Hatco Corporation Employee Stock Ownership Plan

Financial Statements and Supplemental Schedule

Years Ended December 31, 2025 and 2024

Independent Auditor's Report

To the Plan Administrator
Hatco Corporation Employee Stock Ownership Plan
Milwaukee, Wisconsin

Opinion

We have audited the accompanying financial statements of Hatco Corporation Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Hatco Corporation Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Hatco Corporation Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Hatco Corporation Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Hatco Corporation Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Hatco Corporation Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

Hatco Corporation Employee Stock Ownership Plan

Notes to Financial Statements

Note 1: Description of Plan

The following description of the Hatco Corporation Employee Stock Ownership Plan (the "Plan") is provided for general information purposes only. For a more complete description of the Plan, participants should refer to the Plan Document.

General

The Plan is a leveraged employee stock ownership plan which is designed to invest primarily in the common stock of Hatco Corporation ("Hatco" or "Company"). Hatco Corporation is the Sponsor of the Plan. The Plan is intended to satisfy the requirements of an Employee Stock Ownership Plan, as defined under Section 4975(e)(7) of the Internal Revenue Code ("IRC"), and as a stock bonus plan under Section 401(a) of the IRC. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

On October 5, 2004, the Plan purchased 1,119,300 shares of Hatco common stock and on May 9, 2007 the Plan purchased an additional 1,123,400 shares of Hatco Corporation common stock (the "Stock Purchase"). The Stock Purchase resulted in the Plan owning 100% of the outstanding shares of Hatco common stock. All the shares are held in a trust (the "Trust") established under the Plan. The Plan borrowed money from the Company to fund the Stock Purchase.

The Plan's note payable to the Company is collateralized by unallocated shares of Hatco common stock. The Company has no rights against shares once they are allocated under the Plan. The remaining loan will be repaid from proceeds obtained from Company contributions and S-Corporation distributions less amounts paid for benefits. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

- (a) the accounts of participants with vested rights in allocated stock ("Allocated") and
- (b) stock not yet allocated to participants ("Unallocated").

Plan Administration

The Company's Board of Directors serves as fiduciary of the Plan and has the responsibility to appoint, monitor, and oversee TI Trust, the Plan Trustee. TI Trust is the recordkeeper and custodian who oversees the valuation process, the investment of trust assets, and the administration of the Plan.

Eligibility

Substantially all nonunion U.S. employees of the Company are eligible to participate in the Plan. Eligible employees enter the Plan on the first day of January, April, July, and October upon completing a three-consecutive-month period of employment.

In order to receive allocated and forfeited shares and, if applicable, discretionary cash or stock contributions, participants must complete 1,000 hours of service during the Plan year and be employed on the last day of the Plan year, unless separation of service was a result of retirement, death, or disability.

Hatco Corporation Employee Stock Ownership Plan

Notes to Financial Statements

Note 1: Description of Plan (Continued)

Contributions

For each Plan year, the Company shall contribute to the Plan a sufficient amount to pay the current principal and interest due on the note payable to the Company determined by the terms of the loan agreements. The contributions can be reduced for S-Corporation distributions on the allocated and unallocated shares. Any additional contributions are at the discretion of the Board of Directors of the Company. The Plan does not permit participant contributions. Repayments of principal and interest on the note payable are made from Company contributions and S-Corporation distributions on unallocated shares, less the amounts used to fund benefits paid. Such repayments for the years ended December 31, 2025 and 2024, resulted in the allocation of 25,938 and 25,938 shares, respectively.

Participant Accounts

An individual account is established for each participant. A participant's account balance consists of allocations of the Company's common stock and other investments currently consisting of mutual funds and a money market fund. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released from the unallocated account, forfeitures, and net investment income (loss). Allocations are based on a uniform percentage of allowable compensation.

S-Corporation distributions on allocated and unallocated shares, less an amount used to fund a proportionate amount of benefits paid, are used to repurchase allocated and unallocated shares and these proceeds were also used to repay principal and interest on the note payable.

Vesting

Vesting is based on the number of years of continuous service as shown by the following:

	Vesting %
Less than 2 years	0 %
2 Years	20 %
3 Years	40 %
4 Years	60 %
5 Years	80 %
6 or more	100 %

Participants are considered to have completed one year of service for purposes of vesting upon the completion of 1,000 hours of service at any time during a calendar year.

If participants terminate due to normal retirement, as defined by the Plan, or due to death or disability, they become 100% vested in their entire account balance as of their termination date.

Hatco Corporation Employee Stock Ownership Plan

Notes to Financial Statements

Note 1: Description of Plan (Continued)

Forfeitures

Forfeitures are portions of participant account balances that participants surrender by terminating employment prior to becoming fully vested. Forfeitures are allocated to eligible participants based on their ratio of eligible compensation to total eligible compensation for all participants. During 2025 and 2024, forfeitures allocated amounted to \$484,071 and \$532,345, respectively. As of December 31, 2025 and 2024, there were no unallocated forfeitures.

Voting Rights

In general, voting rights with respect to all shares of the Company's stock are exercised by the Plan's Trustee. Each participant shall be entitled to direct the voting of any voting shares of Company stock allocated to their account with respect to any vote required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all the assets of the Company.

Put Option

The Company's stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The purpose of the put option is to ensure that participants have the ability to ultimately obtain liquidity. The Company can pay for stock, with interest, that is put to it over a period not to exceed five years.

The Plan retains a portion of the Company contributions and S-Corporation distributions that are not used to pay the current principal and interest payments on the note payable to fund current repurchase obligation distributions.

Payment of Benefits and Diversification

Upon termination of service due to death, disability, or retirement, a participant or a participant's beneficiary may elect to receive an amount equal to the value of the participant's vested interest in their account in the form of cash. For termination due to death or disability, the entire vested balance will be paid in a lump-sum following the year of terminated employment. For retirement, vested balances in excess of \$25,000 are paid in five annual equal installments beginning in the year subsequent to terminated employment. For other terminations of employment, vested balances in excess of \$25,000 are paid in five annual equal installments beginning in the fourth year subsequent to terminated employment. Should the participant attain the normal retirement age of 60, annual benefit payments will commence in the subsequent year. For any vested balance of \$25,000 or less, the vested balance is paid in a lump-sum following the year of terminated employment.

Diversification is offered to participants who are at least 55 years old and have participated in the Plan for at least 10 years (a "Qualified Participant"). During each of the first five years of eligible diversification, a Qualified Participant may withdraw up to 25% of the value of their investment in Company common stock and transfer the amount as a rollover into another qualified plan or as a cash withdrawal. In the sixth and subsequent years, the percentage amount that can be withdrawn increases to 50%.

Payment of Benefits and Diversification (Continued)

During the years ended December 31, 2025 and 2024, amounts paid to participants in the form of cash amounted to \$15,290,306 and \$13,318,843, respectively.

Rebalancing of Accounts

The Plan provides for a rebalancing feature at the end of each Plan year after all allocations of stock and cash to participants. Each participant's Company stock account is reallocated to proportionately hold available allocated shares based on each participant's total account value to the total of all participants' account values. After the reallocation of Company stock, the value held in each participant's other investments account is adjusted so that the total value of the participant's account is equal to the total value of the participant's account prior to reallocation.

Administrative Costs of the Plan

Certain officers and employees of the Company perform administrative services to the Plan at no cost. Most additional expenses incurred are generally paid by the Company. Investment-related expenses are included in net appreciation of fair value of investments.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are recorded on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Dividend income is accrued on the ex-dividend date. Interest income is recorded on the accrual basis.

Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Management considers the fair value of the investment in Hatco Corporation common stock to be a significant estimate. Actual results may differ from these estimates.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Company has evaluated subsequent events through June 24, 2026, which is the date the financial statements were available to be issued.

Note 3: Note Payable

The Plan borrowed \$52,979,423 from the Company which was used to acquire common stock. The loan has a maturity date of December 31, 2057 and bears interest at 1.31%. Annual principal and interest payments of \$1,089,317 are required. All unallocated shares served as collateral for the unpaid balance of the note payable.

Required principal payments on the note payable as of December 31, 2025 are as follows:

2026	\$ 708,987
2027	718,275
2028	727,684
2029	737,217
2030	746,856
Thereafter	25,393,792
Total	\$ 29,032,811

Note 4: Fair Value Measurements

GAAP specifies a three-tier fair value hierarchy, which prioritizes the inputs used in estimating fair value. These tiers include Level 1, defined as observable inputs such as quoted market prices in active markets; Level 2, defined as inputs other than quoted market prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore, requiring an entity to develop its own assumptions.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4: Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2025 and 2024:

Hatco Corporation common stock: Valued at fair value per share based on annual appraisals conducted by an independent valuation firm. The appraisal of Hatco Corporation is determined using industry accepted methods for valuation, the guideline public company method, and the discounted cash flow method. The appraised value is discounted to reflect lack of marketability of the Company's common stock. As of December 31, 2025 and 2024, the fair market values per share of the Company's common stock were determined to be \$141.43 and \$123.52, respectively. The appraisals of the fair value per share of Hatco Corporation common stock for 2025 and 2024 were completed in March 2026 and March 2025, respectively.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end registered mutual funds. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund: Valued at a stable \$1.00 NAV which approximates fair value. The money market fund held by the Plan are deemed to be actively traded.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2025 and 2024:

	Fair Value of Assets as of December 31, 2025

Note 5: Party-in-Interest Transactions

The Plan holds all outstanding common stock of the Company as of December 31, 2025 and 2024. S-Corporation distributions were paid by the Company during 2025 and 2024.

Fees incurred by the Plan for the investment management services of the Plan's mutual funds are included in net appreciation of fair value of investments, and are paid through revenue sharing rather than a direct payment.

All transactions between the Company, the Custodian, and the participants are considered party-in-interest transactions. Certain officers and employees of the Company, who are also participants in the Plan, perform administrative services to the Plan at no cost. These transactions are not, however, considered prohibited transactions under Section 408(b) of the ERISA regulations.

Notes to Financial Statements

Note 6: Tax Status

The Internal Revenue Services has determined and informed the Company by a letter, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Note 7: Amounts Allocated to Withdrawn Participants

As of December 31, 2025 and 2024, Plan assets of \$60,995,477 and \$56,878,412, respectively, have been allocated to the accounts of participants who have a separation from service due to retirement, death, disability, or termination of employment and are no longer active participants of the Plan. These amounts will be paid to participants in future years based upon provisions of the Plan.

Note 8: Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the Trust will become fully vested and will be distributed to such participant or their beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Trustee shall pay all liabilities and expenses of the Trust and sell shares of financed common stock held in the unallocated account to the extent it determines such sale to be necessary in order to repay the loan.

Note 9: Risks and Uncertainties

The Plan invests in the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with this investment and uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in values will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
