Independent Auditor's Report

Audit Committee, Investment Committee, Plan Administrator, Plan Management
and Plan Participants
Olin Corporation Retirement Savings Plan
Clayton, Missouri

Opinion

We have audited the financial statements of Olin Corporation Retirement Savings Plan ("Plan"), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Information Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Audit Committee, Investment Committee, Plan Administrator, Plan Management

Olin Corporation Retirement Savings Plan

In our opinion, the information in the accompanying information is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Olin Corporation Retirement Savings Plan
Notes to Financial Statements
December 31, 2025 and 2024

NOTE 1. DESCRIPTION OF THE PLAN

The Olin Corporation (Olin) Retirement Savings Plan (the Plan) was amended and restated effective January 1, 2024 in order to include all prior amendments made to the Plan and incorporate certain legally required amendments. Additionally, effective October 1, 2024, the Plan's name was changed from the Contributing Employee Ownership Plan (CEOP) and to reflect operational practices and changes made in connection with Olin's engagement of a new recordkeeper and custodian. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan originally established in 1964 that has since been amended and restated and for which Olin is the current sponsor. The Plan was established for the purpose of providing retirement benefits for the United States (U.S.) employees of Olin and its subsidiaries. The Plan contains a cash or deferred component which was intended to qualify under Sections 401(a) and 401(k) of the Internal Revenue Code of 1986, as amended (the Code) and an employee stock ownership plan (ESOP) component intended to qualify as a stock bonus plan under Sections 401(a) and 4975(e)(7) of the Code. The ESOP consists of the Olin Common Stock Fund. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Eligibility

The Plan provides eligibility to substantially all U.S. employees upon their hire date, provided they are actively employed by a participating employer and being paid by Olin.

Contributions

The total maximum allowable employee contribution is 80% of eligible pay, subject to relevant annual limitations in the Code. Plan participants may elect to increase, decrease, suspend or resume compensation deferrals at any time. New elections are effective as soon as practicable after the request is processed. Newly hired eligible employees not electing to enroll within approximately 30 days of hire date, are automatically enrolled to contribute 6% of their eligible compensation to the Plan, unless the employee elects to opt out. The Plan contains an automatic escalation feature whereby contributions for certain eligible participants who are participating in the Plan are automatically increased 1% each year effective April 1, until the contribution rate reaches 15%, unless the employee designates otherwise. The Plan's default investment option is the T. Rowe Price Age Based Retirement Income Fund with a maturity date closest to the participant's 65th birthday.

The Plan follows the Code's annual total maximum amount of employee contributions that may be made to the Plan, including catch-up contributions. The amounts of employee contributions are based on eligible compensation and the percentage of such compensation the participant has elected to contribute to the Plan.

The Plan provides for various Olin matching contributions based on various formulas outlined in the Plan, calculated based on the contributions made by the employee. The Plan also provides certain employees with Olin retirement contributions based on various formulas outlined in the Plan, calculated based on the employee's eligible compensation and without respect to contributions elected by the employee. Both the Olin matching and retirement contributions are invested in the same investment allocation as the employee's contributions to the Plan.

Contributions received from participants for the years ended December 31, 2025 and 2024 included excess deferrals, net of related gains and losses, of \$405,280 and \$344,211, respectively. These amounts were recorded as a liability with a corresponding reduction to participant contributions and were distributed to applicable participants in April 2026 and 2025, respectively, to comply with the maximum annual contribution limits under the Code.

Rollovers

The Plan accepts rollovers of qualified distributions from other eligible retirement plans.

Participant's Accounts

Each participant's account is credited with the participant's contribution and allocations of Olin's contributions and earnings, which have been reduced by administrative expenses. The benefit to which a participant is entitled is the participant's vested account balance.

Participant Investment Account Options

Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also transfer the value of the investments in their account to any one or a combination of investments available in the Plan. Transfers into the Olin Common Stock Fund are limited to the extent that such transfer would result in more than 20% of the participant's account balance invested in the Olin Common Stock Fund.

Vesting

Substantially all participants in the Plan are immediately 100% vested in the Olin matching contributions. Additionally, Olin elected to incorporate certain provisions into the Plan, so that the Plan was a “safe harbor” plan under Section 401(k) of the Code for substantially all participants (excluding specified employees in a qualified separate line of business); specifically, the first 3% of Olin retirement contributions are immediately 100% vested. With the exception of the safe harbor retirement contributions, substantially all of the remaining Olin retirement contributions generally vest in accordance with the following schedule:

<i>Years of Service</i>	<i>Percentage Vested</i>
Less than 2	0%
2	50%
3	100%

The Plan provides for immediate vesting resulting from death, total and permanent disability, or attainment of normal retirement age (age 65).

Forfeited Accounts

Forfeitures of Olin’s retirement contributions were used to reduce Olin’s contributions by \$1,518,789 and \$1,800,000 for the years ended December 31, 2025 and 2024, respectively. Forfeitures that were available amounted to \$144,082 and \$149,017 as of December 31, 2025 and 2024, respectively.

Payment of Benefits

Upon termination of service for any reason, a participant may elect to receive their entire vested balance in either a lump-sum or in annual installments up to fifteen years, or if the participant’s life expectancy exceeds fifteen years, the life expectancy of the participant.

All distributions are paid in cash; however, at the election of the participant, distributions from the Olin Common Stock Fund may be paid in common stock with any fractional interest in a share of common stock paid in cash.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. All employees who are participants in the Plan are eligible to borrow from the Plan. The Plan generally allows for only one loan to be outstanding at a time. No loan made to any participant shall exceed the lesser of:

- (1) \$50,000 reduced by the excess (if any) of (i) the highest outstanding balance of loans from the Plan during the one-year period ending on the day before the date the loan is made, over (ii) the outstanding balance of loans from the Plan on the date the loan is made, or
- (2) 50% of the participant's vested account balance as of the valuation date on or immediately preceding the date of the loan.

The loans are funded from the participant's accounts, reducing the account balance by the loan amount, and are reflected as notes receivable from participants in the Plan's financial statements. Terms of new loans may be up to five years. The interest rate on outstanding loans is the prime rate on the date of loan origination. Interest rates on outstanding loans ranged from 3.25% to 9.50% and 3.25% to 8.50% as of December 31, 2025 and 2024, respectively. The interest rates on new loans were 7.00% to 7.50% and 7.75% to 8.50% for the years ended December 31, 2025 and 2024, respectively. Delinquent notes receivable from participants are classified as benefits paid to participants.

Plan Termination

Although it has not expressed any intent to do so, Olin has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Recordkeepers

Empower Retirement, LLC (Empower) is the recordkeeper for the Plan effective October 1, 2024. Prior to this date, the Plan's recordkeeper was Voya Institutional Plan Services, LLC (Voya), as further described in Note 6.

Custodians

Empower Trust Company, LLC (Empower Trust) is the custodian for the majority of the Plan's investments effective October 1, 2024. Prior to this date, Voya Institutional Trust Company (Voya Trust) was the custodian for the majority of the Plan's investments as further described in Note 6. State Street Bank and Trust is the custodian for the Olin Common Stock Fund.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America. Certain reclassifications have been made to the 2024 financial statements to conform to the 2025 financial statement presentation. These reclassifications had no effect on changes in net assets available for benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan performs fair value measurements in accordance with Financial Accounting Standards Board Accounting Standards Codification 820, Fair Value Measurement (ASC 820). The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by investment advisors and custodians.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

The Plan invests in various investment securities, including Olin common stock. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Users of these financial statements should be aware that the financial markets' volatility may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments as of December 31, 2025 may not necessarily be indicative of amounts that could be realized in a current market exchange.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Except for loan origination fees, the expenses of administering the Plan are payable from the Plan's assets, unless the Company elects to pay such expenses. Olin has elected to have certain expenses of administering the Plan paid by the Company. No officer or employee receives compensation from the Plan.

Participant accounts are charged fees to pay for Plan expenses. Those charges are used to pay for the Plan's recordkeeping, custodial, auditing, legal, and other miscellaneous administrative fees.

Trust Fund Management

Empower Trust is the Plan trustee effective October 1, 2024. Prior to this date, the Voya Trust was the Plan trustee. Under the terms of the trust agreements with both Empower Trust and Voya Trust, the trustee is responsible for the safekeeping of Plan assets in the trust fund and the maintenance of records relating to receipts and disbursements from the trust fund. The trustee invests funds in accordance with the terms of the Plan and makes payments from the trust fund as directed by participants and Olin.

Under both the Empower Trust and Voya Trust, trustee fees, investment management fees, commissions, and related Plan administrative expenses are incorporated into the fees associated with the investment funds made available under the Plan. Investment related fees are included in net appreciation in fair value of investments. In addition, fees associated with the self-directed brokerage feature are charged directly to the affected participant's account.

Employer Contributions Receivable

Employer contributions from Olin are recorded when the Plan is owed, but has not yet received, employee and/or employer contributions. Employer contributions receivable for the year ended December 31, 2025 included an estimated receivable for an employer contribution correction.

NOTE 3. FAIR VALUE MEASUREMENTS

ASC 820 provides the framework for measuring fair value which includes a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value. The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs were unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 – Inputs, other than quoted prices included in Level 1, were either directly or indirectly observable for the asset or liability including quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data, for substantially the full term of the assets or liabilities.

Level 3 – Inputs significant to the valuation model were unobservable and reflected the Plan's best estimate of assumptions to measure the assets or liabilities at fair value.

Fair value measurement levels within the fair value hierarchy are based on the lowest level input that is significant to the fair value measurement in its entirety. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during the years ended December 31, 2025 and 2024:

- **Mutual Funds:** Mutual funds, excluding the Artisan International Value Fund, are valued at quoted market prices. The Artisan International Value Fund is valued on a per unit basis based on the daily change in the market value of the underlying investments, adjusted for dividends earned on the funds and an annual expense factor. All mutual funds are deemed to be actively traded.
- **Common Stocks:** Common stocks are valued at the closing price reported on the active market on which the individual securities are traded.
- **Self-directed Brokerage Investments:** The self-directed brokerage investments are primarily comprised of common stocks and mutual funds and are measured at current value based on published market quotations from individual investments comprising the brokerage accounts.

The following table presents investments of the Plan measured at fair value on a recurring basis:

	December 31, 2025		December 31, 2024	
	Level 1	Total	Level 1	Total
Mutual funds	\$ 165,884,532	\$ 165,884,532	\$ 167,466,925	\$ 167,466,925
Olin Corporation common stock	26,901,921	26,901,921	42,871,537	42,871,537
Self-directed brokerage investment	79,420,336	79,420,336	67,001,138	67,001,138
Total categorized investments measured at fair value	<u>\$ 272,206,789</u>	<u>\$ 272,206,789</u>	<u>\$ 277,339,600</u>	<u>\$ 277,339,600</u>
Collective trust funds with fair value measured at net asset value (1)		<u>1,217,681,956</u>		<u>1,067,004,957</u>
Total investments, at fair value		<u>\$ 1,489,888,745</u>		<u>\$ 1,344,344,557</u>

(1) Investments in collective trust funds are measured at fair value using the net asset value (NAV) per share (or its equivalent) as a practical expedient and have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Generally, the mutual funds have implemented policies to monitor and discourage frequent, short-term trading. Certain mutual funds apply a redemption fee if investments are not held for a minimum number of days and preclude transfers out of and into the fund within a minimum number of days. The mutual funds also monitor transaction data reported by Empower Trust in compliance with U.S. Securities and Exchange Commission Rule 22c-2 to identify potential violations of the transfer restrictions and take appropriate action, when necessary. Additionally, with respect to all investments (excluding the Self-Directed Brokerage Account investments), any money transferred out cannot be transferred back into the original fund for seven calendar days.

The NAV of collective trust funds is based on the fair value of the underlying investments held by the funds less liabilities. Investments may be redeemed on a daily basis and it is probable that the Plan will sell the investments for the NAV. There are no participant redemption restrictions and no significant redemption notice periods applicable to the Plan. There are also no unfunded commitments for these investments. The following table summarizes investments for which fair value is measured using NAV per share practical expedient:

	<i>December 31,</i>	
	<i>2025</i>	<i>2024</i>
Galliard Managed Income Fund D	\$ 77,550,989	\$ 76,464,939

Northern Trust All Country World ex-US Investable Market Index	52,662,967	43,087,822
Northern Trust Extended Equity Market Index	18,147,027	16,451,996
Northern Trust S&P 500 Index	260,535,622	220,037,383

Collective trust funds with fair value measured at NAV	<u>\$ 1,217,681,956</u>	<u>\$ 1,067,004,957</u>

NOTE 4. TAX STATUS

Olin received a determination letter dated September 2, 2016 from the Internal Revenue Service stating that the Plan is a qualified plan, and the trust thereunder is exempt from federal income taxes under the Code. Accordingly, no provision for income taxes has been included in the Plan's financial statements. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt. Counsel for Olin advised that an employee will not be subject to federal income taxes on the contributions of Olin, or on dividends, interest or profit from sales of securities received by the trustee and credited to an employee's account, until such account or accounts are withdrawn or made available to the employee. The tax treatment to the participant generally will depend upon the form of withdrawal.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax position taken by the Plan and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in process.

Empower Trust were transferred into funds identical or comparable to those offered by Voya Trust. The conversion initiated a blackout period beginning September 26, 2024 which continued through October 18, 2024. During this period, funds could not be applied to the employee-selected funds with Empower Trust or withdrawn from the Plan until Empower Trust had time to accurately complete the conversion from Voya Trust. During this period, employee contributions continued to be made through payroll deductions and the contributions were deposited and held in the participant accounts. At the end of the blackout period, these funds were transferred to Empower Trust and invested in funds as requested by each participant. In addition, the Plan was amended to provide three additional investment funds in which participant contributions to the Plan may be invested.
