Part I	Asset and Liability Statement		
1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. Round off amounts to the nearest dollar. Report of Independent Auditors

To the Administrator of Thermo Fisher Scientific Inc. 401(k) Retirement Plan

Opinion

We have audited the accompanying financial statements of Thermo Fisher Scientific Inc. 401(k) Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, including the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025 (“supplemental schedule”), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements
December 31, 2025 and 2024

Note 1. Plan Description

The following description of the Thermo Fisher Scientific Inc. 401(k) Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

Amounts reported within these financial statements and supplemental schedule are presented and calculated based on underlying unrounded amounts. As a result, the sum of components may not equal corresponding totals due to rounding.

General

The Plan is a defined contribution plan for the benefit of certain employees of Thermo Fisher Scientific Inc. (the “Plan Sponsor” or the “Company”). Fidelity Management Trust Company (“Fidelity”) is the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). U.S. employees (as defined by the Plan) of the Company and its participating subsidiaries are generally eligible to participate in the Plan upon their date of hire (or rehire).

Transfers

The Company acquired Olink Holding AB (publ) in 2024, and the Olink Proteomics Inc 401(k) Profit Sharing Plan & Trust Plan assets merged into the Plan in August 2025.

Contributions

Each year participants may contribute on a combined pre-tax and Roth basis up to 75% of their eligible annual compensation to the Plan, subject to annual individual deferral limitations under the United States Internal Revenue Code (IRC). Participants may also make after-tax contributions of up to 8% of their annual eligible compensation to the Plan (subject to maximums as determined by the Plan Administrator). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, as defined by the IRC. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated asset allocation trust fund until changed by the participant.

The Company’s discretionary matching contribution is equal to 100% of the first 6% (5% for new participants entering the Plan on or after April 1, 2026) of eligible compensation for pre-tax and Roth participant contributions to the Plan. New participants are required to complete one year of service to qualify for the Company matching contribution. The Company’s matching contribution is invested into various investment options, including investment funds and the Company’s common stock, according to the participant’s investment elections.

Participant contributions and Company matching contributions are deposited into the Plan on a bi-weekly basis or weekly for those employees on a weekly payroll. Effective April 1, 2026, Company matching contributions are deposited into the Plan semi-annually. In addition, participants are generally required to be actively employed on June 30, and December 31, to receive the match; however, participants who separate from the Company due to death, disability, or retirement will receive their match earned as of such date.

Participants may elect to roll over certain portions of their Plan accounts to a designated Roth contribution account in the Plan (“In-Plan Roth Rollover Contribution”). In-Plan Roth Rollover Contribution accounts are subject to certain restrictions.

Participant Accounts

Each participant’s account is credited with the participant’s contributions, and Company matching contributions, as well as an allocation of Plan earnings/(losses). Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan, which are shared by participants equally, and other fees based on specific participant transactions (see Note 2). The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are immediately vested in their pre-tax, Roth, catch-up, and after-tax contributions, as well as rollovers of previous employers’ eligible qualified plans, and any income or losses on those balances. Participants become 100% vested in the Company’s matching contributions, plus any income or losses on those balances, after two years of service.

Notes to Financial Statements

Notes Receivable from Participants

Participants may borrow from their account balance a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account, with terms generally up to 5 years except when use of the proceeds is for the purchase of a primary residence, for which terms can be up to 30 years. The loan interest rate, determined as of the beginning of each calendar month, is set at one percentage point above the prime rate as established in the Wall Street Journal. The interest rates on existing loans ranged from 3.25% to 9.50%, and 3.25% to 9.75%, at December 31, 2025 and 2024, respectively. Principal and interest are repaid through payroll deductions for current employees.

Benefit Payments and Plan Withdrawals

Upon termination of service, a participant (or beneficiary) may elect to receive the participant's account balance in either a lump-sum payment or periodic installments. Withdrawals may be made under certain other circumstances in accordance with the Plan document.

Forfeited Accounts

At December 31, 2025 and 2024, forfeited nonvested accounts totaled \$3,103,000 and \$5,904,000, respectively. These accounts can be used to reduce future employer contributions, and may be used to pay Plan expenses to the extent excess forfeitures remain after funding employer contributions. In 2025, employer contributions were reduced by \$10,179,000 from forfeited nonvested accounts.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and the disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Shares of mutual funds are valued at net asset value at year-end. The Plan's interests in common collective trusts and other investments are valued based on the net asset value per share as provided by the trustee of the fund, which is used as a practical expedient to estimate fair value. The Company's common stock is valued based on quoted market prices. See Note 4 for more information on valuation of the Plan's investments.

Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

In the Statement of Changes in Net Assets Available for Benefits, the Plan presents the net appreciation/(depreciation) in the fair value of its investments, which consists of realized gains/losses and the change in unrealized appreciation/(depreciation) on investments. The cost of investments is determined using the average-cost basis for calculating realized gains or losses.

The Plan's T. Rowe Price Stable Value Common Trust Fund invests in investment contracts through a collective trust. This fund's investments meet the fully benefit-responsive investment contract criteria and therefore the underlying investment and related transactions are reported at contract value. The T. Rowe Price Stable Value Common Trust Fund's net asset value is therefore computed on a contract value basis. This net asset value represents the Plan's fair value as the net asset value is the basis upon which the Plan transacts with the fund.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based on the terms of the Plan document. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses when they are incurred. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefits Paid to Participants

Benefits are recorded when paid.

Thermo Fisher Scientific Inc. 401(k) Retirement Plan
Notes to Financial Statements
December 31, 2025 and 2024

Administrative Expenses

Certain expenses associated with the recordkeeping, management of, and administration of the Plan are paid by the Plan. Expenses that are paid by the Company are excluded from these financial statements. Fees related to recordkeeping, the administration of notes receivable from participants, and certain other transaction fees are charged directly to the participant's account and included in administrative expenses. Fees earned by Fidelity for administrative services, excluding fees for recordkeeping services, are processed and administered through non-participant directed accounts held in the Vanguard Treasury Money Market Investment Fund. These non-participant directed accounts can also be used to pay for other Plan expenses, such as audit, legal and investment consultation fees. During 2025, Plan expenses of \$444,000 were paid from such accounts, which was partially offset by \$400,000 of revenue credits received in connection with the recordkeeping services agreement the Plan has with Fidelity. Such refunds are reflected as a reduction in administrative expenses on the accompanying Statement of Changes in Net Assets Available for Benefits.

At December 31, 2025 and 2024, there was \$27,000 and \$54,000, respectively, in these accounts available to pay future Plan expenses.

Risks and Uncertainties

The Plan invests in various investment securities, including mutual funds and common collective trusts, which are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Subsequent Events

The Plan has evaluated events and transactions occurring after the Statements of Net Assets Available for Benefits date through the date of issuance for recognition or disclosure in the financial statements and notes, and no subsequent events requiring accrual or disclosure have occurred that are not otherwise disclosed herein.

Note 3. Tax Status

The Plan has received a favorable determination letter dated March 12, 2018, from the Internal Revenue Service. The Plan has been amended since receiving the determination letter; however, the Plan administrator, management and the Plan's ERISA counsel believe that the Plan has been designed and operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

Note 4. Fair Value Measurements

The fair value accounting guidance requires that assets and liabilities carried at fair value, excluding assets measured at the net asset value per share (or its equivalent) practical expedient, be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data such as quoted prices, interest rates and yield curves.

Level 3: Inputs are unobservable data points that are not corroborated by market data.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5. Parties-in-Interest and Related-party Transactions

Certain Plan investments are invested in or managed by Fidelity. Therefore, transactions in these investments qualify as party-in-interest transactions. Notes receivable and related interest from participants also qualify as party-in-interest transactions.

The Plan invests in common stock of the Company and transactions in this common stock are related-party transactions. As of December 31, 2025 and 2024, the Plan held 361,240 and 404,341 shares, respectively, of Company common stock. In 2025 and 2024, the Plan purchased shares of Company common stock on the open market having a value of \$21,001,000 and \$22,458,000, respectively. In 2025 and 2024, the Plan sold shares of Company common stock on the open market having a value of \$35,054,000 and \$40,904,000, respectively. In 2025 and 2024, the Plan received cash dividends of \$661,000 and \$654,000, respectively, on shares of Company common stock held.

Note 6. Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In such event, the assets of the Plan would be distributed to participants in accordance with Plan provisions.

Note 7. Reconciliation of Financial Statements to Form 5500
