Independent Auditor's Report

To the Administrative Committee and Participants
Management and Engineering Technologies International, Inc.
Employee Stock Ownership Plan
El Paso, Texas

Opinion on the 2024 Financial Statements

We have audited the financial statements of Management and Engineering Technologies International, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2024, and the changes in its net assets available for benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2024 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2024 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2024 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Responsibilities of Management for the 2024 Financial Statements (continued)

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2024 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not absolute assurance, and; therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2024 Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter - Auditor's Report on the 2023 Financial Statements

The 2023 financial statements of the Plan were audited by predecessor auditors whose report, dated October 14, 2024, expressed an unmodified opinion on those financial statements.

Notes to Financial Statements
December 31, 2024 and 2023

Note 1 - Description of Plan

The following description of the Management and Engineering Technologies International, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for more complete information.

General

Management and Engineering Technologies International, Inc. (METI, Inc.) (the Company) established the Plan effective January 1, 2001. The Plan is a stock bonus plan and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan invests part of its assets in other than qualifying employer securities as applicable under Section 401(a) with respect to those investments. The Plan is administered by an Administrative Committee. An independent third-party bank is the Plan's trustee.

Eligibility

Employees of the Company are generally eligible to participate in the Plan after attaining age 21 and completing six months of service. Entry date into the Plan is every January 1.

Contributions

For each plan year, the Company may contribute cash, shares of METI, Inc. common stock, or both to the Plan in such amounts as may be determined by the Board of Directors. Participants are not permitted to make contributions to the Plan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of the Company's contributions and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participant's beginning of the year account balances.

Vesting

Participants are vested in their accounts based on years of completed service, whether or not served consecutively. Participants become 100% vested upon completion of a minimum number of years of credited service, normal retirement age (65), death, or disability during employment.

Participants hired before October 1, 2009 will become 100% vested upon completion of three years of credited service. Participants hired on or after October 1, 2009 will become 100% vested upon completion of six years of credited service.

Note 1 - Description of Plan (continued)

Payment of Benefits

Distributions on account of termination of employment for any reason, including retirement, death, or disability, shall begin as soon as administratively feasible. Upon termination of service, if a participant's vested interest in their account does not exceed \$1,000, the distribution will be made in a single lump-sum payment. If the participant's vested interest in their account exceeds \$1,000, the distribution may be made as a single lump-sum payment or in annual installments over a period not exceeding five years.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares that have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2024, no shares were repurchased.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants at December 31, 2024 totaled \$14,082.

Any forfeitures not allocated to participants may be used to pay plan expenses. During 2024, no forfeitures were used to pay plan expenses.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants, and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in METI, Inc. common stock into investments which are more diversified. Participants who are at least age 55 and with at least ten years of participation in the Plan may elect in writing, within 90 days after the close of each plan year, to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may elect to transfer up to 25% of the number of shares allocated to his or her account, less any shares previously diversified, to the METI, Inc. 401(k) Plan, which permits participants to make investment elections. In the sixth year, the percentage changes to 50%.

Note 1 - Description of Plan (continued)

Voting Rights

Each participant and beneficiary is entitled to exercise voting rights attributable to the shares allocated to the participant's account only as required by law on major corporate transactions such as merger, recapitalization, liquidations, or a sale of substantially all of the assets of the business. The Administrative Committee establishes and maintains procedures by which participants and beneficiaries are timely notified of their right to direct the voting of METI, Inc. common stock allocated to their accounts. The trustee is required, however, to vote any unallocated shares in the same ratio as the allocated and voted shares and to comply with its fiduciary duties as required by ERISA. At December 31, 2024 and 2023, there were no unallocated shares of METI, Inc. common stock.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

As provided in the plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan. Investment-related expenses are included in net depreciation in fair value of investments.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023.

Money market mutual fund is valued at the net asset value of shares held by the Plan at year-end.

The fair value of the METI, Inc. common stock held by the Plan is valued at fair value based upon an annual independent appraisal. For 2024 and 2023, the appraisal was based on a combination of the discounted cash flows, public company guidelines, and adjusted book value methods consistent with prior years. The appraiser took into account historical and projected cash flows and net earnings, weighted average cost of capital, market comparables, and applicable discounts and premiums.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2024 and 2023, there were no significant transfers in or out of Level 3.

Note 3 - Fair Value Measurements (continued)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value		Principal Valuation Technique	Unobservable Inputs
	December 31, 2024	December 31, 2023		
METI, Inc. common stock	\$ 1,080,813	\$ 1,629,534	Weighted average of income and market approaches	Weighted average cost of capital and discounts for lack of marketability and minority interest
			Capitalization of benefits (income approach)	Weighted average cost of capital
				Discount for lack of marketability

Note 4 - Tax Status

The Plan has received a determination letter from the IRS dated September 16, 2013, stating that the Plan is qualified under the IRC and; therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. Federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of Plan Assets

The Plan's assets, which consist of a money market mutual fund and METI, Inc. common stock, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received, interest and dividend income, and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their account. Upon termination of the Plan, the Administrative Committee shall direct the trustee to pay all liabilities and expenses of the trust fund.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The financial statements include METI, Inc. common stock, whose value has been estimated by the plan administrator with the assistance of an independent valuation specialist in the absence of readily ascertainable market value. Because of the inherent subjectivity in any valuation, the estimated value may differ significantly from the value that would have been used had an active market for the securities existed and the difference could be material.

Note 8 - Related Party and Party-in-Interest Transactions

The money market mutual fund is managed by the trustee and; therefore, any transactions qualify as party-in-interest transactions. The Plan invests in METI, Inc. common stock, which is a related party and party-in-interest investment.

As described in Note 2, the Company pays all plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

Note 9 - Subsequent Events

Plan management has evaluated subsequent events through June 9, 2026. This date is the date the financial statements were available to be issued. No material events subsequent to December 31, 2024 were noted.

RE: Explanation of late/missing audit report

Plan Name: METI Employee Stock Ownership Plan

EIN: 74-2698510

PN: 001

The Plan is timely filing its Form 5500 for the year ended December 31, 2024. The audit for the Plan has not yet been completed by our independent auditor. The independent auditor is working with the Plan Administrator to obtain the information necessary to complete the audit and issue their audit report. The Plan will file an amended Form 5500 with the independent auditor's report as soon as the report is available.

Sincerely,

A handwritten signature in cursive script that reads "Michelle Rosalez".
