Report of Independent Auditors

To the Administrator of State Farm Insurance Companies Retirement Plan for United States Employees

Opinion

We have audited the accompanying financial statements of State Farm Insurance Companies Retirement Plan for United States Employees (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits and of accumulated benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits and of changes in accumulated benefits for the year ended December 31, 2024, including the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits and accumulated benefits of the Plan as of December 31, 2024 and 2023, and the changes in its net assets available for benefits and changes in its accumulated benefits for the year ended December 31, 2024, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2024 and Schedule H, line 4i - Schedule of Assets (Acquired and Disposed of within Year) for the year ended December 31, 2024 ("supplemental schedules") are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare

the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Retirement Plan for United States Employees

Notes to Financial Statements

December 31, 2024 and 2023

1. Description of Plan

The following description of the State Farm Insurance Companies Retirement Plan for United States Employees (the “Plan”) is provided for general information purposes only. Members should refer to the Plan document for more complete information.

The Plan is a noncontributory, defined benefit plan. State Farm Mutual Automobile Insurance Company (“SFMAIC”) is the Plan Sponsor. Employees of SFMAIC and several of its subsidiaries participate in the Plan. The SFMAIC subsidiaries currently participating in the Plan are State Farm Fire and Casualty Company, State Farm Life Insurance Company, State Farm Life and Accident Assurance Company, State Farm General Insurance Company, State Farm Indemnity Company, State Farm VP Management Corporation, State Farm Florida Insurance Company and State Farm International Holding Company (collectively known as the “Company” or “Companies”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Board of Directors of SFMAIC has delegated to its Compensation Committee the responsibility for all ERISA ‘settlor’ (i.e., “Plan Sponsor”) functions. Therefore, the Compensation Committee has adopted the State Farm Employee Retirement Trust (“Trust”), as required by ERISA.

The Pension Administrative Committee (“PAC”) is the Plan Administrator. The Board of Directors of SFMAIC has delegated to the PAC all fiduciary responsibilities pertaining to operation of the Plan.

The Board of Directors of SFMAIC has delegated to its Finance and Investment Committee the responsibility for the investment plan/policy for the Plan. The Finance and Investment Committee has delegated responsibility for implementation and monitoring of the investment plan/policy to the Pension Investment Committee (“PIC”).

The Board of Directors of SFMAIC has named Trustees for the Trust, who are directed and monitored by the PIC. The Trustees hold legal title to all Trust assets, as required by ERISA. Trustees are responsible for monitoring the Trust assets and operations. Trustees have no discretionary investment management authority or control over Trust assets and report on their work to the PIC.

Effective January 1, 2021, newly hired employees are not eligible to participate in the Plan. Employees who rehire or otherwise become an employee after December 31, 2020, are not eligible to accrue credited service under the Plan. All other employees continue to accrue benefits as described below.

A. Benefits

Retirement Benefits

Employees hired or rehired prior to January 1, 2021 become members on the day they reach their 21st birthday and complete one year of service. Active members will have a fully vested interest in retirement benefits upon completion of five years of service after age 18 or at age 65, whichever comes first. Plan benefits are determined by a formula based on average annual compensation, credited service and Social Security covered compensation. Normal retirement under the Plan is the first day of the month following the member’s 65th birthday. The Plan permits early retirement reduced benefits on the first day of any month after age 55 and before the employee’s 62nd birthday. There is no reduction in benefits for early retirement at ages 62 through 64. Employees may elect any one of four different benefit payment options – life income; life income with 10 years certain; joint life income with $\frac{2}{3}$ to survivor (for effective date of retirement on or before December 1, 2007) or joint life income to survivor (for effective date of retirement after December 1, 2007); or life income with $\frac{3}{4}$ to surviving spouse (for effective date of retirement on or before December 1, 2007) or life income with $\frac{1}{2}$ to surviving beneficiary (for effective date of retirement after December 1, 2007). If the present value of the accrued benefit does not exceed \$7,000 (\$5,000 prior to January 1, 2024) in the month of distribution, the value will be paid in one lump sum. Effective January 1, 2024, the default option for distributions greater than \$1,000 but less than \$7,000

(\$5,000 prior to January 1, 2024) is direct rollover to an IRA. Employees terminating without a vested interest in their accrued retirement benefit will forfeit all benefits.

Death Benefits

Survivor income is available upon the death of any active (not in receipt of retirement income), inactive or disabled member who has a vested interest. Survivor benefits are paid to the member's spouse or beneficiary. If there is a qualified spouse, payments are made for the life of the qualified spouse with five years certain. If there is no qualified spouse, payments are made to the spouse or other named contingent (individual) beneficiary for five years. Should the beneficiary die prior to completion of the five-year period, the unpaid remainder is paid in one lump sum to the beneficiary's estate. If the contingent beneficiary is not an individual, survivor benefits will be paid in one sum. If the member does not have a spouse at the time of death and has not named a contingent beneficiary, survivor benefits will be paid in one lump sum to the member's estate or legal representative. The amount of the survivor benefit will be calculated based on the amount that would have been paid to a joint annuitant under the joint life income with $\frac{2}{3}$ to survivor retirement income option (for deaths on or before December 31, 2007) or joint life income with $\frac{3}{4}$ to survivor retirement income option (for deaths after December 31, 2007).

For deaths after October 1, 2008, the life income with 5 years certain benefit is payable to a qualified spouse or another individual beneficiary. If the survivor income is payable to multiple beneficiaries, the present value of the life income with 5 years certain benefit is divided equally among the beneficiaries and paid as a single lump sum.

Disability Benefits

If a member becomes disabled while actively employed by one of the Companies, the member may elect to receive disability income or to accrue additional credited service during the period of disability. The amount of each disability income payment will be $\frac{1}{12}$ of the normal annual retirement income accrued in the Plan as of the date disability income is first payable. Payment of disability income or accrual of additional credited service will cease on the earliest of death, retirement or reaching normal retirement date, recovery from total disability, or when eligibility for Social Security benefits ceases.

B. Contributions

All contributions are paid by SFMAIC to the Trustees. No contributions are required or permitted from any Plan member. The contributions are based upon the Plan actuary's calculation and are designed to fund the current service costs on a current basis and to fund, over not more than seven years, any unfunded liabilities.

Minimum funding requirements of ERISA have been met or exceeded for the year ended December 31, 2024.

C. Accumulated Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the credited service Plan members have rendered. As of December 31, 2024 and 2023, accumulated plan benefits are based on the highest average of the member's annual compensation amounts for any consecutive 1,825 days of credited service and on the member's covered compensation. Benefits payable for retirement, death and disability are included to the extent they are deemed attributable to credited service rendered to the valuation date.

The present value of accumulated plan benefits is the value that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts of interest) and probability of payment (by means of decrements for withdrawal, death, disability, or retirement) between the valuation date and the expected date of payment. The accumulated plan benefits as of December 31, 2024 and 2023 were calculated by the Plan's actuary.

D. Plan Termination

While the Companies have not expressed any intent to terminate their participation in the Plan, they are free to do so at any time, subject to the provisions set forth under ERISA. In the event that the Plan is terminated, the normal retirement income based upon credited service to the date of Plan termination shall become fully vested and non-forfeitable to the extent funded based on the financial health of the plan sponsor and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation. The assets of the trust fund shall be allocated in accordance with the order for such allocation in Section 4044 of ERISA, or any successor section or statute thereto.

2. Summary of Significant Accounting Policies

A. Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

B. Investments

All investments are held, and investment transactions are processed by an external custodial institution (“Custodian”).

Investments are stated at fair value. Cash held by the Plan is interest bearing and includes foreign currency converted to U.S. dollars using quoted foreign exchange rates. United States government and agency securities, corporate debt and other debt securities are valued at fair value based on market price quotations provided by an independent pricing service or determined through an internal pricing matrix. Common stocks and registered investment companies traded on securities exchanges or in the over-the-counter market are valued at the last reported sales price for the day. Money market instruments are valued at net asset value which approximates fair value. Forward currency contracts are valued using quoted foreign exchange rates.

Investment income on bonds and notes, common stocks and registered investment companies are recorded as earned on an accrual basis. Bond interest includes the amortization of purchase premiums or the accretion of purchase discounts. Dividends are recorded on the ex-dividend date. Purchases and sales of publicly traded investments are reflected on a trade date basis, while purchases of private placement debt securities are recorded on a settlement or funding date basis.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments. The net appreciation or depreciation is included in the “Net appreciation in fair value of investments” line on the Statement of Changes in Net Assets Available for Benefits.

Gain (loss) realized on disposal is calculated as the difference between the current value of the investment and the proceeds received on the sale date. Current value reporting is required for determining the total net gain (loss) on the sale of assets that is reported on Schedule H of Form 5500 filed with the U.S. Department of Labor.

Currency hedging, including cross hedging, is used primarily as part of a defensive strategy to protect the portfolio’s underlying assets. The Plan enters into forward currency contracts, which represent agreements to exchange currencies of different countries at specific future dates at specified rates. The forward currency contracts are used to reduce the exposure of investments denominated in non-U.S. currencies to fluctuations in foreign exchange rates. Forward currency contracts involve market risk in excess of the amount recognized in the Statement of Net Assets Available for Benefits.

State Farm Insurance Companies
Retirement Plan for United States Employees
Notes to Financial Statements
December 31, 2024 and 2023

Forward currency contracts were not designated as hedging instruments; realized and unrealized gains and losses would be recognized in net appreciation/depreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits. There were no realized gains or losses in 2024.

The Plan records realized gains or losses at the time the forward contracts are closed or offset by matching contracts. The face or contract amount in U.S. dollars reflects the total exposure the Plan has in that particular contract. Risks may arise upon entering these contracts from the potential inability of counterparties to meet the terms of their contracts and from possible movements in non-U.S. exchange rates and securities values underlying these instruments.

C. Administrative and Other Expenses

Office personnel, space and equipment, actuarial, record keeping, legal and certain investment services are furnished by the Companies at no charge to the Plan. Administrative and other expenses paid by the Plan include custodial, investment management, consulting fees due to external third parties, foreign income tax expenses, and investment related fees that are paid to JPMorgan Chase which is the Plan's custodial bank and a party in interest. In 2024 the Plan paid an annual premium in the amount of \$11.7 million to the Pension Benefit Guaranty Corporation.

D. Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the accumulated plan benefits as of the benefit information date, the changes in net assets available for benefits and the changes in the accumulated plan benefits during the reporting period and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

E. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, credit, and foreign currency exchange risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions and the accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

F. Benefits Paid

Benefits paid to members are recorded upon distribution.

G. Accounting Pronouncement

No applicable new accounting pronouncements are noted for the Plan year ended December 31, 2024.

3. Actuarial Assumptions

The following is a summary of the more significant actuarial assumptions underlying the actuarial computations for the Plan years ended December 31, 2024 and 2023:

40+	20.0%	8.0%	5.5%	3.3%

The actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions might be applicable in determining the accumulated plan benefits. An assumption study was last performed in 2023.

4. Fair Value Measurements

Fair value is defined as the price that would be received upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. The Plan's financial assets carried at fair value have been classified, for disclosure purposes, based on a hierarchy which prioritizes the inputs to valuation techniques used to measure fair value. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy are summarized below:

Level 1 – Observable inputs that reflect unadjusted quoted prices for identical securities in active markets.

Level 2 – Observable inputs other than quoted prices included in level 1 such as quoted prices for similar securities; interest rates, prepayment schedules and credit risk for fixed income securities; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Unobservable inputs including the Plan's own assumptions in determining the fair value of investments. The following tables set forth, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2024 and 2023:

Notes to Financial Statements

December 31, 2024 and 2023

The following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2024 compared to December 31, 2023.

Level 1 Measurements

Level 1 assets include cash, exchange-listed equity securities or equity mutual funds, and money market mutual funds where the net asset value is available publicly. Valuations are based upon unadjusted quoted prices.

Level 2 Measurements

Bonds - These assets include United States government and agency, corporate debt, and other debt securities valued by an independent pricing vendor. Typical inputs to models used by pricing vendors include but are not limited to benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers, and reference data including market research publications. On newly acquired publicly traded bonds not yet priced by the pricing vendor, the purchase price is used as fair value except at year-end. For newly acquired securities or existing securities that do not have a price at year-end, a broker quote is obtained to determine fair value. For private placement bonds not priced by the pricing vendor, an internal pricing matrix is used to estimate fair value. Inputs to the internal pricing matrix include benchmark yields, credit spreads, the industry sector of the issuer, and illiquidity spreads.

Forward Currency Contracts - These assets and liabilities are valued using quoted foreign exchange rates.

5. Tax Status

The IRS has determined and informed the Plan by a letter dated January 23, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan's management has reviewed the tax positions taken by the Plan and determined that as of December 31, 2024, and December 31, 2023, there are no uncertain positions taken or expected to be taken within the next 12 months that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audits for tax periods within a three-year prior period; the Plan is no longer subject to income tax examinations for years prior to 2021. Currently there are no tax audits in progress for any tax periods.

6. Parties in Interest

The Companies, Plan Administrator, PIC and Trustees are parties in interest. JPMorgan Chase is the Plan's custodian to whom custodian fees are paid. Northern Trust ("NT") and Capital Guardian Trust Company ("CGTC") are investment advisors for assets that are held at JPMorgan Chase. Alight, a defined benefit service provider, administers the benefit payments on behalf of the Plan.

The Plan holds investments in its custodian, JPMorgan Chase, and in one of its investment advisors, Northern Trust. The Plan also has an investment in the Emerging Markets Growth Fund, a registered investment company whose investment advisor is Capital International, Inc., an affiliated entity of Capital Guardian Trust Company. These transactions are party in interest transactions under ERISA.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Interest Rates for Minimum Funding Purposes	Based on segment rates, each adjusted as needed to fall within the 25-year average interest rate stabilization corridor
1st Segment Rate	4.75%
2nd Segment Rate	4.87%
3rd Segment Rate	5.59%
Interest Rates for Maximum Tax Purposes	Based on segment rates with a four-month lookback (as of September 2023), without regard to interest rate stabilization
1st Segment Rate	3.62%
2nd Segment Rate	4.46%
3rd Segment Rate	4.52%
Salary Increases	2023 Experience Study rate shown in Table 1.
Benefit and Compensation Limits	Benefits and compensation are limited by the current IRC section 415 maximum benefit of \$275,000 and the IRC section 401(a)(17) compensation limit of \$345,000.
Social Security Wage Base Increases	3.50% per year
Optional Payment Form Election Percentage	40% elect single life annuity; 10% elect 10-year certain & life annuity; 35% elect joint life annuity with 75% to Survivor; 15% elect life income annuity with 50% to beneficiary.
Optional Payment Form Conversion Interest Rates	7.00%

Withdrawal Rates

2023 Experience Study rates shown in Table 3.

Disability Rates

2014 Experience Study rates shown in Table 4.

Accrued Vacation Pay

Accrued vacation pay is included in the final year of pension pay for eligible members. Projected benefits at decrement are assumed to increase by a service-based percentage, based on a 2009 study. Sample rates are shown below:

Service at Decrement	Assumed Percentage
5 years	2.6%
10 years	3.2%
15 years	3.9%
20 years	4.6%
25 years	5.2%
30 years	5.9%
35 years	6.5%
40 years	7.2%
45 or more years	7.8%

Incentives

The Enterprise Incentive Program came into effect beginning with 2016 (based on the prior calendar year's results). This incentive program replaces both the Performance Cash Award and Enterprise Auto Growth Initiative programs. With a few exceptions, it is projected to pay out a percentage of base pay: 6% (Para-Professional/Support positions), 10% (Professional/Technical positions), or 12% (MG1 or MG2 job classes). Leadership associates are assumed to receive SMIP targets

Decrement and Benefit Timing

Beginning of year decrements with timing of annuity payments at the end of the month

Surviving Spouse Benefit

Since pre-retirement survivor death benefits are paid to both married and unmarried members, it is assumed that 100% of members have an eligible spouse, and that males are two years older than their spouses

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior year, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in

Schedule SB Attachment (Form 5500) —2024 Plan Year

this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2023 Plan Year

6.75%, limited to 5.74%

2024 Plan Year

6.75%, limited to 5.59%

Trust Expenses Included in Target Normal Cost

\$23,500,000 based on plan expenses expected to be paid from the trust rounded up to the nearest \$100,000

Other Valuation Methods

It is assumed that the active members projected to become disabled will elect the disability income option.

Employees not meeting the plan's age and service eligibility requirements as of the valuation date are excluded.

Active part-time employees are assumed to work the same number of hours in each future plan year as in the plan year immediately prior to the valuation date; based on this number of hours, such employees are assumed to receive either 365 days or 0 days of credited service in each future plan year.

Active trainee agents are valued as members not accruing future benefits as of the valuation date

Schedule SB, line 22 — Description of Weighted Average Retirement Age

The average retirement age shown in line 22 has been calculated by assuming the following retirement rates and no decrements other than retirement for this calculation. All retirements are assumed to occur at beginning of year.

(a) Age	(b) Rate	(c) Weight	(d) Product (a) × (b) × (c)

Schedule SB, line 24 — Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- Retirement rates, withdrawal rates, and salary scale rates were updated based on a 2023 Experience Study.
- A change in the assumed retirement rates for terminated vested participants from 20% commence at age 55 and remainder commence at age 62 to 25% commence at age 55 and remainder commence at age 62 based on a 2023 Experience Study.

These changes were made to better reflect the anticipated plan experience. The funding assumption changes did not reduce the funding shortfall more than the thresholds stated in the Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.

Withdrawal Rates

2023 Experience Study rates shown in Table 3.

Disability Rates

2014 Experience Study rates shown in Table 4.

Accrued Vacation Pay

Accrued vacation pay is included in the final year of pension pay for eligible members. Projected benefits at decrement are assumed to increase by a service-based percentage, based on a 2009 study. Sample rates are shown below:

Service at Decrement	Assumed Percentage
5 years	2.6%
10 years	3.2%
15 years	3.9%
20 years	4.6%
25 years	5.2%
30 years	5.9%
35 years	6.5%
40 years	7.2%
45 or more years	7.8%

Incentives

The Enterprise Incentive Program came into effect beginning with 2016 (based on the prior calendar year's results). This incentive program replaces both the Performance Cash Award and Enterprise Auto Growth Initiative programs. With a few exceptions, it is projected to pay out a percentage of base pay: 6% (Para-Professional/Support positions), 10% (Professional/Technical positions), or 12% (MG1 or MG2 job classes). Leadership associates are assumed to receive SMIP targets

Decrement and Benefit Timing

Beginning of year decrements with timing of annuity payments at the end of the month

Surviving Spouse Benefit

Since pre-retirement survivor death benefits are paid to both married and unmarried members, it is assumed that 100% of members have an eligible spouse, and that males are two years older than their spouses

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior year, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in

Employees
EIN: 370533100 PN: 001

this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2023 Plan Year

Other Valuation Methods

It is assumed that the active members projected to become disabled will elect the disability income option.

Employees not meeting the plan's age and service eligibility requirements as of the valuation date are excluded.

Active part-time employees are assumed to work the same number of hours in each future plan year as in the plan year immediately prior to the valuation date; based on this number of hours, such employees are assumed to receive either 365 days or 0 days of credited service in each future plan year.

Active trainee agents are valued as members not accruing future benefits as of the valuation date

Schedule SB, Part V — Summary of Plan Provisions

The following briefly describes the key provisions of the Retirement Plan for United States Employees. Reference should be made to the Plan Document for additional clarification and details.

Status of Plan	Effective January 1, 2021 the Plan is closed to new hires with active members continuing to earn service and pay accruals.
Plan Year	The plan year is the calendar year.
Employee	The term "Employee-agent" shall mean any individual holding a State Farm Agent's Employment Agreement or a State Farm Trainee Agent Agreement dated October 1, 1995 or later with any of the Companies. The word "Employee" shall mean a person in the employment of the Company, including Employee-agents, special sales representatives and officers of the Companies, but excluding the following persons: ▪ Any director, unless said director is otherwise regularly employed by the Companies; ▪ Any person whose terms and conditions of employment are determined by a collective bargaining agreement between the Companies and a labor union which does not make the Plan applicable to them; ▪ Any person or agent, other than an Employee-agent, whose remuneration from the Companies is paid solely by means of commissions, retainers, fees, severance pay, retirement allowances, or any other form of compensation other than salary; ▪ Any employee of a trainee agent or field representative; ▪ Any leased employee performing services for the Companies; and ▪ Any employee operating under a Staff Assistance Agreement entered into on or after January 1, 2005.

Schedule SB Attachment (Form 5500) —2024 Plan Year
State Farm Insurance Companies Retirement Plan for United States
Employees
EIN: 370533100 PN: 001

Participant

The word “participant” shall mean an employee who meets, or a former employee or former agency manager who has met the one year of service requirement and has attained age 21.

Average Annual Compensation

Calculated by determining the period during which the Member’s annual Compensation amounts for any 1,825 consecutive days of Credited Service in this Plan or in combination of this and the Canadian Plan was the highest. Then averaging, over such period, the sum of the Member’s Base Pay and the (up to) 5 highest consecutive Incentive Awards paid in the calendar years counted in such period.

Determined as of the Benefit Determination Date. If the Member has less than 1,825 days of Credited Service, the average is over the Member’s full period of Credited Service.

Compensation

Wages paid in the year, as defined in Code Section 3401(a) (determined without regard to any rules that limit the remuneration included in wages based on the nature or location of the employment or services performed);

Increased by all of the following types of elective contributions and all of the following types of deferred compensation—elective contributions that are made by the Company on behalf of its employees that are not includible in gross income under Code Section 125, Code Section 402(e)(3), Code Section 402(h), Code Section 403(b), and Code Section 132(f); and

Reduced by all of the following items: (only if includible in gross income) reimbursements or other expense allowances, fringe benefits (cash and non-cash), moving expenses, deferred compensation, welfare benefits, pay for unused or accrued time- off benefits. Further, for Incentive Awards that are based on a multiple-year performance measure and are not paid early due to termination or retirement, the following rules shall apply. Prior to January 1, 2016, Compensation shall be reduced for the full multiple-year Incentive Award paid in such year if the employee is in the L1, L2, and L3 job class. After December 31, 2015, Compensation shall be reduced for any multiple-year Incentive Award paid other than payment for up to 850 units under the Long Term Incentive Plan.

Schedule SB Attachment (Form 5500) —2024 Plan Year
State Farm Insurance Companies Retirement Plan for United States
Employees
EIN: 370533100 PN: 001

For purposes of this Section, “fringe benefits” include, but are not limited to, trips and merchandise awards.

The reduction for pay for unused or accrued time-off benefits will not be applied if all of the following criteria are satisfied: (i) on December 31, 2006, the Member was at least age 50; (ii) on December 31, 2006, the Member was either an active Employee or an active agent operating under a State Farm Agent's Agreement; (iii) since December 31, 2006, the Member has worked continuously with the Companies as an Employee or agent; (iv) since December 31, 2006, the Member has not received a prior payment for unused or accrued time-off benefits due to termination of employment or movement from full-time to part-time employment; and (v) at the time of retirement, the Member is not a participant in the Long Term Incentive Plan.

For the year in which a part-time Employee becomes a Plan Member, Compensation shall be determined based on the full calendar year.

Notwithstanding the preceding, Compensation shall not exceed the annual Compensation Limit under IRC § 401(a)(17) in effect for the applicable Plan Year.

Vesting Service

Service for plan participation and eligibility for benefits is an employee's days of service measured by elapsed time.

Credited Service

Full-time: Days of service as a plan member.

Part-time: Either 365 (hours worked equal 900+) or 0 (hours worked less than 900) days.

Special credited service rules apply when a member has periods of both full-time and part-time employment in the same plan year.

Covered Compensation

35-year average of Social Security Wage Bases ending with the calendar year in which the member attains the social security retirement age.

Normal Retirement
Eligibility

Age 65

Benefit

For each year of credited service, not in excess of 35 years, an annual amount equal to (1) plus (2) where:

Schedule SB Attachment (Form 5500) —2024 Plan Year
State Farm Insurance Companies Retirement Plan for United States
Employees
EIN: 370533100 PN: 001

(1) 1.3% times average annual compensation, which does not exceed covered compensation;

(2) 1.75% times average annual compensation, which exceeds covered compensation.

Early Retirement
Eligibility

Age 55 and five years of vesting service

Benefit

The accrued normal retirement benefit reduced based on the following schedule:

Age	Early Retirement Factor
55	60%
56	65%
57	70%
58	75%
59	80%
60	85%
61	90%
62+	100%

Vested Termination
Eligibility

Five years of vesting service

Benefit

Same as normal retirement benefit based on earnings and service at termination. Payments may begin any time after eligibility for early retirement if reduced in the same manner as for early retirement.

Disability Retirement
Eligibility

Active member becomes disabled (as defined by the Social Security Act); Age plus crediting service equals at least 55 years; Five years of vesting service

Benefit

Choice to receive disability income or continuing credited service accruals. If the member elects the income option, disability income is payable until the earliest of age 65, death, or recovery from disability. The amount of disability income equals the amount of normal retirement income benefit on the date of disability. If the member elects to have credited service accrue during the period of disability, the disabled member's compensation for a period of disability shall

Employees
EIN: 370533100 PN: 001

	be based on the member's average annual compensation as of the member's date of disability.
Pre-Retirement Death Eligibility	Death of a vested member prior to benefit commencement date.
Benefit	The amount of each monthly survivor income payment shall be the amount that would have been paid to the beneficiary under the Joint Life Income with 75% to Survivor optional form of retirement income as if the beneficiary were the joint annuitant, and as if the member had retired and died on the first day of the month of death (taking into account, however, the Normal Annual Retirement Income accrued as of the earlier of the Member's Date of Termination of Employment or date of death). Payments are made for the lifetime of the beneficiary with the first five years guaranteed. If the member has multiple primary beneficiaries or no beneficiary, the designated beneficiaries or estate shall receive a lump sum of the present value of this payment (the designated beneficiary or estate is assumed to be the same age as the member).
Normal Form of Benefit	Life annuity if single; 50% qualified joint and survivor annuity if married.
Optional Forms of Benefits	In lieu of the normal form of payment and subject to spousal consent, if required, a member may choose between two additional payment options: life income with ten years certain and joint life income with 75% to survivor. A vested terminated member whose present value of retirement income at termination is not greater than \$7,000 receives a single sum distribution of the present value amount.

Schedule SB, Part V — Summary of Plan Provisions

The following briefly describes the key provisions of the Retirement Plan for United States Employees. Reference should be made to the Plan Document for additional clarification and details.

Status of Plan	Effective January 1, 2021 the Plan is closed to new hires with active members continuing to earn service and pay accruals.
Plan Year	The plan year is the calendar year.
Employee	The term "Employee-agent" shall mean any individual holding a State Farm Agent's Employment Agreement or a State Farm Trainee Agent Agreement dated October 1, 1995 or later with any of the Companies. The word "Employee" shall mean a person in the employment of the Company, including Employee-agents, special sales representatives and officers of the Companies, but excluding the following persons: ▪ Any director, unless said director is otherwise regularly employed by the Companies; ▪ Any person whose terms and conditions of employment are determined by a collective bargaining agreement between the Companies and a labor union which does not make the Plan applicable to them; ▪ Any person or agent, other than an Employee-agent, whose remuneration from the Companies is paid solely by means of commissions, retainers, fees, severance pay, retirement allowances, or any other form of compensation other than salary; ▪ Any employee of a trainee agent or field representative; ▪ Any leased employee performing services for the Companies; and ▪ Any employee operating under a Staff Assistance Agreement entered into on or after January 1, 2005.

Participant

The word “participant” shall mean an employee who meets, or a former employee or former agency manager who has met the one year of service requirement and has attained age 21.

Average Annual Compensation

Calculated by determining the period during which the Member’s annual Compensation amounts for any 1,825 consecutive days of Credited Service in this Plan or in combination of this and the Canadian Plan was the highest. Then averaging, over such period, the sum of the Member’s Base Pay and the (up to) 5 highest consecutive Incentive Awards paid in the calendar years counted in such period.

Determined as of the Benefit Determination Date. If the Member has less than 1,825 days of Credited Service, the average is over the Member’s full period of Credited Service.

Compensation

Wages paid in the year, as defined in Code Section 3401(a) (determined without regard to any rules that limit the remuneration included in wages based on the nature or location of the employment or services performed);

Increased by all of the following types of elective contributions and all of the following types of deferred compensation—elective contributions that are made by the Company on behalf of its employees that are not includible in gross income under Code Section 125, Code Section 402(e)(3), Code Section 402(h), Code Section 403(b), and Code Section 132(f); and

Reduced by all of the following items: (only if includible in gross income) reimbursements or other expense allowances, fringe benefits (cash and non-cash), moving expenses, deferred compensation, welfare benefits, pay for unused or accrued time- off benefits. Further, for Incentive Awards that are based on a multiple-year performance measure and are not paid early due to termination or retirement, the following rules shall apply. Prior to January 1, 2016, Compensation shall be reduced for the full multiple-year Incentive Award paid in such year if the employee is in the L1, L2, and L3 job class. After December 31, 2015, Compensation shall be reduced for any multiple-year Incentive Award paid other than payment for up to 850 units under the Long Term Incentive Plan.

For purposes of this Section, “fringe benefits” include, but are not limited to, trips and merchandise awards.

The reduction for pay for unused or accrued time-off benefits will not be applied if all of the following criteria are satisfied: (i) on December 31, 2006, the Member was at least age 50; (ii) on December 31, 2006, the Member was either an active Employee or an active agent operating under a State Farm Agent's Agreement; (iii) since December 31, 2006, the Member has worked continuously with the Companies as an Employee or agent; (iv) since December 31, 2006, the Member has not received a prior payment for unused or accrued time-off benefits due to termination of employment or movement from full-time to part-time employment; and (v) at the time of retirement, the Member is not a participant in the Long Term Incentive Plan.

For the year in which a part-time Employee becomes a Plan Member, Compensation shall be determined based on the full calendar year.

Notwithstanding the preceding, Compensation shall not exceed the annual Compensation Limit under IRC § 401(a)(17) in effect for the applicable Plan Year.

Vesting Service

Service for plan participation and eligibility for benefits is an employee's days of service measured by elapsed time.

Credited Service

Full-time: Days of service as a plan member.

Part-time: Either 365 (hours worked equal 900+) or 0 (hours worked less than 900) days.

Special credited service rules apply when a member has periods of both full-time and part-time employment in the same plan year.

Covered Compensation

35-year average of Social Security Wage Bases ending with the calendar year in which the member attains the social security retirement age.

Normal Retirement
Eligibility

Age 65

Benefit

For each year of credited service, not in excess of 35 years, an annual amount equal to (1) plus (2) where:

Schedule SB Attachment (Form 5500) —2024 Plan Year

Employees
EIN: 370533100 PN: 001

(1) 1.3% times average annual compensation, which does not exceed covered compensation;

(2) 1.75% times average annual compensation, which exceeds covered compensation.

Early Retirement
Eligibility

Age 55 and five years of vesting service

Benefit

The accrued normal retirement benefit reduced based on the following schedule:

Age	Early Retirement Factor
55	60%
56	65%
57	70%
58	75%
59	80%
60	85%
61	90%
62+	100%

Vested Termination
Eligibility

Five years of vesting service

Benefit

Same as normal retirement benefit based on earnings and service at termination. Payments may begin any time after eligibility for early retirement if reduced in the same manner as for early retirement.

Disability Retirement
Eligibility

Active member becomes disabled (as defined by the Social Security Act); Age plus crediting service equals at least 55 years; Five years of vesting service

Benefit

Choice to receive disability income or continuing credited service accruals. If the member elects the income option, disability income is payable until the earliest of age 65, death, or recovery from disability. The amount of disability income equals the amount of normal retirement income benefit on the date of disability. If the member elects to have credited service accrue during the period of disability, the disabled member's compensation for a period of disability shall

	be based on the member's average annual compensation as of the member's date of disability.
Pre-Retirement Death Eligibility	Death of a vested member prior to benefit commencement date.
Benefit	The amount of each monthly survivor income payment shall be the amount that would have been paid to the beneficiary under the Joint Life Income with 75% to Survivor optional form of retirement income as if the beneficiary were the joint annuitant, and as if the member had retired and died on the first day of the month of death (taking into account, however, the Normal Annual Retirement Income accrued as of the earlier of the Member's Date of Termination of Employment or date of death). Payments are made for the lifetime of the beneficiary with the first five years guaranteed. If the member has multiple primary beneficiaries or no beneficiary, the designated beneficiaries or estate shall receive a lump sum of the present value of this payment (the designated beneficiary or estate is assumed to be the same age as the member).
Normal Form of Benefit	Life annuity if single; 50% qualified joint and survivor annuity if married.
Optional Forms of Benefits	In lieu of the normal form of payment and subject to spousal consent, if required, a member may choose between two additional payment options: life income with ten years certain and joint life income with 75% to survivor. A vested terminated member whose present value of retirement income at termination is not greater than \$7,000 receives a single sum distribution of the present value amount.

Schedule SB, line 24 — Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- Retirement rates, withdrawal rates, and salary scale rates were updated based on a 2023 Experience Study.
- A change in the assumed retirement rates for terminated vested participants from 20% commence at age 55 and remainder commence at age 62 to 25% commence at age 55 and remainder commence at age 62 based on a 2023 Experience Study.

These changes were made to better reflect the anticipated plan experience. The funding assumption changes did not reduce the funding shortfall more than the thresholds stated in the Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.
