REPORT OF INDEPENDENT AUDITORS

To the Retirement Committee of the
Bass Retirement Plan

Opinion

We have audited the financial statements of the Bass Retirement Plan (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (“ERISA”), which comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits (modified cash basis) for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan (modified cash basis) as of December 31, 2025 and 2024, and the changes in its net assets available for benefits (modified cash basis) for the years then ended, in accordance with the modified cash basis of accounting described in Note 2.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (“GAAS”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter – Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements and supplemental schedules are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America (“GAAP”). Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting, which is a comprehensive basis of accounting other than GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter— Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Form 5500, Schedule H; Line 4i – Schedule of Assets (Held at End of Year) (modified cash basis) and Schedule H; Line 4j – Schedule of Reportable Transactions (modified cash basis) are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor’s (“DOL”) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA.

Bass Retirement Plan

Notes to Financial Statements

December 31, 2025 and 2024

1. Description of the Plan

The following description of the Bass Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan covering substantially all employees of the Plan Sponsor, BEPCO, L.P. (BEPCO), and SHSM Partners, LLC (SHSM) as well as certain former employees of SRES, REM, LEA, BOPCO, and SRC (defined below). BEPCO and SHSM (the Company) are in the same control group of entities and are collectively classified as a single employer for the purpose of the Plan document. The Plan provides for pension, death, and disability benefits and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

On March 1, 2006, certain partnership interests in Sid Richardson Energy Services Co. (SRES), Richardson Energy Marketing, Ltd. (REM), and Lea Partners, L.P. (LEA) were sold to an unrelated entity. Effective February 28, 2006, the Plan was amended to freeze any additional retirement benefit accruals for SRES, REM, and LEA employees.

Effective February 28, 2017, BOPCO, L.P. (BOPCO) was sold to an unrelated entity and the Plan was amended to freeze any additional retirement benefit accruals for BOPCO employees. BOPCO employees that were participants in the Plan effective February 28, 2017 were 100% vested regardless of vesting service.

Effective December 25, 2017, employees of Barbnet Investment Co. and BBT Capital Management, L.L.C. transferred to BEPCO. Employees that transferred were participants in the Retirement Plan for Employees of Barbnet/San Jose Cattle. Assets and liabilities were transferred from the Retirement Plan for Employees of Barbnet/San Jose Cattle to the Plan effective December 31, 2017.

Effective September 1, 2018, Sid Richardson Carbon, Ltd. (SRC) was sold to an unrelated entity and the Plan was amended to freeze any additional retirement benefit accruals for SRC employees. SRC employees that were participants in the Plan effective September 1, 2018 were 100% vested regardless of vesting service.

During 2024, certain participants were given the option to elect a one-time lump sum payout of their entire benefit. In December 2024, the Plan paid approximately \$38,700,000 to those participants who elected the lump sum payout.

Bass Retirement Plan

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

In February 2025, BEPCO, L.P. entered into a contract agreement with Pacific Life Insurance Company (“Pacific Life”) to purchase a group annuity contract in the net amount of \$54,969,781 to transfer the Plan’s defined benefit pension obligation related to certain retirees and surviving beneficiaries under the Plan. Under the group annuity contract, Pacific Life made an irrevocable commitment, and will be solely responsible, to pay the pension benefits of each retiree and surviving beneficiary transferred beginning with the May 2025 pension payments. The transaction does not change the amount of pension benefits payable to retirees and surviving beneficiaries.

The Plan assets are held in the Bass Retirement Plan Directed Retirement Trust (Trust) with The Northern Trust Company, as Trustee, and Northern Trust Investments, Inc., as Investment Manager.

Employees become eligible to participate in the Plan after they have completed one full year of service with the Company and 1,000 hours of minimum service and have attained age 21. A participant becomes 100% vested after earning five years of vesting service, or upon reaching age 65. If employees terminate before rendering five years of vesting service or reaching age 65, they forfeit the right to receive their accumulated plan benefits.

Administrative Expenses

During 2025 and 2024, certain expenses incurred in the administration of the Plan were paid by the Company. Other expenses incurred in the administration of the Plan were paid by the Trust. The Plan provides that the Company may pay all such expenses; however, the Company is not obligated to do so. Expenses that are paid directly by the Company are excluded from these financial statements.

Payment of Benefits

Participants are eligible to accrue benefits under the grandfathered benefit provisions of the Plan, as of December 31, 2004, if either (a) age plus service was at least 60 and they had at least ten years of service, or (b) age plus service was at least 55 and they had at least 15 years of service.

Grandfathered vested employees are entitled to monthly pension benefits beginning at normal retirement age (65) equal to the greater of (a) 1% of the first \$400 of final average monthly compensation plus 1.72% of final average monthly compensation over \$400, or (b) 5% of final average monthly compensation multiplied by the number of years of service, not in excess of 15 years, reduced by 50% of the anticipated monthly social security benefit, or (c) 2.5% of the final average monthly compensation multiplied by the number of years of service, not in excess of 30 years, reduced by 50% of the anticipated monthly social security benefit, or (d) the sum of 1) 59.8% of the final average monthly compensation multiplied by the years of service after December 31, 1988, divided by the greater of 23 years or the years of service after December 31, 1988 and 2) 22.75% of the final average monthly compensation in excess of monthly covered compensation multiplied by years of service after December 31, 1988, divided by the greater of 35 years or the years of service after December 31, 1988.

1. Description of the Plan (continued)

The above factors for (a), (b), and (c) are then multiplied times a factor that will convert the calculation from a 10-year certain and life thereafter annuity to an income payable for the participant's lifetime only.

Non-grandfathered vested employees are entitled to monthly pension benefits beginning at normal retirement age (65) equal to the greater of (a) or (b) below, whereas:

- (a) equals the sum of: 2% of the participant's final average monthly compensation times the participant's credited service (not to exceed 30 years), reduced by 1.5% of the participant's anticipated monthly primary insurance amount available at age 65 times the participant's credited service (not to exceed 33.333 years); and
- (b) equals the sum of (1) the participant's accrued benefit as of December 31, 2004, if any, under the provisions of the Plan then in effect based upon the participant's final average monthly compensation, anticipated monthly primary insurance amount, monthly covered compensation, and credited service as of such date; plus, (2) an amount equal to 2% of the participant's final average monthly compensation times the participant's credited service earned after December 31, 2004 (that is not in excess of 30 years when aggregated with the participant's credited service earned prior to January 1, 2005); reduced by 1.5% of the participant's anticipated monthly primary insurance amount available at age 65 times the participant's credited service earned after December 31, 2004 (that is not in excess of 33.333 years when aggregated with the participant's credited service earned prior to January 1, 2005).

The Plan permits early retirement at age 55 for employees with 15 years of service or employees with 20 years of service regardless of age. Retirement benefits are provided in the form of a lifetime-only annuity. Upon retirement, the participant can elect to receive benefits in an alternative form as allowed by the Plan document.

Upon termination, each participant or survivor entitled to payments under the Plan will be provided the ability to elect receipt of benefit payments in accordance with the provisions of the Plan.

Benefit payments are recorded when distributed.

Death and Disability Benefits

Grandfathered participants and vested participants whose employment ceased prior to January 1, 2005, who have not already elected receipt of retirement benefits, are entitled to death benefit protection in an amount equal to the present value of the participant's accrued retirement income, as of the date the participant's death occurs. If the death of a vested participant who is not grandfathered occurs, the participant's legal spouse becomes entitled to receive monthly benefit payments at the earliest date the participant would have qualified for retirement, in an amount equal to the qualified pre-retirement survivor annuity.

1. Description of the Plan (continued)

Actively employed participants who are not eligible for normal retirement and who become totally and permanently disabled, as defined by the Plan, are entitled to elect disability retirement. If elected, the participant continues to earn credited service towards normal retirement until the date the participant attains age 65. If the participant ceases to be disabled, as defined by the Plan, prior to attaining age 65, credited service is calculated based on the last date of actual employment.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements and schedules were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles. Therefore, certain additions to net assets available for benefits are recognized when received rather than when earned, and certain deductions from net assets available for benefits are recognized when paid rather than when the obligation is incurred.

Investment Valuation and Income Recognition

Investments held by the Plan are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (at exit price).

At December 31, 2025 and 2024, the Plan held interests in common/collective trusts and a hedge fund for which readily available market values do not exist. The fair value of these investments is determined using net asset value (NAV) as a practical expedient in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*. The Plan applies the practical expedient on an investment-by-investment basis and consistently with the Plan's entire position in a particular investment, unless it is probable that the Plan will sell a portion of an investment at an amount different from the NAV of the investment.

Purchases and sales of investment securities are recorded on a trade-date basis. Interest income and dividend income are recorded when received. Net gains (losses) on sale of assets and unrealized appreciation of assets includes Plan's gains and losses on U.S. Government securities, common stocks, and interest in hedge fund bought and sold, and held during the year, respectively. Net investment gains includes the Plan's gains and losses on common/collective trusts and registered investment companies bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with a modified cash basis of accounting requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Bass Retirement Plan

Notes to Financial Statements (continued)

3. Fair Value Measurement

FASB ASC 820 establishes a fair value hierarchy that prioritizes and ranks the level of observability of inputs used to measure the investments at fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I measurements) and the lowest priority to unobservable inputs (Level III measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|-------------|--|
| Level I – | Unadjusted quoted prices in active markets for identical assets or liabilities. |
| Level II – | Quoted prices in active markets for similar assets and liabilities; quoted prices for identical or similar instruments in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. |
| Level III – | Significant unobservable inputs reflecting Plan-specific assumptions, consistent with reasonably available assumptions made by other market participants. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets held and reported at fair value:

- Common stocks: Valued at closing price reported on the exchange in which the stock is traded on the measurement date.
- Common/collective trusts, registered investment companies and hedge fund: Valued based on net asset value per share or its equivalent at the measurement date.
- U.S. Government securities: Valued at quoted market prices when available based upon the last sales price on the measurement date. When quoted market prices are not available, value is based on quoted market prices for similar assets in active markets as well as commonly quoted interest rates, yield curves, default rates, and inputs that are derived from or corroborated by observable market data.

3. Fair Value Measurement (continued)

The following tables classify the Plan's assets by the fair value hierarchy levels as of December 31, 2025 and 2024:

Investments at Fair Value as of December 31, 2025

	Level I	Level II	Level III	Total	Redemption Frequency	Redemption Notice Period

⁽¹⁾ Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized within the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits (Modified Cash Basis).

⁽²⁾ A redemption request has been made for 100% of the interest in the hedge fund. The remaining investment in the hedge fund represents an interest in illiquid assets. The Plan expects distributions to occur as the underlying assets are liquidated in the portfolio.

Bass Retirement Plan

Notes to Financial Statements (continued)

3. Fair Value Measurement (continued)

As of December 31, 2025 and 2024, the entire interest in the hedge fund represents an investment that is not redeemable. The Plan expects distributions from the hedge fund to occur as underlying investments are liquidated in the portfolio. The timing of such distributions will be dictated by the underlying hedge fund's processes as well as market conditions. Due to the nature of the investments held by the hedge fund, changes in market conditions, and the economic environment may significantly impact the net asset value of the hedge fund and the estimated fair value of the Plan's interest in the hedge fund.

The hedge fund invests primarily in equity and fixed income securities of both domestic and international issuers. The hedge fund investment manager invests in both long and short securities. Hedge fund values are adjusted for actual contributions and distributions as they occur. Investment in the hedge fund is subject to various redemption restrictions.

4. Funding Policy

The Company intends to fund the Plan's Trust in accordance with the minimum funding requirements of ERISA. However, the Company periodically reviews the Plan's funded status and may decide to make additional contributions in excess of the minimum required by law. For the Plan years ended December 31, 2025 and 2024, the Plan met and/or exceeded the minimum funding requirements; however, the Plan Sponsor made contributions totaling \$10,000,000 in 2026 for the 2025 plan year and \$30,000,000 in 2025 for the 2024 plan year.

5. Plan Termination

In the event of termination of the Plan, the rights of the participants in the Plan to benefits accrued through such termination date become non-forfeitable. In the event that the Plan is terminated with insufficient funds to pay all benefits due, Plan assets will be allocated as follows.

(A) Assets will be used first to pay benefits, equally to:

- Retired participants who started receiving benefits at least three years prior to the date of the Plan's termination;
- Participants who could have retired and received benefit payments at least three years prior to the date of the Plan's termination; and
- Beneficiaries of participants to whom payment started at least three years prior to the date of the Plan's termination.

Bass Retirement Plan

Notes to Financial Statements (continued)

5. Plan Termination (continued)

- (B) Next, assets will be used to pay benefits that are guaranteed by the Pension Benefit Guaranty Corporation (PBGC), if any.
- (C) Next, assets will be used to pay vested benefits (determined as of the date prior to the Plan's termination) that are not guaranteed by the PBGC.
- (D) Lastly, assets will be used to pay all other accrued benefits.

Although the Company has not expressed any intent to terminate the Plan, it may do so at any time. Should the Plan terminate at some future time, its net assets may not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

6. Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March 21, 2017, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Sponsor has indicated that it will take the necessary steps, if any, to maintain the Plan's operations in compliance with the Code.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions.

7. Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Bass Retirement Plan

Notes to Financial Statements (continued)

7. Risks and Uncertainties (continued)

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. Party-in-Interest Transactions

Certain interests in common/collective trusts and registered investment companies are managed by the Investment Manager and, therefore, these transactions qualify as party-in-interest transactions. These party-in-interest transactions are exempt from the prohibited transaction rules.

9. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their last 10 years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the last 10 completed calendar years immediately preceding years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Willis Towers Watson, consulting actuaries, estimate the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money between the valuation date and the expected date of payment. The actuarial valuation was performed as of January 1, 2025. Had the valuation been performed as of December 31, 2024, there would be no material differences.

Bass Retirement Plan

Notes to Financial Statements (continued)

9. Actuarial Present Value of Accumulated Plan Benefits (continued)

The actuarial present value of accumulated plan benefits for the Plan as reported by Willis Towers Watson is summarized as follows:

	<u>December 31, 2024</u>
Vested benefits:	
Active employees	\$ 63,384,278
Participants with deferred benefits	21,994,342
Participants receiving benefits	<u>180,286,014</u>
	265,664,634
 Non-vested benefits	
	<u>1,652,212</u>
	<u><u>\$ 267,316,846</u></u>

Changes in the actuarial present value of accumulated plan benefits as reported by Willis Towers Watson from December 31, 2023 to December 31, 2024 are summarized as follows:

Actuarial present value of accumulated plan benefits, December 31, 2023	\$ 304,355,354
Increase (decrease) during the year attributable to:	
Decrease in discount period	18,142,056
Benefits paid	(57,755,725)
Benefits accumulated	3,631,065
Actuarial gains	(469,446)
Assumption changes	<u>(586,458)</u>
Actuarial present value of accumulated plan benefits, December 31, 2024	<u><u>\$ 267,316,846</u></u>

A discount rate of 6.5%, the Pri-2012 mortality tables projected generationally with scale MP-2021 (the rate of future mortality improvement at any age for any year beginning on or after the valuation date is capped at 0.78%) and the assumed PBGC rates to value lump sums of 2.56% and 2.75% were used to determine the present value of accumulated benefits. For the prior valuation, a discount rate of 6.5%, the Pri-2012 mortality tables projected generationally with scale MP-2021 (the rate of future mortality improvement at any age for any year beginning on or after the valuation date is capped at 0.78%) and the assumed PBGC rates to value lump sums of 2.12% and 2.84% were used. The weighted average retirement age was 63. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Willis Towers Watson is not aware of any other significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of 1/1/2025. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

The twelve-month period ending December 31.

Coverage and Participation

All employees are eligible to participate under the plan on the first anniversary of hire. "Employee" means any person on the payroll of a participating employer whose wages are subject to withholding for the purposes of federal income tax.

Note: If an employee fails to complete 1,000 hours during the first year, participation will begin on the January 1 following the plan year in which 1,000 hours are completed.

Credited Service

The number of years and completed months of service from date of hire to date of termination, adjusted for certain periods of unpaid absence.

Vesting Service

Total service from date of hire to date of termination, less any absence in excess of 12 months that is excluded from credited service, using elapsed time.

Final Average Compensation/Salary

The monthly average of the 5 consecutive years' compensation out of the last 10 years that gives the highest average. Compensation includes base pay plus overtime plus any compensation deferred under a Section 125 or Section 401(k) plan. For employees of Sid Richardson Carbon & Gasoline, compensation will also include commissions and bonuses.

Covered Compensation

A 35-year average of the Maximum Taxable Wages (MTW) under social security. The MTW is the annual limit on wages subject to the FICA tax for social security. The 35-year period ends with the year the employee reaches eligibility for an unreduced social security benefit (age 65, 66, or 67 depending on the year the employee was born). For years after the year of termination and prior to the end of the 35-year period, the MTW from the year of termination is used.

Formula B Terminal Accrual Date

The earliest of:

1. the December 31st, beginning with 1988, prior to the year in which a participant is classified as a highly compensated employee within the meaning of IRC Sections 414(q)(A) and (B);
2. the December 31st, beginning with 1994, prior to the year in which a participant is classified as a highly compensated employee within the meaning of IRC Section 414(q); or
3. the participant's retirement or termination date.

Eligibility for Grandfathered Benefits

Participants are eligible for the grandfathered benefit provisions of the plan if, as of December 31, 2004, either condition (i) or (ii) was satisfied.

- (i) Age plus service was at least 60 and they had at least 10 years of service.
- (ii) Age plus service was at least 55 and they had at least 15 years of service.

3. Normal Form of Retirement Income: Lifetime only.

Late Retirement

If retirement occurs after the normal retirement date, the late retirement income will be the greater of the normal retirement benefit calculated using credited service and final average monthly compensation as of the late retirement date or the normal retirement benefit calculated as of the participant's normal retirement date actuarially increased to the participant's late retirement date.

Accrued Benefit

The participant's accrued benefit at any given date is determined under the normal retirement formulas shown above, but is based on current credited service, final average monthly compensation, social security benefit, and covered compensation.

Early Retirement Benefit

1. Eligibility: The fulfillment of one of the following:
 - a. Age 55 and 15 years of credited service.
 - b. 20 years of service.
2. Monthly Benefit: Accrued benefit as of early retirement date multiplied by an early retirement factor due to earlier commencement of payments.
 - a. 100% if the participant has either (1) attained age 62 and completed 30 years of credited service or (2) has attained age 65 as of early retirement date.

The "Unreduced Benefit Accrual Date" is the first day of the month coincident with or next following the earliest of (a) the date the participant will have both attained the age of 62 years and completed 30 years of Credited Service, or (b) the date he will attain the age of 65 years.

However, the reduced benefit will be no less than the actuarial equivalent of the participant's accrued benefit at early retirement date.

Disability Benefit

1. Eligibility: Total and permanent disability of participant prior to normal retirement date. The participant must be eligible for and receiving Social Security disability benefits.
2. Monthly Benefit: The anticipated monthly retirement income the participant would be entitled to at Normal Retirement Date, payable for life only, calculated assuming that his service, monthly rate of basic compensation, Social Security, and covered compensation as of his date of disability continued to his Normal Retirement Date.
3. Waiting Period: Benefits will not commence until the employee has attained his normal retirement date.
4. Death of Disabled Participant Prior to Normal Retirement: Prior to normal retirement, disabled participants are entitled to a death benefit identical to the one for active employees. This is determined as if the disabled participant had remained in service until his date of death and his last rate of pay had continued unchanged.

Vested Benefits Upon Termination of Service

1. Vesting: A participant is 100% vested upon completion of 5 years of vesting service. However, all participants become 100% vested upon reaching age 65.
2. Termination Benefit: The termination benefit is equal to the vested accrued benefit, payable in the normal form, commencing at normal retirement date. Optionally, the participant may elect to receive an actuarially reduced benefit commencing prior to normal retirement date. The participant

may also elect to receive an actuarially reduced benefit in order to provide a death benefit for the period between termination and the date retirement payments commence. Such death benefit is equal to the actuarial present value of the deferred accrued benefit, determined as of the termination date, accumulated with interest until the date of death.

Death Benefits for Participants in Active Service

1. Eligibility: All grandfathered participants
2. Benefit: The participant's beneficiary will receive a benefit equal to the present value of the participant's accrued benefit. The beneficiary may elect to receive this benefit in the form of a lump-sum payment, or an annuity payable for his/her lifetime.

Death Benefits for Participants that have Terminated Employment with a Deferred Vested Retirement Benefit

1. Eligibility:
 - (a) Participants terminating prior to January 1, 2005 must elect to receive or decline death benefit coverage. For participants electing to receive death benefit coverage, their retirement benefits are reduced by the actuarial equivalent value of the death benefit coverage. Participants are charged during the time they are covered.
 - (b) Participants terminating after December 31, 2004 are automatically eligible for death benefit coverage. The plan sponsor subsidizes the cost of the death benefits.
2. Benefit: The participant's beneficiary will receive a benefit equal to the present value of the participant's accrued benefit. The beneficiary may elect to receive this benefit in the form of a lump-sum payment, or an annuity payable for his/her lifetime.

Optional Forms of Retirement Income in Lieu of Normal Form

The plan provides optional payment forms, including the qualified Joint and Contingent benefit for married employees, on an actuarially equivalent basis. Actuarial equivalence for this purpose is based on the PBGC interest rate as of the January 1st coincident with or prior to date of termination and the UP-1984 Mortality Table (set back 3 years for joint annuitants and beneficiaries).
