INDEPENDENT AUDITOR'S REPORT

To the Plan Participants and Plan Administrator of the Microsoft Corporation Savings Plus 401(k) Plan

Opinion

We have audited the financial statements of Microsoft Corporation Savings Plus 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025, and 2024, and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025, and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2025, and supplemental schedule of delinquent participant contributions for the year ended December 31, 2025, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS

NOTE 1 — DESCRIPTION OF THE PLAN AND ACCOUNTING POLICIES

Plan Description

The Microsoft Corporation Savings Plus 401(k) Plan (the “Plan”), a defined contribution plan, is sponsored by Microsoft Corporation (the “Company” or “Microsoft”). Participating employers included in the Plan are Microsoft Corporation; MOL Corporation; Vexcel Corporation; Microsoft Online, Inc.; Undead Labs; LinkedIn Corporation; GitHub, Inc.; inXile Entertainment, Inc. (“inXile”); Double Fine Productions (“Double Fine”); Obsidian Entertainment, Inc.; and ZeniMax Media Inc. These entities represent Microsoft or wholly owned subsidiaries of Microsoft. The Plan year is January 1 through December 31. The Plan is administered by the 401(k) Administrative Committee (the “Plan Administrator”) and subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Fidelity Management Trust Company (“Fidelity”) is the trustee and third-party administrator for the Plan. The information below summarizes certain aspects of the Plan as in effect during 2025, and is intended to be a summary only. Plan participants should refer to the Summary Plan Description for more complete information.

Accounting Principles

The financial statements and accompanying notes are prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Eligibility

Regular and retail services employees of participating employers who are on U.S. payroll and have reached age 18 may enroll in the Plan at any time.

Eligible Compensation

Eligible compensation includes wages, salary, bonuses, commissions, and overtime. Compensation does not include, for example, items such as amounts earned with respect to any equity-based compensation plan, program, grant, award, or benefit, reimbursements or other expense allowances, fringe benefits (cash and noncash), moving expenses, deferred compensation, welfare plan benefits including health or life insurance, severance plan payments, unused accrued vacation payments, or bonuses or expense allowances which are not based upon performance as an employee.

Contributions

Participant Contributions

Participants may contribute to the Plan on a pre-tax and/or Roth basis using eligible compensation each pay period, subject to statutory and regulatory limitations. Participants reaching age 50 or older by the end of the Plan year may also make additional catch-up contributions to the Plan on a pre-tax and/or Roth basis. During 2025, the maximum annual 401(k) pre-tax and Roth contribution limit was \$23,500, and the maximum annual catch-up contribution to the Plan was \$7,500. Additionally, participants could contribute up to \$34,750 for 2025 on an after-tax basis. A participant’s aggregate contribution election (combined pre-tax, Roth, pre-tax catch-up, Roth catch-up, and after-tax) may not exceed 65 percent of his or her eligible compensation per pay period. Participants may elect to suspend or reinstate their contributions at any time. The Plan is required to return contributions received during the Plan year in excess of such limits.

Participants may choose to make rollover contributions to the Plan of amounts received from an eligible employer plan maintained by another company, including direct rollovers from such plans. Participants may also make rollover contributions to the Plan from an individual retirement account (“IRA”) or annuity described in Internal Revenue Code (“IRC”) Section 408(a), 408(b), 408(k), or 408(p) that is eligible to be rolled over and would otherwise be includible in gross income.

Participant contributions are recorded when withheld.

Employer Contributions

The Company and all other participating employers excluding inXile and Double Fine provide participants with a matching contribution on eligible pre-tax and/or Roth contributions of \$0.50 for every \$1.00 contributed. For inXile and Double Fine, the participating employer provides participants with a matching contribution on eligible pre-tax and/or Roth contributions of \$0.25 for every \$1.00 contributed. The matching contribution is provided for up to 50 percent, or 25 percent for inXile and Double Fine, of the maximum annual 401(k) pre-tax and Roth Internal Revenue Service ("IRS") contribution limit (not including catch-up contributions). Participants do not receive a match on after-tax contributions.

Employer matching contributions are recorded when participant contributions are withheld.

Employee Stock Ownership Plan Feature

The Plan includes an Employee Stock Ownership Plan ("ESOP") feature for the portion of the Plan designed to invest primarily in Microsoft Common Stock. The ESOP feature allows participants to either reinvest their cash dividends earned on Microsoft Common Stock or receive those dividends in cash. Amounts invested in Microsoft Common Stock are treated as being held through the ESOP, provided that at the time such amounts were received by the Plan (e.g., through contributions or transfers), the participants whose Plan accounts received such assets were employed by Microsoft or a corporation that is part of the same controlled group of corporations as Microsoft.

Participants who are not employed by an employer established as a corporation that is part of the same controlled group of corporations as Microsoft may not participate in the ESOP, but may have their Plan accounts invested in Microsoft Common Stock to the same extent as other participants. However, such participants that are not eligible to participate in the ESOP feature are not eligible to receive dividends on Microsoft Common Stock in cash paid directly to them. Instead, dividends paid on amounts they have invested in Microsoft Common Stock will automatically be reinvested in Microsoft Common Stock.

Effective January 1, 2016, the investment of new contributions or transfer of existing account holdings into Microsoft Common Stock within the Plan was discontinued. Participant accounts with existing Microsoft Common Stock can retain those holdings, dividends on Microsoft Common Stock can continue to be reinvested or received in cash, and cash that the Plan accumulates over time in the trading of Microsoft Common Stock in the Plan is also allocated to the Participants' accounts and reinvested.

Participant Accounts

Each participant's account is credited with (a) participant contributions and employer contributions, and (b) the allocation of investment earnings, gains and losses, and expenses, based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All amounts in participant accounts are participant-directed. Participants may invest in various instruments including mutual funds, common collective trusts, and separately managed accounts. Participants also have the option to direct their investments through a brokerage account.

Vesting

Participants are fully vested in Plan accounts at all times.

Distributions

Active participants may take a withdrawal from the Plan in the event of a financial hardship. A hardship withdrawal is limited to the amount necessary to meet the participant's immediate financial need. Hardship withdrawals are further limited to contributions, and earnings thereon, to participants' pre-tax, pre-tax catch-up, Roth, and Roth catch-up accounts.

Active participants may also generally take a withdrawal at any time from their rollover and after-tax accounts within the Plan. After reaching age 59½, active participants may withdraw all, or any portion, of the balance in their accounts. Distributions, in full or any portion, may also occur if the participant terminates employment, retires, becomes permanently disabled, or dies. Distributions of investments in Microsoft Common Stock may be taken in the form of Microsoft Common Stock or cash. Distributions may be made in installments.

Participants may also withdraw all, or any portion, of their pre-tax and Roth contributions during a leave of absence to perform qualified military service of at least 30 days, subject to a six-month suspension on future non-rollover contributions to the Plan, or if they elect a qualified reservist distribution. The distribution generally must be made in a single lump sum cash payment, except that distributions of investments in Microsoft Common Stock may be taken in the form of Microsoft Common Stock or cash.

In-Plan Roth Conversions

Active and terminated participants may convert any Plan balances (other than outstanding loans) to a Roth account within the Plan.

Administrative Expenses

Plan administrative expenses are paid by the Company to the extent not paid or offset by the Plan. Participants are responsible for fees associated with certain transactions or services they utilize, such as loan originations and maintenance, domestic relations order qualifications, dividend check processing, overnight check fees, and professional management service fees. Participants also pay commission charges to Fidelity for buying and selling Microsoft Common Stock within the Plan.

Plan Amendment and Termination

The Company has the right to amend or terminate the Plan. If the Plan is terminated, all account balances will be distributed in the form and manner determined by the Plan Administrator.

Risks and Uncertainties

The Plan utilizes various investment instruments, such as common stock, mutual funds, common collective trusts, and separately managed accounts, including a stable value fund. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, including systemic market disruptions and geopolitical events, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Estimates and Assumptions

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results and outcomes may differ from management's estimates and assumptions due to risks and uncertainties. The Plan has no contingent assets or liabilities for any periods presented in these financial statements.

Valuation of Investments and Income (Loss) Recognition

Investments are recorded at fair value with the exception of fully benefit-responsive investment contracts, which are reported at contract value. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Security transactions are accounted for as of the trade date. Dividend income is recorded on the ex-dividend date, and interest income is recorded as earned. Net increase in fair value of investments includes the Plan's gains and losses on investments bought, sold, and held during the year.

Participant Loans

Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest, and participant loans deemed distributed due to default are included in benefits paid to participants on the statement of changes in net assets available for benefits.

Receivables and Payables

As of December 31, 2025 and 2024, operating payables primarily consisted of accrued investment management expenses for the separately managed accounts. Other receivables and payables primarily consisted of unsettled trades. Other receivables also included accrued interest.

NOTE 2 — FAIR VALUE MEASUREMENTS

The Plan accounts for certain assets and liabilities at fair value. The hierarchy below lists three levels of fair value based on the extent to which inputs used in measuring fair value are observable in the market. The Plan categorizes each of its fair value measurements in one of these three levels based on the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

- Level 1 – inputs are based upon unadjusted quoted prices for identical instruments in active markets. The Plan's Level 1 non-derivative investments primarily include domestic and international equities, mutual funds, and U.S. government securities. The Plan's Level 1 derivative assets include those actively traded on exchanges.
- Level 2 – inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques (e.g. the Black-Scholes model) for which all significant inputs are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Where applicable, these models project future cash flows and discount the future amounts to a present value using market-based observable inputs including interest rate curves, credit spreads, foreign exchange rates, and forward and spot prices for currencies and commodities. The Plan's Level 2 non-derivative investments consist primarily of mutual funds in the Plan's separately managed accounts. These mutual funds are registered under the Investment Company Act of 1940 but are not registered under the Securities Act of 1933 and the prices are made available directly from the investment manager. The Plan's Level 2 derivative assets and liabilities primarily include certain over-the-counter option and currency contracts.
- Level 3 – inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques, including option pricing models and discounted cash flow models. As of December 31, 2025 and 2024, the Plan did not hold any financial instruments categorized as Level 3.

Mutual funds are valued at the closing price as reported by the fund. Common stocks are valued at the closing price reported on the active markets on which the individual securities are traded. Brokerage account holdings include a variety of common stocks and mutual funds.

Common collective trusts are valued using the Net Asset Value ("NAV") as a practical expedient and are not categorized in the fair value hierarchy. NAV is provided by the fund's issuer and is based on the fair value of the underlying investments held by the fund less its liabilities. In the event the Plan were to initiate a full redemption of a common collective trust, the fund's issuer reserves the right to temporarily delay withdrawal from the common collective trust in order to ensure that securities liquidations will be carried out in an orderly business manner. The common collective trusts have no unfunded commitments, other redemption restrictions, or redemption notice periods. The underlying portfolios of the common collective trusts are comprised of a mix of stocks, bonds, commodities, and cash.

One of the common collective trusts, the State Street Government Short Term Investment Fund ("SSBK Govt STIF Fund"), does not file as a direct filing entity with the Department of Labor. The investment strategy of this fund is to provide safety of principal, daily liquidity, and a competitive yield over the long term. The SSBK Govt STIF Fund invests primarily in repurchase agreements and U.S. Treasury obligations.

NOTE 3 — FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Plan offers participants a stable value investment option (the “Stable Value Account”) that invests a small portion in a money market fund and the remainder in synthetic guaranteed investment contracts (“GICs”). The money market portion is reported at fair value. The synthetic GICs meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value, which is the amount that participants would receive if permitted transactions under the terms of the Plan were initiated for withdrawals. Generally, contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

Synthetic GICs pair Plan-owned fixed income investments with an insurance-like feature known as a “wrap contract” issued by a bank or life insurance company. The crediting interest rate of each wrap contract is determined by a formula agreed upon with the synthetic GIC issuers and is guaranteed to not fall below zero percent. The crediting rate of each synthetic GIC resets every month based on the performance of the underlying investment portfolio. To the extent that the Stable Value Account has unrealized gains and losses, the interest crediting rate may differ from then-current market rates.

Certain events might limit the ability of the Plan to transact at contract value with the synthetic GIC issuer, which could result in a lower or negative return for the Stable Value Account notwithstanding the guaranteed crediting interest rate noted above. These events could be different under each synthetic GIC. Such events include layoffs, divestitures, voluntary or involuntary reductions in workforce, Plan termination or merger, or other events that are outside the normal operation of the Plan that causes a withdrawal from a synthetic GIC.

The Plan's ability to receive payment under fully benefit-responsive investment contracts depends on each issuer's financial stability, which may be influenced by future economic and regulatory developments.

In addition, certain events allow the issuer to terminate the synthetic GIC with the Plan and settle at an amount different from contract value. Those events could be different under each synthetic GIC. Such events include a change in qualification status of a participant, an employer, or the Plan; a breach of material obligations under the synthetic GIC and misrepresentation by the contract holder; or failure of the underlying portfolio to conform to the pre-established investment guidelines. Plan management does not believe that the occurrence of any events that might limit the Plan's ability to transact at contract value with the synthetic GIC issuer, or allow the issuer to terminate the synthetic GIC, is probable.

NOTE 4 — DERIVATIVES

Investment managers acting under the Plan use derivative instruments to manage risks related to foreign currencies and interest rates, to enhance investment returns for the Plan, and to facilitate Plan portfolio diversification. The Plan's derivatives consisted of over-the-counter foreign exchange forward contracts and exchange-traded futures contracts, as well as put and call options, for which no hedge accounting treatment is applied. The related notional amounts, gross fair values, and amounts recognized in earnings were immaterial as of December 31, 2025 and 2024 and for the year ended December 31, 2025. These derivative instruments are primarily a component of the "Other" caption of separately managed accounts in Note 2 – Fair Value Measurements.

NOTE 5 — PARTICIPANT LOANS

Participant loans are available in \$100 increments ranging from \$1,000 to \$50,000. The maximum loan amount is the lesser of (a) 50 percent of the vested account balance, reduced by the current outstanding balance of all other loans from the Plan; or (b) \$50,000, reduced by: (1) the current outstanding balance of all other loans from the Plan, and (2) the excess (if any) of all Plan loans during the previous 12 months over the current outstanding balance of Plan loans. When determining the maximum loan amount available under the Plan, outstanding loan balances under any subsidiary and affiliate Microsoft retirement plans are considered in conjunction with the Plan. Participants are limited to two loans – one Primary Residence Loan and one General Loan. The term of a Primary Residence Loan may not exceed 15 years (or 30 years for certain acquired legacy loans) or be less than 12 months. The term of a General Loan may not exceed five years (or 15 years for certain acquired legacy loans) or be less than 12 months.

The interest rate for participant loans is one percent plus the prime rate on corporate loans. The range of interest rates for outstanding Primary Residence Loans as of December 31, 2025 was 3.25 percent to 9.50 percent, maturing at various dates through February 2044. The range of interest rates for outstanding General Loans as of December 31, 2025 was 4.25 percent to 9.50 percent, maturing at various dates through January 2031.

Loan repayments are made through after-tax payroll deductions. Terminated employees generally have 60 days to elect to continue to make loan repayments or pay off the loan in full. Failure of the terminated employee to set up monthly electronic loan payments or pay off the loan in full during this 60-day window generally results in a default of the loan, which is taxable income to the participant, with a possible 10 percent early withdrawal penalty. Terminated employees who roll over their Plan account balance to an IRA, Roth IRA, or other employer plan during this 60-day window may avoid such taxable income and 10 percent early withdrawal penalty if they pay off the outstanding loan balance to the rollover recipient IRA custodian or employer plan by the due date (including extensions) for filing their federal income tax return for the year in which the rollover occurred.

NOTE 6 — TAX STATUS

The IRS has determined and informed the Plan, by a letter dated October 7, 2022, that the Plan is qualified as a tax-exempt plan under the appropriate sections of the IRC. The determination letter covered Plan amendments adopted from December 19, 2013 through December 15, 2021, and the trust agreement with Fidelity adopted on July 19, 2013. The Plan has been amended since the last date that was covered by the determination letter; however, the Plan Administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC. Therefore, the Plan is tax-exempt as of the financial statement date and no provision for income taxes has been recorded in the financial statements.

NOTE 7 — PARTY-IN-INTEREST TRANSACTIONS

Exempt Party-In-Interest Transactions

Plan investments include common collective trusts and fixed income instruments that are managed by affiliates of Fidelity; therefore, these transactions qualify as party-in-interest transactions. Fees paid for investment management services were included as a reduction of the return earned on each fund.

The Stable Value Account is managed by Invesco Advisers, Inc. ("Invesco") and its affiliate Invesco Trust Company ("ITC"). A portion of the Stable Value Account is invested in the Invesco Short Term Investment Fund ("Invesco STIF"). Accordingly, transactions involving the Invesco STIF constitute party-in-interest transactions. Fees paid for investment management services were included as a reduction of the return earned on the fund, with no incremental management fee on the Invesco STIF allocation. These transactions involving the Invesco STIF are permitted under the Plan, conducted in accordance with applicable ERISA provisions, and exempt party-in-interest transactions under ERISA.

Transactions in Microsoft Common Stock also qualify as party-in-interest transactions. As of December 31, 2025 and 2024, the Plan held 10,633,640 shares of Microsoft Common Stock valued at \$5,142,641,059 and 12,013,574 shares of Microsoft Common Stock valued at \$5,063,721,519, respectively. During the year ended December 31, 2025, the Plan recorded Microsoft Common Stock dividend income of \$38,458,044.

Participant loans, which are secured by the vested balances in the participants' accounts, also qualify as party-in-interest transactions.

Nonexempt Party-In-Interest Transactions

There was one instance in 2025 when the Plan, due to administrative errors, remitted some participants' contributions to Fidelity later than required under Department of Labor Regulation Sec. 2510.3-102. The late remittance was promptly discovered, funded, and self-corrected, and was timely reported on IRS Form 5330, with payment of applicable excise taxes. The impacted participant accounts were credited by an amount representing investment income that would have been earned had the participant contributions been remitted on a timely basis. The aggregate amount of late contributions in 2025 totaled \$46,597, all of which was remediated in 2026, resulting in credits to participant accounts of \$27 in 2026.

NOTE 8 — RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
