Independent Auditor's Report

To the Plan Administrator of the
Power Resources, Inc. 401(k) Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Power Resources, Inc. 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i: Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 – Description of the Plan

The following description of the Power Resources, Inc. (the “Company", "Plan Sponsor", or "Plan administrator”) 401(k) Plan (the “Plan”) provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan’s provisions.

General. The Plan is a defined contribution plan, which went into effect January 1, 1990. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

Plan Amendments. During 2025, the Plan Sponsor adopted certain optional provisions under the SECURE 2.0 Act as follows:

- To provide for distributions and loans in Qualified Federally Declared Disaster Areas;
- To provide for domestic abuse withdrawals; and
- To provide for additional catch-up contributions for participants between the ages of 60-63.

Effective July 1, 2025, participant's can make deferral election changes at any time.

Eligibility. The Plan is generally available to all employees of the Company and Adopting Employers (collectively, the “Employer”), as defined in the Plan document (excluding non-resident aliens, leased employees, and independent contractors), who are age 18 years or older. Employees may enter the Plan on the day they meet the eligibility requirements.

Contributions. The following types of contributions are allowable under the Plan:

- Salary Deferral Contributions – Participants may contribute up to 75% of their compensation, as defined in the Plan document, subject to limitations. A participant’s total contribution cannot exceed $23,500 ($31,000 for participants age 50 or older) in calendar year 2025 and $23,000 ($30,500 for participants age 50 or older) in calendar year 2024. Under the SECURE 2.0 Act, additional catch-up contributions for participants age 60-63 are also available. Unless a new participant or re-enrolled participant elects otherwise after being given proper notice, 6.5% of compensation will be withheld from their compensation as an employee elective deferral contribution and will be contributed to the Plan. Such percentage will be increased annually by 1% on April 1st until a 9.5% elective deferral contribution percentage is reached.
- Matching Employer Contributions – The Employer makes matching contributions each payroll period equal to 100% of the participant’s salary deferral contribution up to a limit of 6.5% of the participant’s compensation, as defined.
- Discretionary Employer Contributions – The Employer may make an additional matching or discretionary contribution to eligible participants. For the years ended December 31, 2025 and 2024, the Employer did not make any such contributions.
- Rollover Contributions – Amounts distributed to participants from other qualified employee benefit plans may be rolled into the Plan.

All contributions are allocated to the Plan’s investment funds at the direction of the participants.

The total annual additions to a participant’s account may not exceed the lesser of (i) $70,000 for 2025 and $69,000 for 2024 or (ii) 100% of the participant’s compensation. Annual additions are defined as participant contributions and Employer contributions provided as part of this Plan and any other qualified defined contribution plans sponsored by the Employer.

Note 1 – Description of the Plan (continued)

Investment Options. Participants may currently direct their investments into various registered investment companies, common collective trusts, and an investment contract with insurance company.

Participant Accounts . Each participant's account is increased and/or decreased, as applicable, with the participant's contributions (salary deferrals and rollovers, if any) and an allocation of (a) the Employer's contribution (matching and discretionary, if any), (b) fund earnings or losses, and (c) administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting. Participants are immediately vested in their salary deferral contributions, rollover contributions and related earnings thereon. Employer matching and discretionary Employer contributions made to a participant's account vest according to the following schedule:

Years of Service	Vested Percentage
1	20%
2	40%
3	60%
4	80%
5	100%

Furthermore, employed participants become 100% vested in their Employer matching and discretionary Employer contribution accounts upon the following events:

- Participant's death;
- Participant becomes disabled as defined under the Plan;
- Participant reaches their normal retirement date; or
- Termination or partial termination of the Plan.

Forfeitures. When certain terminations of participation in the Plan occur, the non-vested portion represents a forfeiture. Forfeitures are used to pay Plan expenses, reduce Employer matching contributions, reinstate previously forfeited amounts to participant accounts, or are reallocated to eligible participants accounts as a discretionary Employer contribution. For the years ended December 31, 2025 and 2024, $11,363 and $4,650, respectively, of forfeitures were used to reduce Employer matching contributions. As of December 31, 2025 and 2024, there was $520 and $0, respectively, in the forfeitures account.

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of (i) $50,000 or (ii) 50% of their vested account balance. Loan terms range from 1 month up to a maximum of 5 years unless the loan is used for the purchase of a participant's principal residence. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest commensurate with local prevailing rates as determined by the Plan administrator at the time the loan is granted. Principal and interest payments are paid ratably through payroll deductions.

Payment of Benefits. Benefits to participants or beneficiaries generally are payable as a lump sum, rollover, or annuity equal to the value of their vested account balance upon retirement, disability, death or termination of the participant. Additionally, the Plan provides for in-service withdrawals, as defined in the Plan document, if certain criteria are met.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates. The financial statements of the Plan are prepared using the accrual method of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

Investment Valuation and Income Recognition. The Plan's investments are stated at fair value, except for the Plan's investment contract with insurance company which is stated at contract value (see Note 4). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions. Participant contributions and the related Employer matching contribution are recognized in the period in which participant contributions are withheld from compensation.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Other Income. The Plan receives revenue credits from certain of the Plan's investments. Revenue credits are allocated back to eligible participant's accounts on a pro-rata basis to offset expenses. Revenue credits received by the Plan during the year are recorded as other income in the accompanying statements of changes in net assets available for benefits.

Benefit Payments. Benefits are recorded when paid.

Expenses. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Also included in administrative expenses are contract administrator, recordkeeping, and other fees. Certain investment related expenses are included in net appreciation in fair value of investments.

Reclassifications. Certain amounts in the 2024 financial statements have been reclassified in order to conform with the current year presentation.

Note 3 – Fair Value Measurements

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

- Pooled Separate Accounts (“PSAs”) and certain common collective trusts (“CCTs”) (e.g. Eagle Mid Cap Growth CIT CL 4 and Prin LifeTime Hybr CITs) are valued at the net asset value ("NAV") of units held by the Plan at year end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the PSAs and CCTs less their liabilities. This practical expedient is not used when it is determined to be probable that the PSAs or CCTs will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

- Registered investment companies ("RICs") and certain CCTs (e.g. Janus HND Int Alp Eq CF Cl U and Putnam Lg Cp Val Trst II U) are valued at the quoted NAV of shares/units held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 – Fair Value Measurements (continued)

The following tables set forth by level, within the fair value ("FV") hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	Fair Value Measurements at December 31, 2025			
	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Total

Common Collective Trusts (b)	**227,098**	12,541,913	None	Daily	None

Note 3 – Fair Value Measurements (continued)

(a) One of the Plan's PSAs has a fixed income investment strategy that invests mainly in fixed securities such as asset backed securities, residential and commercial mortgage backed securities, and corporate bonds. The Plan's other PSAs have equity index fund strategies that seek to replicate the movements of various indexes (e.g., Largecap S&P 500 Index, Smallcap S&P 600 Index, Midcap S&P 400 Index), regardless of market conditions.

(b) The Plan's Eagle Mid Cap Growth CCT has a mid-cap growth investment strategy. The Plan's other CCTs have various balanced/asset allocation investment strategies that are consistent with investment strategies of investors who have retired or expect to retire in various years from 2015 – 2070. The underlying investments of these common collective trusts include mutual funds, collective trusts, and pooled separate accounts.

(c) The amount to be paid or transferred out of the PSAs will be generally determined and paid or transferred within 7 business days of notification. However, Principal Life reserves the right to defer such transfers or payments to 270 days. Such deferment will be based on unstable or disorderly market or investment conditions which, in their opinion, does not allow for an orderly investment transfer. This deferment may include, but not be limited to, situations where regular banking has been suspended or when an emergency or other circumstances beyond their control does not allow for the orderly disposal and liquidation of securities or other assets. These limitations will not apply to the payments to the beneficiary of a participant due to the participant's death, payments to a participant due to disability or retirement under the Plan, and to purchases of an annuity.

(d) If in the 36 month period, which ends on the requested date of transfer, all transfers and payments from the total of all separate account balances invested in a particular separate account is equal to or greater than $20 million, Principal Life reserves the right to make the portion of the requested transfer or payment in excess of this dollar amount in substantially equal installments over a period not to exceed 36 months. For purposes of this limitation, transfers and payments from any other separate account balances included in the separate account from any other contracts issued in connection with the Plan or with any other retirement plan of the Employer will be included as a transfer or payment from a separate account balance. If this limitation is imposed by Principal Life, the first installment will be made one month after the date of request, or on such later date that the Plan specifies. This special limitation applies for all of the Plan's separate accounts except for the Principal Core Plus Bond Separate Account.

(e) 1 transfer is allowed every 30 day period. Once the number of allowed transfers is met, participants are not allowed to transfer back into an investment option which they have transferred out of until the holding period elapses. All participant investment transfers and non-scheduled rebalancing activity are counted toward the number of transfers allowed. Contributions into the investment option are not impacted. Participants may still transfer out to different investment options or to money market or guaranteed options.

Note 4 – Investment Contract with Insurance Company

In 2004, the Plan entered into a traditional benefit-responsive investment contract, the Principal Fixed Income Option 401(a) / 401(k) ("PFIO"), with Principal Life Insurance Company ("Principal Life"). Principal Life maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

This contract meets the fully benefit-responsive criteria and, therefore, is reported at contract value. Contract value is the relevant measurement attribute for fully benefit responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal Life, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value, subject to certain restrictions such as an equity wash. An equity wash generally requires that transfers must be directed to a non-competing investment option under the Plan for 90-days before such transferred amounts may be directed to any competing Plan investment option available under the Plan. Competing Plan investment options include other guaranteed investment options, or fixed income, money market, or bond funds that ever had an average duration of 3.0 years or less.

Note 4 – Investment Contract with Insurance Company (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2025 and 2024, was $1,819,407 and $2,457,886, respectively. The crediting interest rate is based on a formula agreed upon with the issuer but may not be less than 0%. Such interest rates are reviewed on a semiannual basis for resetting.

Certain events may limit the ability of the Plan to transact at contract value with the issuer such as an Employer-level liquidation or Employer initiated transfer of the Plan's interest in the PFIO. Such events are subject to either a 12-month irrevocable advance notice or a 5% surrender charge, whichever the Employer chooses. Participant-initiated transfers from the PFIO may also be subject to the 5% surrender charge when the transfers are requested in anticipation of the Employer-level liquidation of the Plan's interest in the investment contract. If this scenario occurs, the surrender charge will be billed to the Employer. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan’s ability to transact at contract value with participants, is probable.

Note 5 – Certified Information

The following information disclosed in the accompanying financial statements and ERISA-required supplemental schedule was obtained by management and agreed to or derived from information certified as complete and accurate by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024, and Notes 3 and 4;
- Notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024;
- Investment income, as shown in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2025 and 2024;
- Interest income on notes receivable from participants, as shown in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2025 and 2024; and
- The investment information presented in the Schedule of Assets (Held at End of Year) as of December 31, 2025, as shown in the supplemental schedule.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination or partial termination, affected participants will become 100% vested in their accounts.

Note 7 – Tax Status

The Plan Sponsor has adopted a Principal Life Insurance Company Non-Standardized Pre-Approved Profit Sharing Plan ("pre-approved plan"). The pre-approved plan received an opinion letter from the IRS on June 30, 2020, which stated that the pre-approved plan is qualified under the applicable sections of the Internal Revenue Code ("IRC"). Although the pre-approved plan and the Plan have been amended since receiving the IRS opinion letter, the Plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified under Section 401(a) of the IRC and the related Trust is tax exempt as of December 31, 2025 and 2024. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 – Party-In-Interest Transactions

The Company provides to the Plan certain accounting and administrative services for which no fees are charged.

Certain Plan investments are or were shares/units of registered investment companies, pooled separate accounts, common collective trusts, and an investment contract with insurance company offered by Principal Life, Principal Global Investors Trust Company, or Principal Funds Inc., all of which are related entities of Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan. As such, these transactions qualify as party-in-interest transactions. Additionally, the Plan maintains notes receivable from participants. Fees paid for services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Note 9 – Concentrations, Risks and Uncertainties

The Plan provides for various investment options in registered investment companies, common collective trusts, and an investment contract with insurance company. Investment securities, in general, are exposed to various risks, such as significant world events, interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts presented in the statements of net assets available for benefits. As of December 31, 2025 and 2024, there were two investments which individually represented more than 10% of net assets available for Plan benefits. See supplemental Schedule of Assets (Held at End of Year) for a complete listing of investments held at December 31, 2025.

Note 9 – Concentrations, Risks and Uncertainties (continued)

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Note 10 – Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through June 16, 2026, which is the date the financial statements were available to be issued.
