Report of Independent Auditors

Plan Administrator and Participants of
Bell Helicopter Textron Master Retirement Plan

Opinion

We have audited the financial statements of Bell Helicopter Textron Master Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Shape the future with confidence

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Bell Helicopter Textron Master Retirement Plan

Notes to Financial Statements

December 31, 2025

1. Description of the Plan

The Bell Helicopter Textron Master Retirement Plan (the Plan) is a noncontributory defined benefit pension plan, except for Part II prior to June 1, 1991 (see Note 3). The Plan covers all eligible salaried and union employees of Bell Helicopter Textron Inc. (Bell Helicopter), a wholly owned subsidiary of Textron Inc. (Textron) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). For a description of the Plan, refer to the Plan document dated January 1, 2019, which is available at the personnel office of Bell Helicopter.

The Plan is a part of the Textron Retirement Program, which applies to all salaried employees and uses a structure known as a "floor-offset arrangement." A floor-offset arrangement is comprised of both a defined benefit plan and a defined contribution plan (the Retirement Account Plan). The defined benefit plan establishes a minimum benefit accrual for each participant and is determined with reference to the participant's account balance in the defined contribution plan (the offset benefit). The benefit is payable first from the participant's vested account balance in the defined contribution plan. Then, only to the extent necessary to reach the defined benefit plan's minimum benefit accrual, benefits are payable from the defined benefit plan. In 2025 and 2024, $4,338,199 and $4,479,266, respectively, were transferred into the Plan from the Retirement Account Plan.

The Plan has been closed to new participants. This change did not impact employees or retirees in the Plan.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Benefit Payments

Benefit payments to participants are recorded when paid.

Valuation of Investments

The Plan's investments as held in the Textron Master Trust (the Master Trust) are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 6 for further discussion of fair value measurements.

Investments in public securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the Plan year. Public fixed income securities are also priced in this manner, assuming the bonds trade on the last business day. However, if the bond does not trade, the price is determined by third-party pricing services which consider such factors as reported prices and extent of trading activity in similar investments, quality ratings, maturity date, call provisions and other factors in determining fair value.

Commingled funds are groups of investments similar to mutual funds in that they provide diversification by holding various equity and debt securities. The fair value of these investments reflect the net asset value of the fund at each valuation date as determined by the investment managers. Investments in commingled funds are classified as Level 1 investments in the fair value hierarchy.

Private security (limited partnerships) valuations are provided on a quarterly basis by the investment managers, general partners, or external valuation services to the Trustee. These valuations take into consideration factors such as investment type, reported prices, extent of trading activity in similar investments, company fundamentals, quality ratings, maturity date, call provisions, and changes in economic conditions relating to the investment. During the period between the date of the valuation and the pricing date cash flows are reported to and updated by the Trustee.

Valuations of direct real estate investments are estimated by the Plan's external real estate manager, Core and Value Advisors LLC, on an annual basis and at least once every three years by a qualified third-party appraiser. Factors such as real estate type, market conditions, property performance, valuation of comparable properties, and consultations with external real estate advisors are considered in determining fair value.

Income Recognition

Purchases and sales of securities are recorded on the trade date. Gains and losses on the sale of investments are determined based on the average cost of the investment. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year. Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 10) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for participants or their beneficiaries are based on a formula, which includes compensation, as defined in the Plan document, and years of credited service. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. The accumulated plan benefit information is presented at the beginning of each Plan year.

Administrative Expenses

Administrative expenses consist of investment advisor fees, actuarial fees, custodial fees, Pension Benefit Guaranty Corporation (PBGC) premiums, consulting fees, legal fees, auditing fees and other professional services fees. Certain administrative expenses of the Company are allocated based on specific Plan activity as determined by the Plan Sponsor.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent Events

Management evaluated subsequent events for the Plan through June 18, 2026, the date the financial statements were available to be issued.

3. Funding Policy

Textron contributes amounts sufficient to meet minimum funding requirements as set forth in employee benefit and tax law plus such additional amounts, if any, as Textron may determine in its sole discretion to be appropriate. The Plan has met the ERISA minimum funding requirements for 2025 and 2024.

Prior to June 1, 1991, employee contributions consisted of amounts that were required from Part II employees hired prior to July 1, 1972, and who had not elected to participate in the non-contributory portion of the Plan. Employee contributions were determined by a schedule, graded by age at the time of joining the Plan. Contributions were approximately 4% of total earnings for those joining at age 50 and graded down to approximately 2% for those joining at age 35 or younger. Accumulated employee contributions of active participants, including interest at a rate of 9%, amounted to approximately $6.2 million and $6.5 million at December 31, 2025 and 2024, respectively. Since June 1, 1991, employee contributions for former Part II employees have been eliminated.

4. Plan Termination

Should the Plan terminate at some future time, its net assets may generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all. Information about the PBGC's benefit guarantee is available in the Summary Plan Description, which is available at the personnel office of Textron.

5. Investment in the Textron Master Trust Fund

The investments of the Plan are held in the Master Trust, which also holds the assets of other Textron-sponsored pension plans. The Plan is administered under the terms of a Master Trust Agreement, dated March 1, 2011, with BNY Mellon. Investment income and changes in unrealized gain or loss on investments of the Master Trust are allocated monthly among the participating plans in proportion to the adjusted market value of the Master Trust attributable to each plan, as determined by BNY Mellon. The adjusted market value is calculated by adding to the market value at the end of the previous period the contributions and income received for each plan during the period and subtracting benefit payments and expenses for each plan during the period. On this basis, 29.43% and 29.49% of the Master Trust's net assets were attributed to the Plan as of December 31, 2025 and 2024, respectively. Fair market value for each type of investment is determined as discussed in Note 6, Fair Value Measurements.

The net assets of the Master Trust at December 31, 2025 are as follows:

	Textron Master Trust	Plan's Interest in Textron Master Trust
Investments in securities:		
Common stock	**$ 1,838,633,743**	$ 541,052,683

	$ 7,900,350,569	$ 2,329,548,169

The investments of the Master Trust (including investments bought, sold, and held during the year) appreciated by $874,358,325 and $553,277,951 in 2025 and 2024, respectively. During 2025 and 2024, interest and dividend income earned by the Master Trust was $155,902,172 and $140,120,133, respectively. Other income for 2025 and 2024 was $44,172,225 and $40,888,994, respectively.

Included in the net earnings of the Master Trust were the Plan's share of the non-Plan specific administrative expenses of $9,302,749 and $8,295,513 for 2025 and 2024, respectively.

Certain Master Trust investments require additional capital commitments. The callable commitments associated with real estate amounted to $107,911,885 and $100,604,898 at December 31, 2025 and 2024, respectively. The callable commitments associated with private equity partnerships amounted to $517,879,364 and $488,596,212 at December 31, 2025 and 2024, respectively.

6. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). ASC 820 includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based upon the lowest level input that is significant to the fair value measurement in its entirety.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets carried at fair value as of December 31, 2025:

	Level 1	**Level 2**	**Level 3**	**Not Subject to Leveling**

Valuation Methodologies Used for Assets Measured at Fair Value

Common stock, mutual funds, registered investment companies, and exchange traded funds are traded and quoted on an open market and are valued at their quoted market price.

Short-term investment funds primarily consist of cash, which is swept nightly into an institutional equivalent of a money market fund, for which the cash earns interest. These investments are valued at their cost basis plus accrued interest. The accrued interest is an observable input, but is not quoted on an active market. Therefore, we have classified these assets as Level 2 measurements. Some short-term investment funds are valued using net asset value (NAV) and are reflected as Level 1 investments.

Government bonds include bonds issued by various government entities, such as Federal National Mortgage Association, Federal Home Loan Mortgage Corporation, and the U.S. Treasury, as well as a small number of municipalities. Corporate bonds include debt issued by corporate entities. U.S. Treasury bonds are traded and quoted on an active market and are valued at their quoted market price. These investments are classified as Level 1. Government Agency bonds, Municipal bonds, and Corporate bonds are traded using brokers which make the market, and price the bonds using published historical transactions for similar securities and a matrix pricing model. These inputs are observable, although the investments are not quoted on an active market. Therefore, the assets are classified as Level 2 measurements.

The Common Collective Trust Funds (CCTs), or commingled funds, are groups of investments similar to mutual funds in that they provide diversification by holding various equity and debt securities. The fair value of these investments is quoted at the net asset value per share as determined by the issuer at each valuation date and they are considered Level 1 investments.

Private investment partnerships represent interests in funds which invest in equity, debt and other financial assets. Real estate includes owned properties and limited partnership interests in real estate partnerships. Owned properties are valued using certified appraisals at least every three years that are updated at least annually by the Plan's real estate investment manager based on current market trends and other available information. These appraisals generally use the standard methods for valuing real estate,

including forecasting income and identifying current transactions for comparable real estate to arrive at a fair value. Limited partnership interests in real estate partnerships are valued similarly to private investment partnerships, with the general partner using standard real estate valuation methods to value the real estate properties and securities held within their portfolios. The Plan is generally unable to liquidate these investments during the term of the partnership or fund, which range from 10 to 15 years. Real estate partnerships and private investment partnerships are valued using NAV as a practical expedient and, therefore, are not subject to leveling within the fair value hierarchy.

Derivatives in the Plan are primarily used to manage risk and gain asset class exposure while still maintaining liquidity. Derivative instruments consist of equity futures. At December 31, 2025, the net notional amounts of equity futures were approximately $315 million. At December 31, 2024, the net notional amounts of equity futures were approximately $184 million. For the years ended December 31, 2025 and 2024, gains and losses on these derivative instruments were not material. Further, as of December 31, 2025 and 2024, the fair value of derivatives included in the Master Trust was not material.

7. Related-Party Transactions

The Plan holds investments managed by the Bank of New York Mellon Corporation, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA. Certain administrative expenses of the Company are allocated based on specific Plan activity as determined by the Plan Sponsor.

8. Risks and Uncertainties

Through the Master Trust, the Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS), dated June 19, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code and, therefore, the related trust and Master Trust are exempt from taxation. Subsequent to receiving this determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to continue operating the Plan in compliance with the Code.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Accumulated Plan Benefits

An actuary from Willis Towers Watson estimates the actuarial present value of accumulated plan benefits for the Plan, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of December 31, 2024 is as follows:

Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants currently receiving payments	$ 1,036,281,599
Other participants	472,531,257
Total vested benefits	1,508,812,856
Nonvested benefits	1,530,651
Total actuarial present value of accumulated plan benefits	$ 1,510,343,507

Changes in the actuarial present value of accumulated plan benefits are as follows:

Actuarial present value of accumulated plan benefits at December 31, 2023	$ 1,513,653,705
Increase (decrease) during the year attributed to:	
Decrease in the discount period	96,761,679
Benefits accumulated	24,095,544
Actuarial gains/(losses)	2,922,909
Benefits paid	(123,899,877)
Assumption changes	(3,190,453)
Actuarial present value of accumulated plan benefits at December 31, 2024	$ 1,510,343,507

Significant assumptions underlying the actuarial computations are as follows:

Assumed rate of return on investments	7.25% for 2024 valuation.
Mortality basis	Separate rates for non-annuitants and annuitants based on Pri-2012 "Employees" and "Healthy Annuitants" (participants and beneficiaries combined) tables, respectively, without collar or amount adjustments, and then projected forward with a generational projection as specified in the regulations under §1.430(h)(3) 1 using Scale MP-2021 (i.e., MP-2021 with no mortality improvement for 2020-2023 and future mortality improvement capped at 0.78% for years after 2024). For ASC 960 purposes, the base mortality rates based on the PRI-2012 employee/annuitant mortality tables, projected generationally from 2012 by the MP-2021 improvement scale to 2018, with individual rates uniformly multiplied by a factor of 0.943. The base mortality rates were projected using the MP- 2021 scale, adjusted to a 0.75% rate for ages 65-84, grading down to 0% at age 95, with convergence to those long-term rates in 2028. We believe the mortality assumptions used for ASC 960 purposes do not significantly conflict with what would be reasonable.
Retirement Rate	Rates varying by age, average age 65.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

SCHEDULE SB ATTACHMENTS

Benefit commencement date:	
• Preretirement death benefit	The later of the death of the active participant or the date the participant would have attained age 55.
• Deferred vested benefit	The later of 1) the termination of employment, or 2) age 64 (for Salaried participants), age 62 (for Union and Non-Union participants), or age 65 (for Amarillo participants).
• Disability benefit	Age 65 or pension benefits commence.
• Retirement benefit	Upon termination of employment.
Form of payment	Participants are assumed to elect the normal form.
Percent married	90% of the hourly employees are assumed to be married. For salaried employees, 85% of the males and 50% of females are assumed to be married.
Spouse age	Wife three years younger than husband.
Covered pay	Compensation assumed paid in the year prior to the valuation date is the current base pay and target bonus, if available. Otherwise, compensation is assumed to be the prior year annualized pensionable earnings.
Retirement account balance	2% of compensation per year after January 1, 2007, accumulated with 7% interest per year.
Retirement account rollover option	It is assumed that 40% of participants eligible to roll their account balance into the pension plan at retirement will do so.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits.

SCHEDULE SB ATTACHMENTS

Target normal cost

Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Textron regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with Textron and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits in a single lump sum payment. Such lump sums are not explicitly valued as such; rather, such participant's benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The plan sponsor, through its third party administrator, Fidelity Investments Inc., furnished participant data as of January 1, 2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Rates of increase in:	
• Compensation	Assumed compensation increases are based on plan sponsor expectations.
• National average wages (NAW) (e.g., Social Security wage bases)	The assumed NAW is based on assumed CPI as shown below, plus assumed increases in real wages (the portion of GDP increases that becomes part of wages). Such assumed future increases in real wages are based on forecasts by economists.
• Increases in statutory limits (CPI)	The assumed CPI increases are based on forecasts prepared by economists.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2024, with annual review for changes, if any, that could result in materially different rates in the future.
Retirement	Retirement rates were based on an experience study conducted in 2024, with annual review for changes, if any, that could result in materially different rates in the future.
Benefit commencement date for deferred benefits:	
• Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.

• Deferred vested benefit	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. The age selected was based on an experience study conducted in 2011.
Form of payment	The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on general population statistics regarding marital status and historical election patterns.
Percent married	The percentage of participants who are assumed to be married is based on general population statistics on the marital status of individuals of retirement age.
Spouse age	The assumed difference between spouses' ages is based on general population statistics for married individuals of retirement age.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. The assumed plan-related expenses added to the target normal cost were changed from $3,800,000 for the prior valuation to $3,600,000 for the current valuation. The retirement rates were changed to reflect the results of an experience study performed in 2024. The termination rates were changed to reflect the results of an experience study performed in 2024.
Change in methods since prior valuation	None.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Benefit commencement date:	
• Preretirement death benefit	The later of the death of the active participant or the date the participant would have attained age 55.
• Deferred vested benefit	The later of 1) the termination of employment, or 2) age 64 (for Salaried participants), age 62 (for Union and Non-Union participants), or age 65 (for Amarillo participants).
• Disability benefit	Age 65 or pension benefits commence.
• Retirement benefit	Upon termination of employment.
Form of payment	Participants are assumed to elect the normal form.
Percent married	90% of the hourly employees are assumed to be married. For salaried employees, 85% of the males and 50% of females are assumed to be married.
Spouse age	Wife three years younger than husband.
Covered pay	Compensation assumed paid in the year prior to the valuation date is the current base pay and target bonus, if available. Otherwise, compensation is assumed to be the prior year annualized pensionable earnings.
Retirement account balance	2% of compensation per year after January 1, 2007, accumulated with 7% interest per year.
Retirement account rollover option	It is assumed that 40% of participants eligible to roll their account balance into the pension plan at retirement will do so.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits.

SCHEDULE SB ATTACHMENTS

Target normal cost

Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with Textron regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with Textron and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits in a single lump sum payment. Such lump sums are not explicitly valued as such; rather, such participant's benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The plan sponsor, through its third party administrator, Fidelity Investments Inc., furnished participant data as of January 1, 2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

SCHEDULE SB ATTACHMENTS

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Rates of increase in:	
• Compensation	Assumed compensation increases are based on plan sponsor expectations.
• National average wages (NAW) (e.g., Social Security wage bases)	The assumed NAW is based on assumed CPI as shown below, plus assumed increases in real wages (the portion of GDP increases that becomes part of wages). Such assumed future increases in real wages are based on forecasts by economists.
• Increases in statutory limits (CPI)	The assumed CPI increases are based on forecasts prepared by economists.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2024, with annual review for changes, if any, that could result in materially different rates in the future.
Retirement	Retirement rates were based on an experience study conducted in 2024, with annual review for changes, if any, that could result in materially different rates in the future.
Benefit commencement date for deferred benefits:	
• Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.

• Deferred vested benefit	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. The age selected was based on an experience study conducted in 2011.
Form of payment	The percentage of retiring participants assumed to take joint and survivor annuities, and the assumed survivor percentages, are based on general population statistics regarding marital status and historical election patterns.
Percent married	The percentage of participants who are assumed to be married is based on general population statistics on the marital status of individuals of retirement age.
Spouse age	The assumed difference between spouses' ages is based on general population statistics for married individuals of retirement age.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. The assumed plan-related expenses added to the target normal cost were changed from $3,800,000 for the prior valuation to $3,600,000 for the current valuation. The retirement rates were changed to reflect the results of an experience study performed in 2024. The termination rates were changed to reflect the results of an experience study performed in 2024.
Change in methods since prior valuation	None.

Covered compensation	The average of the 35 Social Security wage bases ending with the year a participant terminates or retires.
Grandfathered employee	A covered employee on January 1, 2007 who had: • Attained age 60 or completed 5 years of vesting service no later than January 1, 2007 • and • Earned sufficient vesting service such that the sum of the participant's age in completed years and full years of vesting service as of January 1, 2007 equals or exceeds 55.
Retirement account	The sum of: • The account balance in the Textron Retirement Account Plan and • The Actuarial Equivalent of the single sum value of all prior distributions the participant has received from such account.
Retirement account actuarial equivalence	The 1994 Group Annuity Reserving Mortality Table (unisex) and an interest rate of 7% should be used to determine the Actuarial Equivalent of a Member's Retirement Account for any purpose, except that, for purposes of projecting the Retirement Account to any age, mortality shall be disregarded.
Retirement account rollover option	The participant can roll over his entire account balance under the Textron Retirement Account Plan upon retirement into this plan. The balance is converted into an actuarial equivalent Normal Retirement pension and is reduced for early commencement consistent with post-December 31, 2006 accruals.
Normal retirement date (NRD)	Age 65

SCHEDULE SB ATTACHMENTS

Monthly pension benefit

Monthly benefit is equal to the greatest of A, B, C, D or E.

A. One-twelfth of the sum of (i) and (ii):

   i. 1.00% of final average earnings times pension service (limited to 43.75 years) as of December 31, 2006 (Basic Pension) plus 0.50% of the difference between Final Average Earnings and 82.5% of Covered Compensation times pension service (limited to 43.75 years) as of December 31, 2006 (Additional Pension)

   ii. 1-1/3% of Final Average Earnings times pension service earned after December 31, 2006, offset by the participant's Retirement Account expressed as an actuarially equivalent single life annuity commencing at age 65 (or, if later, his actual retirement date)

B. For Grandfathered Employees only: one-twelfth of the sum of 1.00% of Final Average Earnings times pension service, limited to 43.75 years (Basic Pension); plus 0.50% of the difference between Final Average Earnings and 82.5% of Covered Compensation times pension service, limited to 43.75 years (Additional Pension), with any portion of such amount that is attributable to pension service earned after December 31, 2006 being offset by the participant's Retirement Account as described in A.ii.

C. $50 per year of pension service up to 5 years, with any portion of such amount that is attributable to pension service earned after December 31, 2006 being offset by the participant's Retirement Account as described in A.ii.

D. Minimum monthly benefit listed on Supplement XI ("Minimum Monthly Benefits for Certain Members").

E. The participant's monthly accrued benefit earned as of December 31, 2006.

SCHEDULE SB ATTACHMENTS

Monthly pre-retirement death benefit	50% surviving spouse benefit that would have been payable to the spouse based on the accrued benefit at date of death. Benefits commence at the participant's earliest retirement date, or date of death if later. Unmarried participants eligible for Normal Retirement or Early Retirement may designate a non-spouse beneficiary to receive this 50% survivor annuity in the event of death before retirement, at a cost of 1/12% reduction per month of coverage. If a plan member dies after termination of employment and is eligible for Normal Retirement, Disabled Retirement or Early Retirement, but before commencement of benefits, the beneficiary shall receive a monthly benefit for 60 months equal to the single life annuity the member could have received, but reduced for early commencement.
Post-retirement additional death benefit	The beneficiary shall be eligible to receive a death benefit if the participant had not yet received 60 monthly payments. The death benefit is an annuity for the remainder of the 60-month period in the amount of the participant's single life annuity. This death benefit is in addition to any other survivor annuity under the elected form of payment

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	The earlier of: Age 60, Age 55 with at least 5 years of vesting service, or Employees hired pre 1/1/2007, age 54 with at least 10 years of vesting service, or completion of 20 years of vesting service regardless of age at termination, but with benefit commencement on or after age 54.
Disability	Plan members who become disabled during employment and eligible to receive Social Security disability benefits continue to accrue pension service and vesting service until the earlier of death, recovery, age 65 or pension benefits commence.
Vested termination	Termination for reasons other than death or retirement after completing five years of vesting service

SCHEDULE SB ATTACHMENTS

Postponed retirement — Retirement after NRD

Pre-retirement and post-retirement death — Spouse of a participant who has completed at least 5 years of vesting service

Benefits Paid Upon the Following Events

Normal retirement — Monthly pension benefit determined as of NRD

Early retirement — For benefits payable under monthly pension benefit sections Ai, B, D, and E, the reductions are as follows:

Age	Basic Pension Reduction Factor	Additional Pension Reduction Factor	Age	Basic Pension Reduction Factor	Additional Pension Reduction Factor
54	0.567	0.467	60	0.867	0.667
55	0.600	0.500	61	0.933	0.733
56	0.633	0.533	62	1.000	0.800
57	0.667	0.567	63	1.000	0.867
58	0.733	0.600	64	1.000	0.933
59	0.800	0.633	65	1.000	1.000

For benefits accrued on or before December 31, 2006 under monthly pension benefit section C, the Basic Pension Reduction Factor in the above table should be applied.

Members who retire before age 65 and after attaining age 62 who have completed 30 years of vesting service are entitled to the greater of 1) the Early Retirement benefit above; 2) the participant's Basic Pension Plus Additional Pension (as defined above) calculated with a maximum of 35 years of pension service, and without any reduction for early commencement.

For benefits payable under monthly pension benefit section A.ii and benefits accrued after December 31, 2006 under monthly pension benefit section C, the Normal Retirement Benefit reduced 5/12% for each month of benefit commencement before age 65.

Vested termination — Payable as a straight life annuity starting on the participant's Normal Retirement Age (age 65), equals the participant's Normal Retirement benefit. The benefit is reduced the same as the Early Retirement benefit if commenced before age 65, but no earlier than age 55 (54 for participants hired on or before December 31, 2006).

SCHEDULE SB ATTACHMENTS

Other Plan Provisions

Forms of payment	Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. If married, on a reduced basis, a 50% joint and surviving spouse form is automatic.
Pension Increases	None
Plan participants' contributions	None
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions. WTW is not aware of any future plan changes which are required to be reflected.

Pension service	A participant earns one year of service toward benefit accrual if compensated for 1,600 or more hours per calendar year, reduced pro-rata to the nearest 1/10 year for less than 1,600 hours. Such hours include all periods of time for which the participant is paid by the Company or by a member of the Controlled Group, and also all other hours as required under Department of Labor regulations.
Hours of service	Such hours include all periods of time for which the Employee is paid or entitled to payment by the Company or by a member of the Controlled Group, and also all other hours as required under Department of Labor regulations.
Normal retirement date (NRD)	Termination of employment on or after attaining age 65, or age 62 with 10 years of vesting service.
Monthly pension benefit	$51.00 per year of pension service.
Monthly disability benefit	$350 commencing twelve months after total disability is payable until age 65
Monthly pre-retirement death benefit	55% survivor benefit computed as if the participant had terminated employment at the date of death, survived to age 55, or date of death, if later, and elected to commence benefits under the Normal Form of Payment, and then at that time died.

SCHEDULE SB ATTACHMENTS

Post-retirement additional death benefit	Lump sum benefit of $6,000 is payable to the employee's designated beneficiary. This death benefit is in addition to any other survivor annuity under the elected form of payment.
Level income special allowance (LISA)	Monthly benefit of $800 payable until age 62.

Eligibility for benefits

Normal retirement	Retirement on NRD
Early retirement	Age 55 with at least 10 years of vesting service
Disability	Plan members who become disabled during employment and have 10 years of pension service
Vested termination	Termination for reasons other than death or retirement after completing five years of vesting service
Pre-retirement and post-retirement death	Spouse of a participant who has completed at least 5 years of vesting service
Level income special allowance (LISA)	Participants who attain age 60 with 20 years of pension service
Postponed retirement	Retirement as of NRD

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD
Early retirement	The monthly pension benefit is actuarially reduced from age 62. For retirements at or after age 60 with 20 or more years of pension service, the benefit is payable unreduced.
Disablement	Monthly disability benefit commencing twelve months after total disability is payable until age 65

Vested termination	Payable as a straight life annuity starting on the participant's Normal Retirement Age (age 62). Benefits are reduced as described above if benefit commencement is before age 62.

Other Plan Provisions

Forms of payment	The normal form is a single life annuity, unless married. If married, on a reduced basis, a 55% joint and surviving spouse form is automatic unless the spouse consents otherwise.
Pension Increases	None
Plan participants' contributions	None
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions. WTW is not aware of any future plan changes which are required to be reflected.

Changes in Benefits Valued Since Prior Year

There have been no changes in benefits valued since the prior year.

Appendix B4: Summary of principal plan provisions – Amarillo Employees

Plan Provisions

Covered employees	Hourly-paid employees of the Amarillo, Texas Overhaul and Modification Center of Bell Helicopter Textron, Inc. are covered by this plan. Employees hired on or after September 8, 1989 are not eligible to participate.
Participation date	A covered employee begins participation on date of hire.

Definitions

Vesting service	The sum of: • Vesting service, if any, at December 31, 1988, and • One year of vesting service for each calendar year after 1988 in which the employee accumulated 1,000 or more hours of service.
Pension service	The sum of: • Pension service, if any, at December 31, 1988, and • A fraction of a year of pension service for the period from January 1, 1989 to September 9, 1989 equal to the hours of service accumulated in such period divided by 1,600 hours of service and rounded to the nearest tenth.
Hours of service	Such hours include all periods of time for which the Employee is paid or entitled to payment by the Company or by a member of the Controlled Group, and also all other hours as required under Department of Labor regulations.
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65.
Monthly pension benefit	Monthly benefit equal to $19.00 per year of pension service. Employees as of July 1, 1975 who retire at Normal Retirement Age with 5 or more years of pension service will receive credit for at least 10 years of pension service.

SCHEDULE SB ATTACHMENTS

Monthly disability benefit	$250 commencing 12 months after total disability is payable until age 65
Monthly pre-retirement death benefit	55% survivor benefit computed as if the participant had terminated employment at the date of death, survived to age 55, or date of death, if later, and elected to commence benefits under the Normal Form of Payment, and at that time died.
Post-retirement additional death benefit	Lump sum benefit of $1,500 is payable to the employee's designated beneficiary. This death benefit is in addition to any other survivor annuity under the elected form of payment.

Eligibility for benefits

Normal retirement	Retirement on NRD
Early retirement	Age 55 with at least 10 years of vesting service
Disability	Plan members who become disabled during employment and have 10 years of vesting service

Summary of Plan Provisions

Appendix B1: Summary of principal plan provisions – Salaried Employees

Plan Provisions	
Covered employees	Any salaried employee or commissioned basis employee of Bell Helicopter Textron Inc. or any affiliate authorized to participate.
Participation date	Closed to new hires effective as of January 1, 2010.

Definitions	
Vesting service	Years and completed months of employment for salaried employees, including with any predecessor Employer, plus years and completed months subsequent to termination of employment as a result of total disability and prior to the earlier of age 65, death, recovery or commencement of benefits under the plan.
Pension service	The sum of: • Pension service under the terms of Part IV of the plan as it then existed as of December 31, 1975; plus • Years and completed months of covered employment subsequent to December 31, 1975; plus • Years and completed months of employment by a predecessor company to the extent approved by the Board of Directors; plus • Years and completed months subsequent to termination of employment as a result of total disability and prior to the earlier of age 65, death, recovery or commencement of benefits under the plan; plus • Any other amounts as outlined in the plan.
Compensation	W-2 earnings plus Code Section 401(k) and Section 125 contributions, but not including reimbursements or other expense allowances, fringe benefits, moving expenses, other deferred compensation and welfare benefits credited or paid.
Final average earnings	Based on highest consecutive 5 calendar years of compensation during all employment with Textron.

SCHEDULE SB ATTACHMENTS

Covered compensation	The average of the 35 Social Security wage bases ending with the year a participant terminates or retires.
Grandfathered employee	A covered employee on January 1, 2007 who had: • Attained age 60 or completed 5 years of vesting service no later than January 1, 2007 • and • Earned sufficient vesting service such that the sum of the participant's age in completed years and full years of vesting service as of January 1, 2007 equals or exceeds 55.
Retirement account	The sum of: • The account balance in the Textron Retirement Account Plan and • The Actuarial Equivalent of the single sum value of all prior distributions the participant has received from such account.
Retirement account actuarial equivalence	The 1994 Group Annuity Reserving Mortality Table (unisex) and an interest rate of 7% should be used to determine the Actuarial Equivalent of a Member's Retirement Account for any purpose, except that, for purposes of projecting the Retirement Account to any age, mortality shall be disregarded.
Retirement account rollover option	The participant can roll over his entire account balance under the Textron Retirement Account Plan upon retirement into this plan. The balance is converted into an actuarial equivalent Normal Retirement pension and is reduced for early commencement consistent with post-December 31, 2006 accruals.
Normal retirement date (NRD)	Age 65

SCHEDULE SB ATTACHMENTS

Monthly pension benefit

Monthly benefit is equal to the greatest of A, B, C, D or E.

A. One-twelfth of the sum of (i) and (ii):

   i. 1.00% of final average earnings times pension service (limited to 43.75 years) as of December 31, 2006 (Basic Pension) plus 0.50% of the difference between Final Average Earnings and 82.5% of Covered Compensation times pension service (limited to 43.75 years) as of December 31, 2006 (Additional Pension)

   ii. 1-1/3% of Final Average Earnings times pension service earned after December 31, 2006, offset by the participant's Retirement Account expressed as an actuarially equivalent single life annuity commencing at age 65 (or, if later, his actual retirement date)

B. For Grandfathered Employees only: one-twelfth of the sum of 1.00% of Final Average Earnings times pension service, limited to 43.75 years (Basic Pension); plus 0.50% of the difference between Final Average Earnings and 82.5% of Covered Compensation times pension service, limited to 43.75 years (Additional Pension), with any portion of such amount that is attributable to pension service earned after December 31, 2006 being offset by the participant's Retirement Account as described in A.ii.

C. $50 per year of pension service up to 5 years, with any portion of such amount that is attributable to pension service earned after December 31, 2006 being offset by the participant's Retirement Account as described in A.ii.

D. Minimum monthly benefit listed on Supplement XI ("Minimum Monthly Benefits for Certain Members").

E. The participant's monthly accrued benefit earned as of December 31, 2006.

SCHEDULE SB ATTACHMENTS

Monthly pre-retirement death benefit	50% surviving spouse benefit that would have been payable to the spouse based on the accrued benefit at date of death. Benefits commence at the participant's earliest retirement date, or date of death if later. Unmarried participants eligible for Normal Retirement or Early Retirement may designate a non-spouse beneficiary to receive this 50% survivor annuity in the event of death before retirement, at a cost of 1/12% reduction per month of coverage. If a plan member dies after termination of employment and is eligible for Normal Retirement, Disabled Retirement or Early Retirement, but before commencement of benefits, the beneficiary shall receive a monthly benefit for 60 months equal to the single life annuity the member could have received, but reduced for early commencement.
Post-retirement additional death benefit	The beneficiary shall be eligible to receive a death benefit if the participant had not yet received 60 monthly payments. The death benefit is an annuity for the remainder of the 60-month period in the amount of the participant's single life annuity. This death benefit is in addition to any other survivor annuity under the elected form of payment

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	The earlier of: Age 60, Age 55 with at least 5 years of vesting service, or Employees hired pre 1/1/2007, age 54 with at least 10 years of vesting service, or completion of 20 years of vesting service regardless of age at termination, but with benefit commencement on or after age 54.
Disability	Plan members who become disabled during employment and eligible to receive Social Security disability benefits continue to accrue pension service and vesting service until the earlier of death, recovery, age 65 or pension benefits commence.
Vested termination	Termination for reasons other than death or retirement after completing five years of vesting service

SCHEDULE SB ATTACHMENTS

Postponed retirement	Retirement after NRD
Pre-retirement and post-retirement death	Spouse of a participant who has completed at least 5 years of vesting service

Benefits Paid Upon the Following Events

Normal retirement

Monthly pension benefit determined as of NRD

Early retirement

For benefits payable under monthly pension benefit sections Ai, B, D, and E, the reductions are as follows:

Age	Basic Pension Reduction Factor	Additional Pension Reduction Factor	Age	Basic Pension Reduction Factor	Additional Pension Reduction Factor
54	0.567	0.467	60	0.867	0.667
55	0.600	0.500	61	0.933	0.733
56	0.633	0.533	62	1.000	0.800
57	0.667	0.567	63	1.000	0.867
58	0.733	0.600	64	1.000	0.933
59	0.800	0.633	65	1.000	1.000

For benefits accrued on or before December 31, 2006 under monthly pension benefit section C, the Basic Pension Reduction Factor in the above table should be applied.

Members who retire before age 65 and after attaining age 62 who have completed 30 years of vesting service are entitled to the greater of 1) the Early Retirement benefit above; 2) the participant's Basic Pension Plus Additional Pension (as defined above) calculated with a maximum of 35 years of pension service, and without any reduction for early commencement.

For benefits payable under monthly pension benefit section A.ii and benefits accrued after December 31, 2006 under monthly pension benefit section C, the Normal Retirement Benefit reduced 5/12% for each month of benefit commencement before age 65.

Vested termination

Payable as a straight life annuity starting on the participant's Normal Retirement Age (age 65), equals the participant's Normal Retirement benefit. The benefit is reduced the same as the Early Retirement benefit if commenced before age 65, but no earlier than age 55 (54 for participants hired on or before December 31, 2006).

SCHEDULE SB ATTACHMENTS

Other Plan Provisions

Forms of payment	Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. If married, on a reduced basis, a 50% joint and surviving spouse form is automatic.
Pension Increases	None
Plan participants' contributions	None
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions. WTW is not aware of any future plan changes which are required to be reflected.
