technique	Unobservable Input	Significant Rates Applied

Level 3 Fair Value Measurements - Continued

The following table reconciles the beginning and ending balances of fair value measurements using significant unobservable inputs (level 3) of the investments in common stock for the year ended December 31, 2024:

Beginning balance	\$	4,793,486
Stock purchase		353,906
Unrealized loss relating to assets still held at the reporting date		(140,223)
Distributions and diversifications, net		<u>(339,174)</u>
Ending Balance	\$	<u><u>4,667,995</u></u>

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2024, are reported in the net unrealized appreciation in fair value of investments.

The Plan's policy is to recognize transfers into and out of level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2024, there were no significant transfers into or out of level 3.

Note G - Related Party and Party-In-Interest Transactions

The Plan invests in Company common stock, which is a related party transaction. As described in Notes A and H, the Plan has a number of service providers. Such parties are parties-in-interest under ERISA.

Note H - Administration of Plan Assets

The Plan's assets, which consist primarily of Company common stock, are held by the Trustee of the Plan. The Plan's bookkeeping is done by a third party administrator, Principal Financial Group.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses are paid directly by the Plan.

Note I - Risks and Uncertainties

The Plan's assets are invested in Company stock. Investments are exposed to concentration of credit risk due to the large amount of funds invested in Company stock. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
