Independent Auditors' Report

To the Plan Administrators of
USANA Health Sciences 401(k) Plan

Opinion on the Financial Statements

We have audited the accompanying financial statements of the USANA Health Sciences 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of USANA Health Sciences 401(k) Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year), referred to as "supplemental information," is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

USANA HEALTH SCIENCES 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A – DESCRIPTION OF THE PLAN

The following description of the USANA Health Sciences 401(k) Plan (the “Plan”) provides only general information. Participants and other financial statement users should refer to the Plan document, as amended, and summary plan description for a more complete description of the Plan’s provisions.

1. General

The Plan is a defined contribution plan covering substantially all United States non-union employees of USANA Health Sciences, Inc. (collectively, the “Company” or the “Employer”) who have completed one month of service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended, and permits traditional 401(k) deferrals (pre-tax) as well as Roth 401(k) deferrals (after-tax).

The trustee for the 2025 and 2024 Plan year is Fidelity Management Trust Company (“Fidelity” or “Trustee”) and the recordkeeping functions were performed by Fidelity Workplace Services, LLC.

On December 29, 2022, the Setting Every Community Up for Retirement Enhancement Act 2.0 (“SECURE 2.0”) was signed into law, continuing the themes and reforms that began with the 2019 CARES Act. Many of the provisions of SECURE 2.0 became effective in 2024, including mandatory and optional provisions impacting defined contribution plans. The plan has adopted all of the applicable mandatory provisions, including increasing the age at which required minimum distributions start, eliminating the required minimum distributions for Roth 401(k) accounts, and new spousal beneficiary rules.

2. Contributions

Each year participants may elect to contribute up to 75 percent of their annual compensation subject to certain limits as defined in the Plan. Participant contributions are limited by the Internal Revenue Code, which established a maximum contribution of \$23,500 (\$31,000 for participants age 50 or older and \$34,750 for participants age 60 through 63 during 2025) for the year ended December 31, 2025. Participants may elect to make pre-tax contributions and/or after-tax elective contributions into their accounts. Participants may also contribute rollover amounts representing distributions from certain other defined benefit or defined contribution plans. Under the safe harbor and certain other provisions of the Plan, eligible employees who have not made an affirmative election to defer or not defer will have deferrals withheld in the amount of 6 percent of their compensation, to be invested in the appropriate target date retirement fund. Participants may direct their investments into one or more of the investment options offered by the Plan, with no more than 25 percent of their investment allocations directed into shares of the USANA Health Sciences, Inc. Stock Fund (“Stock Fund”).

The Company provides a matching contribution equal to 100 percent of the first 1 percent of a participant’s compensation that is contributed as an elective deferral by the participant, and 50 percent of elective deferrals between one and 6 percent of the participant’s compensation. The Company’s Board of Directors may also authorize additional contributions to the Plan. No additional contributions were authorized during the year ended December 31, 2025.

3. Participant accounts

Self-directed individual investment accounts are maintained for each Plan participant. Each participant’s account is adjusted for the participant’s contributions and allocations of (a) the Company’s contributions, (b) investment gains or losses, (c) interest and dividends, and (d) administrative expenses. The allocation of the Company’s discretionary contributions and forfeitures is based on each participant’s contribution, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

4. Vesting

Participants are fully vested in their voluntary contributions, including any net investment income on those contributions. The Company's matching contributions fully vest at the end of two years of service. Non-elective employer contributions vest 25% at the end of each year and are fully vested after four years of service.

5. Notes receivable from participants

A participant may borrow a minimum of \$1,000 through up to a maximum of three loans, that in the aggregate are equal to the lesser of \$50,000 or 50 percent of his or her vested account balance. Loans are secured by the balances in the participants' accounts and bear interest at rates ranging from 4.25 percent to 9.50 percent, which rates were commensurate with prevailing rates at the time of loan origination. Principal and interest are paid ratably through payroll deductions. Loans are re-paid over a five-year period, unless the loans were used to purchase a principal residence, in which case the payback period may not exceed 30 years. As of December 31, 2025, the Plan had outstanding loans to participants with maturities ranging from 2026 through 2054.

6. Benefits paid to participants

On termination of service due to death, permanent disability, or retirement, a participant or beneficiary may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, the Plan will automatically make a lump-sum distribution of the value of the participant's vested interest in his or her account where the account balance is less than \$7,000. Hardship withdrawals are allowed for participants incurring a "specific and heavy financial need," as defined by the Plan. Hardship withdrawals are strictly regulated under the Internal Revenue Code and the regulations thereunder, and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

7. Forfeited accounts

Forfeited accounts related to the Company's matching contributions may be used to pay any administrative expenses or used to reduce any future Employer matching contributions. The table below provides a reconciliation of the balance of forfeited accounts as of and for the year ended December 31, 2025.

Balance as of December 31, 2024	\$ 174,187
Forfeitures	65,840
Employer matching contributions	(172,468)
Earnings on forfeited account balance	3,997
Administrative expenses	(42,087)
Balance as of December 31, 2025	<u>\$ 29,469</u>

During the year ended December 31, 2025, \$172,468 of forfeitures were used to reduce Employer matching contributions and \$42,087 forfeitures were used to pay administrative expenses.

8. Expenses

The Company, as the Plan Sponsor, pays certain administrative expenses of the Plan. The expenses paid by Plan participants or from the forfeiture account totaled \$218,116, which are reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2025.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of accounting

The financial statements of the Plan are presented using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

2. Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires Plan management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits at the date of the financial statements, the changes in net assets available for benefits during the reporting period and, when applicable, the disclosure of contingent assets and liabilities at the date of the financial statements. Key estimates include determination of the fair value of investments. Actual results may differ from estimates and assumptions made.

3. Investment valuation and income recognition

The Plan’s investments are stated at fair value. Quoted market prices are used to value investments in shares of mutual funds and the Stock Fund. Units of the collective investment fund are valued at net asset value, which approximates fair value, using daily market information. Net appreciation (depreciation) caused by fluctuations in the value of investments is reflected in the statement of changes in net assets available for benefits. Amounts invested may earn interest and dividends, which in turn are reinvested.

Purchases and sales of securities are recorded on a trade-date basis. Income from interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Earnings and losses within each fund are allocated to participants based on their proportionate shares in the fund.

In general, the Plan’s securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

4. Notes receivable from participants

Notes receivable from participants represent participant loans and are valued at their unpaid principal balance plus any accrued but unpaid interest, which approximates fair value. As of December 31, 2025 and December 31, 2024, no allowances for credit losses had been recorded. If a participant ceases to make loan repayments and the Plan Administrators deem the note receivable from a participant to be a distribution, the note receivable balance is reduced and a benefit payment is recorded.

5. Benefits paid to participants

Benefits are recorded when paid. As of December 31, 2025 and December 31, 2024, there were no distributions that had been requested but not paid.

6. Subsequent Events

Plan management has evaluated events occurring subsequent to year-end through June 12, 2026, which is the date the financial statements were available to be issued.

NOTE C – FAIR VALUE MEASUREMENTS

The Plan reports investments in accordance with established authoritative guidance, which requires a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date.

The three levels are defined as follows:

- Level 1 inputs are quoted market prices in active markets for identical assets or liabilities that are accessible at the measurement date.
- Level 2 inputs are from other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable and are used to measure fair value in situations where there is little, if any, market activity for the asset or liability at the measurement date.

Mutual funds are valued at the total market value of the underlying assets based upon the publicly quoted price of each fund multiplied by the respective number of units held as of the measurement date and are classified as Level 1 investments.

The Stock Fund is a unitized stock fund consisting primarily of the Company's common stock, and cash for daily liquidity purposes. The Stock Fund is classified as Level 1, as the total fair value is equal to the quoted market value of total common stock plus the carrying amount of cash, which approximates fair value. The cash balance held by the Plan was \$1,038 and \$1,068 as of December 31, 2025 and December 31, 2024, respectively.

In accordance with Subtopic 820-10, the collective investment fund is measured using the net asset value per unit as a practical expedient and is therefore not classified in the fair value hierarchy.

Redemption frequency for the collective investment fund is immediate, contains no unfunded commitments, and has no redemption restrictions.

NOTE D – EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Plan assets include common stock of the Company. Transactions with respect to shares of the Company's common stock qualify as party-in-interest transactions. As of December 31, 2025 and December 31, 2024, the Plan held 67,114 shares of the Company's common stock in the Stock Fund with a value of \$19.63 per share, and 68,577 shares of the Company's common stock in the Stock Fund with a value of \$35.89 per share, respectively.

Notes receivable from participants as of December 31, 2025 and December 31, 2024, were \$2,284,606 and \$2,400,566, respectively. Notes receivable are considered party-in-interest transactions. Interest income pertaining to notes receivable from participants totaled \$188,179 for 2025.

Certain Plan investments are shares in registered investment company funds managed by Fidelity Investments, an affiliate of the Trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

NOTE E – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue the Company's contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100 percent vested in their accounts.

NOTE F – TAX STATUS

The Plan has adopted a non-standardized prototype plan for which the Internal Revenue Service ("IRS") has issued a favorable opinion letter covering the qualification of the Plan. The Plan Administrators and the Plan's tax counsel do not anticipate that changes in the Plan after the date of the IRS opinion letter will affect the qualified and tax-exempt status of the Plan. Accordingly, the financial statements of the Plan do not include provisions, assets or liabilities related to income taxes.

U.S. GAAP requires management to evaluate income tax positions taken by the Plan and to recognize an income tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by taxing authorities. The Plan Administrators analyzed the tax positions taken by the Plan and have concluded that as of December 31, 2025 and December 31, 2024, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by tax jurisdictions for tax years for which the applicable statutes of limitations have not expired; however, there are currently no audits for any tax periods in progress.

Independent Auditors' Report

To the Plan Administrators of
USANA Health Sciences 401(k) Plan

Opinion on the Financial Statements

We have audited the accompanying financial statements of the USANA Health Sciences 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of USANA Health Sciences 401(k) Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with US GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year), referred to as "supplemental information," is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

USANA HEALTH SCIENCES 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE A – DESCRIPTION OF THE PLAN

The following description of the USANA Health Sciences 401(k) Plan (the “Plan”) provides only general information. Participants and other financial statement users should refer to the Plan document, as amended, and summary plan description for a more complete description of the Plan’s provisions.

1. General

The Plan is a defined contribution plan covering substantially all United States non-union employees of USANA Health Sciences, Inc. (collectively, the “Company” or the “Employer”) who have completed one month of service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended, and permits traditional 401(k) deferrals (pre-tax) as well as Roth 401(k) deferrals (after-tax).

The trustee for the 2025 and 2024 Plan year is Fidelity Management Trust Company (“Fidelity” or “Trustee”) and the recordkeeping functions were performed by Fidelity Workplace Services, LLC.

On December 29, 2022, the Setting Every Community Up for Retirement Enhancement Act 2.0 (“SECURE 2.0”) was signed into law, continuing the themes and reforms that began with the 2019 CARES Act. Many of the provisions of SECURE 2.0 became effective in 2024, including mandatory and optional provisions impacting defined contribution plans. The plan has adopted all of the applicable mandatory provisions, including increasing the age at which required minimum distributions start, eliminating the required minimum distributions for Roth 401(k) accounts, and new spousal beneficiary rules.

2. Contributions

Each year participants may elect to contribute up to 75 percent of their annual compensation subject to certain limits as defined in the Plan. Participant contributions are limited by the Internal Revenue Code, which established a maximum contribution of \$23,500 (\$31,000 for participants age 50 or older and \$34,750 for participants age 60 through 63 during 2025) for the year ended December 31, 2025. Participants may elect to make pre-tax contributions and/or after-tax elective contributions into their accounts. Participants may also contribute rollover amounts representing distributions from certain other defined benefit or defined contribution plans. Under the safe harbor and certain other provisions of the Plan, eligible employees who have not made an affirmative election to defer or not defer will have deferrals withheld in the amount of 6 percent of their compensation, to be invested in the appropriate target date retirement fund. Participants may direct their investments into one or more of the investment options offered by the Plan, with no more than 25 percent of their investment allocations directed into shares of the USANA Health Sciences, Inc. Stock Fund (“Stock Fund”).

The Company provides a matching contribution equal to 100 percent of the first 1 percent of a participant’s compensation that is contributed as an elective deferral by the participant, and 50 percent of elective deferrals between one and 6 percent of the participant’s compensation. The Company’s Board of Directors may also authorize additional contributions to the Plan. No additional contributions were authorized during the year ended December 31, 2025.

3. Participant accounts

Self-directed individual investment accounts are maintained for each Plan participant. Each participant’s account is adjusted for the participant’s contributions and allocations of (a) the Company’s contributions, (b) investment gains or losses, (c) interest and dividends, and (d) administrative expenses. The allocation of the Company’s discretionary contributions and forfeitures is based on each participant’s contribution, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

4. Vesting

Participants are fully vested in their voluntary contributions, including any net investment income on those contributions. The Company's matching contributions fully vest at the end of two years of service. Non-elective employer contributions vest 25% at the end of each year and are fully vested after four years of service.

5. Notes receivable from participants

A participant may borrow a minimum of \$1,000 through up to a maximum of three loans, that in the aggregate are equal to the lesser of \$50,000 or 50 percent of his or her vested account balance. Loans are secured by the balances in the participants' accounts and bear interest at rates ranging from 4.25 percent to 9.50 percent, which rates were commensurate with prevailing rates at the time of loan origination. Principal and interest are paid ratably through payroll deductions. Loans are re-paid over a five-year period, unless the loans were used to purchase a principal residence, in which case the payback period may not exceed 30 years. As of December 31, 2025, the Plan had outstanding loans to participants with maturities ranging from 2026 through 2054.

6. Benefits paid to participants

On termination of service due to death, permanent disability, or retirement, a participant or beneficiary may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, the Plan will automatically make a lump-sum distribution of the value of the participant's vested interest in his or her account where the account balance is less than \$7,000. Hardship withdrawals are allowed for participants incurring a "specific and heavy financial need," as defined by the Plan. Hardship withdrawals are strictly regulated under the Internal Revenue Code and the regulations thereunder, and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

7. Forfeited accounts

Forfeited accounts related to the Company's matching contributions may be used to pay any administrative expenses or used to reduce any future Employer matching contributions. The table below provides a reconciliation of the balance of forfeited accounts as of and for the year ended December 31, 2025.

Balance as of December 31, 2024	\$ 174,187
Forfeitures	65,840
Employer matching contributions	(172,468)
Earnings on forfeited account balance	3,997
Administrative expenses	(42,087)
Balance as of December 31, 2025	<u>\$ 29,469</u>

During the year ended December 31, 2025, \$172,468 of forfeitures were used to reduce Employer matching contributions and \$42,087 forfeitures were used to pay administrative expenses.

8. Expenses

The Company, as the Plan Sponsor, pays certain administrative expenses of the Plan. The expenses paid by Plan participants or from the forfeiture account totaled \$218,116, which are reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2025.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of accounting

The financial statements of the Plan are presented using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

2. Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires Plan management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits at the date of the financial statements, the changes in net assets available for benefits during the reporting period and, when applicable, the disclosure of contingent assets and liabilities at the date of the financial statements. Key estimates include determination of the fair value of investments. Actual results may differ from estimates and assumptions made.

3. Investment valuation and income recognition

The Plan’s investments are stated at fair value. Quoted market prices are used to value investments in shares of mutual funds and the Stock Fund. Units of the collective investment fund are valued at net asset value, which approximates fair value, using daily market information. Net appreciation (depreciation) caused by fluctuations in the value of investments is reflected in the statement of changes in net assets available for benefits. Amounts invested may earn interest and dividends, which in turn are reinvested.

Purchases and sales of securities are recorded on a trade-date basis. Income from interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Earnings and losses within each fund are allocated to participants based on their proportionate shares in the fund.

In general, the Plan’s securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

4. Notes receivable from participants

Notes receivable from participants represent participant loans and are valued at their unpaid principal balance plus any accrued but unpaid interest, which approximates fair value. As of December 31, 2025 and December 31, 2024, no allowances for credit losses had been recorded. If a participant ceases to make loan repayments and the Plan Administrators deem the note receivable from a participant to be a distribution, the note receivable balance is reduced and a benefit payment is recorded.

5. Benefits paid to participants

Benefits are recorded when paid. As of December 31, 2025 and December 31, 2024, there were no distributions that had been requested but not paid.

6. Subsequent Events

Plan management has evaluated events occurring subsequent to year-end through June 12, 2026, which is the date the financial statements were available to be issued.

NOTE C – FAIR VALUE MEASUREMENTS

The Plan reports investments in accordance with established authoritative guidance, which requires a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date.

The three levels are defined as follows:

- Level 1 inputs are quoted market prices in active markets for identical assets or liabilities that are accessible at the measurement date.
- Level 2 inputs are from other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable and are used to measure fair value in situations where there is little, if any, market activity for the asset or liability at the measurement date.

Mutual funds are valued at the total market value of the underlying assets based upon the publicly quoted price of each fund multiplied by the respective number of units held as of the measurement date and are classified as Level 1 investments.

The Stock Fund is a unitized stock fund consisting primarily of the Company's common stock, and cash for daily liquidity purposes. The Stock Fund is classified as Level 1, as the total fair value is equal to the quoted market value of total common stock plus the carrying amount of cash, which approximates fair value. The cash balance held by the Plan was \$1,038 and \$1,068 as of December 31, 2025 and December 31, 2024, respectively.

In accordance with Subtopic 820-10, the collective investment fund is measured using the net asset value per unit as a practical expedient and is therefore not classified in the fair value hierarchy.

Redemption frequency for the collective investment fund is immediate, contains no unfunded commitments, and has no redemption restrictions.

NOTE D – EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Plan assets include common stock of the Company. Transactions with respect to shares of the Company's common stock qualify as party-in-interest transactions. As of December 31, 2025 and December 31, 2024, the Plan held 67,114 shares of the Company's common stock in the Stock Fund with a value of \$19.63 per share, and 68,577 shares of the Company's common stock in the Stock Fund with a value of \$35.89 per share, respectively.

Notes receivable from participants as of December 31, 2025 and December 31, 2024, were \$2,284,606 and \$2,400,566, respectively. Notes receivable are considered party-in-interest transactions. Interest income pertaining to notes receivable from participants totaled \$188,179 for 2025.

Certain Plan investments are shares in registered investment company funds managed by Fidelity Investments, an affiliate of the Trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

NOTE E – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue the Company's contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100 percent vested in their accounts.

NOTE F – TAX STATUS

The Plan has adopted a non-standardized prototype plan for which the Internal Revenue Service ("IRS") has issued a favorable opinion letter covering the qualification of the Plan. The Plan Administrators and the Plan's tax counsel do not anticipate that changes in the Plan after the date of the IRS opinion letter will affect the qualified and tax-exempt status of the Plan. Accordingly, the financial statements of the Plan do not include provisions, assets or liabilities related to income taxes.

U.S. GAAP requires management to evaluate income tax positions taken by the Plan and to recognize an income tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by taxing authorities. The Plan Administrators analyzed the tax positions taken by the Plan and have concluded that as of December 31, 2025 and December 31, 2024, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by tax jurisdictions for tax years for which the applicable statutes of limitations have not expired; however, there are currently no audits for any tax periods in progress.
