Independent Auditor's Report

Plan Administrator
Tech-Marine Business, Inc. Employee Stock Ownership Plan
Washington, D.C.

Opinion

We have audited the financial statements of Tech-Marine Business, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Tech-Marine Business, Inc. Employee Stock Ownership Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of Plan

The following description of the Tech-Marine Business, Inc. Employee Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

The Plan was formed on July 1, 2008, as an employee stock ownership plan (ESOP) covering all eligible employees of Tech-Marine Business, Inc. (Company). The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended, (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by the Board of Trustees, as appointed by the Company’s Board of Directors, who hold and invest the Trust assets. The Plan’s third-party record-keeper and ERISA compliance service provider is Blue Ridge ESOP Associates.

The Plan purchased certain Company common shares (see Note 4) and holds the stock in a trust established under the Plan.

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service, provided they worked at least 1,000 hours during the plan year and have attained 21 years of age. Participants who do not have at least 1,000 hours of service during the plan year or are not employed on the last working day of a plan year are generally not eligible for an allocation of Company contributions for such year. Employees who are of retirement age (64 years) are eligible for allocation regardless of their employment status during the Plan year.

Contributions

Each year, the Company may make a discretionary cash or stock contribution determined annually by the Company’s board of directors. Participants are not permitted to make contributions to the Plan. Contributions are subject to certain limitations.

Participant Accounts

Each participant’s account reflects their portion of the Company’s contributions and allocations of shares of Company stock, income or loss from Plan investments, and forfeitures, and charged with benefit payments and an allocation of administrative expenses. Allocations are based on compensation, account balances or Company stock shares, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

The Plan’s vesting provisions were amended effective January 1, 2022. As a result of the amendment, participants who were hired prior to January 1, 2022, and were still employed on January 1, 2022, will become fully vested in their third year of service with partial vesting in their second year. Participants who were hired on or after January 1, 2022, become fully vested in their third year of service without partial vesting.

Participants become 100% vested upon retirement, death or disability.

Payment of Benefits

At a participant's retirement, disability, or death, distribution of his or her vested account balance begins no later than the end of the plan year following the event. At a participant's termination for any other reason, distribution of his or her vested account balance begins no later than the end of the plan year following the year in which the participant incurs a five-year break in service. If the participant's balance is less than \$10,000, a distribution is made as soon as administratively feasible. Participants with a balance of \$10,000 or more are paid in annual installments over a five-year period. Each installment is the participant's vested balance of cash, noncompany investments, and the current fair market value of Company stock at the end of the plan year prior to the date of payment, divided by the remaining number of installments. Distributions are paid in cash.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. During 2025, the Company did not repurchase any shares from participants as no shares were distributed.

Forfeitures

Forfeited nonvested accounts are reallocated to eligible participants based on compensation. During 2025, \$21,282 of cash and approximately 357 shares with a fair value of \$34,205 were reallocated to eligible participants. There were no unallocated forfeitures at December 31, 2025 or 2024.

Voting Rights

Each participant is entitled to direct the voting of any voting shares of Company Stock allocated to their account with respect to any vote required for the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, or sale of substantially all the assets of a trade or business. In accordance with instructions from the plan administrators, the trustee will vote any unallocated shares held by the trust as well as any allocated shares for which a participant has failed to give timely voting direction.

Put Option

Under Federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%.

Effective January 1, 2024, participants who are at least age 55 and have at least 10 years of participation in the Plan may elect to diversify a portion of their account. Participants who elect to diversify receive a cash distribution. As of December 31, 2025, 10 participants were eligible to diversify their account balance.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with accounting GAAP requires management to make estimates and assumptions that affect certain reported amounts of net assets, changes in net assets and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates and assumptions.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Subsequent Events

The Plan has evaluated subsequent events through April 30, 2026, the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

Fair value, as defined under GAAP, is an exit price representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1** Observable inputs such as quoted prices in active markets.
- Level 2** Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3** Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Tech-Marine Business, Inc. Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2025 and 2024

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

There have been no changes in the methodologies used at December 31, 2025 and 2024. The following is a description of the valuation methodologies used for assets measured at fair value:

Common Stock

The fair value of the Company's common stock is determined by an annual independent appraisal. This appraisal was based on the income valuation methods. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities.

Interest-Bearing Cash

Valued daily as its closing cash balance as reported by the trustee.

The following tables set forth by level within the fair value hierarchy the Plan's assets accounted for at fair value on a recurring basis as of December 31, 2025 and 2024.

December 31, 2025				
Fair Value Measurements Using				
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Investments at fair value	<u>\$ 9,693,603</u>	<u>\$ 93,603</u>	<u>\$ -</u>	<u>\$ 9,600,000</u>
December 31, 2024				
Fair Value Measurements Using				
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Fair Value				
Tech-Marine Business, Inc.				
Common stock	\$ 9,570,000	\$ -	\$ -	\$ 9,570,000
Interest-bearing cash	169,326	169,326	-	-
Investments at fair value	<u>\$ 9,739,326</u>	<u>\$ 169,326</u>	<u>\$ -</u>	<u>\$ 9,570,000</u>

Level 3 assets are measured at fair value on recurring basis for the year ended December 31, 2025 and 2024. There were no purchases of the Company's common stock and no issuances or transfers in and out of Level 3 assets for the year ended December 31, 2025.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4. Investments

The following tables present the Plan's investment in Tech-Marine Business, Inc. common stock:

	<u>2025</u>	<u>2024</u>
Number of shares	100,000	100,000
Cost	\$ 8,000,000	\$ 8,000,000
Estimated fair value	\$ 9,600,000	\$ 9,570,000

Note 5. Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the trustee will be directed to pay all liabilities and expenses of the trust fund.

Note 6. Tax Status

The Internal Revenue Service (the "IRS") has determined and informed the Company by letter dated September 26, 2013, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions.

Note 7. Risks and Uncertainties

The Plan invests in the Company's common stock. There are certain business risks with the industry in which the Company operates; therefore, it is at least reasonably possible that changes in the fair value of the Company's common stock may occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Note 8. Terminated Participants

Amounts allocated to terminated participants with vested balances in the Plan, and which were still included in net assets available for benefits at December 31, 2025 and 2024, were \$5,539,117 and \$4,357,013, respectively.
