INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Rick Engineering Company Profit Sharing Plan and Trust
San Diego, California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Rick Engineering Company Profit Sharing Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023 and the related statement of changes in net assets available for benefits for the year ended December 31, 2024, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the year ended December 31, 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Rick Engineering Company Profit Sharing Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

INDEPENDENT AUDITOR'S REPORT, CONTINUED

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

INDEPENDENT AUDITOR'S REPORT, CONTINUED

Auditor's Responsibilities for the Audit of the Financial Statements, continued

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and Schedule H, Line 4j - Schedule of Reportable Transactions as of and for the year ended December 31, 2024, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

RICK ENGINEERING COMPANY PROFIT SHARING PLAN AND TRUST

Notes to Financial Statements

December 31, 2024 and 2023

Note 1 - Description of the Plan

The following description of the Rick Engineering Company Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible regular employees of Glenn A. Rick Engineering and Development Company, dba Rick Engineering Company (the Company) who have performed at least 1,000 hours of service during the first 12 consecutive months of employment and are age 18 or older. Employees covered by collective bargaining agreements, leased and contractor's employees, interns and nonresident aliens are excluded from participation in the Plan. The Plan engaged Principal Bank and Principal Trust Company to hold and invest Plan assets and execute Plan transactions. See Note 2 and 3 regarding the transfer of assets on December 31, 2024. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

The Company may make discretionary contributions which the Company determines each year. To be eligible for the discretionary contributions, a participant must have completed at least 1,000 hours of service during the Plan year and be employed on the last working day of the Plan year. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the allocations of (a) the Company's contribution and (b) the Plan's earnings and charged with an allocation of administrative expenses. Contribution allocations are made in the same proportion that the participant's Plan Compensation bears to the total Plan Compensation of all eligible participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Vesting in the Company's portion of their account plus actual earnings thereon is based on years of continuous service earned for each Plan year the participant completes at least 1,000 hours of service. A participant becomes fully vested at the end of 3 years of credited service. A participant also becomes fully vested in the entire balance of their account upon attainment of normal retirement age, permanent disability, death, or termination of the Plan.

Payment of Benefits

On termination of service due to any reason, participants with vested account balances of \$7,000 or less receive an automatic cash lump sum distribution. Participants with vested account balances of \$7,000 or more may elect to receive a single lump-sum amount, to rollover their balance into another qualified retirement plan or Individual Retirement Account (IRA) or choose to leave their balance in the Plan. Participants may also elect to take in-service withdrawals subject to the terms of the Plan document and Internal Revenue Service (IRS) regulations.

Forfeitures

Forfeiture account balances may first be used to pay the Plan's expenses. Any remaining forfeitures may be used to reduce the Company's contributions. At December 31, 2024 and 2023 there were \$3,041 of forfeited non-vested accounts. During the years ended December 31, 2024 and 2023, no forfeitures were applied to reduce Plan expenses.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Notes to Financial Statements

December 31, 2024 and 2023

Note 2 - Summary of Significant Accounting Policies, continued

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. The Plan permits the payment of Plan expenses to be made from the Plan's assets. Investment related expenses are included in net depreciation of fair value of investments.

Risks and Uncertainties

The Plan invests in various investment securities, including Company Common Stock. Investment securities are exposed to various risks such as interest rate, market, and credit risks as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with Company Common Stock and certain investment securities, it is at least reasonably possible that changes in the values of Company Common Stock and investment securities will occur in the near term and that such changes could materially affect participants' account balances, and the amounts reported in the Statements of Net Assets Available for Benefits.

Subsequent Events

The Plan has evaluated subsequent events through June 17, 2026, the date the financial statements were available to be issued. See Note 3 regarding the transfer of investments on December 31, 2024.

Note 3 - Information Certified by Custodians

The Plan's investments were held by Principal Bank, the former Custodian of the Plan, from January 1, 2024 through December 31, 2024. On December 31, 2024 the investments were transferred from Principal Bank to Principal Trust Company, the Custodian of the Plan. In 2025, participant investments, except investments in Rick Engineering Company Common Stock, became daily-valued. Investment decisions are made at the direction of the Plan Sponsor. The investments are credited for earnings thereon and charged for withdrawals and expenses as charged by the Custodian. The Plan Administrator has obtained certifications from the Custodians as of December 31, 2024 and 2023, and for the year ended December 31, 2024, that the following information provided to the Plan Administrator by the Custodians is complete and accurate:

- Investments in Registered Investment Companies of \$4,736,462, at fair value as of December 31, 2024
- Investments in Common Collective Trusts of \$5,827,414, at fair value as of December 31, 2023
- Net change in fair value of Common Collective Trusts and Registered Investment Companies of \$609,779

Note 4 - Party-in-Interest Transactions

The Plan invests in common stock of the Plan Sponsor. The Plan engaged Principal Bank and Principal Trust Company to provide investment services. These party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in all employer contributions.

Note 6 - Fair Value Measurements

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, and risk of nonperformance.

The Plan follows a fair value hierarchy to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Three levels of inputs may be used to measure fair value:

Level 1 - quoted prices in active markets for identical assets or liabilities.

Level 2 - inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024 and 2023:

Registered Investment Companies (Mutual Funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. Mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trusts (CCT): CCT's invest in a variety of guaranteed investment contracts, domestic stocks, international stocks, mutual funds, bonds and other securities. The majority of the underlying securities have observable level 1 quoted pricing inputs. While the underlying asset values are generally based on publicly quoted prices, the net asset value (NAV) of each individual CCT is not valued using publicly quoted prices.

Rick Engineering Company Common Stock: stated at an appraised value derived by using several valuation techniques. The Plan's share of its investment in Rick Engineering Company is 27.44% and 28.34% of the Company's total common stock at December 31, 2024 and 2023, respectively.

Note 6 - Fair Value Measurements, continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Investments at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 4,736,462	\$ -	\$ -	\$ 4,736,462
Rick Engineering Company common stock	-	-	5,599,557	\$ 5,599,557
Total investments, at fair value	\$ 4,736,462	\$ -	\$ 5,599,557	10,336,019

	Investments at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Rick Engineering Company common stock	\$ -	\$ -	\$ 6,523,122	\$ 6,523,122
Total investments in the fair value hierarchy	\$ -	\$ -	\$ 6,523,122	6,523,122

Investment measured at NAV				5,827,414
Total investments, at fair value				\$ 12,350,536

The fair value of Rick Engineering Company common stock is determined by an annual independent appraisal. Three different approaches (asset-based valuation, earnings-based valuation and market-based valuation) were examined when valuing the shares. The appraiser determined that the adjusted book value was the most appropriate valuation method for the Company. The primary adjustments to the book value were for the increase in the value of real estate and the other depreciable assets.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2024:

	Rick Engineering Company Common Stock
Balance, beginning of the year	\$ 6,523,122
Unrealized loss in value	(923,565)
Balance, end of the year	\$ 5,599,557

Note 6 - Fair Value Measurements, continued

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2023:

	Fair Value 2023	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common Collective Trusts	\$5,827,414	N/A	Daily	1 day

Note 7 - Tax Status

The IRS has determined by an opinion letter dated June 30, 2020, that the Non-Standardized Pre-Approval Profit Sharing plan sponsored by Principal Life Insurance Company, which has been adopted by the Plan, is acceptable pursuant to section 401 of the Internal Revenue Code (IRC) and in compliance with the applicable requirements of the IRC. The Plan has not requested its own determination letter from the IRS. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
