Independent Auditors' Report

To the Plan Administrator of Standard Heating & Air Conditioning Employee Stock Ownership Plan

Opinion on the 2025 Financial Statements

We have audited the financial statements of Standard Heating & Air Conditioning Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements (2025 financial statements).

In our opinion, the accompanying 2025 financial statements present fairly, in all material respects, the net assets available for benefits of the Standard Heating & Air Conditioning Employee Stock Ownership Plan as of December 31, 2025, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2025 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2025 Financial Statements section of our report. We are required to be independent of the Standard Heating & Air Conditioning Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 4 to the financial statements, the financial statements include Standard Heating and Air Conditioning, Inc. common stock valued at \$12,590,000 and \$10,449,999 as of December 31, 2025 and 2024, respectively, whose fair values have been estimated using an independent appraisal, in the absence of readily determinable fair values, with the assistance of management. Because of inherent uncertainty of the valuation, the estimated values may differ significantly from the values that would have been used had a market value for the investments existed, and the differences could be material. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the 2025 Financial Statements

Management is responsible for the preparation and fair presentation of the 2025 financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of 2025 financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the 2025 financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Standard Heating & Air Conditioning Employee Stock Ownership Plan's ability to continue as a going concern for at least one year following the date that the 2025 financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the 2025 financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2025 Financial Statements

Our objectives are to obtain reasonable assurance about whether the 2025 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the 2025 financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the 2025 financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the 2025 financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Standard Heating & Air Conditioning Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the 2025 financial statements.

- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Standard Heating & Air Conditioning Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the 2025 financial statements as a whole. The supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2025 is presented for purposes of additional analysis and is not a required part of the 2025 financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2025 financial statements. The information has been subjected to auditing procedures applied in the audit of the 2025 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the 2025 financial statements or to the 2025 financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the 2025 financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter - Auditors' Report on the 2024 Financial Statements

The financial statements of Standard Heating & Air Conditioning Employee Stock Ownership Plan as of and for the year ended December 31, 2024, were audited by other auditors whose report dated July 9, 2025, expressed an unmodified opinion on those statements.

Standard Heating & Air Conditioning Employee Stock Ownership Plan

Notes to Financial Statements

1. Description of Plan

The following description of the Standard Heating & Air Conditioning Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a leveraged employee stock ownership plan (ESOP) established effective January 1, 2021. The Plan covers all employees of Standard Heating & Air Conditioning, Inc. (the Company or Employer) who have completed one year of service and are age 19 or older. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (IRC), and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company is responsible for oversight of the Plan.

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest income, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its note payable. Employee contributions are not permitted. Participants who have not completed 1,000 hours of service during the Plan year and are not employed on the last day of the Plan year are generally not eligible for an allocation of Company contributions for such year. Additional discretionary amounts may be contributed by the Company at the option of the Board of Directors.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited with, on the last day of each plan year, an allocation of the Company's common stock shares released from the unallocated account, as well as forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation.

Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Effective January 1, 2024, overtime earnings are no longer excluded from participant's eligible compensation. Plan earnings are allocated, as defined in the plan agreement, to each participant's account based on the ratio of the participant's account balance to all participants' account balances.

Standard Heating & Air Conditioning Employee Stock Ownership Plan

Notes to Financial Statements

Vesting

If a participant's employment with the Company is terminated for any reason other than retirement, permanent disability, or death, vesting in their participant accounts is based on years of continuous service. A participant is 100 percent vested after three years of credited service.

Voting rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee, prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant will receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installment payments as provided in the plan document. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. If a terminated participant's vested balance is less than or equal to \$1,000, the amount may be automatically distributed in the form of lump sum cash payment. In the event the participant does not make an election, distribution payments between \$1,000 and \$5,000 will be directly rolled over to an individual retirement account designed by the plan administrator. Distributions are made in cash. The amount to be distributed is based upon the immediately preceding valuation date.

Forfeited accounts

Plan forfeitures are allocated to each participant's account in the same manner in which the Company contributions are allocated. At December 31, 2025 and 2024, the Plan had no forfeited nonvested accounts. These accounts will be allocated to participant accounts of those employed on the last day of the plan year. During 2025 and 2024, \$13,789 and \$1,879, respectively was allocated to participant accounts from forfeited nonvested accounts, in accordance with plan provisions.

Standard Heating & Air Conditioning Employee Stock Ownership Plan

Notes to Financial Statements

Put option

Under federal income tax regulations, the Company common stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the Company common stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants who are at least 55 years old and have participated in the Plan for at least 10 years (a Qualified Participant). During each of the first five years of eligible diversification, a Qualified Participant may withdraw up to 25% of the value of their investment in Company common stock, less any shares previously diversified, and transfer the amount as a rollover into another qualified plan or as a cash withdrawal. In the sixth and subsequent years, the percentage amount that can be withdrawn increases to 50%. The election to diversify is made subsequent to year-end based upon the shares of Company common stock in the participant's account at year-end.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein relating to (a) the accounts of employees with rights in allocated Company common stock ("allocated") and (b) Company common stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Standard Heating & Air Conditioning Employee Stock Ownership Plan

Notes to Financial Statements

Investment Valuation and Income Recognition

Mutual funds are reported at fair value. The Company common stock is valued at estimated fair value based on an independent valuation. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Subsequent Events

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date, but before the financial statements are available to be issued and may require potential recognition or disclosure in the financial statements. The Plan and the Company have considered such events or transactions through July 22, 2026, noting no items requiring disclosure.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation technique are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Standard Heating & Air Conditioning Employee Stock Ownership Plan

Notes to Financial Statements

Level 2 - Inputs to the valuation technique include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2025 and 2024.

Company common stock: Valued at estimated fair value based on an independent third-party appraisal using a combination of widely used valuation approaches, including the market and income valuation techniques. The appraiser considered inputs such as historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities, along with a discount for lack of marketability where appropriate.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Notes to Financial Statements

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2025 and 2024:

Assets at Fair Value as of December 31, 2025						
	Level 1		Level 2		Level 3	Total
Company common stock	\$	-	\$	-	\$12,590,000	\$12,590,000
Mutual funds		189,619		-	-	189,619
Total assets in the fair value hierarchy		189,619		-	12,590,000	12,779,619
Total investments at fair value	\$	189,619	\$	-	\$12,590,000	\$12,779,619

Assets at Fair Value as of December 31, 2024						
	Level 1		Level 2		Level 3	Total
Company common stock	\$	-	\$	-	\$10,449,999	\$10,449,999
Mutual funds		51,327		-	-	51,327
Total assets in the fair value hierarchy		51,327		-	10,449,999	10,501,326
Total investments at fair value	\$	51,327	\$	-	\$10,449,999	\$10,501,326

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2025 and 2024, there were no transfers in or out of Level 3.

The summary of changes in the Plan's Level 3 investments for the years ended December 31, 2025 and 2024 is presented in the following table:

Description	2025	2024
Balance, beginning of the year	\$10,449,999	\$ 6,010,000
Net appreciation in fair value	2,140,001	4,439,999
Balance, end of the year	\$12,590,000	\$10,449,999

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table presents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of December 31, 2025 and 2024, the significant unobservable inputs and the quantitative information about those inputs.

Instrument			Principal Valuation	Significant Unobservable
	2025	2024	Technique	Inputs
Company common stock	\$12,590,000	\$10,449,999	Income Market	EBITDA, net income, weighted average cost of capital, discount rate, discount for lack of marketability Privately held business, comparables, revenue multiple, EBITDA multiple, discount for lack of marketability

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Investment in Common Stock

The Plan's investments in the Company's common shares at December 31, are presented in the following table:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	325,000	675,000	280,000	720,000
Cost	\$ 3,377,299	\$ 7,014,389	\$ 2,909,673	\$ 7,482,015
Fair value	\$ 4,091,750	\$ 8,498,250	\$ 2,925,999	\$ 7,524,000

Standard Heating & Air Conditioning Employee Stock Ownership Plan

Notes to Financial Statements

5. Note Payable

In August 2021, the Plan purchased 900,000 shares of the Company's common stock with a note payable from the Company in the amount of \$9,352,519. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. The note matures in December 2040 and bears interest at a fixed rate of 1.89% . The borrowing is collateralized by the unallocated shares of Company common stock. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, multiplied by the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 45,000 shares being released and allocated for the plan years ended December 31, 2025 and 2024.

The scheduled amortization of the note payable for subsequent years is as follows:

Year	
2026	\$ 422,719
2027	430,708
2028	438,849
2029	447,143
2030	455,594
Thereafter	5,057,422
Total	\$ 7,252,435

6. Related-Party and Party In Interest Transactions

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan invests in Company common stock. These are related party and party in interest transactions. As described in Note 2, the Company may pay plan expenses. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Standard Heating & Air Conditioning Employee Stock Ownership Plan

Notes to Financial Statements

7. Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, the Company would direct the Trustee to pay all liabilities and expenses of the Plan and to sell shares of financed Company common stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan agreement and the IRC. In the event of Plan termination, participants would become 100 percent vested.

8. Tax Status

The IRS has determined and informed the Company by a letter dated June 5, 2024, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
