INDEPENDENT AUDITOR'S REPORT

To the Retirement Plan Committee of
The Fiesta Tableware Company
Salaried Employees Pension Plan
Newell, West Virginia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of The Fiesta Tableware Company Salaried Employees Pension Plan ("Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of assets available for benefits and of accumulated plan benefits as of September 30, 2025 and 2024, and the related statements of changes in assets available for benefits and of changes in accumulated plan benefits for the years ended September 30, 2025 and 2024, and the related notes to the financial statements ("financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from Charles Schwab Bank for the years ended September 30, 2025 and 2024, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section—

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

INDEPENDENT AUDITOR'S REPORT

(continued)

- the information in the accompanying financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the Financial Statements

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

INDEPENDENT AUDITOR'S REPORT

(continued)

When conducting an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of September 30, 2025 and schedule of reportable transactions for the year ended September 30, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

INDEPENDENT AUDITOR'S REPORT

(continued)

The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards in the United States of America. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

THE FIESTA TABLEWARE COMPANY
SALARIED EMPLOYEES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - PLAN DESCRIPTION

The following brief description of The Fiesta Tableware Company ("Company") Salaried Employees Pension Plan ("Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a qualified, noncontributory, trustee defined benefit pension plan covering all salaried employees of the Company and those hourly employees who are not covered by the collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by the Retirement Plan Committee appointed by the Board of Directors of the Company.

In August 2023, the Plan adopted an amendment to freeze participation effective September 30, 2023. Calculations of future benefits will be calculated as if a participant terminated employment on or before September 30, 2023. The actuarial present value of accumulated benefits as of September 30, 2025 reflects this amendment.

Eligibility

Employees become eligible to join the Plan upon attaining the age of 21 and completing one year of service, provided they work at least 1,000 hours per year. Employees who are covered by the collective bargaining agreement are excluded.

Contributions

Benefits under the Plan are funded by the Company. Contributions are at least equal to the minimum funding requirements of ERISA as determined by an actuary that performs annual valuations of the Plan. The funds are held, invested, and disbursed by Charles Schwab Bank ("Trustee"). For the Plan years ended September 30, 2025 and 2024 no contributions to the Plan were made by the Company.

Retirement and retirement benefits

Normal retirement benefits are earned at the later of age 65 or upon five years of service, but, in accordance with federal law, no employee can be forced to retire. The benefit formula for participants retiring on or after October 1, 1999, is based on 0.68% of the participant's average monthly compensation for the last 60 months multiplied by their number of years of credited service. The monthly benefit for employees and the beneficiaries of employees who retired prior to October 1, 1999, were calculated at lesser rates then in effect. Service prior to October 1, 1949, is not included in the calculation of the benefit.

SALARIED EMPLOYEES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS
(continued)

NOTE 1 - PLAN DESCRIPTION (continued)

Retirement and retirement benefits (continued)

Early retirement is permitted after age 60 and completion of five years of service. The employee may then elect to begin receiving benefits upon attaining normal retirement age or receive an actuarially reduced benefit upon taking early retirement. Disability retirement is available after age 50 and completion of 15 years of service, or age 62 and completion of 10 years of service.

Vesting

An employee is fully vested in the Plan upon completion of five years of service with the Company under a five-year cliff vesting provision.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting. Amounts currently payable to participants are not reflected as a liability in the statements of assets available for benefits but are included as a component of accumulated plan benefits.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, the actuarial present value of accumulated plan benefits as of the date of the financial statements, and the reported amounts of changes in assets available for benefits and accumulated plan benefits during the reporting period. Actual results could differ from those estimates.

Investments

Investments are stated at fair value as determined by the Trustee. Purchases and sales of investment securities are recorded on a trade-date basis (date the order to buy or sell is executed). Interest and dividend income are recorded as earned.

THE FIESTA TABLEWARE COMPANY
SALARIED EMPLOYEES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS
(continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investments (continued)

The Plan's investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with investments and the level of uncertainty related to changes in the fair value of investments, it is at least reasonably possible that significant changes in risks in the near term may materially affect the amounts reported in the accompanying financial statements.

Administrative fees

The Plan permits the Company to pay Plan expenses from its own assets or from assets of the Plan. Administrative fees were paid from assets of the Plan for the years ended September 30, 2025 and 2024.

Actuarial present value of accumulated plan benefits

The actuarial present value of accumulated plan benefits is the present value of future benefit payments that are attributable, under the Plan's provisions, to employees' service rendered prior to the benefit valuation date. These payments are comprised of benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of deceased employees, and present employees or their beneficiaries. Benefits payable under all circumstances are included to the extent they are deemed attributable to employees' service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

THE FIESTA TABLEWARE COMPANY
SALARIED EMPLOYEES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

(continued)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Actuarial present value of accumulated plan benefits (continued)

The following actuarial assumptions were used in arriving at this value:

	2025	2024
Mortality basis	PRI-2012 Private Retirement Plans Mortality Table	PRI-2012 Private Retirement Plans Mortality Table
Retirement age	Later of age 65 or five years of service, active participants beyond age 65 are assumed to be retiring immediately	Later of age 65 or five years of service, active participants beyond age 65 are assumed to be retiring immediately
Actuarial basis	Projected unit credit	Projected unit credit
Assumed discount rate	6.00%	6.00%
Salary increases	--	--

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term may materially affect the amounts reported in the accompanying financial statements. In addition, the forgoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan is terminated, different actuarial assumptions and other factors may be applicable in determining the actuarial present value of accumulated plan benefits.

Subsequent events

The Plan evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through July 9, 2026, the date on which the financial statements were available to be issued.

THE FIESTA TABLEWARE COMPANY
SALARIED EMPLOYEES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

(continued)

NOTE 3 - PLAN TERMINATION

The Company may terminate the Plan at any time. Under provisions of ERISA, if the Plan is terminated, the Company may be obligated to make termination payments to the Plan and participants may be eligible for continuation of benefits under insurance provided by the Pension Benefit Guaranty Corporation ("PBGC").

Whether a particular participant's accumulated Plan benefits will be paid depends on both the priority of those benefits and the level of those benefits guaranteed by the PBGC at that time. In the event of Plan termination, participants or others entitled to benefits will receive the amount to which they are entitled in cash or in the form of immediate or deferred annuities. Certain benefits may be fully or partially provided for by the then existing assets of the Plan and/or the PBGC guaranty. However, because the PBGC does not guarantee all types of benefits and the amount of benefit protection is subject to certain limitations, there is the possibility that some benefits may not be provided. A description of the priority of participants' claims to the assets of the Plan upon termination is published in the Plan agreement and made available to participants.

An application for termination was filed with the PBGC on May 5, 2026. After the Plan received no formal disapproval from the PBGC subsequent to sixty days after filing the application, liquidation became imminent and the Plan adopted the liquidation basis of accounting. During 2026, the Plan notified participants of their accumulated benefits and provided participants with payout options. Plan assets were liquidated during July 2026. As of September 30, 2025, the Plan has accumulated \$8,888,801 in cash and cash equivalents which may be used towards funding the termination costs.

NOTE 4 - INVESTMENTS

Market price observability is affected by a number of factors, including the type of investment and the characteristics specific to the investment. Investments with readily available active quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value. Investments measured and reported at fair value are classified and disclosed in one of the following categories based on the extent of market price observability:

Level I - Quoted prices are available in active markets for identical investments as of the reporting date. This category includes cash and cash equivalents, listed mutual funds, common stocks and exchange traded funds.

Level II - Pricing inputs are other than quoted market prices included in Level I, however, are observable either directly or indirectly for the investment. The Plan does not carry any investments that fall within this category.

THE FIESTA TABLEWARE COMPANY
SALARIED EMPLOYEES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

(continued)

NOTE 4 - INVESTMENTS (continued)

Level III - Pricing inputs are unobservable for the investment and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation. The Plan does not carry any investments that fall within this category.

Fair value of Plan investments are as follows as of September 30:

	<u>2025</u>	<u>2024</u>
	<u>Level I</u>	<u>Level I</u>
Cash equivalents	\$ 3,787,431	\$ --
Mutual funds	12,800,268	5,160,680
Common stocks	--	8,289,285
Exchange traded funds	--	9,637,436
	<u>\$ 16,587,699</u>	<u>\$ 23,087,401</u>

NOTE 5 - FEDERAL INCOME TAX EXEMPTION

The Plan obtained its latest determination letter dated September 30, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended subsequent to the date of the determination letter, the Plan's administration and tax counsel believe that the Plan is designed and currently being operated in compliance with applicable requirements of the IRC. Accordingly, the accompanying financial statements do not include a provision for federal income taxes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 - INFORMATION CERTIFIED BY THE TRUSTEE OF THE PLAN

The Trustee of the Plan, Charles Schwab Bank, has certified that the investment information included in the financial statements and supplemental schedules as of September 30, 2025 and 2024 is complete and accurate. The Trustee holds the Plan's investment assets and executes investment transactions. Such information includes the amounts and composition of investments, at fair value, included in the statements of assets available for benefits and the related investment income reported in the statements of changes in assets available for benefits.

NOTE 7 - RELATED PARTY TRANSACTIONS

The Plan paid administration fees to the Trustee, which qualify as party-in-interest transactions.

7. Form of Benefit Payment:

Active Participants: 100% assumed to take a Life Annuity
Deferred Vested Participants: 100% assumed to take a Life Annuity

8. Expenses: Administrative expenses are assumed to be paid outside of the plan

9. Asset Valuation Method: Actuarial Value (averaging of Fair Market Value)

Schedule SB, Part V – Summary of Actuarial Assumptions and Methods (Continued)

10. Funding Method:

Traditional Unit Credit

The actuarial cost method used in the valuation was the unit credit cost method.

The normal cost is the sum of all the individual normal costs for each participant. For active participants, the individual normal cost is the present value of the benefit earned during the year being valued. For active participants whose credited service equals or exceeds the plan maximum, if any, and for non-active participants, the normal cost is zero.

The actuarial accrued liability is the sum of the individual accrued liabilities for all participants. The individual accrued liability for an active participant is the present value of the accrued benefit as of the valuation date. The unfunded liability is the actuarial accrued liability less the valuation assets.

The total annual cost of the plan is the normal cost plus the shortfall amortization charge.

Projected Unit Credit

The actuarial cost method used in the development of the maximum contribution and the at-risk liabilities was the projected unit credit cost method.

Under this method, the normal cost is the sum of the individual normal costs for all participants. For an active participant, the individual normal cost is the present value at the current age of the projected benefit at the assumed retirement age, based on the actuarial assumptions, divided by the participant's expected years of credited service at that age. For a non-active participant, the normal cost is zero.

The actuarial accrued liability is the sum of the individual accrued liabilities for all plan participants. For an active participant, the individual accrued liability is the product of the normal cost and the total years of credited service at the current age. For non-active participants, the individual accrued liability is the present value at the current age of future benefits. The unfunded actuarial accrued liability equals the actuarial accrued liability less the valuation assets.
