Report of Independent Auditors

The Benefits Committee of
Keysight Technologies, Inc. Deferred Profit-Sharing Plan

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Keysight Technologies, Inc. Deferred Profit-Sharing Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of October 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended October 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Keysight Technologies, Inc. Deferred Profit-Sharing Plan as of October 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended October 31, 2025 in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Keysight Technologies, Inc. Deferred Profit-Sharing Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Keysight Technologies, Inc. Deferred Profit-Sharing Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Keysight Technologies, Inc. Deferred Profit-Sharing Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Keysight Technologies, Inc. Deferred Profit-Sharing Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Keysight Technologies, Inc. Deferred Profit-Sharing Plan

Notes to Financial Statements

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Keysight Technologies, Inc. Deferred Profit-Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a frozen defined contribution profit-sharing plan that was established on August 1, 2014, when Keysight Technologies, Inc. (the Company), separated from Agilent Technologies, Inc. The Plan provides lump sum or annuity benefits after an eligible participant's termination, retirement, or death. The Plan is closed to new participants, existing participants are 100% vested, and there are no anticipated future contributions.

The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration – The Company has appointed a Benefits Committee (the Committee) to manage the operation and administration of the Plan. The Company has contracted with Bank of New York Mellon, N.A. (Mellon) to act as the custodian and trustee, and a third-party administrator, Fidelity Workplace Services, LLC (Fidelity), to process and maintain the records of participant data.

Vesting – Participants are 100% vested in their entire account.

Participant accounts – Earnings from the Plan's assets are allocated monthly among the participants based on each individual participant's interest in the Plan as of the previous month-end relative to the aggregate of all participants' interests as of the previous month-end, excluding any participant accounts which have been distributed.

Plan benefits – Upon termination, the participants or beneficiaries are entitled to a Plan benefit of 100% of the participant's account in the form of: a) an individual life annuity, which provides a monthly benefit to the participant for life; b) a 50%, 75%, or 100% monthly joint and survivor annuity; or c) single lump sum distribution.

See Note 3 for a description of the coordination of benefits paid by the Plan and benefits earned by eligible participants in the Keysight Technologies, Inc. Retirement Plan (the Keysight Retirement Plan).

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation – The Plan's investments, including the Plan's interest in the net assets of the Keysight Technologies, Inc. Master Trust (the Master Trust), are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Keysight Technologies, Inc. Deferred Profit-Sharing Plan

Notes to Financial Statements

Income recognition – The Plan’s interest in the investment gain, including net realized and unrealized gains/losses, of the Master Trust is reported as one amount under “Beneficial interest in investment gain of the Master Trust” on the statement of changes in net assets available for benefits. Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

Cash and investments denominated in foreign currencies included in the Master Trust are translated into U.S. dollars at current exchange rates. Dividend and interest income and realized and unrealized gains and losses from such cash and investments are translated using historical exchange rates at the settlement date. Exchange gains and losses on dividend and interest income, realized and unrealized exchange gains and losses on foreign denominated cash and investments are included in beneficial interest in investment gain of the Master Trust.

Payment of benefits – Benefit payments to participants are recorded upon distribution.

Expenses – All expenses incurred for administering the Plan are paid by the Plan.

Subsequent events – The Plan has evaluated subsequent events through July 1, 2026, which is the date the financial statements were available to be issued.

Reclassification – Certain amounts from the prior year summary of the net assets held in the Master Trust have been reclassified in order to conform to the current year presentation.

NOTE 3 – COORDINATION OF PLANS

Participants with retirement benefits prior to November 1, 1993, under the Keysight Retirement Plan that exceed the value of their benefits under the Plan are paid that excess from the assets of the Keysight Retirement Plan. If a participant elects to receive retirement benefit in the form of an annuity, the participant’s vested interest in the Plan is transferred to the Keysight Retirement Plan for the purpose of paying the annuity benefits under the Keysight Retirement Plan’s provisions.

NOTE 4 – MASTER TRUST

The Master Trust was established on August 1, 2014, to hold substantially all of the Plan’s assets and the assets of the Keysight Retirement Plan.

The Master Trust was established to achieve certain economies in the management of investments and to maximize the return on investments of participating plans. Each participating plan has a proportional interest in the Master Trust, as more fully described below. Assets of the Master Trust are invested by investment managers in accordance with guidelines established by the Committee.

Keysight Technologies, Inc. Deferred Profit-Sharing Plan

Notes to Financial Statements

Within the Master Trust, investments are segregated into investment pools based on the ownership and investment objectives of each participating plan. Three types of investment pools have been established in the Master Trust based on the principal types of investments held: An Equity pool, a Fixed Income pool, and a TIP pool. Each participating plan in the Master Trust has a proportional interest in each one of these pools. Within each of these pools, the net assets allocable to each plan are separately accounted for by Mellon. The net investment income (loss) of each investment pool is allocated monthly by Mellon between each of the participating plans based on their relative ownership of the net assets of that pool at the beginning of the month.

The Plan's allocated interest in the net assets of the Master Trust at October 31, 2025 and 2024, was approximately \$145,492,000 (14%) and \$161,295,000 (15%), respectively.

The following table presents a summary of the net assets held in the Master Trust as of October 31, 2025 and 2024 (in thousands):

NOTE 5 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

Following is a description of the valuation techniques used for Master Trust assets measured at fair value. There have been no changes in the techniques used at October 31, 2025 and 2024.

Collective trusts – Units held in collective trusts (CTs) are valued using the net asset value (NAV) practical expedient of the CT as reported by the CT managers. The NAV is based on the fair value of the underlying assets owned by the CTs, minus its liabilities, and then divided by the number of units outstanding. This NAV practical expedient would not be used if it is determined to be probable that the Plan will sell the investment for an amount different from the reported net asset value. The NAV of a CT is calculated based on a compilation of primarily observable market information. There are no redemption restrictions on the Plan's investments in CTs.

The Master Trust has a significant investment in the Ninety One Emerging Markets Equity Fund that is not a direct filing entity. The Fund's investment objective is to achieve long term capital growth through primarily investment in equity securities issued by companies or equity-related securities of companies established and/ or listed on an exchange in emerging markets, or companies which are established and/or listed on exchanges outside emerging markets but which carry out a significant portion of their economic activity in emerging markets.

Pooled separate accounts – Units held in pooled separate accounts (PSAs) are valued using the NAV practical expedient of the PSA as reported by the account managers. The NAV is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding. There are no redemption restrictions on the Plan's investments in PSAs.

The Master Trust has a significant investment in the PRISA Core RE fund that is not a direct filing entity. The PSA seeks to provide capital appreciation and income by investing primarily in domestic real estate securities.

Preferred stocks, corporate debt instruments, U.S. government securities, and other investments (municipal bonds and interest-bearing cash) – Valued using the market approach based on quoted exchange rates or at the last settlement price at the end of each day on the board of trade or exchange upon which they are traded. When active market quotes are not available, the Company uses industry standard valuation models. Where applicable, these models project future cash flows and discount the future amounts to a present value using market-based observable inputs including interest rate curves, credit risk, foreign exchange rates, and forward and spot prices for currencies.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 – FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET RISK

In the normal course of operations, assets in the Master Trust are invested in financial instruments that may give rise to off-balance sheet risk. These instruments involve, in varying degrees, elements of credit and market risk in excess of the amounts recognized on the statements of net assets available for benefits. The notional value provides a measure of the Master Trust's involvement in such instruments but is not indicative of potential loss. The intent is to use these financial instruments to reduce, rather than increase, market risk. There were no investments in financial instruments that resulted in off-balance sheet risk as of October 31, 2025 and 2024.

NOTE 7 – TAX STATUS

The Plan has received a favorable determination letter from the Internal Revenue Service in February 2017. The Benefits Committee (the Committee) believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the Master Trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes. Accordingly, no provision for federal or state income taxes has been provided in the financial statements.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 – RISKS AND UNCERTAINTIES

The Master Trust provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates, or other factors in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments held in the Master Trust are managed by the custodian of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 10 – PLAN TERMINATION OR MODIFICATION

The Plan is closed to new participants as described above. Benefits for existing participants will continue to be distributed after the participants' termination, retirement, death, or permanent disability. A trustee will continue in its capacity until all of the Plan's net assets available for benefits have been distributed to participants.
