Independent Auditors' Report

To the Board of Trustees of the
Daigle Oil Company ESOP

Opinion

We have audited the accompanying financial statements of the Daigle Oil Company ESOP, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of September 30, 2025 and September 30, 2024, and the related statement of changes in net assets available for benefits for the year ended September 30, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Daigle Oil Company ESOP as of September 30, 2025 and September 30, 2024, and the changes in its net assets available for benefits for the year ended September 30, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Daigle Oil Company ESOP and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Daigle Oil Company ESOP's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

To the Board of Trustees of the
Daigle Oil Company ESOP

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Daigle Oil Company ESOP's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Daigle Oil Company ESOP's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held at Year End is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

DAIGLE OIL COMPANY ESOP

Notes to the Financial Statements
September 30, 2025 and September 30, 2024

(1) PLAN DESCRIPTION

The following brief description of the Daigle Oil Company Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for complete information.

Daigle Oil Company (Company) established the Daigle Oil Company Employee Stock Ownership Plan (Plan) on October 1, 2015. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the applicable regulations of the Internal Revenue Code of 1986, as amended (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by a three-member board of Trustees.

The Plan purchased 500,000 shares of the Company's common stock using the proceeds of a \$500,000 note payable back to the Company and holds the common stock in a trust established under the Plan. The note is to be repaid over a period of forty years by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The note is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares of common stock once they are allocated to participants under the provisions of the ESOP. Accordingly, the financial statements of the Plan as of September 30, 2025 and September 30, 2024 and for the year ended September 30, 2025 present separately the assets and liabilities and changes therein pertaining to:

1. the accounts of employees with vested rights in allocated common stock (Allocated) and
2. common stock not yet allocated to employees (Unallocated).

Daigle Oil Company and its wholly owned subsidiary, DOC's Place, Inc. (the Company) distribute home heating fuel, diesel fuel and gasoline, operates various full-service retail fueling stations and services heating and cooling equipment throughout northern and central Maine.

Eligibility

Any employee who was a participant in the Daigle Oil Company 401k Plan as of October 1, 2015, the effective date of the ESOP, became a participant of the ESOP as of that date. Otherwise, an employee generally becomes eligible to participate in the ESOP after one year of service provided they have worked at least 1,000 hours during such plan year and are at least 21 years of age.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Additional employer contributions are made to fund distributions from the Plan as needed. Employees are not permitted to make contributions.

Payment of Benefits

Distributions due to death, disability, retirement or other severance of employment are generally made in cash, in a lump sum, in the Plan year following the event, if the distribution amount is \$10,000 or less and provided the Plan has sufficient liquidity. The amount to be distributed is based on the immediately preceding valuation date. If a participant's account exceeds \$10,000, the distribution may be made in cash in substantially equal installments over a period not to exceed five years. For large distributions, exceeding \$935,000, the period for distribution may be extended for a period of one to five additional years depending on the size of the account. Due to the availability of sufficient cash of the plan sponsor, the plan trustees have opted to pay all distributions to date in cash.

(1) PLAN DESCRIPTION (Continued)

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustees prior to the time that such rights are to be exercised. The Trustees are permitted to vote any allocated share for which instructions have not been given by a participant in the same proportion as shares, to which instructions were received, were voted. The Trustees are required to vote any unallocated shares on behalf of the collective best interest of the plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustees from the unallocated account and forfeitures of terminated participants' non vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations of cash contributions and shares of stock are based on a participant's eligible compensation, relative to total eligible compensation.

Vesting

If a participant's employment with the Company ends for any reason other than normal retirement at age 65, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants become fully vested after three years of service. Once a participant reaches age 65, he or she becomes fully vested in his or her account balance regardless of the years of vested service.

Operating Expenses

Substantially all expenses of maintaining the Plan are paid by the Company as plan sponsor.

Forfeitures

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. During the years ended September 30, 2025 and September 30, 2024, there were \$964 and \$1,092 respectively in forfeitures of terminated nonvested account balances.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase in a lump sum or with interest at a reasonable rate over a period of up to five years. The purpose of the put option is to ensure that the participant can ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. In addition, participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. If a participant elects diversification, the amount with respect to which an election has been made will be transferred to the Company's 401k Plan. Participants eligible to diversify make their election after year-end based on the number of shares of the employer's stock held in their account at year-end. Diversification provisions do not apply to a participant's account if the value is \$500 or less.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of Company common stock are valued at fair market value which may also be referred to as fair value throughout this report. Fair market value as defined by ERISA is the price at which an asset would change hands between a willing buyer and a willing seller absent any compulsion to buy or sell where both are able to trade and are well informed about the asset and related market. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Date of Management's Review of Subsequent Events

Subsequent events were evaluated through June 29, 2026, which is the date the financial statements were available to be issued.

(3) INVESTMENTS

The Plan's investment in Daigle Oil Company common stock, at September 30, 2025 and September 30, 2024, was as follows:

	<u>2025</u>		<u>2024</u>	
	<u>Allocated</u>	<u>Unallocated</u>	<u>Allocated</u>	<u>Unallocated</u>
Number of shares	125,000	375,000	112,500	387,500
Cost	<u>\$ 125,000</u>	<u>\$ 375,000</u>	<u>\$ 112,500</u>	<u>\$ 387,500</u>
Fair Value	<u>\$4,270,000</u>	<u>\$12,810,000</u>	<u>\$3,367,125</u>	<u>\$11,597,875</u>

DAIGLE OIL COMPANY ESOP

Notes to the Financial Statements
September 30, 2025 and September 30, 2024

(4) FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- quoted prices for similar assets in active markets;
 - quoted prices for identical or similar assets in inactive markets;
 - inputs other than quoted prices that are observable for the asset;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified term, the level 2 input must be observable for substantially the full-term of the asset.
- Level 3 Inputs to the valuation methodology that are significant to the fair value measurement are unobservable.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2025 and September 30, 2024:

	2025 <u>Level 3</u>	2024 <u>Level 3</u>
Investment in Daigle Oil Company common stock	\$17,080,000	\$14,965,000

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2025 and September 30, 2024.

The Daigle Oil Company common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of market and income valuation techniques consistent with prior years as illustrated in the following table.

Instrument	Fair Value	Principle Valuation Technique	Unobservable Inputs
Daigle Oil Company Stock	\$17,080,000	Income	EBITDA Net income Weighted average cost of capital/Capital rate Discount for lack of marketability

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

DAIGLE OIL COMPANY ESOP

Notes to the Financial Statements
September 30, 2025 and September 30, 2024

(5) NOTE PAYABLE

On October 1, 2015, the Plan entered into a \$500,000 term loan agreement with the plan sponsor. The proceeds of the loan were used to purchase the Daigle Oil Company's common stock. Unallocated shares serve as collateral for the loan. Shares are released from collateral and allocated to participants as principal and interest payments are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year payments, divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 12,500 shares being released and allocated for the plan year ended September 30, 2025.

The agreement provides for the loan to be repaid over forty years. The loan bears interest at 5% which is fixed for the term.

As of September 30, 2025, the note matures as follows:

<u>Year Ended</u> <u>September 30,</u>	<u>Amount</u>
2026	\$ 6,742
2027	7,079
2028	7,433
2029	7,804
2030	8,195
Thereafter	<u>410,686</u>
	<u>\$447,939</u>

(6) PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Plan Administrator directs the Trustees to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

(7) TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated December 29, 2020, that the Plan is qualified, and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code (IRC). Although the Plan has been amended effective October 1, 2023, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

DAIGLE OIL COMPANY ESOP

Notes to the Financial Statements
September 30, 2025 and September 30, 2024

(8) ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of Company common stock, are held by the Plan's attorney under the direction of the Trustees.

Company contributions are held and managed by the Trustees, which invest cash received, interest, and dividend income and makes distributions to participants. The Trustees also administer the payment of interest and principal on the loan, which is reimbursed to the Trustees through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustees' fees, if any, are paid directly by the Company.

(9) RISKS AND UNCERTAINTIES

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks, including interest rate, market, and credit risks, as well as valuation assumptions based on earnings and cash flows. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

The cost of crude oil has remained volatile in recent months and while the plan sponsor adjusts its selling price, accordingly, and uses hedging instruments to protect against changing prices it is unknown what the effects of this market will have on the volume of fuel sold.

(10) RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As described above, the Company pays the expenses of the Plan. The Plan has various service providers. Such parties are parties-in-interest under ERISA.
