Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **HENDERSON HUTCHERSON & MCCULLOUGH**

(2) EIN: **62-1114363**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☒ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

Re: Case Number 25-1006D

Dear Mr. Irizarry,

On behalf of Baker Tilly Advisory Group Parent, LP (EIN: 39-0859910) (the “Company”), and per your requests, I have enclosed updated financial statements for the 2023 plan year, beginning June 1, 2023, and ending May 31, 2024, for the 2023 Form 5500 Annual Return for the Baker Tilly Advisory Group Parent, LP Market Based Cash Balance Plan (the “Plan”). As you can see, these statements now contain information regarding the net assets of the Plan for the plan year ending May 31, 2023, and additional information regarding the description of Participant Eligibility under Note 1.

Once the Company has confirmation that this enclosure satisfies your queries, we will update the Plan filing for the 2023 Form 5500 to include it.

If you have any questions, please do not hesitate to contact me by email (imorris@foley.com), fax (414.297.4900), or phone (414.297.4973).

Sincerely,

Isaac Morris

To the Advisory Committee of
Baker Tilly Advisory Group Parent, LP Market Based Cash Balance Plan, and Participants
Chicago, Illinois

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements

We have performed audits of the financial statements of Baker Tilly Advisory Group Parent, LP Market Based Cash Balance Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of May 31, 2024, the related statements of changes in net assets available for benefits for the year ended May 31, 2024, the statement of accumulated plan benefits as of June 1, 2023, the statement of changes in accumulated plan benefits for the year ended June 1, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of and for the year ended May 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the Financial Statements

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP);
- The certified investment information in the accompanying financial statements agrees to or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current Plan instrument, including all Plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplementary Schedule Required by ERISA

The supplementary schedule of assets (held at end of year) as of May 31, 2024, is presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplementary schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplementary schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary schedule, we evaluated whether the supplementary schedule, other than the information agreed to or derived from the certified investment information, including the form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplementary schedule, other than the information in the supplementary schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The certified investment information in the supplementary schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter — Report on the 2023 Financial Statements

We compiled the 2023 financial statements. We did not audit or review those financial statements and, accordingly, do not express an opinion or provide any assurance about whether they are in accordance with GAAP.

BAKER TILLY ADVISORY GROUP PARENT, LP MARKET BASED CASH BALANCE PLAN

NOTES TO FINANCIAL STATEMENTS

MAY 31, 2024 AND 2023

NOTE 1 – DESCRIPTION OF PLAN

The following description of Baker Tilly Advisory Group Parent, LP Market Based Cash Balance Plan, (the Plan), formerly known as Baker Tilly US, LLP Market-Based Cash Balance Plan, provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions, which is available from the plan administrator.

General

The Plan is a defined benefit pension plan sponsored by Baker Tilly Advisory Group Parent, LP, (the Company) formally known as Baker Tilly US, LLP. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Plan assets are held and managed by Fidelity Management Trust Company (Fidelity or the Trustee), which invests contributions and plan earnings, makes investment transactions as directed by the Advisory Committee and provides certain recordkeeping services. Fidelity also performs certain plan administration and annual ERISA compliance testing.

Participant Eligibility

Eligible employees are US Partners, as defined by the Plan. Eligible partners are (a) partners that are citizens or residents of the United States and (b) partners of the Company. Eligible partners enter into the Plan on the first day of the plan month coincident with or next following the completion of six months of service, and only eligible partners accrue benefits under the Plan.

From the inception of the Plan through the end of the first Plan year, all participants in the Plan were eligible partners, and the Plan was therefore considered a "one-participant plan" for Form 5500 purposes. Following the first year, some Plan participants phased out of the partnership but remained employed with the Company and as deferred vested participants in the Plan. Accordingly, because there were non-partner participants with an accrued benefit in the Plan after the first Plan year, the Company stopped classifying the Plan as a "one-participant plan" for Form 5500 purposes out of an abundance of caution (and intends to retain such classification while non-partners remain participants).

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirements, as determined by the Plan's actuary. In compliance with the minimum funding standards of ERISA, the Company made a contribution of \$21,421,005 and \$12,830,181 for the years ended May 31, 2024 and 2023, respectively.

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Participant Accounts

A hypothetical cash balance account is maintained for each participant. The accounts are credited with cash balance credits and interest credits in accordance with the plan document. Cash balance credits are determined by the actuary based on provisions in the plan document and credited to the participant's hypothetical account as of the last day of the plan year.

Pension Benefits

The normal retirement date is the first day of the month coincident with or following the attainment of 65 years of age. The accrued benefit, as of any determination date, is the participant's hypothetical balance on such date projected, if necessary, with estimated interest credits between the determination date and the participant's normal retirement date.

Participants are always 100% vested in the actuarial equivalent of their accrued benefits. The normal form of payment for a single participant is a straight life annuity. The normal form of payment for a married participant at the benefit commencement date is a Joint and Survivor Annuity, with 50% of the benefit accruing to the surviving spouse upon the earlier death of the participant. In lieu of the normal form of payment, a participant may elect a lump sum payment, 100% Joint and Survivor Annuity, 75% Joint and Survivor Annuity, or straight life annuity. If participants have accumulated plan benefits of less than \$5,000 at the time of termination or retirement, the benefits will automatically be paid in a lump-sum.

Death Benefit

If a participant dies before distribution of their accrued benefits, a death benefit is paid to the participant's beneficiary as a lump sum payment or straight life annuity.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, plan assets must be used for the exclusive benefit of participants.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Use of Estimates

The financial statements of the Plan are prepared using the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP), which requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

The Financial Accounting Standards Board (FASB) has adopted the Accounting Standards Codification (ASC) as the sole source of authoritative GAAP. The FASB will issue Accounting Standards Updates (ASU) from time to time to make adjustments to GAAP.

Administrative Expenses

The Plan's expenses are paid by the Plan. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. The Plan's investments are valued daily.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date. The net appreciation of investments includes realized gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service participants have accumulated. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries.

The actuarial present value of accumulated benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of June 1, 2023 were:

- a. Life expectancy of participants (the mortality rates are based on the IRS Static Mortality Table as prescribed by IRC Section 430, previously IRS 2022 Static Mortality Table),
- b. Retirement age assumptions (age 60) and
- c. Termination Rate of 2.30% for ages 35-49, 5.70% for ages 50-54, and 5.00% for ages 55+.
- d. Investment return. The valuations included assumed average rates of return (funding of 4.50% per annum for each year.
- e. 100% of the participants are assumed to be married, with females 3 years younger than males.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of June 1, 2023, the beginning of the plan year. Had the valuations been performed as of the end off the plan year, there would be no material differences.

MAY 31, 2024 AND 2023

NOTE 3 – INFORMATION CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplementary schedule were obtained from data that has been prepared and certified as to complete and accurate by the Trustee at May 31, 2024, and for the year ended May 31, 2024.

	2024
Investments, at fair value	\$ 27,205,064
Investment income	
Net appreciation in fair value of investments	1,120,963

The Plan invests in various investments securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 4 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at May 31, 2024 and 2023:

Common collective trusts (CCT) are valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets fair value:

Fair Value Measurements Using:

May 31, 2024	Level 1	Level 2	Level 3	Total
Common collective trust	\$ -	\$ -	\$ -	\$27,205,064
Total	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$27,205,064</u>

Total	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$12,358,564</u>

Investments Measured Using NAV per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of May 31, 2024 and 2023. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

MARKET BASED CASH BALANCE PLAN

NOTES TO FINANCIAL STATEMENTS

MAY 31, 2024 AND 2023

NOTE 5 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Fidelity, the Trustee. Therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan are netted against investment returns in net appreciation in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Fidelity Workplace Consulting, the actuary for the Plan, is also considered a party-in-interest. The Plan uses attorneys and auditors to provide services to the Plan, and they are considered to be parties-in-interest as well. Payments to these parties-in-interest are recorded in administrative expenses, unless paid by the Company.

NOTE 6 – TAX STATUS

The Plan has adopted a prototype non-standardized plan sponsored by Document Agility Inc. The prototype plan has obtained a determination letter dated February 28, 2023, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

GAAP requires the Plan to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

As of May 31, 2024 and 2023, the Plan had investments of \$27,205,064 and \$12,358,564, respectively, which was concentrated in a singular investment fund.

The plan administrator evaluated events and transactions subsequent to May 31, 2024, through March 16, 2026, (the date the financial statements were available to be issued) for potential recognition or disclosure in the financial statements. The plan administrator has not identified any items requiring disclosure.

Actuarial Assumptions and Methods (continued)

Retirement Rates: The later of Age 60 or June 1, 2024. This is a common assumption for professional firm cash balance plans.

Termination Rates: The ages at which participants are assumed to become terminated are:

Age	Termination Rate
35 - 49	2.30%
50 - 54	5.70%
55+	5.00%

This is based on an analysis of actual termination patterns for partners of the company from 2018-2022.

Marital Status: 100% of males and females are assumed married, with females 3 years younger than males.

Maximum Benefit: \$265,000 for 2023. No future increases in the IRC Section 415 limit have been reflected.

Maximum Salary: \$330,000 for 2023. No future increases in the salary limit have been reflected.

Form of Payment: It has been assumed benefits will be paid as a lump sum. This is a common assumption for professional firm cash balance plans. To the extent optional forms of payment are elected and conversions are determined on an actuarial basis, which differs from the basis funded in the valuation, gains or losses will occur. These gains or losses will be recognized through the routine application of the actuarial cost method.

Actuarial Value of Plan Assets: The actuarial value of assets is equal to the market value of assets (including discounted employer contributions receivable) on the valuation date.

Shortfall Amortization Charge: Per IRC Section 430(c), the shortfall amortization charge for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to any shortfall amortization base which has not been fully amortized. The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 15-year period beginning with such plan year.

Baker Tilly Advisory Group Parent, LP Market Based Cash Balance Plan

EIN: 39-0859910

Plan Number: 005

Actuarial Assumptions and Methods (continued)

Actuarial Cost Method: The unit credit cost method is used for ERISA funding target (FT). Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service, salary and negotiated benefit increases to date. The liability is then equal to the present value of all benefits (PVAB) for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings, or negotiated benefit increases, to date in both cases. The total normal cost is based upon the sum of the individual normal costs. The target normal cost for funding is equal to the total normal cost plus assumed administrative expenses expected to be paid from the trust.

The projected unit credit method is used for IRS maximum deductible limit cushion amount. Under this method, accrued pension benefits are determined for all eligible active participants reflecting service to date and anticipated salary and negotiated benefit increases to the assumed retirement age. This liability for active participants is then added to the present value of all benefits for inactive participants to determine the total liability under this method.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings and negotiated benefit increases projected to assumed retirement age in both cases. The total normal cost is based upon the sum of the individual normal costs.
