Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Capital Educators Federal Credit Union Cash Balance Defined Benefit Plan and Trust, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and of accumulated plan benefits as of September 30, 2025 and 2024, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Capital Educators Federal Credit Union Cash Balance Defined Benefit Plan and Trust's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended September 30, 2025 and 2024, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Capital Educators Federal Credit Union Cash Balance Defined Benefit Plan and Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Capital Educators Federal Credit Union Cash Balance Defined Benefit Plan and Trust's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Capital Educators Federal Credit Union Cash Balance Defined Benefit Plan and Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Capital Educators Federal Credit Union Cash Balance Defined Benefit Plan and Trust's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule H, line 4i-schedule of assets held at end of year as of September 30, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1 - Description of Plan

The following brief description of the Capital Educators Federal Credit Union Cash Balance Defined Benefit Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a cash balance noncontributory defined benefit plan covering substantially all employees of Capital Educators Federal Credit Union (the Company) who have completed five months of service and have completed at least 400 hours of service or one year of service if the 400 hours of service requirement was not met. Prior to October 1, 2024, participation in the Plan required that employees normally work 20 hours or more per week or one year of service, regardless of whether the employees normally work 20 hours or more per week. Former employees with undistributed accrued benefits under the Public Employees Retirement System of Idaho (PERSI) as of September 30, 1992, whose distributed accrued benefits were attributable only to service with the Company, are also eligible to participate in the Plan. Years of service subsequent to October 1, 1999 for Canyon Teachers shall be recognized. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits

If the employee was hired prior to January 1, 2019 and was not rehired on or after January 1, 2019 the employee will be considered a Grandfathered Participant and the employee's Normal Retirement benefit will be equal to their Accrued Benefit determined based upon a retirement benefit formula equal to 1.67% of the employee's average compensation multiplied by the years of service and rounded to nearest \$5. If the employee is not considered a Grandfathered Participant, the Normal Retirement Benefit will be equal to the Actuarial Equivalent of the employee's Hypothetical Account. All Principal and Interest Credits (as explained below) are taken into account through the employee's Normal Retirement Age.

Principal Credit

As noted above, in each year in which the employee is a participant, the participant's account will receive a credit for cash balance allocation equal to 3% of Plan Year compensation. The participant's compensation prior to becoming a participant will be disregarded. The employee must complete at least one year of service during the plan year to be eligible to receive the cash balance allocation described above. For purposes of determining eligibility to receive a cash balance allocation, a Year of Service means a Plan Year during which the employee completes 1,000 hours of service. Cash balance allocation is only for employees hired after January 1, 2019.

Interest Credit

As noted above, for each month until the participant's accrued benefit is paid the Hypothetical Account will be credited with interest determined by multiplying the balance of the account at the beginning of the plan year, plus any credited cash balance allocation for the plan year, by 1/12th of the applicable interest rate. The applicable interest rate will be 4%. No interest will be credited for any period after payment of the accrued benefit commences. Interest is credited as of the last day of the month.

Early Benefits

The Plan permits early retirement at ages 55-64. If an employee terminates before rendering five years of service, he or she forfeits the right to receive a portion of his or her accumulated plan benefits. The normal form of benefit payment is a joint and 50% survivor annuity for married participants and a life annuity for participants who are not married. A participant may elect to receive the vested value of his or her accumulated plan benefits in the form of one lump-sum payment in cash, certain monthly, quarterly, or annual cash installments, installment payments in the form of a life annuity, or installment payments in the form of a life annuity with a period certain guarantee. The Plan may purchase an annuity if the participant elects to receive installment payments in the form of a life annuity. If the value of the participant's vested benefit does not exceed \$5,000, then distribution may only be made as a lump-sum payment. If the value of the participant's vested benefit does not exceed \$1,000, then distribution may only be made as an immediate lump-sum payment.

Death and Disability Benefits

In the event of a death of a participant prior to retirement, the beneficiary will receive a death benefit equal to the value of the employee's accumulated pension benefits. If a participant becomes totally and permanently disabled prior to retirement or separation from service regardless of age or service at the date of disability, and such condition continues for a period of six (6) consecutive months and by reason thereof such participant's status as an employee ceases, then said disabled participant shall be entitled to receive the actuarial equivalent of the participant's total accrued benefit. In the event of a participant's total and permanent disability, the administrator shall direct the trustee to commence payment of the benefits payable hereunder as though the participant had retired in the form selected by the participant. If the participant requests the payment of such benefit prior to normal retirement age, such benefits shall be adjusted and payable in the same manner as early retirement benefits. In the event of the terminated participant's total and permanent disability subsequent to termination of employment, the terminated participant (or the terminated participant's beneficiary) shall receive the actuarial equivalent of such terminated Participant's vested accrued benefit as though the terminated participant had retired.

Vesting

The percentage of the benefit an employee is eligible to receive before retirement is based on years of credited service as follows:

Grandfathered Participant Vesting Schedule	
<u>Years of Service</u>	<u>Percentage</u>
Less than 5	0%
5	100%
Other than Grandfathered Participant Vesting Schedule	
<u>Years of Service</u>	<u>Percentage</u>
Less than 3	0%
3	100%

Plan Termination

Although it has not expressed any intentions to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 2 - Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosures of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined benefit plan attributable to

fully benefit responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan Sponsor determines the Plan's valuation policies utilizing information provided by the investment advisors. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported in the statements of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Payments of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

Expenses are paid by either the Plan or the Company, as provided in the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Plan Sponsor has evaluated subsequent event through July 15, 2026, the date which the financial statements were available to be issued.

Note 3 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees' have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' annual compensation during their years of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Capital Educators Federal Credit Union Cash Balance Defined Benefit Plan and Trust

Notes to Financial Statements

September 30, 2025 and 2024

The actuarial present value of accumulated plan benefits is determined by an actuary from TruStage and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of October 1, 2025 and 2024. Had the valuation been performed as of September 30 there would be no material differences.

The following is a summary of the more significant actuarial assumptions underlying the actuarial computations for the year ended October 1, 2025:

	2025
Life expectancy of participants	RP 2014 combined table projection to 2025 by scale MP 2021 before/after retirement
Retirement age	Midway between age at which unreduced early retirement benefits are available and normal retirement
Investment return	4%
Expenses of administration	Paid by the Company and the Plan
	2024
Life expectancy of participants	RP 2014 combined table projection to 2024 by scale MP 2021 before/after retirement
Retirement age	Midway between age at which unreduced early retirement benefits are available and normal retirement
Investment return	4%
Expenses of administration	Paid by the Company and the Plan

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 4 - Funding Policy

The Plan's funding policy is for the Company to make contributions to the Plan in amounts that are estimated necessary to fund the benefits provided, as determined by the Plan actuary, so that all employee benefits will be fully provided by the time each employee retires. There were no contributions made by the Company in 2025 and 2024. The contributions met or exceeded the minimum funding requirement established by ERISA.

Note 5 - Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have received for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding the Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a United States Governmental agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect at the date of the Plan's termination.

Whether all participants receive their benefits, should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Note 6 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB ASC 820 are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2025 and 2024.

Mutual funds (including money market mutual funds) – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission (SEC). These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2025 and 2024:

	2025			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 39,056,433	\$ -	\$ -	\$ 39,056,433
Investments at fair value	<u>\$ 39,056,433</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 39,056,433</u>
	2024			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 35,783,341	\$ -	\$ -	\$ 35,783,341
Investments at fair value	<u>\$ 35,783,341</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 35,783,341</u>

Note 7 - Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and ERISA required supplementary information, including investments held at September 30, 2025 and 2024, and net appreciation in fair value of investments, interest and dividends for the years then ended were obtained by management and agreed to or derived from information certified as complete and accurate by Matrix Trust Company and CMFG Life Insurance Company (the trustee and custodian of the plan, respectively).

Note 8 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated November 18, 2025, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Company and Plan management believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 - Guaranteed Investment Contract with Insurance Company

In 2016, the Plan entered into a traditional fully benefit-responsive guaranteed account contract (GAC) with TruStage. TruStage maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GAC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting. The GAC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Because the GAC is fully benefit-responsive, contract value is the relevant measurement for the GAC. Contract value represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. The contract value of the investment contract at September 30, 2025 and 2024, was \$1,522,030 and \$902,082, respectively.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events that are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.

Note 10 - Related Party and Party-in-Interest Transactions

Certain Plan investments are managed by the CMFG Life Insurance Company, the custodian, as defined by the Plan. As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

Note 11 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or global conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Note 12 - Plan Amendments

Effective October 1, 2024, the Plan was amended and restated to comply with recent legislative and regulatory changes. The amendment also included the provision to require 400 hours of service for an employee to be eligible to participate in the Plan.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
