Independent Auditors' Report

To the Participants and Plan Administrator of
Oshkosh Corporation Hourly Employees' Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Oshkosh Corporation Hourly Employees' Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024 and the related Statements of Changes in Net Assets Available for Benefits for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Oshkosh Corporation Hourly Employees' Retirement Plan

Notes to Financial Statements

December 31, 2025 and 2024

1. Plan Description

The following brief description of the Oshkosh Corporation Hourly Employees' Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan, which includes all hourly employees of Oshkosh Defense, LLC (the Company) in the bargaining unit represented by Local 578, United Auto Workers hired prior to October 1, 2016. The Plan was closed to new participants on October 1, 2016. Participants enrolled prior to October 1, 2016 continued to earn service credit for vesting and eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan's investment committee has overall responsibility for the operations and administration of the Plan and determines the appropriateness of the Plan's investments and monitors investment performance.

Contributions

The Company's funding policy is to make contributions to the Plan generally based on amounts required to be funded under provisions of ERISA. No voluntary employee contributions are permitted. The Plan complied with these minimum funding requirements for the years ended December 31, 2025 and 2024.

Vesting

As the Plan was closed to new participants as of October 1, 2016, all current participants have met the five year vesting requirements and are 100% vested in their accrued benefits.

Retirement Benefits

Normal retirement is age 65. Employee participants may elect early retirement between the ages of 60 and 65 with a minimum of 15 years of vesting service. Benefits are received at normal retirement age or, if elected, at early retirement. Benefits are determined based upon years of service times a benefit dollar multiplier. A vested participant who terminates for any reason other than retirement, disability or death is entitled to the monthly vested termination benefits beginning on the participant's normal retirement date in the amount of his or her accrued benefit or early retirement date, in which case benefits will be reduced by multiplying the accrued benefit by the appropriate early retirement factor set forth by the Plan. If an active employee dies prior to receiving retirement benefits, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. Participants may elect to receive their distributions, subject to certain plan provisions, in the following forms: a single life method, a joint and 50% method, a 75% or 100% surviving spouse method, a five-year or ten-year certain and life method, a survivor benefit method and a lump-sum payment. A participant may elect to receive a lump-sum payment when the distribution amount is more than \$1,000 but not more than \$10,000. If the participant's accrued benefit is \$1,000 or less, the participant is paid a lump sum. If a participant becomes disabled before retirement, the participant may receive benefit payments at the time the participant qualifies for Social Security Disability benefits.

Administrative Expenses

Substantially all administrative expenses are paid by the Plan. These expenses include Pension Benefit Guaranty Corporation (PBGC) premiums, investment management fees and trustee fees. Expenses paid by the Company are excluded from these financial statements.

Termination of Plan

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth under ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits, should the Plan be terminated at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully- or- partially-provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Recent Regulatory Updates

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation included a vast array of provisional changes to retirement plans, effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the year ended December 31, 2024 and continues to evaluate the impact of the adoption and implementation of this legislation on the Plan. The adoption of SECURE 2.0 Act did not have a material effect on the Plan's financial statements.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Accounting Estimates

The preparation of these financial statements requires the use of certain estimates by Plan management in determining the Plan's assets, liabilities and changes therein and the actuarial present value of accumulated benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's primary investment is its interest in the Oshkosh Corporation Employees' Retirement Trust (the Master Trust). The Master Trust includes the Plan and the Pierce Manufacturing, Inc. Pension Plan (Pierce Plan). The investment strategy of the Master Trust is based on an expectation that, over time, equity securities will provide higher returns than debt securities. The Master Trust primarily minimizes the risk of larger losses under these strategies through diversification of investments by asset class, by investing in different styles of investment management within the classes and by using a variety of different investment managers.

Oshkosh Corporation Hourly Employees' Retirement Plan

Notes to Financial Statements

December 31, 2025 and 2024

The assets of the Plan are commingled and are not segregated in the accounts of the Master Trust. Although assets of the Plan are commingled in the Master Trust, Principal Bank, the trustee of the Master Trust and the Plan, maintains supporting records for the purpose of allocating the net gain or loss of the investment assets to the participating plans. The net investment income or loss of the investment assets is allocated by the trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. As of December 31, 2025 and 2024, the Plan's interest in the net assets of the Master Trust was approximately 51%.

The Plan's investment in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. The fair value of investments in common stocks, money market funds and mutual funds are determined by quoted market prices on the last business day of the plan year. The fair value of investments in common collective funds are determined using the Net Asset Value (NAV) per share (or its equivalent) practical expedient. See Note 4 for a discussion of fair value measurements.

Security transactions are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation includes the gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The Master Trust provides for investments in common stocks, money market funds, mutual funds and common collective funds. Investment securities are exposed to various risks including, but not limited to, interest rate, market and credit risks. Market risks include fluctuations in financial markets resulting from economic conditions, geopolitical events, governmental and regulatory actions, changes in monetary or fiscal policy, investor sentiment and other factors that may affect the value of investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could be material to the financial statements.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Retirement Benefits

The Plan includes scheduled and bargained-for increases in the benefit dollar multipliers. The Plan's actuarial present value of accumulated benefits includes such increases in the first actuarial valuation after the benefits are effective.

3. Information Certified by the Trustee (Unaudited)

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA as of and for the years ended December 31, 2025 and 2024. Accordingly, the trustee of the Plan and the Master Trust has certified the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2025 and 2024 and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years then ended. Such information was obtained by management and agreed to or derived from information certified as complete and accurate by a qualified institution.

4. Fair Value Measurements

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability (i.e., exit price) in an orderly transaction between market participants at the measurement date. ASC Topic 820 requires disclosures that categorize assets and liabilities measured at fair value into one of three different levels depending on the assumptions (i.e., inputs) used in the valuation. Level 1 provides the most reliable measure of fair value, while Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 – Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets

Level 3 – Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Plan management is responsible for the determination of fair value. Accordingly, plan management performs periodic analyses on prices received from the pricing services to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, Plan management has not historically adjusted the prices obtained from the pricing services.

The following is a description of the valuation methodologies used to measure the Master Trust's assets at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Common Stocks and Mutual Funds: valued at fair value based on quoted market prices on the last business day of the Plan year.

Money Market Funds: valued at the quoted NAV of shares held by the Plan at year end.

Common Collective Funds: valued at fair value based on NAV per share (or its equivalent) practical expedient.

5. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to services rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to the following: (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on the employees' number of years of qualified service multiplied by a benefit multiplier. Benefits payable under all circumstances, whether due to retirement, death, disability or termination of employment, are included, to the extent they are deemed attributable to employee service rendered, through the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary, Aon, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Significant actuarial assumptions used in the valuation as of January 1, 2025, were as follows:

- Mortality basis – Base table: amounts-weighted aggregate rates from the Pri-2012 mortality study with blue collar adjustments projected generationally from 2012 with Scale MP-2021
- Actuarial cost method – Standard unit credit cost method
- Normal retirement age – Graduated rates between age 60 and age 70
- Interest rate used in accrued benefit calculations – 5.65%
- Rate of return – 6.50%

The foregoing assumptions were made based on the assumption the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The interest rate used in accrued benefit calculations changed from 4.90% to 5.65%. This assumption change resulted in a decrease of \$13,998,820 in actuarial present value of accumulated benefits for the year ended January 1, 2025.

The actuarial present value of accumulated plan benefits and changes in accumulated plan benefits, as of and for the year ended January 1, 2025 are as follows:

Vested benefit:	
Participants and beneficiaries currently receiving benefits	\$ 75,058,067
Other participants	69,679,585
Total vested benefits	144,737,652
Nonvested benefits	1,122,718
Actuarial present value of accumulated plan benefits	\$ 145,860,370

Oshkosh Corporation Hourly Employees' Retirement Plan

Notes to Financial Statements

December 31, 2025 and 2024

Actuarial present value of accumulated plan benefits, at beginning of year	\$ 156,026,004
Increase (decrease) during the year attributable to:	
Benefits accumulated	1,907,010
Change in actuarial assumptions	(13,998,820)
Plan amendments	1,298,025
Benefits paid	(6,851,274)
Interest	<u>7,479,425</u>
Net decrease	<u>(10,165,634)</u>
Actuarial present value of accumulated plan benefits, at end of year	<u>\$ 145,860,370</u>

The effect of past plan amendments on accumulated plan benefits is recognized during the year in which such amendment provisions become effective. Effective October 1, 2025, the Plan increased the minimum benefit rate from \$43.00 to \$44.00. Effective October 1, 2024, the Plan increased the minimum benefit rate from \$42.00 to \$43.00.

As part of the Company's agreement with the Local 578, United Auto Workers Bargaining Unit Employees, the minimum normal benefit multiplier per year of credited service was agreed to be changed to \$45.00 effective October 1, 2026. A retiring participant's benefit will, in part, be based on the benefit multiplier in effect at the time of retirement. The Plan's actuarial present value of accumulated benefits includes such increases in the first actuarial valuation after the benefits are effective.

6. Related-Party and Party in Interest Transactions

The Plan's investments are administered under a contract with the trustee of the Plan. Contributions are held and managed by the trustee who invests cash received, interest and dividend income and makes distributions to participants. These transactions are party in interest transactions under ERISA.

As described in Note 1, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

7. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated May 10, 2017, that the Plan and related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Company and plan management believe that the Plan is currently designed and operating in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
