Independent Auditor's Report

To the Plan Administrator of the New England Aquarium Corporation Pension Plan:

Opinion

We have audited the financial statements of the New England Aquarium Corporation Pension Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits in liquidation as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits in liquidation for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits in liquidation of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits in liquidation for the years then ended, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter – Plan Termination and Liquidation Basis of Accounting

As further discussed in Notes A and G to the financial statements, the Board of Trustees approved a plan of liquidation in 2023 and management determined liquidation is imminent. As a result, the Plan used the liquidation basis of accounting in presenting the 2025 and 2024 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The Schedule H, Line 4(j) - Schedule of Reportable Transactions (in liquidation) for the year ended December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The

information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NEW ENGLAND AQUARIUM CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

A. PLAN DESCRIPTION:

The following brief description of the New England Aquarium Corporation Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The Plan is a non-contributory defined benefit pension plan covering employees of New England Aquarium Corporation (the "Company") who were hired prior to 2004 and had completed 1,000 hours of service within 12 months of their date of hire or calendar year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and the Internal Revenue Code ("IRC").

Effective December 31, 2003, the Plan was amended to exclude all employees hired after that date. On December 31, 2006 the Plan was amended to cease further accrual of benefits. In connection with the freeze, the Company made enhancements to the New England Aquarium Employee Retirement Savings Plan, a qualified defined contribution plan sponsored by the Company.

As further discussed in Note G, in 2023, the Board of Trustees adopted a resolution to terminate the Plan. The effective date of the termination is September 30, 2024. In accordance with the Plan's termination provisions, all participants of the Plan became fully vested in their account balances as of that date. All assets of the Plan were distributed on or prior to December 31, 2025, and the Plan ceased to exist as of the date the assets were fully distributed.

Contributions and Funding Policy

The Company's funding policy is to contribute such amounts as are deemed necessary on an actuarial basis to fund the benefits expected to be paid by the Plan in accordance with the funding requirements of ERISA. The company met the minimum funding requirements of ERISA as of December 31, 2025 and 2024.

Benefits

The benefit at normal retirement age is 12% of a participant's average compensation over the five highest years earned prior to December 31, 2006, as defined, plus 5% of the excess, if any, of the participant's average annual compensation over 50% of the Social Security Wage Base at December 31, 2006, multiplied by the participant's years of credited service, not to exceed 25 years through December 31, 2006.

If a participant elects early retirement, benefits may be actuarially reduced by a formula based on the number of years between the normal retirement age and a participant's age at early retirement. Plan participants may defer retirement beyond normal retirement age.

NEW ENGLAND AQUARIUM CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Participants who terminate with a vested benefit of less than \$7,000 receive an automatic lump-sum distribution as soon as administratively possible. If their vested benefit is greater than \$7,000, then participants have the option to receive their benefits in the form of a lump-sum payment, a single annuity or a joint annuity with a survivorship option.

If the participant is married the form of payment will be as an actuarially equivalent qualified joint and survivor annuity. Actuarially equivalent optional forms of annuities may be elected by participants in lieu of the normal form of payment.

If a participant dies prior to their benefit commencement date, a death benefit equal to the value of the employee's accumulated pension benefits, as defined by the Plan, is paid to the employee's beneficiary.

Vested participants who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled.

Retirement Dates

Benefit payments generally begin at age 65, with an option for early retirement at age 50 for participants with a minimum credited service of 3 years.

Vesting

Prior to January 1, 2008, a participant was 100% vested upon the attainment of age 50 (if still employed by the Company) or after five years of service. Effective January 1, 2008, participants became 100% vested upon attainment of age 50 (if still employed by the Company) or after three years of service. In addition, a participant will become fully vested upon death or total disability. Effective September 30, 2024, participants became 100% vested in all accounts as a result of the plan termination.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Presentation

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting. As a result of the termination of the Plan, the Plan's 2025 and 2024 financial statements are presented using the liquidation basis of accounting.

Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process and liabilities are measured using the accrual basis of accounting and would include any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

NEW ENGLAND AQUARIUM CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported on liquidation basis which approximates fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan pays investment management fees and any other expenses of administering the Plan that are not paid by the Company, including actuary fees and PBGC premiums. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Certain expenses incurred and paid or are expected to be paid through the Plan during the liquidation of the Plan were recorded as accrued expenses as of December 31, 2024. See also Note G.

C. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Common collective trust – Valued at the net asset value of units of a collective trust. The net asset value, as provided by the fund manager, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value.

Exchange traded fund – Valued at the closing price reported on the active market on which the individual securities are traded.

U.S. Treasury STRIPS/Bills – Valued using pricing models maximizing the use of observable inputs for similar securities.

Cash, interest bearing – Valued at cost, which approximates fair value.

NEW ENGLAND AQUARIUM CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

There were no assets held for investment as of December 31, 2025.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

<u>Description:</u>	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Exchange traded fund	\$ 606,424	\$ 606,424	\$ -	\$ -
US Treasury STRIPs/Bills	1,182,940	-	1,182,940	-
Cash, interest bearing	<u>93,866</u>	<u>93,866</u>	<u>-</u>	<u>-</u>
Total investments in the fair value hierarchy	1,883,230	<u>\$ 700,290</u>	<u>\$ 1,182,940</u>	<u>\$ -</u>
Investments measured at net asset value(1): Common collective trust	<u>2,728,979</u>			
Investments at fair value	<u>\$ 4,612,209</u>			

(1) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits in liquidation.

Redemptions of the common collective trust are allowed daily with no required redemption notice period. There are no unfunded commitments.

D. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS:

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered and include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Vested benefits are benefits to which members are entitled regardless of future service with the Company. Nonvested benefits are dependent upon future services.

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

NEW ENGLAND AQUARIUM CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

The more significant assumptions underlying the actuarial computations used in the valuation as of December 31, 2024 are as follows:

Discount rate	- 5.25% (previously 4.75%)
Retirement	- Retirement at age 65
Mortality basis	- IRS Prescribed Mortality – Generational Annuitant (or Non-Annuitant) male and female Pri-2012 Total Dataset Amount-Weighted Mortality Rates Projected Database, MP-2021

The foregoing actuarial assumptions for the December 31, 2024 valuation were based on the presumption that the Plan was terminated and would be liquidated. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2025. Had the valuation been performed as of December 31, there would be no material difference.

As of December 31, 2024, the actuarial present value of accumulated plan benefits was as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 2,148,327
Other participants	3,088,306
Total vested benefits	5,236,633
Non vested benefits	-
Total actuarial present value of accumulated plan benefits	<u>\$ 5,236,633</u>

During the year ended December 31, 2024, the changes in accumulated plan benefits were as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 5,628,386
Increase (decrease) during the year attributable to:	
Benefits accumulated, including (gains) and losses	3,295
Increase in interest due to decrease in discount period	256,188
Assumption changes	(273,206)
Benefits paid	(475,434)
Plan amendment	97,404
Net increase	<u>(391,753)</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 5,236,633</u>

NEW ENGLAND AQUARIUM CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

All accumulated plan benefits were paid out by the end of 2025. Subsequent to the January 1, 2025 valuation date, all accumulated plan benefits were paid out through normal monthly benefit payments, lump sums, or transferred pursuant to an annuity purchase. Accumulated benefits for liquidation totaled \$5,757,452. See Note G for additional information.

E. RELATED-PARTY AND PARTY IN INTEREST TRANSACTIONS:

Section 3(14) of ERISA defines a party in interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, the management of investments held by the custodian and expenses paid to the custodian by the Plan are considered party-in-interest transactions.

F. TAX STATUS:

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated August 31, 2015, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the IRC. The Plan was restated effective July 1, 2024. The Plan was subsequently amended to terminate the Plan. The Company applied to the IRS for a final determination letter as part of the winddown process and received a final determination letter from the IRS dated September 8, 2025. The Company believes the Plan is designed and has been operated in accordance with plan terms and applicable requirements of the IRC. Therefore, no provision for income taxes has been recorded in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

G. TERMINATION:

In 2023, the Board of Trustees adopted a resolution to terminate the Plan in accordance with PBGC provisions and reporting requirements. The effective date of the plan termination is September 30, 2024. As a result of the plan termination, all participants became 100% vested in their accounts. Participants who had not commenced benefit payments were given the opportunity to receive a lump sum distribution during an election period in 2025. Lump sum payouts made in December 2025 totaled \$1,198,061.

In December 2025, the Plan entered into a contract with Midland National Life Insurance Company ("Midland National") to transfer assets and liabilities associated with the annuitant participants that were receiving a recurring benefit from the Plan or who had not made an election to receive a lump sum. In 2025, the plan transferred a net amount in cash of \$4,064,916 to Midland National. All ongoing benefit payments beginning February 1, 2026 will be satisfied by the insurance company under the terms of the contract. The Plan paid January 1, 2026 benefit payments on December 29, 2025.

NEW ENGLAND AQUARIUM CORPORATION PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

The Plan recorded a contribution receivable required for liquidation of \$850,000 as of December 31, 2024. In 2025, the Company made net contributions of \$1,113,101 to cover the liquidation of the plan, which was offset by the accrued contribution receivable for a net contribution on the 2025 statement of changes in net assets available for benefits in liquidation of \$263,101.

The Plan recorded a liability on the statement of net assets available for benefits in liquidation for the year ended December 31, 2024 of \$287,000 for professional and administrative fees paid or expected to be paid through the Plan due to the plan termination. As a result of the Plan being fully liquidated in 2025, there are no accrued expenses as of December 31, 2025. Actual expenses incurred through liquidation of \$261,777 were lower than the amount accrued at December 31, 2024. The difference is represented as an adjustment to liquidation basis on the 2025 statement of changes in net assets available for benefits in liquidation.

H. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. These investment securities are exposed to various risks, such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits in liquidation.

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements in liquidation.

I. SUBSEQUENT EVENTS:

The Plan has evaluated subsequent events through May 12, 2026, the date these financial statements were available for issuance.
