INDEPENDENT AUDITOR'S REPORT

To the Management of the
FGM Employee Stock Ownership Plan

Opinion

We have audited the accompanying financial statements of FGM Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statement of net assets available for benefits as of September 30, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended September 30, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of September 30, 2025 and 2024 and the changes in its net assets available for benefits for the year ended September 30, 2025 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule of Assets Held at End of Year, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

FGM EMPLOYEE STOCK OWNERSHIP PLAN**NOTES TO THE FINANCIAL STATEMENTS****NOTE 1 – DESCRIPTION OF PLAN**

The following description of the FGM Employee Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General. FGM Architects Inc. (the “Employer” or “Company”) established the Plan effective as of October 1, 1988. As of October 1, 2014, the Plan was amended and operates, in relevant part, as an employee stock ownership plan (“ESOP”) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (“IRC”), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan is administered by an Employee Stock Ownership Plan Committee comprising up to five persons appointed by the Company’s board of directors.

Eligibility. Employees of the Company who are age twenty-one or older are eligible to participate in the Plan.

Contributions. Employee contributions are not permitted.

Payment of Benefits. Distributions on account of death, disability, and retirement are made following the event either (1) in a lump sum in the Plan year; or (2) in substantially equal annual cash installments over a period certain that does not extend beyond five years. The amount to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash. For other separation from service, distribution will begin no later than one year after the close of the fifth Plan Year following the Plan Year in which the Participant incurs such termination.

Administrative Expenses. As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses for the Plan.

Voting Rights. The Trustee will vote all Employer Securities held by it at such time and in such manner as directed by the Administrator.

Participant Accounts. The Plan is a defined contribution plan under which an individual account is tracked for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from forfeitures of terminated participants' accounts and the current year contribution by the Company. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting. If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 20% per year of service starting from two years of service and are 100% vested after 6 years of service.

Put Option. Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

FGM EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN (Concluded)

Diversification. Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Company's common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. The election to diversify is made subsequent to year-end based upon the shares of employer stock in the participant's account at year-end.

Forfeitures. Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. Forfeitures allocated to participants totaled \$25,939 during the year ended September 30, 2025. Forfeited non-vested accounts to be allocated to participant accounts in future years were \$19,451 and were \$7,722 as of September 30, 2025 and 2024, respectively.

Recent Legislation. In December 2022, SECURE Act 2.0 ("SECURE 2.0") was enacted. SECURE 2.0 contains numerous significant changes for retirement plans, plan sponsors, and retirement plan providers. For example, SECURE 2.0 contains provisions related to, among many other things, increasing the required minimum distribution age, reducing required minimum distribution penalties, and removing required minimum distribution barriers for annuities. Many of the provisions in SECURE 2.0 went effective in 2023, but SECURE 2.0 will not be completely implemented until 2027. The Internal Revenue Service ("IRS") has issued additional guidance addressing specific issues arising from the implementation of the provisions of SECURE 2.0.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared on the accrual basis of accounting.

Estimates and Assumptions. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Future events and their effects cannot be predicted with certainty; accordingly, accounting estimates require the exercise of judgment. Accounting estimates used in the preparation of these financial statements change as new events occur, as more experience is acquired, as additional information is obtained, and as the operating environment changes.

Investment Valuation and Income Recognition. The shares of the Company's common stock are reported at fair value. See note 3 for a discussion of the fair value measurements.

Payment of Benefits. Benefits are recorded when paid.

NOTE 3 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

(Continued)

FGM EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used as of September 30, 2025 and 2024.

Company's Common Stock. The Company's common stock held by the Plan is reported at fair value based upon an appraisal.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2025 and 2024:

Assets at Fair Value as of September 30, 2025			
	Level 1	Level 2	Level 3
	Total		
Company's common stock (23,875 shares)	\$ -	\$ -	\$ 8,345,745
	\$ 8,345,745		
Assets at Fair Value as of September 30, 2024			
	Level 1	Level 2	Level 3

Company's common stock (23,875 shares)	\$ -	\$ -	\$ 6,385,608
	\$ 6,385,608		

(Continued)

FGM EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 3 – FAIR VALUE MEASUREMENTS (Concluded)

Changes in Level 3 Assets. Changes in fair value of the Level 3 asset, Investments in Company's common stock were as follows for the year ended September 30, 2025:

	Amount
Balance, beginning of year	\$ 6,385,608
Realized gain (loss), net	-
Unrealized appreciation in estimated fair value	1,960,137
Shares distributed	-
Balance, end of year	<u>\$ 8,345,745</u>
The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	
	<u>\$ 1,960,137</u>

Level 3 Significant Unobservable Inputs. The Company's common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years as illustrated in the following table.

Instrument	September 30, 2025 Fair Value	Principal Valuation Technique	Unobservable Inputs
Company's Common Stock	\$ 8,345,745	Income	Discounted Cash Flow
Instrument	September 30, 2024 Fair Value	Principal Valuation Technique	Unobservable Inputs
Company's Common Stock	\$ 6,385,608	Income	Discounted Cash Flow

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 – EXEMPT PARTIES-IN-INTEREST TRANSACTIONS

The Plan invests in Company's common stock. These are related party and party in interest transactions. As described in Note 1, the Company pays all Plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

FGM EMPLOYEE STOCK OWNERSHIP PLAN**NOTES TO THE FINANCIAL STATEMENTS****NOTE 5 – PLAN TERMINATION**

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Employee Stock Ownership Plan Committee directs the Trustee to pay all liabilities and expenses of the ESOP. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC.

NOTE 6 – INCOME TAX STATUS

The Plan has received a determination letter from the IRS dated August 27, 2015, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust as tax-exempt as of the financial statement date.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan investments consist solely of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE 8 – SUBSEQUENT EVENTS

Management has evaluated all known subsequent events from September 30, 2025 through June 29, 2026, the date the accompanying financial statements were available to be issued, and is not aware of any material subsequent events occurring during this period.
