Plan Committee
Brookshire's Employee Stock Ownership and 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Brookshire's Employee Stock Ownership and 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of September 30, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended September 30, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions GreatBanc Trust Company (GreatBanc) and Delaware Charter Guarantee and Trust d/b/a Principal Trust Company (Principal) as of September 30, 2025 and 2024, and for the year ended September 30, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter—Investments

As discussed in Note 6, the financial statements include an investment representing 27% and 30% of total assets as of September 30, 2025 and 2024, respectively, whose fair value has been estimated by an independent appraisal, in the absence of readily ascertainable fair values, with the assistance of management and approved by the trustee. Because of the inherent uncertainty of the valuation, the estimated value may differ significantly from the value that would have been used had a market for the investment existed, and the difference could be material. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedules, schedule H, line 4a—schedule of delinquent participant contributions for the year ended September 30, 2025, and schedule H, line 4i—schedule of assets (held at end of year) as of September 30, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Brookshire's Employee Stock Ownership and 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan

General: The following description of Brookshire's Employee Stock Ownership and 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Brookshire Holdings, Inc. (the Company) established the Brookshire's Employee Stock Ownership and 401(k) Plan for the benefit of its employees. The Plan is a combination 401(k) and stock bonus plan under Internal Revenue Code (IRC) Section 401(a) and an employee stock ownership Plan (ESOP) as defined in IRC Section 4975(e)(7) and is designed to comply with these sections and regulations of the IRC. The Company's Board of Directors is responsible for oversight of the Plan. The Company's Plan Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Company's Board of Directors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan assets consist of common stock of the Company (Employer Stock) and participant-directed 401(k) investment accounts. Plan accounts for participants with Employer Stock are called ESOP accounts.

GreatBanc Trust Company (GreatBanc) serves as the Plan trustee and also serves as custodian of the ESOP assets of the Plan. Principal Trust Company (Principal) serves as custodian of the 401(k) assets.

On August 9, 2024, an amendment was executed to obtain one valuation per year as of September 30 versus the two valuations per year which had previously been obtained. In addition, effective October 1, 2024, an amendment was executed to change the limitation year for purposes of applying Section 415 of the Code to September 30 of each Plan year.

Participation: Full-time employees who have at least 90 days of service and are age 18 or older are eligible to participate in the Plan. Part-time employees are eligible upon age 21 and during the first month that commences on or after the date as of which they have completed 1,000 hours of service and the 12-month period beginning on their employment date and ending on the one-year anniversary. Participants are automatically enrolled within 90 days of meeting the eligibility requirements, unless they elect to not participate in the Plan.

Effective September 1, 2025, an amendment was executed to remove the 1,000 hours of service requirement for part-time employees and replace it with a service period of one year.

Contributions: The Employer Stock accounts are nonparticipant directed and cover eligible employees of the Company. There are certain limitations on annual additions to a participant's account.

The participants of the participant-directed 401(k) investment accounts are allowed to voluntarily contribute between 1% and 50% of pre-tax eligible compensation and 1% and 20% of after-tax eligible compensation, as defined, to the Plan. A participant is automatically enrolled with a 4% pre-tax deferral of eligible compensation unless they elect to defer at a different percentage or elect to opt out of the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, subject to the maximum limitation imposed by the IRC. Participants may also contribute rollover amounts representing distributions from other qualified plans.

Brookshire's Employee Stock Ownership and 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

The Company makes discretionary matching contributions of 50% of the first 6% of participants' contributions and a discretionary employer contribution, if applicable, as determined by the Company. Both the discretionary matching contribution and the discretionary employer contribution can be made in the form of cash or Company shares and deposited into the ESOP. An employee qualifies to receive an allocation of the Company's discretionary matching contribution by making elective contributions during the Plan year and meeting the eligibility requirements for participation in the Plan. For the year ended September 30, 2025, the Company committed to make discretionary matching contributions to the ESOP totaling \$7,204,827, which was received by the ESOP subsequent to year-end and included in employer contributions receivable on the statement of net assets available for benefits.

Only those participants who are employees of the Company on the last day of the Plan year and who have completed 1,000 hours of service during a calendar year will be eligible to receive an allocation of the Company's discretionary matching contributions and any discretionary employer contributions, unless the participant's service ended during the year due to death, permanent disability or retirement.

Participant investment account options: Participants may direct their participant-directed 401(k) salary deferral contributions to selected investments as made available and determined by the Plan Committee. Participant-directed 401(k) investment accounts may be invested in a variety of mutual funds and collective trusts offered by Principal. Participants may change their investment options any time throughout the year via direct phone or internet access to Principal.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company's contributions, Plan earnings, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. Participants are not vested until after three years of service. Participant nonvested balances are forfeited upon termination of service.

Forfeitures: All forfeitures of matching and discretionary Employer Stock are reallocated to the accounts of remaining participants as additional ESOP contributions for the plan year in which the forfeitures occur based upon the participants' compensation. For the year ended September 30, 2025, forfeitures of 908.0727 shares of Employer Stock and cash of \$224,827 were allocated to participants. There were no unallocated forfeitures at September 30, 2025 and 2024.

Payment of benefits: Upon termination of service, participants whose vested Plan benefits, including both the vested ESOP and vested 401(k) balances, are less than \$1,000 will receive a lump-sum distribution equal to the vested portion of their account. A participant with a vested account value of \$1,000 or more whose service ends due to death, permanent disability or retirement may elect to receive either a lump-sum payment equal to the value of their account or periodic payments for a period of two years or to the life expectancy of the spousal beneficiary or the joint life expectancy of the participant and the spousal beneficiary.

Brookshire's Employee Stock Ownership and 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

If a participant with a vested ESOP account balance of \$5,000 or more whose period of service ends for any reason other than death, permanent disability or retirement, then the distribution will be made in substantially equal annual installments over a period ranging from five years to the joint life expectancy of the participant and the participant's beneficiary. A participant's balance in their ESOP account will be distributed in cash unless an election is made to receive such distributions in the form of whole shares of the Company stock. Fractional shares will be paid in cash.

Loan payable: The Plan entered into a revolving credit agreement with the Company on July 5, 2019, where the Plan can borrow various amounts from the Company to fund distributions or pay administrative expenses. The amounts are required to be repaid on demand or by the specified date in the individual promissory notes. The purpose of the loans are to fund distributions to participants in accordance with the prohibited transaction exemption ruling 80-26. The amounts outstanding on the revolving credit agreement as of September 30, 2025 and 2024, totaled approximately \$575,000 and \$3,972,000, respectively. These advances did not bear interest and are repaid using Company stock from the accounts of participants after internal recycling of shares and cash within participants' accounts. In the event more shares are available than needed to repay advances at the current fair value on the date shares are tendered, the remaining shares are allocated. In the event the fair value of shares tendered is not sufficient to repay the loan balance, any unpaid loan balance would remain until the following year.

Notes receivable from participants: Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be \$1,000. The maximum amount of a participant's loan is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested 401(k) account balance. Participants are not allowed to borrow amounts from their ESOP accounts. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the Plan Administrator.

Voting rights: All shares of the Company stock shall be voted as directed by the Plan Committee or the Plan trustee when designated to do so. However, in limited circumstances as set forth in the Plan document, participants may have the right to direct the voting of any of the Company stock allocated to their discretionary matching and discretionary employer ESOP stock accounts. Any of the Company stock not allocated to a participant's ESOP account shall be voted as the Plan Committee directs.

Put option: Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations that includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Brookshire's Employee Stock Ownership and 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Diversification: Each qualified participant has the right to diversify the investment of a portion of the value of their discretionary Company stock and matching Company stock account balances. Qualified participants are participants who are at least age 55 with at least 10 years of participation in the Plan. Diversification is offered to each eligible participant over a six-year period. Under the diversification terms of the Plan document, the Company may elect to offer participants any of the following choices: (a) reinvest the annual affected portion of their Company stock account balances into the 401(k) investment options offered by the Plan; (b) distribute to the participant the amount selected for diversification; or (c) transfer the amount selected for diversification to alternative investment options at the Company's discretion. The Company has elected to offer the affected participants the ability to reinvest the annual affected portion of their Company stock account balances into the 401(k) investment options only. In each of the first five years, a participant may diversify up to 25% of their ESOP Company stock balances. In the sixth year, the percentage increases to 50%.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end. The Plan's interest in the collective trusts are valued at NAV value per share using the practical expedient at year-end.

The Employer Stock is valued at fair value. Fair value is determined by GreatBanc based on an annual independent appraisal for the Employer Stock, which was \$78.72 and \$81.14 per share as of September 30, 2025 and 2024, respectively. The Plan Administrator believes the independent appraisal provides a reasonable estimate of the value of the Employer Stock. Because of the significance of the assumptions required in the valuation of the Employer Stock, the actual value could materially differ had a ready market for the securities existed.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans may be reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded at September 30, 2025 and 2024. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default, upon a distributable event occurring, the participant note balance is written off with a benefit payment being recorded.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Administrative expenses: Administrative expenses may be paid by the Company or the Plan, at the Company's discretion. Administrative expenses paid by the Company are excluded from these financial statements.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Contribution policy: Employee contributions and employer discretionary matching contributions are recorded in the period related to the participant's service or compensation (even if not yet withheld).

Subsequent events: The Plan has evaluated subsequent events (events occurring after September 30, 2025) through July 15, 2026, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by GreatBanc and Principal

The following is a summary of the Plan's asset information as of September 30, 2025 and 2024, and for the year ended September 30, 2025, included throughout the Plan's financial statements and ERISA-required supplemental schedule, schedule H, line 4i—schedule of assets (held at end of year), obtained by management and agreed to or derived from information certified by GreatBanc, custodian and trustee, and Principal, custodian. The Plan Administrator has obtained certifications from the custodians and trustee that information provided to the Plan Administrator by the custodians and trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and ERISA-required supplemental schedule related to the following assets:

Note 5. Related-Party and Party-in-Interest Transactions

Parties in interest are defined under Department of Labor Regulations as any fiduciary to the Plan or party rendering services to the Plan, the employer and certain others. As such, transactions conducted with the Company and trustee and custodians qualify as party-in-interest transactions.

The Plan recognized \$657,162 of dividend income from the Company on Employer Stock held during the year ended September 30, 2025, of which \$164,290 was included in dividends and interest receivable on the statement of net assets available for benefits as of September 30, 2025.

Note 6. Disclosure About Fair Value of Plan Assets and Liabilities

The Financial Accounting Standards Board Accounting Standards Codification 820, Fair Value Measurement and Disclosures (ASC 820), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 6. Disclosure About Fair Value of Plan Assets and Liabilities (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2025 and 2024.

- **Mutual funds:** Mutual funds are valued based on the quoted market prices in the active market in which they are traded.
- **Collective trusts:** The collective investment trusts are made up of a stable value fund and collective trusts. The stable value fund is composed primarily of fully benefit-responsive investment contracts that is valued at the NAV of units of the bank collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. The collective trusts invest primarily in common stocks and mutual funds. Valued at the NAV of shares in each account held by the Plan at year-end. The net asset value is not a public-quoted price in an active market. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value.
- **Investment in Brookshire Holdings, Inc. common stock:** Valued by GreatBanc based on an annual independent appraisal. The appraiser utilizes a combination of the guideline publicly traded company method and the discounted cash flow method. As there is a limited market for the Company common stock, the value is discounted to reflect the impact of limited marketability. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of the Company's assets and liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of September 30, 2025 and 2024:

	2025			
	Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Investments at fair value	\$ 355,585,886	\$ 18,838,568	\$ -	\$ 110,594,145

(A) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

There were no purchases, issuances, or transfers within Level 3 investments during the year ended September 30, 2025.

Unobservable (Level 3) inputs: The following tables present quantitative and qualitative information about unobservable inputs used in recurring Level 3 fair value measurements.

Instrument	Fair Value at September 30, 2025	Valuation Techniques	Unobservable Input
Employer common stock	\$ 103,463,507	Discounted cash flow (income approach)	Discount rate Growth rate

Note 7. Risks and Uncertainties

The Company is primarily a retail grocery chain with locations in Texas, Louisiana, Arkansas and Oklahoma. A significant downturn in those markets could have a material adverse effect on the Company and its stock value.

The Plan invests in various investment securities (including Brookshire Holdings, Inc. common stock). Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2025 statement of net assets available for benefits.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 9. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated November 7, 2013, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Management has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax-exempt status and has taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.
