Independent Auditor's Report

The Board of Trustees
ACME Foundry, Inc. Employees Stock Ownership Trust
Coffeyville, Kansas

Opinion

We have audited the financial statements of ACME Foundry, Inc. Employee Stock Ownership Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of August 29, 2025 and September 30, 2024, and the related statement of changes in net assets available for benefits for the eleven-month period ended August 29, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of ACME Foundry, Inc. Employee Stock Ownership Trust as of August 29, 2025 and September 30, 2024, and the changes in its net assets available for benefits for the eleven-month period ended August 29, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of ACME Foundry, Inc. Employee Stock Ownership Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about ACME Foundry, Inc. Employee Stock Ownership Trust's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ACME Foundry, Inc. Employee Stock Ownership Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about ACME Foundry, Inc. Employee Stock Ownership Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4j-schedule of reportable transactions as of and for the eleven-month period ended August 29, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of Plan

The following description of ACME Foundry, Inc. Employee Stock Ownership Trust (Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

General

ACME Foundry, Inc. established the Plan effective as of October 1, 1986. The Plan operated as a leveraged employee stock ownership plan (ESOP) until October 1, 1996, at which time it was converted to a non-leveraged employee stock ownership plan. The Plan is a defined contribution plan and is designed as a stock bonus plan for participating employees of ACME Foundry, Inc. (Company). The Plan invests primarily in the Company's common stock. The Plan operates as a non-leveraged employee stock ownership plan and is designed to comply with Section 4975(e) (7) and the regulations there under of the Internal Revenue Code of 1986 and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974. The Plan is administered by the Board of Directors that serve as Trustee's for the ESOP. Effective February 21, 2025, Community Bank of Pleasant Hill d/b/a First Trust of MidAmerica (First Trust) was appointed as an independent fiduciary to oversee the sale and transfer of employer stock in connection with the Plan merger. Effective August 29, 2025, the Plan assets were transferred to the ACME Foundry, Inc. 401(k) Plan in the amount of \$4,668,259.

Eligibility

An employee of the Company is eligible to participate in the Plan after age 20 ½, provided they work at least 1,000 hours during such plan year. Participants who do not work at least 1,000 hours of service during the plan year or are not employed on the last day of the year are not eligible for an allocation of Company contributions for such year.

Entry Date

Employees may enter the Plan on the last day of the Plan year on which the employee meets the eligibility requirements.

Contributions

The Board of Directors of the Company determines the Plan contribution amount annually. Contributions can be made in cash or Company stock as is acceptable to the trustee. The Company stock shall be at fair market value determined at the time of the contribution. No contributions were made for the eleven-month period ended August 29, 2025.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant account is credited as of the last day of each plan year with an allocation of the employer contribution by the Trustee from the unallocated account and forfeitures of terminated participants' non vested accounts. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participant's beginning of the year account balances.

Vesting

As of October 1, 2023, all participant accounts are 100% vested.

Forfeitures

At August 29, 2025 and September 30, 2024, forfeitures of terminated non-vested accounts totaled \$0, respectively. These accounts can be used to pay plan expenses or be allocated to eligible participants on a percentage of the individual employee's compensation to total eligible compensation.

Payment of Benefits

Payment of benefits occurs when a participant retires, dies (in which case, payment shall be made to his or her beneficiary or legal representative), terminates employment, becomes disabled, or elects to take an in-service withdrawal. Distributions are in the form of cash, Company stock, or a combination of cash and Company stock.

Upon termination of employment, if the participant's vested balance exceeds \$7,000, it will be paid in annual installment payments over a period of five years. The Plan automatically pays out any participants that were terminated and maintained a balance of less than \$1,000. Any terminated participant with a balance between \$1,000 and \$7,000 can still be automatically forced out if their balance is rolled into a qualified Independent Retirement Account.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Put Option

Under Federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to a participant for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee shall vote any share for which instructions have not been given by a participant.

Diversification

Diversification is offered to participants close to retirement age so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least 55 with at least 10 years of participation in the Plan may elect to diversify a portion of the account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

Note 2 - Significant Accounting Policies and Use of Estimates**Basis of Accounting**

The accompanying financial statements have been prepared on an accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Notes to Financial Statements

August 29, 2025 and September 30, 2024

Administrative Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net asset available for benefits.

Subsequent Events

The Plan sponsor has evaluated subsequent events through July 9, 2026, the date which the financial statements were available to be issued.

Note 3 - Investments

The Plan's investments are as follows:

	<u>2025</u>	<u>2024</u>
ACME Foundry, Inc. Common Stock		
Number of shares	<u>\$ -</u>	<u>\$ 2,849</u>
Cost	<u>\$ -</u>	<u>\$ 1,127,611</u>
Fair Value	<u>\$ -</u>	<u>\$ 4,167,605</u>

During the Plan year, the Company redeemed approximately 2,849 shares of Company stock for total cash consideration of \$4,668,259. The cash was transferred to the ACME Foundry Inc. 401(k) Plan.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

ACME Foundry, Inc. Employees Stock Ownership Trust

Notes to Financial Statements

August 29, 2025 and September 30, 2024

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan can access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 29, 2025 and September 30, 2024.

Company Common Stock – The fair value of the Company common stock held in the Plan is valued at estimated fair value based upon an independent appraisal. The appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, discount rates, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities, including discounts for lack of control and lack of marketability.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of August 29, 2025 and September 30, 2024:

	2025			
	(Level 1)	(Level 2)	(Level 3)	Total

Note 5 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated June 30, 2020, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. Subsequent to the issuance of the determination letter, the Plan was amended. However, the Company, Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and therefore believe the Plan is qualified and the related trust continues to be tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress

Note 6 - Administration of Plan Assets

The Plan's assets, which consist principally of Company common shares, are held by the Trustee of the Plan. Company contributions, if any, are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. Certain administrative functions are performed by an officer or employees of the company. No such officer or employee receives compensation from the Plan.

Note 7 - Related Party and Party-in-Interest Transactions

The Plan invests in Company common stock. These are related party and party-in-interest transactions.

As described in Note 2, the Plan may pay certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

Note 8 - Risks and Uncertainties

The Plan's investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and other such techniques. Market risks include global events which could impact the value of investments, such as a pandemic or international conflict. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 9 - Right of First Refusal

Company stock that has been distributed to a participant and not immediately repurchased by the Company or Trust, may be subject to a right of first refusal if so, determined by the Company. Prior to any subsequent transfer, the shares must first be offered by written offer to the Company, and then, if refused by the Company, to the Trust at fair market value as determined by an independent appraiser appointed by the ESOP Committee.

Note 10 - Plan Merger

During 2025, the Company merged the Plan with ACME Foundry, Inc. 401(k) Plan, another plan sponsored by the Company. The transfer took place on August 29, 2025 in the amount of \$4,668,259.
