Marathon Oil Company Thrift Plan

Opinion on the Financial Statements

We have audited the financial statements of the Marathon Oil Company Thrift Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements (collectively, financial statements).

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Plan management (Management) is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the provisions of the Plan, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that

includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

1. Description of Plan

The following brief description of the Marathon Oil Company Thrift Plan (the "Plan") provides only general information. Participants should refer to the Summary Plan Description or the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution thrift savings plan. The Plan covers substantially all regular and casual legacy employees of the following entities, which are participating employers in the Plan: Marathon Oil Corporation ("MRO"), Marathon Oil Company LLC (the "Company"), and Marathon Service Company. All participating employers, other than MRO, are wholly owned subsidiaries of MRO. An eligible employee may participate in the Plan by making contributions to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Effective as of November 22, 2024, the Plan Administrator is the ConocoPhillips Company Benefits Committee.

Plan Amendments, Changes and Other Information

Following ConocoPhillips' acquisition of MRO on November 22, 2024, (the "Acquisition") the sponsor of the Plan, Ohio corporation Marathon Oil Company, converted to Texas limited liability company Marathon Oil Company LLC, effective September 10, 2025, succeeding as the sponsor of the Plan.

Effective July 1, 2025, the Plan was amended to freeze its self-directed brokerage account feature, described in Note 3. Thereafter, interest and dividends generated from investments in such brokerage accounts would be credited to the investments that generated them, but no further trading activity was permitted other than to sell investments and deposit cash proceeds into the participant's core cash investment option of the brokerage account.

Effective December 31, 2025, the Plan was merged (the "Plan Merger") into the ConocoPhillips Savings Plan ("CPSP"). The net assets of the Plan amounting to \$793,794,664 were transferred from the Plan's investments and invested in similar investments of the CPSP. The following describe the Plan as in effect immediately prior to the Plan Merger.

Contributions

Participants may elect to contribute 1% to 60% of their eligible pay, as defined in the Plan document, each pay period on a combined 401(k) pre-tax, after-tax, and/or Roth after-tax basis, up to the annual IRS limits. The 2025 annual IRS contribution limit is \$23,500 for participants who are age 49 or younger and \$31,000 for participants who are or who will attain at least age 50 by the end of the 2025 calendar year.

The contributions of highly compensated employees are subject to additional limitations pursuant to the provisions of Sections 401(k) and 401(m) of the Internal Revenue Code of 1986, as amended ("Code"). Compensation of a participant under the Plan is limited to \$350,000 and \$345,000 for 2025 and 2024, respectively, as provided in Code Section 401(a)(17).

Notes to the Financial Statements

December 31, 2025 and 2024

Newly hired or rehired eligible employees will automatically be enrolled into the Plan at a 7% pre-tax contribution rate, unless the participant opts out or proactively enrolls in the Plan. With this automatic enrollment, participant plan contributions will be invested in the applicable default age-based Fidelity Freedom Blend Income Commingled Pool Class Q fund if an investment election is not on file for a participant.

Participants may also make rollover contributions or direct-plan transfer contributions of qualified distributions from the qualified plans of the Company, its subsidiaries, its affiliates, and any other qualified plans or conduit individual retirement accounts ("IRA") upon specific authorization and subject to such terms and conditions as set forth by the Plan Administrator.

To the extent that the Company has accumulated earnings and profits, the Company will match on a dollar-for-dollar basis each participant's after-tax, pre-tax/Roth 401(k), and catch-up contributions to the Plan up to an aggregate of 7 percent of each participant's eligible gross pay.

Valuation of Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings (losses) based on the participant's relative investment holdings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are fully and immediately vested in their contributions plus actual earnings thereon. Participants become fully vested in the Company contributions, plus actual earnings thereon, in any of the following ways: at death; after three years of vesting service with the Company or another employer within the controlled group of MRO; or upon attainment of age 65.

Participant Loans

Participants may borrow from their fund accounts at a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are collateralized by the balance in the participant's account and bear interest rates that ranged from 3.25 percent to 8.50 percent throughout 2025 and 3.25 percent to 8.50 percent throughout 2024, determined in accordance with Plan provisions. Principal and interest is paid ratably through payroll deductions for active employees and through automatic payments for participants not receiving pay and retirees. The loans must be repaid within a certain period of time as specified in the Plan's loan procedures. The terms of these Plan loan notes range from a minimum of 12 months to a maximum of 60 months. Upon a participant's termination of employment from a participating employer and all companies that are a part of the controlled group with the Company prior to being a retired member, an outstanding loan generally becomes payable (with a limited exception for parties-in-interest). Effective January 1, 2019, generally no more than two outstanding loans at one time are allowed per participant under the Plan.

Hardship Withdrawals

Hardship withdrawals are available to participants. A hardship withdrawal is a withdrawal due to an immediate and significant financial need at a time when other resources are not readily available. Reasons for hardship withdrawals are limited to specific IRS requirements.

Payment of Benefits

On termination of service, unless a participant elects otherwise or as required by the Code, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The participant alternatively may elect to defer the commencement of benefits until benefits are required to commence under the Code's applicable RMD rules. However, if a participant's vested account balance is \$7,000 or less when he or she terminates employment from all companies within the controlled group of MRO or thereafter, if he or she does not initiate a full distribution or rollover, the participant's vested account balance will be distributed. In such case, vested accounts of \$1,000 or less will be paid as a lump sum distribution, and in accordance with the provisions of the Code, mandatory distributions equal to or less than \$7,000 but greater than \$1,000 require automatic rollover to an IRA for participants who fail to make an active election otherwise available under the Plan. Certain terminated employees and beneficiary members may withdraw, during any year, all or any portion of the remaining balance in his or her account, subject to certain restrictions. An installment settlement option is available to retired and spouse beneficiary members subject to certain requirements and restrictions; effective April 1, 2022, this option is also available to other terminated employee and non-spouse beneficiary members with vested account balances under the Plan.

Forfeitures

Non-vested participants whose services with the Company have been terminated will forfeit their entire Company-matching contribution and earnings thereon when either of the following takes place: (1) they remove their participant contributions from the Plan, or (2) they do not regain employment within five years of termination. Company contributions and earnings thereon are eligible for reinstatement, should a member be rehired prior to the limitation indicated under the Plan. Company contributions and earnings thereon that are forfeited shall reduce the Company's subsequent contributions to the Plan. Total forfeitures of \$255,710 and \$575,000 for the year ended December 31, 2025 and 2024 respectively, were used to reduce employer matching contributions made to the Plan. The forfeited balance held in the Plan as of December 31, 2025 and 2024 was \$0 and \$24,536, respectively.

Partial Plan Termination

Following the Acquisition, the Plan's participating employers implemented a series of workforce reductions in connection with the Acquisition that created a reduction in Plan participation in excess of 20% of employees participating in the Plan for the 2024 and 2025 applicable period beginning on November 22, 2024, and ending on December 31, 2025. Therefore, a partial termination of the Plan occurred under IRS rules, and employees affected by the partial termination who had a severance from employment during the applicable period automatically became fully vested in their Plan benefit in accordance with and subject to applicable law.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold as well as held during the year. Investment-related expenses are also included in net appreciation of fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represents participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned.

Administration of Plan Assets

All costs, expenses, and fees incurred in administering the Plan, to the extent not paid by the Company, are incurred by the participants. Fees or charges for investment management services are not paid by the Company but are borne by the participants electing such services. Any taxes applicable to the participants' accounts are charged or credited to the participants' accounts by Fidelity Investments Institutional Operations Company, Inc ("FIIOS")

3. Fair Value Measurements

The FASB ASC 820, *Fair Value Measurement*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. There are three approaches for measuring the fair value of assets and liabilities: the market approach, the income approach, and the cost approach, each of which includes multiple valuation techniques. This hierarchy consists of three broad levels:

- Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and liabilities and have the highest priority;
- Level 2 inputs consist of quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in inactive markets, or inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means;
- Level 3 inputs are unobservable and significant to the fair value measurement and have the lowest priority.

The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following provides a description of the valuation techniques employed for each major plan asset class at December 31, 2025 and 2024.

Common stock - Investments in common stocks are valued using a market approach at the closing price reported in an active market and are therefore considered Level 1.

Self-Directed Brokerage Account Investments – Prior to July 1, 2025, participants could open a self-directed brokerage account within the Plan that allowed them to buy and sell stocks, corporate bonds, treasury securities, and other securities on the active market available through Fidelity BrokerageLink ("BrokerageLink"). These securities are valued using a market approach at the closing price reported in an active market and are therefore considered Level 1.

Mutual funds - Investments in mutual funds, including money market mutual funds, are valued using a market approach at the net asset value of shares held. The net asset value is generally based on prices from a public exchange, which is normally the principal market on which the investments are traded, and is considered Level 1.

Marathon Oil Company

Thrift Plan

Notes to the Financial Statements

December 31, 2025 and 2024

Common Collective Trusts ("CCTs") - Investments in CCTs are valued using a market approach at the net asset value of units held, but investment opportunities in such funds are limited to institutional investors on behalf of defined contribution plans. CCTs have been reported in the fair value table without leveling since fair value is measured using the net asset value per share practical expedient. The Fidelity Freedom Blend Commingled Pools, the Fidelity Growth Company Commingled Pool ("Growth Company"), the Fidelity Contrafund Commingled Pool ("Contrafund"), Allspring Special Mid Cap Value CIT ("Allspring"), the Managed Income Portfolio II (MIP II) and the Spartan Index Pooled Funds are CCTs. There are no redemption restrictions on any of these CCTs at the participant-level. There are also no unfunded commitments attributable to any of the CCTs.

- The Fidelity Freedom Blend Commingled Pools seek high total return until the pool's targeted retirement year. Thereafter, the pool's objective shifts to include capital appreciation. These pools invest in a diversified portfolio of equity, bond and short-term products. The underlying pools may use futures contracts to remain fully invested, manage cash flows efficiently, or facilitate asset allocation. Each target date pool's target asset allocation percentages will become more conservative over time by reducing allocations to equity and increasing allocations to fixed income and/or short-term products.
- The Growth Company CCT's objective is capital appreciation over a market cycle relative to the Russell 3000 Growth Index. The CCT invests primarily in common stocks of domestic and foreign issuers with the potential for above-average growth with similar market capitalization to the Russell 3000 Growth Index. Growth may be measured by factors such as earnings or revenue.
- The Contrafund CCT's objective is capital appreciation over a market cycle relative to the S&P 500 Index. The CCT invests primarily in common stocks of domestic and foreign issuers with a focus on companies that have strong long-term growth prospects and whose value is not fully recognized by the public.
- The Allspring CCT's objective is long term capital appreciation. It invests principally in equity securities of mid-capitalization companies, which is defined as companies with market capitalizations within the range of the Russell Midcap® Index at the time of purchase.
- The MIP II invests in benefit-responsive investment contracts issued by insurance companies and other financial institutions, fixed income securities, and money market funds. Under the terms of the contracts, the assets of the fund are invested in fixed income securities and shares of money market funds. The fund may also invest in futures contracts, option contracts, and swap agreements. The fund seeks principal preservation to maintain a stable net asset value (NAV) of \$1 per share.
- The Spartan Index Pooled Funds seek to replicate the performance and overall characteristics of certain domestic and foreign stock market indices in a risk-managed and cost-effective manner. Each portfolio generally invests at least 80% of its assets in securities of companies that comprise the associated index.

4. Party-in-Interest Transactions

The trustee of the Plan's trust ("Trustee") provides certain accounting and administrative services to the Plan for which approximately \$394,792 and \$307,495 of expenses were charged for the years ended December 31, 2025 and 2024, respectively.

Certain employees and officers of the Company, who may also participate in the Plan, perform administrative services to the Plan at no cost.

The Plan included a MRO common stock fund, which was frozen after the close of market on December 30, 2016. In connection with the Acquisition, in accordance with the merger agreement between ConocoPhillips and MRO, each share of MRO common stock held in the MRO common stock fund under the Plan was converted into 0.2550 shares of ConocoPhillips common stock upon completion of the Acquisition and was held in a frozen ConocoPhillips common stock fund under the Plan until its transfer to the CPSP pursuant to the merger of the Plan into CPSP. See Note 1. ConocoPhillips common stock held in the Plan as of December 31, 2025, was \$0. ConocoPhillips common stock held in the Plan as of December 31, 2024, was \$9,385,491.

Marathon Oil Company

Thrift Plan

Notes to the Financial Statements

December 31, 2025 and 2024

Certain Plan investments, amounting to \$0 and \$511,191,213 at December 31, 2025, and 2024, are shares of mutual funds managed by FIIOS, the target date CCTs are managed by FIAM (Fidelity Institutional Asset Management) and the other CCT's (except the Allspring CCT and Spartan CCT) are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

The Plan also holds notes receivable representing participant loans that qualify as party-in-interest transactions.

All party-in-interest transactions noted above are deemed exempt from the prohibited transaction rules under ERISA and the Code.

5. Tax Status

The IRS has determined and informed the Plan Administrator by a letter dated June 11, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving this determination letter, the Plan administrator and the Plan's legal counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

US GAAP requires the Plan Administrator to evaluate uncertain tax positions taken by the Plan and to recognize a tax liability (or asset) when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Risks and Uncertainties

The Plan provides various investment options. These investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities and current market volatility, it is possible that changes in the near or long term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

7. Subsequent Events

Events and transactions subsequent to the balance sheet date have been evaluated through June 30, 2026, the date these financial statements were issued for potential recognition or disclosure in the financial statement.
