With Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Geokon Employee Stock Ownership Plan

Opinion on the 2025 Financial Statements

We have audited the accompanying financial statements of Geokon Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of October 31, 2025, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of October 31, 2025, and the changes in its net assets available for benefits for the year then ended, in accordance with U.S. generally accepted accounting principles.

Basis for Opinion on the 2025 Financial Statements

We conducted our audit in accordance with U.S. generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2025 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2025 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2025 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with U.S. generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2025 Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards.

Board of Directors
Geokon Employee Stock Ownership Plan

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Auditor's Report on the 2024 Financial Statements

The financial statements of the Plan as of October 31, 2024 were audited by TSS Advisors, LLC whose report, dated July 14, 2025, expressed an unmodified opinion on those statements.

GEEKON EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

October 31, 2025 and 2024

1. Description of Plan

The following description of Geokon Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan was established on November 1, 2022, by Geokon, Inc. (Geokon), the Plan's sponsor, and covers all eligible employees of Geokon, Inc. and its wholly-owned subsidiaries (collectively, the Company). The Plan was established and operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder, of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Board of Directors of Geokon. An independent third-party trust company is the Plan's trustee.

On November 30, 2022, the Plan purchased 462,256.9726 shares of Geokon's common stock using the proceeds from a share acquisition note totaling \$18,500,000. The share acquisition note is payable over a period of 30 years by fully deductible contributions made by the Company to the Plan.

The share acquisition loan is collateralized by the unallocated shares of common stock. As the Plan makes principal payments on the share acquisition loan, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations of the IRC. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to:

- 1) The accounts of participants with rights in allocated common stock (Allocated), and
- 2) Common stock not yet allocated to participants (Unallocated).

Eligibility

Employees of the Company are generally eligible to participate in the Plan after one year of service, providing they are at least 18 years of age and have worked at least 1,000 hours during such Plan year. Participants who are not eligible to enroll in the Plan during the plan year or are not employed on the last working day of the plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions

Plan sponsor contributions are determined annually at the discretion of the Company's Board of Directors. The Company is obligated to make contributions to the Plan which, when aggregated with the Plan's dividends and interest earnings, if any, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its share acquisition loan. Employee contributions are not permitted.

GEEKON EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

October 31, 2025 and 2024

Payment of Benefits

Distributions are made on account of death, disability, retirement, or termination of employment with the Company. Distributions are generally made in cash in a lump sum; however, the Plan may elect to make distributions in substantially equal annual installments over a period not exceeding five years. Distributions on account of death, disability, or retirement will commence by the end of the plan year following the plan year in which the event occurs. Distributions for other separations from service will commence by the end of the sixth plan year following the plan year in which the separation from service occurred. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations.

Voting Rights

The Board of Directors is authorized to vote on all shares of common stock held by the Plan or otherwise consent to or request any action on the part of Geokon. However, each participant is entitled to direct the Plan in relation to the shares of common stock allocated in his or her account with respect to any corporate matter such as a merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transactions. The Board of Directors is required, however, to vote any unallocated shares on behalf of the collective best interests of the Plan's participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of (a) the Company's contributions, (b) shares released from the unallocated account, (c) plan earnings, (d) administrative expenses, and (e) forfeitures of terminated participants' non-vested accounts. The Company's contributions, including shares of Geokon common stock and S-Corporation distributions not used for loan repayment, and forfeitures of terminated participants' non-vested accounts are allocated annually among the accounts of eligible participants based on participants' eligible compensation in proportion to the total eligible compensation of all eligible participants of the plan year who (a) retired, became disabled, or died during the plan year, or (b) are employed on the last day of the plan year and have at least 1,000 hours of service during the plan year. Plan earnings and administrative expenses are allocated to each participant's account based on the ratio of the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 10% per year of service during their first two years of service, and then 20% per year during their next three years of service. Participants are 100% vested after five years of service. Participants become fully vested immediately upon death, disability, or retirement.

GEEKON EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

October 31, 2025 and 2024

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that Geokon buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock, which is paid with interest, as specified by the Plan. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Geokon common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, eligible participants may diversify up to 25% of the number of shares of Geokon common stock allocated to their account, less any shares previously diversified. Beginning in the sixth year, the percentage changes to 50%. Participants who elect to diversify may receive cash or invest in trust assets other than Geokon common stock.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the plan year. There were no forfeitures allocated to participants during the year ended October 31, 2025. Forfeitures allocated to participants during the year ended October 31, 2024 totaled \$1,949. As of October 31, 2025 there were no forfeited non-vested accounts. As of October 31, 2024, forfeited non-vested accounts to be allocated to participant accounts in future years were \$617.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Contributions

Contributions from the Employer are recorded in the year in which the contributions were made.

GEEKON EMPLOYEE STOCK OWNERSHIP PLAN

Notes to Financial Statements

October 31, 2025 and 2024

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. See Note 4 for a discussion of the fair value measurements. Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses of the Plan

Substantially all expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Administrative expenses incurred by the Plan are allocated to participants. Investment related expenses are included in net unrealized appreciation of fair value of investments.

Subsequent Events

Management has considered transactions or events occurring through July 20, 2026, which is the date that the financial statements were available to be issued. Management has not evaluated subsequent events after that date for inclusion in the financial statements.

4. Fair Value Measurements

The fair value measurement accounting literature establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for the identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is the description of the valuation methodologies used for assets at fair value.

Common stock of Geokon, Inc: The fair value of Geokon common stock is determined by an annual independent appraisal. This appraisal was based on an income valuation approach. The appraiser utilized a combination of the capitalization of cash flow and discounted cash flow methodologies. The Company's appraiser placed the most emphasis on the discounted cash flow methodology to arrive at fair value and applied an overall discount for lack of marketability.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of the different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Share Acquisition Loan Payable

The shares of Geokon common stock held by the Plan are leveraged through a share acquisition loan payable. Unallocated shares serve as collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year payments, divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 15,409 shares being released and allocated for the years ended October 31, 2025 and 2024.

On November 30, 2022, the Plan entered into a \$18,500,000 term loan agreement with Geokon. The proceeds of the loan were used to purchase 462,257 shares of Geokon common stock. The loan bears interest at a fixed rate of 3.92% and is repaid over 30 years through equal payments of principal and interest of \$1,056,564. The loan balance was \$17,404,082 and \$17,764,286 as of October 31, 2025 and 2024, respectively.

The scheduled amortization of the share acquisition loan payable is as follows:

2026	\$	374,324
2027		388,997
2028		402,459
2029		420,022

Notes to Financial Statements

October 31, 2025 and 2024

The Plan Sponsor is obligated to make contributions in cash to the Plan which equals the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan.

6. Related Party and Party-In-Interest Transactions

The Plan invests in Geokon common stock and has a share acquisition note payable to Geokon. These are related party and party-in-interest transactions. As described in Note 2, the Company also pays substantially all plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

7. Risks and Uncertainties

The Plan investments consist primarily of Geokon common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the values of the common stock will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

8. Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Board of Directors of Geokon shall direct the Trustee to pay all liabilities and expenses of the ESOP and to sell shares of financed common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or their beneficiary at the time prescribed by the Plan terms and the IRC.

9. Tax Status.

The Plan is a prototype non-standardized ESOP plan which received an opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020, stating that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
