Independent Auditor's Report

Participants and Board of Directors
Tall Tree Foods, Inc. 401(k) Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Tall Tree Foods, Inc. 401(k) Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of September 30, 2025 (in liquidation) and December 31, 2024, the related statement of changes in net assets available for benefits for the period from January 1, 2025 through September 30, 2025 (in liquidation), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of September 30, 2025 and December 31, 2024, and for the period from January 1, 2025 through September 30, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter—Partial Plan Termination

As discussed in Note 1 to the financial statements, Tall Tree Foods Inc, the Plan sponsor, downsized its operations during the 2025 plan year, which resulted in a partial plan termination. Our opinion has not been modified with respect to this matter.

Emphasis of Matter—Plan Termination and Liquidation Basis

As discussed in Note 1 to the financial statements, the Board of Directors of Tall Tree Foods, Inc., the Plan's sponsor, voted on July 24, 2025, to terminate the Plan, and management determined liquidation is imminent. As a result, the financial statements for 2025 have been prepared using the liquidation basis of accounting. Our opinion has not been modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Notes to Financial Statements

Note 1. Plan Description

The following description of the Tall Tree Foods, Inc. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers all employees of Tall Tree Foods, Inc. and its subsidiary, January Foods Corporation, (collectively, the Company). Oversight of the plan is the responsibility of the Board of Directors of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Partial plan termination and plan termination: In early 2025, the Company downsized its operations, resulting in a partial plan termination. Subsequently, on July 24, 2025, the Board of Directors approved the termination of the Plan, effective July 19, 2025. All participants affected by the partial and full plan terminations were fully vested in their account balances prior to distributions. As a result of these actions, the Plan distributed \$11,304,133 of assets to participants.

Eligibility: Nonunion employees who had attained age 18 and had completed 60 days of employment, as defined, are eligible for the Plan. Eligible employees enter the Plan the first day of the month following meeting the eligibility requirements. Employees were enrolled with an automatic deferral of 3% unless the participant made a contrary election.

Contributions: A participant could elect to contribute a percentage of his/her eligible compensation, as defined by the Plan, up to the maximum allowed by the Internal Revenue Service (IRS). Participants could also contribute amounts representing distributions from other qualified retirement plans. Participants who had attained the age of 50 before the end of the year were eligible to make catch-up contributions. The Company could make discretionary matching contributions, as defined. The Company could also make additional discretionary profit-sharing contributions, as defined. The Company made \$27,638 of discretionary matching contributions but did not make a discretionary profit-sharing contribution during the period from January 1, 2025 through September 30, 2025. All contributions were subjected to certain limitations.

Participant accounts: Each participant's account was credited with the participant's contributions, Company discretionary matching contributions, if any, and an allocation of Company discretionary profit-sharing contributions, if any, plan earnings and losses, and charged with administrative expenses and investment expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided by the participant's vested account.

Vesting: Participants were immediately vested in their elective contributions plus the actual earnings thereon. Participants were immediately vested in Company discretionary matching contributions, if any, and discretionary profit-sharing contributions, if any.

Investment options: Upon enrollment in the Plan, participants could direct the investment of their account balances into a variety of investment options, as more fully described in the Plan's literature. Participants could change their investment options daily.

Payment of benefits: The full value of a participant's vested account balance was payable at normal retirement age, as defined, at termination of employment, or due to death. Benefits were paid either in a lump sum or in an annuity. In-service withdrawals were also allowed at any time for hardship reasons, as defined in the Plan, and at age 59½.

Note 1. Plan Description (Continued)

Notes receivable from participants: Participants could borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of 50% of the vested account balance or \$50,000, subject to other restrictions as provided for in the plan agreement. A participant could not have more than five outstanding loans at any time and only two loans could be issued in a 12-month period. The loans were secured by the balance in the participant's account and bore interest at a rate of current prime lending rate of Principal (as defined) plus 1%. The loans matured over a period ranging from one year to five years, unless the loan was for a principal residence which in that case the loan could extend beyond five years consistent with commercial home loan practices.

Note 2. Significant Accounting Policies

Basis of accounting: Due to the decision to terminate the Plan during 2025, as discussed in Note 1, management determined that liquidation of the Plan is imminent and the financial statements for 2025 have been prepared using the liquidation basis of accounting.

Accounting estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: All Investments in the 2024 statement of net assets available for benefits are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's Board of Directors determine the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for detailed discussion of fair value measurements.

Purchases and sales of securities were recorded on a settlement basis. Dividends were recorded on the liquidation basis, including amounts expected to be earned through the final distribution of Plan assets. Net appreciation or depreciation in fair value of investments included the Plan's gains and losses on investments bought and sold, as well as held, during the period from January 1, 2025 through September 30, 2025. Capital gain distributions from mutual funds that were reinvested were included with dividends on the statement of changes in net assets available for benefits.

Contributions: Contributions from Plan participants and the related matching contributions from the Company were recorded in the year in which participant contributions were withheld from compensation.

Notes receivable from participants: Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they were incurred.

Payment of benefits: Benefits were recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan were paid by the Plan, unless otherwise paid by the Company. Expenses that were paid by the Company were excluded from these financial statements. Certain investment-related expenses were included in net appreciation of fair value of investments.

Note 3. Information Certified and Provided by the Custodian

The following is a summary of the Plan's asset information as of September 30, 2025 and December 31, 2024, included throughout the Plan's financial statements, obtained by management and agreed to or derived from information certified as complete and accurate by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal), a qualified institution:

	2025	2024
Investments, at fair value:		
Shares of registered investment companies	\$ -	\$ 9,752,304
Investments, at contract value:		
Group annuity contract	\$ -	\$ 565,973
Notes receivable from participants	\$ -	\$ 25,670

Principal also certified to the completeness and accuracy of \$844,362 of net appreciation in fair value of investments, \$31,189 of dividend income and \$584 of interest income on notes receivable from participants for the period from January 1, 2025 through September 30, 2025.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 4. Fair Value Measurements (Continued)

Following is a description of the valuation methodology used for assets measured at fair value:

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	\$ 9,752,304	\$ -	\$ -	\$ 9,752,304

Note 5. Fully Benefit-Responsive Investment Contract

The Plan held a group annuity contract with Metropolitan Life Insurance Company (Metlife). This contract met the fully benefit-responsive contract criteria and therefore was reported at contract value. Contract value was the relevant measure for fully benefit-responsive investment contracts because this was the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. With this type of contract, the Plan owned only the contract itself and the contract was designed to accrue interest based on crediting rates established by the contract issuer. The contract issuer was contractually obligated to repay the principal and interest at a specific interest rate that was guaranteed to the Plan. The crediting rate for 2024, as established by the contract issuer, was 1.20% during the year ended December 31, 2024. The contract value was \$565,973 at December 31, 2024.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investments contracts was dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations could be affected by future economic and regulatory developments.

Certain events could limit the ability of the Plan to transact at contract value with the contract issuer. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code (IRC) or the failure of the trust to be tax-exempt under Section 501(a) of the IRC
2. Premature termination of the contracts
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options
5. Bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations

No events were probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

Note 5. Fully Benefit-Responsive Investment Contract (Continued)

The group annuity contract does not permit Metlife to terminate the agreement prior to the scheduled maturity date unless a 90-day notice is provided to the issuer.

Note 6. Related-Party and Party-in-Interest Transactions

Certain plan investments were managed by Principal Trust Company, the custodian. These transactions, therefore, qualified as party-in-interest transactions. Administrative expenses paid by the Plan to the custodian were approximately \$17,506 during the period from January 1, 2025 through September 30, 2025.

Rothschild Investment Corporation provided investment advisory services to the Plan. Fees paid for these services, therefore, qualified as party-in interest transactions. The Plan paid \$7,096 in investment advisory fees during the period from January 1, 2025 through September 30, 2025.

The Plan issued loans to participants, which were secured by the balances in the participants' accounts, which also constituted party-in-interest transactions.

Certain employees of the Company provided administrative services to the Plan. These employees did not receive any compensation from the Plan for their services. Also, certain administrative expenses were paid by the Company on behalf of the Plan.

Note 7. Tax Status

The Plan had adopted a pre-approved plan document that had received an opinion letter from the IRS dated June 30, 2020, stating that the form of the pre-approved plan document was in compliance with applicable requirements of the IRC. The Plan had been amended since adopting the pre-approved plan document; however, the Plan Administrator believed that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan had taken an uncertain tax position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan was subjected to routine audits by taxing jurisdictions; however, there were currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invested in various investment securities. Investment securities were exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities would occur in the near term and that such changes could have materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
