Independent Auditors' Report

To the Plan Administrator of the
Daigle Oil Company 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Daigle Oil Company 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and December 31, 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Daigle Oil Company 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and December 31, 2024, and for the years then ended, stating that the certified investment information, as described in Note 10 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Daigle Oil Company 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

To the Plan Administrator of the
Daigle Oil Company 401(k) Plan

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Daigle Oil Company 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Daigle Oil Company 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Daigle Oil Company 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

To the Plan Administrator of the
Daigle Oil Company 401(k) Plan

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule of assets held at year end, as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

DAIGLE OIL COMPANY 401(K) PLAN

Notes to the Financial Statements
December 31, 2025 and December 31, 2024

(1) DESCRIPTION OF THE PLAN

The following is a description of the Daigle Oil Company 401(k) Plan that provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The plan is a defined contribution plan covering substantially all full-time employees of Daigle Oil Company who meet certain age and length of service requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Significant costs of administering the plan are absorbed by the Plan Sponsor. Expenses paid by the sponsor are not included in these financial statements.

Contributions

For 2025, participants may contribute up to \$23,500 (or \$31,000 if over age 50) of pre-tax annual compensation as defined in the Plan. The Plan allows for ROTH contributions to be made with after tax compensation. Participants may also contribute amounts representing distributions or rollovers from other qualified plans. At the discretion of management, the Company may make a matching contribution of 30% of the employee contribution up to 15% of salary. Participants direct the investment of these contributions into the various funds offered by the Plan.

Participant Accounts and Vesting

Each participant's account is credited with participant and employer contributions and plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined in the Plan. Participants are immediately vested in their contributions plus applicable earnings on those contributions. Participants become fully vested in the Company contributions plus applicable earnings after six years of service. After the first year, they become vested 20% which then increases by 20% each year, thereafter, until they are fully vested.

Participant Loans

Participants may not borrow from their 401(k) accounts.

Payment of Benefits

Upon termination of service due to disability or retirement, a participant will receive access to the entire balance of their account. On termination of service due to death, the beneficiary may elect to receive the entire balance as a lump-sum or in installment payments. For termination due to other reasons a participant will receive the value of the vested interest as a lump-sum distribution.

The Plan has the option upon termination, to distribute account balances of less than \$1,000. The Plan also permits hardship withdrawals for participants who demonstrate an immediate and heavy financial need, subject to the requirements of the Plan and applicable Internal Revenue Service regulations, which are limited to the amount necessary to satisfy the participant's financial need.

Forfeitures

Amounts which become forfeited due to termination are available to reduce the Employer's matching contribution or plan expenses each year. During 2025, forfeitures of \$19,510 were used to reduce the administrator fees. As of December 31, 2025, forfeitures of \$2,936 were available to reduce the match or pay plan expenses.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

DAIGLE OIL COMPANY 401(K) PLAN

Notes to the Financial Statements
December 31, 2025 and December 31, 2024

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions

The Plan requires annual non-discrimination testing to be performed for the Plan to be considered qualified. This test revealed that there were excess contributions made in 2025 for highly compensated employees. The excess contributions are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2025 excess contributions to the applicable participants prior to March 15, 2026.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Net Assets Available for Benefits

The net assets available for benefits as of December 31, 2025 and December 31, 2024 reflect the investments at fair value for the investments with registered investment companies and contract value for the investments in contracts with insurance companies. The majority of the Plan assets are allocated to the participants. The unallocated balances in the forfeiture account as of December 31, 2025 totaled \$2,936.

Subsequent Events

The Plan has reviewed subsequent events through July 8, 2026, the date that these financial statements were available to be issued and determined that no additional adjustments or disclosures are required in order for these financial statements to be fairly stated.

(3) FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.

DAIGLE OIL COMPANY 401(K) PLAN

Notes to the Financial Statements
December 31, 2025 and December 31, 2024

(3) FAIR VALUE MEASUREMENTS (Continued)

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified(contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and December 31, 2024.

- Investment securities in registered investment companies are valued at their quoted market prices from an active market as of the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and December 31, 2024.

	<u>Fair Value Measurements at Reporting Date</u>			
	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>

(4) GROUP ANNUITY CONTRACT

The Plan offers an investment choice of a non-tradeable fully benefit-responsive guaranteed investment contract. The investment's contract or proceeds cannot and will not be assigned or sold to another party without the consent of Transamerica. The repayment of principal and interest credited to participants holding the investment is a financial obligation of Transamerica. However, if an event should ever occur such that realization of full contract value for a particular investment contract is no longer probable – the Stable Value Option investment choice may no longer be considered fully benefit-responsive.

The terms of Transamerica's Group Annuity Contract require all permitted participant-initiated transactions involving the investment to occur at contract value with no conditions, limits, or restrictions. Permitted participant-initiated transactions are those allowed by the underlying defined contribution plan such as withdrawals for benefits or transfers to other investment choices within the plan.

Since the Stable Value Option investment choice is an obligation of Transamerica, the occurrence of an event that limits the ability of the investment to transact at contract value between Transamerica and a participant holding the investment is not probable. The stable Value Option investment choice allows a participant reasonable access to their assets.

DAIGLE OIL COMPANY 401(K) PLAN

Notes to the Financial Statements
December 31, 2025 and December 31, 2024

(4) GROUP ANNUITY CONTRACT (Continued)

There are no unfunded commitments. The redemption frequency and notice period is daily.

The effective annual rate of interest is established prior to and announced at least 45 days prior to the effective date of the corresponding six-month period of Jan 1st and July 1st and shall not change during the six month period for which it is effective. There is no stated minimum or maximum interest rate. Interest is credited, based upon the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest. The Transamerica Stable Value Option investment choice is backed by the general account of TLIC (Transamerica Life Insurance Company). During 2025 and 2024, the average yield earned and the actual interest rate credited to participants was 2.25%.

(5) PARTIES IN INTEREST AND PLAN EXPENSES

The Plan contracts with various service providers to manage its investments, provide recordkeeping and administration services and investment advice. Plan investments in the amount of \$12,076,362 are managed by Transamerica Life Insurance Company. Transamerica is also the recordkeeper for the Plan. The TPA Experts is the third-party administrator for the plan. Ameriprise is the Plan advisor and Transamerica Trust Company is the Plan trustee. These service providers qualify as parties in interest, and fees paid to them from plan assets are considered party in interest transactions.

Fees charged to the plan by these service providers amounted to \$60,086 during 2025. The other expenses were absorbed by the plan sponsor and are not included in these financial statements.

(6) PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, participants would become 100% vested in their employer contributions.

(7) TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated June 30, 2020, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan was restated in 2021, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

The Plan has implemented certain requirements by Division T of the Consolidated Appropriations Act of 2023 (SECURE 2.0), which are laws that change the Plan to further delay required minimum distributions, expand availability of the plan to certain part-time workers, increase the catch-up contribution limits for certain participants as well as various voluntary provisions which may or may not be elected by the plan sponsor. The plan is currently being operated in accordance with the mandatory provisions of SECURE 2.0 and the plan sponsor has until December 31, 2026 to decide on the voluntary provisions. Written amendments to the Plan to reflect these operational changes will be formalized at a later date in accordance with applicable law and IRS guidance.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. Government. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Notes to the Financial Statements
December 31, 2025 and December 31, 2024

(8) RISKS AND UNCERTAINTIES

The Plan invests in specific funds which invest in various investment securities. Investment securities are exposed to risks such as interest rate, market, and credit risks. Additional risks include, but are not limited to global military conflicts, the oil and gas market, supply chain issues, and inflation. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(9) RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of corrective distributions per the financial statement at December 31, 2025 to the Form 5500:

Net assets available for benefits per the financial statement	\$12,050,285
Add corrective distributions for 2025 (paid in 2026)	<u>15,123</u>
Net assets available for benefits per the Form 5500	<u>\$12,065,408</u>

Amounts paid for corrective distributions are reported when paid on the Form 5500 as benefit payments while the financial statement accrues the corrective distribution as a reduction to the contributions in the year they have been incurred.

(10) CERTIFIED INVESTMENTS

The following information included in the accompanying financial statements and ERISA-required supplemental schedule related to investments held as of December 31, 2025 and December 31, 2024, and net appreciation in fair value of investments, interest and dividends, was obtained from data that has been prepared by Transamerica (Custodian) and certified as complete and accurate by Transamerica Trust Company (Trustee).
