Independent Auditors' Report

To the Plan Administrator of
Hazen Research, Inc. Employees' Stock Ownership Plan and Trust

Opinion

We have audited the financial statements of Hazen Research, Inc. Employees' Stock Ownership Plan and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of September 30, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended September 30, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Hazen Research, Inc. Employees' Stock Ownership Plan and Trust as of September 30, 2025 and 2024, and the changes in its net assets available for benefits for the year ended September 30, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Hazen Research, Inc. Employees' Stock Ownership Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Hazen Research, Inc. Employees' Stock Ownership Plan and Trust's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Hazen Research, Inc. Employees' Stock Ownership Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Hazen Research, Inc. Employees' Stock Ownership Plan and Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year), as of September 30, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

September 30, 2025 and 2024

1. Description of Plan

The following description of the Hazen Research, Inc. Employees' Stock Ownership Plan and Trust (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is an employee stock ownership plan (ESOP) established effective October 1, 1966, as restated October 1, 2011. In 1966, Hazen Research, Inc. (HRI or the "Company") converted its employee profit-sharing plan to an employee stock ownership plan. During 1985, HRI initiated a leveraged buyout by the Plan of substantially all of its remaining outstanding stock. The leveraged buyout was completed in 1993 when paid in full. As of September 30, 2025 and 2024, approximately 95 and 96 percent, respectively, of the Company's outstanding stock was held by the Plan.

Effective September 30, 2024, the Company approved an amendment to freeze the Plan.

The Plan covers all eligible employees of Hazen Research, Inc. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Hazen Research, Inc., is the Plan's sponsor and serves as Plan administrator.

Eligibility

Prior to the Plan being frozen, employees of the Company were eligible to participate in the Plan immediately upon hire. Participants needed to complete at least 1,000 or more hours of service annually in order to participate in a plan contribution and forfeiture allocation.

Contributions

Prior to September 30, 2024, HRI contributed to the Plan a discretionary amount of its net profits, plus any additional discretionary amounts determined by HRI's board of directors, not to exceed 15 percent of the participants' qualified compensation. For the year ended September 30, 2024, the Company committed to make a \$200,000 cash contribution to the Plan, which was recorded as a Plan receivable on the statements of net assets available for benefits. There was no contribution for the year ended September 30, 2025, due to the freezing of the Plan.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated, as defined in the plan agreement, to each participant's account based on the ratio of the participant's account balance to all participants' account balances.

Vesting

The Company adhered to a vesting schedule for employees who were credited with at least one hour of service subsequent to October 1, 2007. The vesting increased by 10 percent per year for the first two years and then 20 percent per year for the remaining four years. Effective September 30, 2024, all participant accounts were deemed fully vested, as a result of the freezing of the Plan.

Hazen Research ESOP

Notes to Financial Statements

September 30, 2025 and 2024

Notes Receivable from Participants

The Plan allowed participants to obtain loans against their vested participant account balances. Loan applications were subject to plan committee approval. The plan committee documented every loan in the form of a promissory note. Every note was for at least \$1,000 up to a maximum equal to the lesser of \$50,000 or the greater of 50 percent of the participant's vested account balance or \$10,000. The notes receivable were secured by the balance in the participant's account and bore interest at the bank's prime rate plus 1.00 percent per annum, which was commensurate with local prevailing rates determined periodically by the Plan administrator. Effective March 1, 2024, the Plan was amended to disallow loans to participants. There were no participants with outstanding loan balances as of September 30, 2025 or 2024.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by GreatBanc Trust Company, the Trustee, prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant will receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installment payments as provided in the plan document. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. If a terminated participant's vested balance is less than or equal to \$5,000, the amount may be automatically distributed in the form of Lump-sum or IRA, depending on the balance. Distributions are made in cash. The amount to be distributed is based upon the immediately preceding valuation date.

Eligible participants receive cash and shares of HRI common stock equal to the vested amount of their account balances. Unpaid installments totaled \$882,649 and \$706,722 as of September 30, 2025 and 2024, respectively.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account in the same manner in which the Company contributions are allocated. The amount forfeited will be deducted from the participant's cash balance first, and any remaining forfeitures will be deducted from the participant's HRI stock balance. If the participant is reemployed prior to five consecutive one-year breaks in service and returns any distribution previously made, the forfeited account balance will then be restored from income, gains, and forfeitures of the Plan or HRI contributions at the discretion of the plan committee. There were no forfeited nonvested accounts to be allocated to participant accounts as of September 30, 2025 and 2024.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Hazen Research ESOP

Notes to Financial Statements

September 30, 2025 and 2024

Diversification

Diversification is offered to participants who are at least 55 years old and have participated in the Plan for at least 10 years (a Qualified Participant). During each of the first five years of eligible diversification, a Qualified Participant may withdraw up to 25% of the value of their investment in Company common stock, less any shares previously diversified, and transfer the amount as a rollover into another qualified plan or as a cash withdrawal. In the sixth and subsequent years, the percentage amount that can be withdrawn increases to 50%. The election to diversify is made subsequent to year end based upon the shares of Company stock in the participant's account at year end.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's ESOP Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company, as applicable. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Hazen Research ESOP

Notes to Financial Statements

September 30, 2025 and 2024

Payment of Benefits

Participants eligible to receive benefits from the Plan are distributed the vested portion of cash and shares of HRI stock allocated to their individual participant accounts. Shares distributed are recorded at the estimated fair value as of the last regular valuation date preceding the date of distribution and are recorded when paid. The Plan, HRI, and other stockholders of HRI have a right of first refusal on the subsequent sale of any stock distributed to participants under the Plan. Participants receiving distributions of HRI stock have the option to sell such shares to the Plan within one year plus 60 days from the receipt of such stock distribution. If the Plan is unable to or refuses to purchase the distributed stock, HRI is required to purchase such stock at the fair market value.

Distributions of \$2,287,237 were made during the year ended September 30, 2025. Of this amount, \$1,740,504 related to the year ended September 30, 2024, and was paid in February 2025. The delayed distributions were calculated using a price of \$215.13 per share, which was the stock price as of September 30, 2023. The impact of the difference between the stock prices as of September 30, 2024, and September 30, 2023, was \$673,530. In addition, lost earnings related to the delayed distributions of \$92,090 were contributed by the Plan Sponsor. Both amounts have been recorded in other deductions, net, in the statement of changes in net assets available for benefits.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Subsequent Events

Subsequent events were evaluated through July 14, 2026, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Company common stock: Valued at estimated fair value based on an independent third-party appraisal using a combination of widely used valuation approaches, including the market and income valuation techniques. The appraiser considered inputs such as historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities, along with a discount for lack of marketability where appropriate.

Mutual funds and money market funds: Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission.

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table presents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of September 30, 2025 and 2024, and the significant unobservable inputs.

At September 30, 2025, the Plan utilized the asset approach to determine fair value. At September 30, 2024, the Plan utilized the income approach and asset approach. Accordingly, the valuation methodologies used to measure certain assets at fair value changed from the prior year.

Instrument	2025	Principal Valuation Technique	Significant Unobservable Inputs
Company common stock	\$ 11,595,911	Asset Approach	Tangible asset fair value adjustments; real estate fair value; discount for lack of marketability

5. Related-Party and Party in Interest Transactions

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan invests in Company common stock. These are related-party and party in interest transactions. As described in Note 2, the Company may pay plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

6. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the ESOP Committee of Hazen Research, Inc., directs the Trustee to pay all liabilities and expenses of the Plan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan agreement and the IRC.

7. Tax Status

The IRS has determined and informed the Company by a letter dated June 4, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving this letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Notes to Financial Statements

September 30, 2025 and 2024

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
