Mayville Engineering Company, Inc. Employee Stock Ownership Plan

Financial Statements and Supplemental Schedule

Year Ended December 31, 2025

Independent Auditor's Report

To the Plan Administrative Committee of the
Mayville Engineering Company, Inc. Employee Stock Ownership Plan
Milwaukee, Wisconsin

Opinion

We have audited the accompanying financial statements of Mayville Engineering Company, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1. Description of Plan

The following description of the Mayville Engineering Company, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Mayville Engineering Company, Inc. (the Company) established the Plan on June 1, 1985. The Plan operates as an employee stock ownership plan (ESOP), which invests in the Company's common stock. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

The Plan is a defined contribution plan covering substantially all employees of the Company. An employee becomes an ESOP participant on the December 31 coincidental with or the next following date on which the employee satisfies each of the following conditions: 1) attained the age of eighteen and 2) has completed at least 1,000 hours of service either within the first twelve months after the employee's date of hire or within any Plan year that commences after the employee's date of hire.

Contributions

The Company can make an annual discretionary contribution to the Plan in the form of cash or shares of common stock of the Company.

All contributions are discretionary and subject to the Board of Directors' approval. Company discretionary contributions are allocated among all eligible ESOP participants who completed at least 1,000 hours of service within each Plan year and were employed by the Company on the last day of the Plan year. Any employee who ceases to be an ESOP participant during the Plan year because of death, disability or retirement, in either case following completion of 1,000 hours of service, is eligible to share in the discretionary allocation even though the employee is not employed on the last day of the Plan year.

The Company did not make a discretionary ESOP contribution for the year ended December 31, 2025.

Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Voting Rights

A participant is entitled to direct the trustee as to the manner in which voting rights are exercised with respect to any corporate matter involving the voting of such shares. Any allocated Company stock for which voting instructions are not received is voted in the manner determined by the trustee.

Participant Accounts

The Plan is a noncontributory defined contribution plan under which a separate individual account is established for each participant. A participant's account balance consists of the allocated Plan assets which principally consists of Company common stock and each participant's account is credited with an allocation of the Company's contribution and Plan earnings (losses). Contributions are allocated based on the proportion of the participant's eligible compensation to the total eligible compensation for each participant as defined by the Plan. Plan earnings (losses) are allocated based on participant account balances, as defined by the Plan.

Vesting

Participants are 100% vested in the value of their accounts at all times. Participants are entitled to the balances in their accounts upon termination, retirement, disability or death based on the Plan's benefit payment options.

Plan Benefits

The Plan provides for normal retirement at age 65. Upon death, a participant's beneficiary is entitled to the entire amount credited to their account. Participants who have completed at least 10 years of service and have attained the age of 50 may elect to diversify their account balances and have the opportunity to transfer up to 50% of their ESOP balance into their Mayville Engineering Company, Inc. 401(k) Plan (MEC 401(k) Plan) account during the next five year period. After the five year election period, additional transfers are allowed, but are limited to 75% of their account balance.

Benefits are distributable commencing on the Company's designated annual distribution date upon retirement, death, or other termination of employment under a number of optional methods including cash distributions and the purchase of retirement annuity contracts. Vested balances of \$7 or less will be automatically paid in a lump-sum amount. Benefits in excess of \$7 are distributable on the annual distribution date for the plan year following the plan year in which the employee has been terminated.

Administration

The Company is the administrator of the Plan. GreatBanc Trust Company is appointed as independent trustee and custodian. USI is the Plan's independent third party administrator (TPA). The trustee and custodian are responsible for investing and safekeeping all of the Plan's assets. The TPA is responsible for the processing of distributions.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). Accordingly, the Plan's financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 – Fair Value Measurements for further discussion on fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Expenses

Administrative expenses may be paid either by the Plan or by the Company. Expenses paid by the Company are excluded from these financial statements.

Payments of Benefits

Benefits are recorded when paid.

Subsequent Events

Subsequent events have been evaluated through July 21, 2026, which is the date the financial statements were available to be issued.

Note 3. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 4. Plan Transfers

Plan transfers for the year ended December 31, 2025 consists of:

	2025
Transfers to MEC 401(k) Plan	\$ 10,696

Transfers to MEC 401(k) Under the diversification provisions of the Plan, participants who also participate in the MEC 401(k) Plan and meet certain eligibility requirements of the Plan are allowed to transfer a portion of their account balances from the Plan to the MEC 401(k) Plan.

In addition to the above, of the \$12,579 of benefits paid to participants listed on the Statement of Changes in Net Assets for Benefits, \$5,234 relates to rollover distributions made to the MEC 401(k) Plan.

Note 5. Investment in Mayville Engineering Company, Inc. Common Stock

The Plan's investment in Mayville Engineering Company, Inc. common stock as of December 31, 2025 and 2024 are presented in the following table:

	2025	2024
Mayville Engineering Company, Inc. common stock:		
Number of shares	1,903,861	3,474,467
Cost	\$ 7,490	\$ 11,803
Fair value	\$ 35,640	\$ 54,619

Note 6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Company Common Stock – Valued at the daily closing price as recorded by the New York Stock Exchange.

As of December 31, 2025 and 2024, the fair market values per share of the Company common stock were \$18.72 and \$15.72, respectively.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025:

2025				
	Level 1	Level 2	Level 3	Total
Company common stock	\$ 35,640	\$ —	\$ —	\$ 35,640
Total investments at fair value	<u>\$ 35,640</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 35,640</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2024:

2024				
	Level 1	Level 2	Level 3	Total
Company common stock	\$ 54,619	\$ —	\$ —	\$ 54,619
Total investments at fair value	<u>\$ 54,619</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 54,619</u>

Note 7. Tax Status

The IRS has determined and informed the Company by a letter, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken a significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Related Party and Party-in-Interest Transactions

All transactions between the Company, the trustee, and the participants are considered party-in-interest transactions. At December 31, 2025 and 2024, the Plan held 1,903,856 and 3,474,467 shares of common stock, respectively.

Certain employees and officers of the Company, who are also participants in the Plan, perform administrative services to the Plan at no cost to the Plan.

Note 9. Risks and Uncertainties

The Plan investments consist of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks.

Due to the level of risk associated with the investment in the common stock, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.
