Independent Auditor's Report

RSM US LLP

Participants and Board of Directors
ITA Group Holdings, Inc. Employees' Stock Ownership Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of ITA Group Holdings, Inc. Employees' Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of August 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended August 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of August 31, 2025 and 2024, and for the year ended August 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate to the best of their knowledge.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter—Investments

As discussed in Note 9, the financial statements include an investment representing 99% of total assets as of August 31, 2025 and 2024, whose fair value has been estimated by an independent appraisal, in the absence of readily ascertainable fair values, with the assistance of management and approved by the trustee. Because of the inherent uncertainty of the valuation, the estimated value may differ significantly from the value that would have been used had a market for the investment existed, and the difference could be material. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedules, schedule H—line 4i—schedule of assets (held at end of year) as of August 31, 2025, and Schedule H, line 4j—schedule of reportable transactions for the year ended August 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Plan Description

The following description of ITA Group Holdings, Inc. Employees' Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and eligibility: The Plan was created pursuant to an agreement between ITA Group Holdings, Inc. (the Company) and the trustee, dated August 20, 1987. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the Code), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The trust department of an independent third-party bank serves as the Plan's directed trustee. The Board of Directors is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

The Plan purchased Company common stock using the proceeds of borrowings (see Note 6) from the Company and holds the stock in a trust established under the Plan (the Trust). The borrowings are to be repaid over a period of 20 to 30 years by fully deductible Company contributions to the Trust. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

Borrowings are collateralized by the unallocated shares of common stock. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of August 31, 2025 and 2024, and for the year ended August 31, 2025, present separately the assets and liabilities and changes therein pertaining to:

1. The accounts of employees with rights in allocated stock (allocated).
2. Stock not yet allocated to employees (unallocated).

The Plan covers all employees who have completed one year of service, defined as a 12-month period beginning on the date of hire within which the employee has worked 1,000 or more hours or subsequent fiscal year during which the employee has worked 1,000 or more hours. Generally, an employee must be employed on the last day of the plan year to be eligible to receive an allocation of Company contributions and shares of the Company's common stock released by the trustee.

Contributions: The Plan is funded through annual contributions by the Company in cash or shares of the Company's stock as may be determined by the Company's Board of Directors. The current amount of the contribution for a plan year is equal to 5% of an eligible employee's compensation, which shall be a money purchase contribution, plus an additional amount, if any, as may be determined by the Company (10% in total for the year ended August 31, 2025). The annual contributions, however, may not be less than the annual debt service required on any outstanding notes payable and may not exceed the amount deductible by the Company for federal income tax purposes. Employee contributions are not permitted.

Payment of benefits: Upon retirement or other separation from Company service, a participant may elect to receive a distribution on or near March 15 following the end of the plan year in which separation from service occurred. All shares distributed to participants are subject to a put option to sell the stock to the Company. If the participant elects not to receive a distribution at that time, the stock will be liquidated to cash and transferred to a segregated account within the Trust. The trustee will invest the participant's account in various investment options selected by the Plan Administrator. Participants who have met normal retirement age and terminate service with the Company may receive benefit payments within 60-90 days following submission of a written request to receive ESOP benefits. However, if the request for distribution occurs within 60 days of the next plan year-end, the request for distribution shall be delayed until the next valuation is completed. No participants meeting this qualification have requested distribution. Benefits are recorded when paid.

Note 1. Plan Description (Continued)

Voting rights: Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote for any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote for any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Participant accounts, allocations and forfeitures: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and with an allocation of: (a) the Company's contribution, (b) Plan earnings and (c) forfeitures of terminated participants' nonvested accounts, and is charged with an allocation of administrative expenses, if any. Unrealized appreciation in common stock and administrative expenses are allocated to the participants based on beginning participant balances as defined in the Plan document.

A former participant's nonvested balance is forfeited on the earlier of the date the participant receives a cash-out distribution of their entire vested balance or the last day of the plan year in which the participant incurs five consecutive one-year breaks in service. Company contributions and forfeitures of terminated participants' nonvested accounts are allocated to the participants in the ratio of eligible compensation paid to each participant to total eligible compensation paid to all Plan participants for the year, subject to limitations on the allocations as provided in the Plan. Forfeitures must be disposed of no later than the last day of the plan year following the plan year in which the forfeiture occurs. For the year ended August 31, 2025, forfeitures of nonvested account balances totaled approximately \$191,000. For the year ended August 31, 2025, \$24,000 of forfeitures were used to reduce employer contributions and approximately \$2,220,000 was allocated to participants. As of August 31, 2025 and 2024, unallocated forfeitures totaled approximately \$0 and \$1,828,000, respectively.

Vesting: Vesting is based on years of service. Effective for participants who earn an hour of service on or after January 1, 1995, the following vesting schedule will apply to determine the nonforfeitable percent of their accrued benefit:

<u>Years of Service with the Company</u>	<u>Percent of Nonforfeitable Accrued Benefit</u>
Less than three years	0%
At least three years	100%

In the event of death, permanent disability or attaining normal retirement age (65 per the Plan), the participant becomes fully vested. The Plan's vesting provisions operate in accordance with existing regulations.

Put option: Under federal income tax regulations, the Company common stock held by the Plan and its participants that are not readily tradable on an established market, or are subject to trading limitations, include a put option. The put option is a right to demand that the Company buy shares of its stock held by the participant for which there is no market. The Company pays for the purchases in a lump sum or installment payment. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure the participant has the ability to ultimately obtain cash.

Note 1. Plan Description (Continued)

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify may either receive a distribution or transfer the funds to another qualified plan which accepts such transfers.

During the year ended August 31, 2025, diversifications totaled approximately \$4,000 and are included within distributions on the statement of changes in net assets available for benefits.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Management fees and operating expenses charged to the Plan for investments in the mutual fund are deducted from income earned on a daily basis and are not separately reflected.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: Management has evaluated subsequent events through June 15, 2026, which is the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by GreatBanc Trust Company, the Plan Trustee

The following is a summary of the Plan's asset information as of August 31, 2025 and 2024, and for the year ended August 31, 2025, included throughout the Plan's financial statements and ERISA-required supplemental schedules, obtained by management and agreed to or derived from information certified as complete and accurate to the best of their knowledge by GreatBanc Trust Company, a qualified institution:

	2025	2024
Investments at fair value:		
Common stock, ITA Group Holdings, Inc.	\$ 494,951,560	\$ 425,601,400
Mutual fund	2,685,705	1,766,442

Notes to Financial Statements

Note 3. Information Certified and Provided by GreatBanc Trust Company, the Plan Trustee (Continued)

GreatBanc Trust Company also certified to the completeness and accuracy of \$69,350,160 of net appreciation in the fair value of ITA Holdings, Inc.'s common stock and \$85,147 of dividends during the year ended August 31, 2025.

All assets and liabilities of the Plan are nonparticipant-directed, and all changes in Plan net assets are detailed on the statement of changes in net assets available for benefits.

Note 4. Investment in Common Stock, ITA Group Holdings, Inc.

Information about the Plan's investment in Company common stock as of August 31, 2025 and 2024, is as follows:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	208,252.93	227,747.07	207,106.84	228,893.16
Fair value	\$ 236,410,809	\$ 258,540,751	\$ 202,167,342	\$ 223,434,058

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

ITA Group Holdings, Inc. Employees' Stock Ownership Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of August 31, 2025 and 2024.

Common stock, ITA Group Holdings, Inc.: Valued at fair value, as determined by the ESOP Trustee, based upon an appraisal. This appraisal was based upon a combination of valuation techniques, including a discounted cash flow and guideline public company. Plan management also concluded that a market participant would also recognize a discount for lack of marketability.

Mutual fund: This account represents an investment with a registered investment company. The fair value of this fund is based on quoted market prices which are publicly available and is classified within Level 1 of the hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31, 2025 and 2024:

	2025			
	Level 1	Level 2	Level 3	Total
Common stock, ITA Group Holdings, Inc.	\$ -	\$ -	\$ 494,951,560	\$ 494,951,560
Mutual fund	2,685,705	-	-	2,685,705
Investments, at fair value	<u>\$ 2,685,705</u>	<u>\$ -</u>	<u>\$ 494,951,560</u>	<u>\$ 497,637,265</u>

	2024			
	Level 1	Level 2	Level 3	Total
Common stock, ITA Group Holdings, Inc.	\$ -	\$ -	\$ 425,601,400	\$ 425,601,400
Mutual fund	1,766,442	-	-	1,766,442
Investments, at fair value	<u>\$ 1,766,442</u>	<u>\$ -</u>	<u>\$ 425,601,400</u>	<u>\$ 427,367,842</u>

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended August 31, 2025, there were no transfers in or out of Level 3.

The following table sets forth a summary of additions to and deductions from the Plan's Level 3 asset for the year ended August 31, 2025:

	Common Stock
Shares purchased (15,658.78 shares)	\$ 15,285,315
Shares distributed (15,658.78 shares)	(15,285,315)

ITA Group Holdings, Inc. Employees' Stock Ownership Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The following table represents the Plan's Level 3 financial instruments as of August 31, 2025 and 2024, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs:

Description	Fair Value		Principal Valuation Technique	Unobservable Inputs
	2025	2024		
Common stock, ITA Group Holdings, Inc.	\$ 494,951,560	\$ 425,601,400	Discounted cash flow (income approach) and guideline public company (market approach)	Fair value of ITA Group Holdings, Inc.'s net worth Discount for lack of marketability Long-term growth rate Weighted-average cost of capital Excess working capital SARs liability Nonoperating assets

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

ITA Group Holdings, Inc. Employees' Stock Ownership Plan

Notes to Financial Statements

Note 7. Related-Party and Party-in-Interest Transactions

The Plan's assets, which consist principally of Company common stock, are held and managed by the Trustee, which invests cash received, receives dividend income, and makes distributions to participants. The trustee also administers the payment of interest and principal on the loans.

Certain expenses for maintaining the Plan are paid directly by the Company and are excluded from the financial statements. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan invests in Company common stock and has indebtedness to the Company. These are related-party and party-in-interest transactions. As described in Note 1 and Note 4, the Plan has a number of service providers. Such parties are parties-in-interest under ERISA. Fees paid by the Plan to parties-in-interest totaled approximately \$232,000 for the year ended August 31, 2025.

Note 8. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in common stock and to uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in the values of common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. As of August 31, 2025 and 2024, 99% of the Plan's total assets were invested in shares in the common stock of the Company.

Note 9. Plan Termination

The Company reserves the right to terminate the Plan at any time subject to the provisions of the Plan and ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Upon such termination of the Plan, distribution of any unallocated amounts will be made to each participant in the Plan in the ratio that his or her allocated account bears to the total of the accounts of all participants. Upon termination of the Plan, the Plan Administrative Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loans.

Note 10. Tax Status

The Plan has adopted a preapproved plan document that has received an opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020, stating that the form of the preapproved plan document was in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since adopting the preapproved plan document; however, The Plan Administrator believes the Plan is designed, and is being operated, in compliance with the applicable requirements of the IRC and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the local, state and federal taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Participants and Board of Directors
ITA Group Holdings, Inc. Employees' Stock Ownership Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of ITA Group Holdings, Inc. Employees' Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of August 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended August 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of August 31, 2025 and 2024, and for the year ended August 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate to the best of their knowledge.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter—Investments

As discussed in Note 9, the financial statements include an investment representing 99% of total assets as of August 31, 2025 and 2024, whose fair value has been estimated by an independent appraisal, in the absence of readily ascertainable fair values, with the assistance of management and approved by the trustee. Because of the inherent uncertainty of the valuation, the estimated value may differ significantly from the value that would have been used had a market for the investment existed, and the difference could be material. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedules, schedule H—line 4i—schedule of assets (held at end of year) as of August 31, 2025, and Schedule H, line 4j—schedule of reportable transactions for the year ended August 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

ITA Group Holdings, Inc. Employees' Stock Ownership Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of ITA Group Holdings, Inc. Employees' Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and eligibility: The Plan was created pursuant to an agreement between ITA Group Holdings, Inc. (the Company) and the trustee, dated August 20, 1987. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the Code), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The trust department of an independent third-party bank serves as the Plan's directed trustee. The Board of Directors is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

The Plan purchased Company common stock using the proceeds of borrowings (see Note 6) from the Company and holds the stock in a trust established under the Plan (the Trust). The borrowings are to be repaid over a period of 20 to 30 years by fully deductible Company contributions to the Trust. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

Borrowings are collateralized by the unallocated shares of common stock. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of August 31, 2025 and 2024, and for the year ended August 31, 2025, present separately the assets and liabilities and changes therein pertaining to:

1. The accounts of employees with rights in allocated stock (allocated).
2. Stock not yet allocated to employees (unallocated).

The Plan covers all employees who have completed one year of service, defined as a 12-month period beginning on the date of hire within which the employee has worked 1,000 or more hours or subsequent fiscal year during which the employee has worked 1,000 or more hours. Generally, an employee must be employed on the last day of the plan year to be eligible to receive an allocation of Company contributions and shares of the Company's common stock released by the trustee.

Contributions: The Plan is funded through annual contributions by the Company in cash or shares of the Company's stock as may be determined by the Company's Board of Directors. The current amount of the contribution for a plan year is equal to 5% of an eligible employee's compensation, which shall be a money purchase contribution, plus an additional amount, if any, as may be determined by the Company (10% in total for the year ended August 31, 2025). The annual contributions, however, may not be less than the annual debt service required on any outstanding notes payable and may not exceed the amount deductible by the Company for federal income tax purposes. Employee contributions are not permitted.

Payment of benefits: Upon retirement or other separation from Company service, a participant may elect to receive a distribution on or near March 15 following the end of the plan year in which separation from service occurred. All shares distributed to participants are subject to a put option to sell the stock to the Company. If the participant elects not to receive a distribution at that time, the stock will be liquidated to cash and transferred to a segregated account within the Trust. The trustee will invest the participant's account in various investment options selected by the Plan Administrator. Participants who have met normal retirement age and terminate service with the Company may receive benefit payments within 60-90 days following submission of a written request to receive ESOP benefits. However, if the request for distribution occurs within 60 days of the next plan year-end, the request for distribution shall be delayed until the next valuation is completed. No participants meeting this qualification have requested distribution. Benefits are recorded when paid.

Note 1. Plan Description (Continued)

Voting rights: Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote for any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote for any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Participant accounts, allocations and forfeitures: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and with an allocation of: (a) the Company's contribution, (b) Plan earnings and (c) forfeitures of terminated participants' nonvested accounts, and is charged with an allocation of administrative expenses, if any. Unrealized appreciation in common stock and administrative expenses are allocated to the participants based on beginning participant balances as defined in the Plan document.

A former participant's nonvested balance is forfeited on the earlier of the date the participant receives a cash-out distribution of their entire vested balance or the last day of the plan year in which the participant incurs five consecutive one-year breaks in service. Company contributions and forfeitures of terminated participants' nonvested accounts are allocated to the participants in the ratio of eligible compensation paid to each participant to total eligible compensation paid to all Plan participants for the year, subject to limitations on the allocations as provided in the Plan. Forfeitures must be disposed of no later than the last day of the plan year following the plan year in which the forfeiture occurs. For the year ended August 31, 2025, forfeitures of nonvested account balances totaled approximately \$191,000. For the year ended August 31, 2025, \$24,000 of forfeitures were used to reduce employer contributions and approximately \$2,220,000 was allocated to participants. As of August 31, 2025 and 2024, unallocated forfeitures totaled approximately \$0 and \$1,828,000, respectively.

Vesting: Vesting is based on years of service. Effective for participants who earn an hour of service on or after January 1, 1995, the following vesting schedule will apply to determine the nonforfeitable percent of their accrued benefit:

<u>Years of Service with the Company</u>	<u>Percent of Nonforfeitable Accrued Benefit</u>
Less than three years	0%
At least three years	100%

In the event of death, permanent disability or attaining normal retirement age (65 per the Plan), the participant becomes fully vested. The Plan's vesting provisions operate in accordance with existing regulations.

Put option: Under federal income tax regulations, the Company common stock held by the Plan and its participants that are not readily tradable on an established market, or are subject to trading limitations, include a put option. The put option is a right to demand that the Company buy shares of its stock held by the participant for which there is no market. The Company pays for the purchases in a lump sum or installment payment. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure the participant has the ability to ultimately obtain cash.

Note 1. Plan Description (Continued)

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify may either receive a distribution or transfer the funds to another qualified plan which accepts such transfers.

During the year ended August 31, 2025, diversifications totaled approximately \$4,000 and are included within distributions on the statement of changes in net assets available for benefits.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Management fees and operating expenses charged to the Plan for investments in the mutual fund are deducted from income earned on a daily basis and are not separately reflected.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: Management has evaluated subsequent events through June 15, 2026, which is the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by GreatBanc Trust Company, the Plan Trustee

The following is a summary of the Plan's asset information as of August 31, 2025 and 2024, and for the year ended August 31, 2025, included throughout the Plan's financial statements and ERISA-required supplemental schedules, obtained by management and agreed to or derived from information certified as complete and accurate to the best of their knowledge by GreatBanc Trust Company, a qualified institution:

Note 3. Information Certified and Provided by GreatBanc Trust Company, the Plan Trustee (Continued)

GreatBanc Trust Company also certified to the completeness and accuracy of \$69,350,160 of net appreciation in the fair value of ITA Holdings, Inc.'s common stock and \$85,147 of dividends during the year ended August 31, 2025.

All assets and liabilities of the Plan are nonparticipant-directed, and all changes in Plan net assets are detailed on the statement of changes in net assets available for benefits.

Note 4. Investment in Common Stock, ITA Group Holdings, Inc.

Information about the Plan's investment in Company common stock as of August 31, 2025 and 2024, is as follows:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	208,252.93	227,747.07	207,106.84	228,893.16
Fair value	\$ 236,410,809	\$ 258,540,751	\$ 202,167,342	\$ 223,434,058

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

ITA Group Holdings, Inc. Employees' Stock Ownership Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of August 31, 2025 and 2024.

Common stock, ITA Group Holdings, Inc.: Valued at fair value, as determined by the ESOP Trustee, based upon an appraisal. This appraisal was based upon a combination of valuation techniques, including a discounted cash flow and guideline public company. Plan management also concluded that a market participant would also recognize a discount for lack of marketability.

Mutual fund: This account represents an investment with a registered investment company. The fair value of this fund is based on quoted market prices which are publicly available and is classified within Level 1 of the hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31, 2025 and 2024:

	2025			
	Level 1	Level 2	Level 3	Total
Common stock, ITA Group Holdings, Inc.	\$ -	\$ -	\$ 494,951,560	\$ 494,951,560
Mutual fund	2,685,705	-	-	2,685,705
Investments, at fair value	<u>\$ 2,685,705</u>	<u>\$ -</u>	<u>\$ 494,951,560</u>	<u>\$ 497,637,265</u>

	2024			
	Level 1	Level 2	Level 3	Total
Common stock, ITA Group Holdings, Inc.	\$ -	\$ -	\$ 425,601,400	\$ 425,601,400
Mutual fund	1,766,442	-	-	1,766,442
Investments, at fair value	<u>\$ 1,766,442</u>	<u>\$ -</u>	<u>\$ 425,601,400</u>	<u>\$ 427,367,842</u>

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended August 31, 2025, there were no transfers in or out of Level 3.

The following table sets forth a summary of additions to and deductions from the Plan's Level 3 asset for the year ended August 31, 2025:

	Common Stock
Shares purchased (15,658.78 shares)	\$ 15,285,315
Shares distributed (15,658.78 shares)	(15,285,315)

ITA Group Holdings, Inc. Employees' Stock Ownership Plan

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

The following table represents the Plan's Level 3 financial instruments as of August 31, 2025 and 2024, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs:

Description	Fair Value		Principal Valuation Technique	Unobservable Inputs
	2025	2024		
Common stock, ITA Group Holdings, Inc.	\$ 494,951,560	\$ 425,601,400	Discounted cash flow (income approach) and guideline public company (market approach)	Fair value of ITA Group Holdings, Inc.'s net worth Discount for lack of marketability Long-term growth rate Weighted-average cost of capital Excess working capital SARs liability Nonoperating assets

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

ITA Group Holdings, Inc. Employees' Stock Ownership Plan

Notes to Financial Statements

Note 7. Related-Party and Party-in-Interest Transactions

The Plan's assets, which consist principally of Company common stock, are held and managed by the Trustee, which invests cash received, receives dividend income, and makes distributions to participants. The trustee also administers the payment of interest and principal on the loans.

Certain expenses for maintaining the Plan are paid directly by the Company and are excluded from the financial statements. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan invests in Company common stock and has indebtedness to the Company. These are related-party and party-in-interest transactions. As described in Note 1 and Note 4, the Plan has a number of service providers. Such parties are parties-in-interest under ERISA. Fees paid by the Plan to parties-in-interest totaled approximately \$232,000 for the year ended August 31, 2025.

Note 8. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in common stock and to uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in the values of common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. As of August 31, 2025 and 2024, 99% of the Plan's total assets were invested in shares in the common stock of the Company.

Note 9. Plan Termination

The Company reserves the right to terminate the Plan at any time subject to the provisions of the Plan and ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Upon such termination of the Plan, distribution of any unallocated amounts will be made to each participant in the Plan in the ratio that his or her allocated account bears to the total of the accounts of all participants. Upon termination of the Plan, the Plan Administrative Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loans.

Note 10. Tax Status

The Plan has adopted a preapproved plan document that has received an opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020, stating that the form of the preapproved plan document was in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since adopting the preapproved plan document; however, The Plan Administrator believes the Plan is designed, and is being operated, in compliance with the applicable requirements of the IRC and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the local, state and federal taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Independent Auditor's Report

RSM US LLP

Participants and Board of Directors
ITA Group Holdings, Inc. Employees' Stock Ownership Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of ITA Group Holdings, Inc. Employees' Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of August 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended August 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of August 31, 2025 and 2024, and for the year ended August 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate to the best of their knowledge.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter—Investments

As discussed in Note 9, the financial statements include an investment representing 99% of total assets as of August 31, 2025 and 2024, whose fair value has been estimated by an independent appraisal, in the absence of readily ascertainable fair values, with the assistance of management and approved by the trustee. Because of the inherent uncertainty of the valuation, the estimated value may differ significantly from the value that would have been used had a market for the investment existed, and the difference could be material. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedules, schedule H—line 4i—schedule of assets (held at end of year) as of August 31, 2025, and Schedule H, line 4j—schedule of reportable transactions for the year ended August 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

ITA Group Holdings, Inc. Employees' Stock Ownership Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of ITA Group Holdings, Inc. Employees' Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General and eligibility: The Plan was created pursuant to an agreement between ITA Group Holdings, Inc. (the Company) and the trustee, dated August 20, 1987. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the Code), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The trust department of an independent third-party bank serves as the Plan's directed trustee. The Board of Directors is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance.

The Plan purchased Company common stock using the proceeds of borrowings (see Note 6) from the Company and holds the stock in a trust established under the Plan (the Trust). The borrowings are to be repaid over a period of 20 to 30 years by fully deductible Company contributions to the Trust. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

Borrowings are collateralized by the unallocated shares of common stock. The Company has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of August 31, 2025 and 2024, and for the year ended August 31, 2025, present separately the assets and liabilities and changes therein pertaining to:

1. The accounts of employees with rights in allocated stock (allocated).
2. Stock not yet allocated to employees (unallocated).

The Plan covers all employees who have completed one year of service, defined as a 12-month period beginning on the date of hire within which the employee has worked 1,000 or more hours or subsequent fiscal year during which the employee has worked 1,000 or more hours. Generally, an employee must be employed on the last day of the plan year to be eligible to receive an allocation of Company contributions and shares of the Company's common stock released by the trustee.

Contributions: The Plan is funded through annual contributions by the Company in cash or shares of the Company's stock as may be determined by the Company's Board of Directors. The current amount of the contribution for a plan year is equal to 5% of an eligible employee's compensation, which shall be a money purchase contribution, plus an additional amount, if any, as may be determined by the Company (10% in total for the year ended August 31, 2025). The annual contributions, however, may not be less than the annual debt service required on any outstanding notes payable and may not exceed the amount deductible by the Company for federal income tax purposes. Employee contributions are not permitted.

Payment of benefits: Upon retirement or other separation from Company service, a participant may elect to receive a distribution on or near March 15 following the end of the plan year in which separation from service occurred. All shares distributed to participants are subject to a put option to sell the stock to the Company. If the participant elects not to receive a distribution at that time, the stock will be liquidated to cash and transferred to a segregated account within the Trust. The trustee will invest the participant's account in various investment options selected by the Plan Administrator. Participants who have met normal retirement age and terminate service with the Company may receive benefit payments within 60-90 days following submission of a written request to receive ESOP benefits. However, if the request for distribution occurs within 60 days of the next plan year-end, the request for distribution shall be delayed until the next valuation is completed. No participants meeting this qualification have requested distribution. Benefits are recorded when paid.

ITA Group Holdings, Inc. Employees' Stock Ownership Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Voting rights: Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote for any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote for any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Participant accounts, allocations and forfeitures: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and with an allocation of: (a) the Company's contribution, (b) Plan earnings and (c) forfeitures of terminated participants' nonvested accounts, and is charged with an allocation of administrative expenses, if any. Unrealized appreciation in common stock and administrative expenses are allocated to the participants based on beginning participant balances as defined in the Plan document.

A former participant's nonvested balance is forfeited on the earlier of the date the participant receives a cash-out distribution of their entire vested balance or the last day of the plan year in which the participant incurs five consecutive one-year breaks in service. Company contributions and forfeitures of terminated participants' nonvested accounts are allocated to the participants in the ratio of eligible compensation paid to each participant to total eligible compensation paid to all Plan participants for the year, subject to limitations on the allocations as provided in the Plan. Forfeitures must be disposed of no later than the last day of the plan year following the plan year in which the forfeiture occurs. For the year ended August 31, 2025, forfeitures of nonvested account balances totaled approximately \$191,000. For the year ended August 31, 2025, \$24,000 of forfeitures were used to reduce employer contributions and approximately \$2,220,000 was allocated to participants. As of August 31, 2025 and 2024, unallocated forfeitures totaled approximately \$0 and \$1,828,000, respectively.

Vesting: Vesting is based on years of service. Effective for participants who earn an hour of service on or after January 1, 1995, the following vesting schedule will apply to determine the nonforfeitable percent of their accrued benefit:

<u>Years of Service with the Company</u>	<u>Percent of Nonforfeitable Accrued Benefit</u>
Less than three years	0%
At least three years	100%

In the event of death, permanent disability or attaining normal retirement age (65 per the Plan), the participant becomes fully vested. The Plan's vesting provisions operate in accordance with existing regulations.

Put option: Under federal income tax regulations, the Company common stock held by the Plan and its participants that are not readily tradable on an established market, or are subject to trading limitations, include a put option. The put option is a right to demand that the Company buy shares of its stock held by the participant for which there is no market. The Company pays for the purchases in a lump sum or installment payment. The put price is representative of the fair market value of the stock. The purpose of the put option is to ensure the participant has the ability to ultimately obtain cash.

ITA Group Holdings, Inc. Employees' Stock Ownership Plan

Notes to Financial Statements

Note 1. Plan Description (Continued)

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify may either receive a distribution or transfer the funds to another qualified plan which accepts such transfers.

During the year ended August 31, 2025, diversifications totaled approximately \$4,000 and are included within distributions on the statement of changes in net assets available for benefits.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the trustee. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Management fees and operating expenses charged to the Plan for investments in the mutual fund are deducted from income earned on a daily basis and are not separately reflected.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: Management has evaluated subsequent events through June 15, 2026, which is the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by GreatBanc Trust Company, the Plan Trustee

The following is a summary of the Plan's asset information as of August 31, 2025 and 2024, and for the year ended August 31, 2025, included throughout the Plan's financial statements and ERISA-required supplemental schedules, obtained by management and agreed to or derived from information certified as complete and accurate to the best of their knowledge by GreatBanc Trust Company, a qualified institution:

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 5. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of August 31, 2025 and 2024.

Common stock, ITA Group Holdings, Inc.: Valued at fair value, as determined by the ESOP Trustee, based upon an appraisal. This appraisal was based upon a combination of valuation techniques, including a discounted cash flow and guideline public company. Plan management also concluded that a market participant would also recognize a discount for lack of marketability.

Mutual fund: This account represents an investment with a registered investment company. The fair value of this fund is based on quoted market prices which are publicly available and is classified within Level 1 of the hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of August 31, 2025 and 2024:

	2025			
	Level 1	Level 2	Level 3	Total
Common stock, ITA Group Holdings, Inc.	\$ -	\$ -	\$ 494,951,560	\$ 494,951,560
Mutual fund	2,685,705	-	-	2,685,705
Investments, at fair value	<u>\$ 2,685,705</u>	<u>\$ -</u>	<u>\$ 494,951,560</u>	<u>\$ 497,637,265</u>

	2024			
	Level 1	Level 2	Level 3	Total
Common stock, ITA Group Holdings, Inc.	\$ -	\$ -	\$ 425,601,400	\$ 425,601,400
Mutual fund	1,766,442	-	-	1,766,442
Investments, at fair value	<u>\$ 1,766,442</u>	<u>\$ -</u>	<u>\$ 425,601,400</u>	<u>\$ 427,367,842</u>

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended August 31, 2025, there were no transfers in or out of Level 3.

The following table sets forth a summary of additions to and deductions from the Plan's Level 3 asset for the year ended August 31, 2025:

	Common Stock
Shares purchased (15,658.78 shares)	\$ 15,285,315
Shares distributed (15,658.78 shares)	(15,285,315)

Note 5. Fair Value Measurements (Continued)

The following table represents the Plan's Level 3 financial instruments as of August 31, 2025 and 2024, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs:

Description	Fair Value		Principal Valuation Technique	Unobservable Inputs
	2025	2024		
Common stock, ITA Group Holdings, Inc.	\$ 494,951,560	\$ 425,601,400	Discounted cash flow (income approach) and guideline public company (market approach)	Fair value of ITA Group Holdings, Inc.'s net worth Discount for lack of marketability Long-term growth rate Weighted-average cost of capital Excess working capital SARs liability Nonoperating assets

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

ITA Group Holdings, Inc. Employees' Stock Ownership Plan

Notes to Financial Statements

Note 7. Related-Party and Party-in-Interest Transactions

The Plan's assets, which consist principally of Company common stock, are held and managed by the Trustee, which invests cash received, receives dividend income, and makes distributions to participants. The trustee also administers the payment of interest and principal on the loans.

Certain expenses for maintaining the Plan are paid directly by the Company and are excluded from the financial statements. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan invests in Company common stock and has indebtedness to the Company. These are related-party and party-in-interest transactions. As described in Note 1 and Note 4, the Plan has a number of service providers. Such parties are parties-in-interest under ERISA. Fees paid by the Plan to parties-in-interest totaled approximately \$232,000 for the year ended August 31, 2025.

Note 8. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in common stock and to uncertainties inherent in the estimation and assumptions process, it is at least reasonably possible that changes in the values of common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. As of August 31, 2025 and 2024, 99% of the Plan's total assets were invested in shares in the common stock of the Company.

Note 9. Plan Termination

The Company reserves the right to terminate the Plan at any time subject to the provisions of the Plan and ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Upon such termination of the Plan, distribution of any unallocated amounts will be made to each participant in the Plan in the ratio that his or her allocated account bears to the total of the accounts of all participants. Upon termination of the Plan, the Plan Administrative Committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loans.

Note 10. Tax Status

The Plan has adopted a preapproved plan document that has received an opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020, stating that the form of the preapproved plan document was in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since adopting the preapproved plan document; however, The Plan Administrator believes the Plan is designed, and is being operated, in compliance with the applicable requirements of the IRC and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the local, state and federal taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
