Wayne Savings Community Bank Defined Benefit Pension Plan

Actuarial Valuation at 1/1/2025 for Plan Year 1/1/2025 to 12/31/2025

2025 Form 5500 Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (EIN: 34-0606020/PN: 001)

Actuarial Cost Method

Liabilities shown in this report are computed in accordance with the Pension Protection Act of 2006 and subsequent guidance issued by the Internal Revenue Service. The target normal cost is the present value of all benefits that have accrued or have been earned (or that are expected to accrue or to be earned) under the plan during the plan year. The funding target of the plan for the plan year is the present value of all benefits that have been accrued or earned under the plan as of the first day of the plan year.

The benefits taken into account in determining the funding target and target normal cost are all benefits earned or accrued under the plan, including retirement-type and ancillary benefits. The determination of the funding target and target normal cost is based on plan provisions that are adopted no later than the valuation date for the plan year and that become effective during that plan year.

Asset Valuation Method

Two-year smoothed value of plan assets determined in accordance with IRS Notice 2009-22.

Actuarial Assumptions

The actuarial assumptions summarized below are either prescribed by law, or when not prescribed by law, selected by the plan's actuary as the best predictor of future experience, based on all available prior experience and future expectations. For any assumption not prescribed by law or selected by the plan's actuary, the individual or organization selecting such assumption is identified separately, and the report will note if the actuary has any disagreement with the appropriateness of the assumption.

Expenses	Administrative-related expenses for the previous year equal zero.

Wayne Savings Community Bank Defined Benefit Pension Plan

Actuarial Valuation at 1/1/2025 for Plan Year 1/1/2025 to 12/31/2025

2025 Form 5500 Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (EIN: 34-0606020/PN: 001)

Assumption Bias	In the actuary's professional judgment, the combined effect of the assumptions herein is expected to have no significant bias (i.e., it is not significantly optimistic or pessimistic). This statement applies to assumptions and methods other than 1) those set by law and 2) those that the actuary has not selected and is unable to assess for reasonableness for the purpose of the measurement.
Changes Since Prior Year	
Method Changes	There have been no method changes in the funding valuation since the prior year.
Assumption Changes - Funding	The valuation interest rates were changed to the 24-month segment rates for September 2024 from the 24-month segment rates for September 2023, each adjusted as applicable to fall within the 25-year average interest rate stabilization corridor. The mortality assumption was changed to the 2025 combined male and female static mortality tables for non-annuitants and annuitants per section 430(h)(3) from the 2024 combined male and female static mortality tables for non-annuitants and annuitants per section 430(h)(3).
Other Assumption Changes - Funding	None.
Assumption Changes - ASC960	The valuation interest rate remained the same at 6.00%. The Society of Actuaries kept mortality improvement rates unchanged from last year. Therefore, this plan's mortality assumption did not change and the mortality table used to value plan benefits remained as: Pri-2012 white collar worker table, projected forward generationally with the 2024 IRS adjusted mortality improvement scale MP-2021.
Other Assumption Changes - ASC960	None.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
