Hallmark Inns & Resorts, Inc.
Employee Stock Ownership Plan
Lake Oswego, Oregon

Opinion

We audited the financial statements of Hallmark Inns & Resorts, Inc. Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of September 30, 2025 and 2024, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of September 30, 2025 and 2024, and the changes in its net assets available for benefits for the year ended September 30, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of September 30, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Board of Trustees
Hallmark Inns & Resorts, Inc.
Employee Stock Ownership Plan

In our opinion, the information in the accompanying schedule is fairly stated, in all material aspects, in relation to the financial statements as a whole, and the form and content of the supplemental schedule is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of Plan

The following description of the Hallmark Inns & Resorts, Inc. Employee Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

Hallmark Inns & Resorts, Inc. (the “Company”) established the Plan effective January 1, 2016. The Company is the Plan Sponsor. The Plan operates, in relevant part, as a leveraged employee stock ownership plan (“ESOP”) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (“IRC”) of 1986, as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan is administered by a committee appointed by the Company’s board of directors.

The Plan purchased 130,700 shares of the Company’s Class A common stock (“stock”) from four stockholders of the Company, which represents 30% of the total outstanding shares. The stock was purchased by the issuance of a note payable to the Company. The Plan holds the stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to participant accounts in accordance with applicable regulations under the IRC.

The borrowings under the note payable are collateralized by the unallocated stock. The lender has no rights against shares of stock once they are allocated to participants in accordance with the terms of the Plan.

Eligibility

Employees of the Company have an initial eligibility period measured by the completion of 1,000 hours of service during their first 12 months of employment. After the initial eligibility period, eligibility is based on the Plan year subsequent to the employee’s original year of hire. Each employee will become a participant in the Plan on the first entry date coinciding with or preceding the date in which the employee completes one year of service, equivalent to 1,000 hours worked, and has attained the age of 18. Participants who do not have at least 1,000 hours of service during such Plan year are not eligible for an allocation of Plan assets for such year.

Employees covered by a collective bargaining agreement, leased employees, temporary employees and nonresident aliens are excluded from participating in the Plan.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with any earnings received by the Plan, are sufficient to permit the Plan to make its regularly scheduled payments of principal and interest due on its note payable on a timely basis. In addition to the required contribution, the Company also contributed approximately \$31,000 in cash during the plan year ended September 30, 2025 to partially cover the Plan’s current and future distribution obligations. Employee contributions are not permitted to the Plan.

Payment of benefits

Distributions on account of death, disability, or retirement are made in a lump sum within one year after the end of the Plan year of the termination date. Distributions for other separations from service commence within one year after the end of the fifth Plan year following the separation from service and are made in annual installments generally not to exceed five years; however, such payments may be made earlier at the discretion of the plan trustees. The amount to be distributed is based upon the immediately preceding valuation date. The Plan is not required to make any distributions until the close of the Plan year in which all outstanding loans have been repaid in full.

1. Description of Plan (continued)

Administrative expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company. For the year ended September 30, 2025, the Company paid the administrative expenses for the Plan.

Voting rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to their account and is notified by the trustee of the Plan, prior to the time that such rights are to be exercised. The trustee is required to vote any allocated shares for which no voting instructions have been received from a participant, as well as any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's stock released by the trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Shares are released from collateral by the trustee and allocated to participants as payments of principal and interest are made.

Contributions are allocated in the proportion that each participant's eligible compensation bears to the total eligible compensation of all participants. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance to all participant account balances. Only those participants who have worked at least 1,000 hours during the Plan year and have completed 12 months of service by plan year end will receive an allocation.

Any stock dividends on the shares held by the Plan may be treated in any of the following methods as determined by the Plan Administrator: (1) allocated to each participant in the ratio in which the cumulative number of shares allocated to the participant's account bears to the total cumulative shares allocated as of the preceding year end, (2) to make payments on any outstanding Plan debt or (3) to purchase additional shares of the Company's stock.

Vesting

If a participant's employment with the Company ends for any reason, other than retirement, permanent disability or death, they will vest in the balance of their account based on total years of service with the Company. Participants are fully vested after completing three years of service.

Put option

Under federal income tax regulations, any Company stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations, includes a put option. The put option is a right to demand the Company buy any shares of stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure the participants have the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments that are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their accounts. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the shares allocated to their account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. As of September 30, 2025 and 2024, no diversification has occurred. Subsequent to September 30, 2025, approximately \$29,000 representing 905 shares were elected by participants to be diversified from the Plan.

1. Description of Plan (continued)

Forfeitures

Forfeitures represent terminated participants' non-vested accounts. Plan forfeitures are allocated to each participant's account based upon the same allocation method as contributions for the Plan year in which the forfeitures were incurred or a break in service occurred. During the year ended September 30, 2025, \$46,000 in forfeitures were reallocated to participants. As of September 30, 2025, there are no forfeited non-vested accounts to be reallocated to participant accounts in future years.

2. Summary of significant accounting policies

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Significant estimates include the valuation of the Company stock held by the Plan.

Allocation

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment valuation and income recognition

The Plan's investment in Company stock is reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Net appreciation (depreciation) in fair value of investments includes the Plan's gains on the Company stock during the year.

Payment of benefits

Benefits are recorded when paid.

Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the plan document. Expenses paid directly by the Company are excluded from these financial statements.

Subsequent events

The Plan has evaluated subsequent events through July 6, 2026, which is the date these financial statements were available to be issued. Events, if any, are disclosed within the notes to these financial statements.

4. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at September 30, 2025 and 2024.

Interest-bearing cash: Valued at the market value of cash held by the Plan at year end.

Class A common stock: Valued based upon an annual independent appraisal. The appraisals as of September 30, 2025 and 2024 were based on a combination of the market and income valuation techniques consistent with prior years. The appraiser took into consideration historical and projected cash flows and net earnings, long-term sustainable growth rate, weighted average cost of capital, market comparable and applicable discounts for marketability and lack of control. Plan management accumulates the data for the appraiser from the preliminary financial statements of the Company. The appraiser prepares a preliminary report that Plan management, along with the trustees, reviews in detail, discusses and approves.

4. Fair value measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. For the year ended September 30, 2025 and 2024, there were no transfers in or out of Level 3.

The following sets forth, by level, within the fair value hierarchy, for the Plan's investment at fair value as of September 30:

2025				
	Level 1	Level 2	Level 3	Total
Interest-bearing cash	\$ 344,006	\$ -	\$ -	\$ 344,006
Hallmark Inns & Resorts, Inc., Class A common stock	-	-	4,202,005	4,202,005
Total investments at fair value	\$ 344,006	\$ -	\$ 4,202,005	\$ 4,546,011

2025				
	Level 1	Level 2	Level 3	Total
Interest-bearing cash	\$ 411,220	\$ -	\$ -	\$ 411,220
Hallmark Inns & Resorts, Inc., Class A common stock	-	-	5,468,488	5,468,488
Total investments at fair value	\$ 411,220	\$ -	\$ 5,468,488	\$ 5,879,708

5. Note payable

In connection with the purchase of the Company stock, the Plan entered into a note payable to the Company in the amount of \$3,006,151 to purchase a combined 130,700 shares of Hallmark Inns & Resorts, Inc. Class A common stock from four shareholders. The loan bears interest at 4.31% and matures on December 31, 2030. Unallocated shares are pledged as collateral for the note. Shares are released from collateral and allocated to participants as principal and interest payments are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of principal and interest payments made in that year, divided by the total projected principal and interest payments outstanding at the beginning of the Plan year. This resulted in 9,462 shares being released for the year ended September 30, 2025 for allocation to participants.

Scheduled future principal payments on the note are approximately as follows:

Year Ending September 30,

2026	\$ 249,000
2027	260,000
2028	122,000
	<u>\$ 631,000</u>

6. Related party and party-in-interest transactions

A related party is any party who can control or significantly influence Plan management or operating policies. Parties-in-interest are defined under DOL regulations as any employees of the Plan, fiduciaries of the Plan, service providers to the Plan, the employer whose employees are covered by the Plan and certain significant owners of the employer and their relatives. Service providers may include, but are not limited to, the custodian, trustee, third-party administrator, investment managers, investment advisors, legal counsel and Plan auditor.

6. Related party and party-in-interest transactions (continued)

The Plan invests in Hallmark Inns & Resorts, Inc. Class A common stock, has indebtedness to the Company and the Company pays all Plan expenses. These are considered to be related party and party-in-interest transactions. The Plan has a number of service providers. Such providers are considered parties-in-interest under ERISA. The above party-in-interest transactions qualify as exempt party-in-interest transactions.

7. Risks and uncertainties

The Plan's primary investment is the Company stock, which is exposed to various risks such as interest rate, market and credit risks, as well as valuation assumptions based on multiples of earnings, discounted cash flows, observable market data for similar companies and/or other such techniques. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with the investment in the stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

8. Plan termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Company's board of directors should direct the trustee to pay all Plan liabilities and expenses and to sell shares of financed stock held as collateral to the extent it determines such sale to be necessary in order to repay any outstanding note payable. Subsequently, the interest of each participant in the trust will be distributed to such participant or their beneficiary at the time prescribed by the Plan terms and the IRC.

9. Tax status

The Plan has received a determination letter from the IRS, dated December 28, 2017, stating that the Plan is qualified under the IRC and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified and the related trust is tax-exempt.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain tax position that, more likely than not, would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
