Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of MasterBrand, Inc. Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits (in liquidation) as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits (in liquidation) for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the years then ended, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Plan Termination and Liquidation Basis of Accounting

As further discussed in Note 1 to the financial statements, the Board of Directors approved a plan of liquidation on September 30, 2023, and management determined liquidation is imminent. As a result, the Plan uses the liquidation basis of accounting in presenting the financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedule Required by ERISA

The ERISA-required supplemental Schedule of Reportable Transactions (In Liquidation) for the year ended December 31, 2025 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

MasterBrand, Inc. Pension Plan

Notes to Financial Statements

1. Description of the Plan

The following is a brief description of the MasterBrand, Inc. Pension Plan (the Plan). Participants should refer to the Plan document for a more complete description of the Plan's provisions, which is available from the Plan administrator.

General

The Plan was a non-contributory defined benefit plan covering employees of MasterBrand, Inc. (the Company or MasterBrand) not covered by a collective-bargaining agreement, except for certain employees of the Company's business divisions, including NHB Cabinets, Capital Cabinets, and Omega Cabinets.

Employee retirement benefits were based on length of service, as defined in the Plan, as well as earnings prior to retirement. An employee became eligible for participation in the Plan when the individual completed at least 1,000 hours in the 12-month period beginning with his or her date of hire, or any calendar year thereafter. Effective January 1, 2007, the Plan closed to employees hired after such date with the exception of certain circumstances, as outlined in the Plan document. Benefit service and accruals were frozen on December 31, 2016 for salaried and nonunion participants. For participants who were covered under the Aristokraft, Jasper, Indiana Service Related Pension Plan (Aristokraft Plan), a plan that previously merged with and into the Plan, benefits stopped accruing for the Aristokraft Plan as of December 31, 2012, as part of the ratified collective-bargaining agreement covering the Aristokraft Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Plan Termination

During 2023, the Board of Directors of the Company approved a plan to terminate the Plan with an effective date of May 31, 2024. The termination and settlement process, which preserves retirement benefits due to participants but changes the ultimate payor of such benefits, was completed in 2025. Upon termination of the Plan, all participants became 100% vested to the extent they were not already vested.

During 2024, the Company offered a lump-sum benefit payout option to certain Plan participants resulting in \$41.9 million of payments to participants who elected this option, equivalent to approximately 34% of the Company's benefit obligation for the plan. During 2025, the Company completed the purchase of group annuity contracts with an insurance company, in which the liability, plan administration, and payout of benefits were irrevocably transferred. In June 2025, the insurance company began paying plan benefits to eligible plan participants through the group annuity contracts.

Pension Benefits

Prior to the Plan termination, employees became fully vested after five years of vesting service, or three years of vesting service if the employee completes one hour of service on or after January 1, 2008. Participants were eligible for monthly pension benefit payments beginning at the normal retirement age (the later of age 65 or after five years of vesting service in the Plan if their employment is terminated with all FBHS entities). Benefits were calculated according to an integrated benefit formula based upon total years and months of credited service multiplied by a percentage of final average monthly earnings.

MasterBrand, Inc. Pension Plan

Notes to Financial Statements

The normal form of pension benefit for a participant with no eligible spouse is an annuity payable for the participant's lifetime only. The normal form of pension benefit for a participant with an eligible spouse is an annuity payable at an actuarially reduced amount for the participant's lifetime and, thereafter, at a specific percentage of such amount for the eligible spouse's lifetime.

A participant could elect to modify the normal form of pension benefit by exercising one of several options, including a single-life annuity, various joint and survivor annuities, various period-certain annuity options, or a lump-sum distribution. Reduced benefits are payable upon early retirement after attaining age 55, with a minimum of five years of vesting service.

The Plan also provided for disability and deferred pension benefits. A participant is considered disabled as long as they meet the definition of totally and permanently disabled as expressed in the Plan. A participant is eligible for a deferred vested pension if their employment is terminated with the Company before death or retirement after completing at least five years of vesting service.

Funding Policy

The Company contributed such amounts as necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. The minimum funding requirements of ERISA were satisfied in 2025 and 2024.

2. Summary of Accounting Policies

Basis of Accounting

As discussed in Note 1, the Plan was terminated effective May 31, 2024. As a result, the Plan is presented under the liquidation basis of accounting.

Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process and liabilities are measured using the accrual basis of accounting and include any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

The Plan's financial statements and related disclosures have been updated to include accrued income and expenses expected to be realized through the end of liquidation. Accrued expenses include administrative and professional fees, and actuarial and consulting costs expected to be incurred through liquidation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments were stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction

MasterBrand, Inc. Pension Plan

Notes to Financial Statements

between market participants at the measurement date in the principal or most advantageous market for the asset or liability. Inputs were used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk.

Purchases and sales of investments were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefit payments to participants were recorded when paid.

Administrative Expenses

The Plan provided for payment of certain administrative expenses from Plan assets.

Expenses paid by the Plan are presented in the accompanying statement of changes in net assets available for benefits - in liquidation as administrative expenses.

Risks and Uncertainties

The Plan invested in various investment securities. Investment securities were exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits - in liquidation and the statement of changes in net assets available for benefits - in liquidation.

Plan contributions were made, and the actuarial present value of accumulated plan benefits was reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Transfer of Assets to Other Qualified Plans

As a result of the Plan termination, the Company recognized a surplus in plan assets. The Company used the pension surplus to satisfy other Company obligations for qualified replacement plans. Transfers included approximately \$930,000 to the MasterBrand Cabinets, LLC Union Employees Savings Plan and approximately \$6,330,000 to the MasterBrand, Inc. Retirement Savings Plan.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. The actuarial present value of accumulated plan benefits was determined by Aon Consulting Inc. (Aon), the Plan's actuary, and was the amount that resulted from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of

MasterBrand, Inc. Pension Plan

Notes to Financial Statements

decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits (in liquidation) is as follows:

<i>December 31,</i>	2025	2024
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ -	\$ 59,807,930
Other participants	-	22,000,170
Total Vested Benefits	-	81,808,100
Non-vested benefits	-	-
Total Actuarial Present Value of Accumulated Plan Benefits (In Liquidation)	\$ -	\$ 81,808,100

Changes in the present value of accumulated plan benefits are as follows:

Present Value of Accumulated Plan Benefits, December 31, 2024 (in liquidation)	\$ 81,808,100
Increase (decrease) during the year attributable to:	
Interest accumulation	785,900
Benefits paid	(2,794,000)
Insurer premium paid	(74,000,000)
Actuarial gain	(5,800,000)
Net Decrease	(81,808,100)
Present Value of Accumulated Plan Benefits, December 31, 2025 (in liquidation)	\$ -

The significant actuarial assumptions used in the valuation are as follows:

<i>December 31, 2024</i>	
Mortality	Pri-2012 employee, retiree, and contingent survivor mortality rates, projected generationally from 2012 using Scale MP-2021
Retirement age assumptions	The age at which current active employees are assumed to retire varies between ages 55 and 70. All employees aged 70 are assumed to retire.
Interest rate	5.45%
Annuity purchase interest rates	5.42% for deferred annuitants; 5.45% for immediate annuitants.

As discussed in Note 1, the Plan was terminated effective May 31, 2024. As a result, the actuarial present value of accumulated plan benefits as of December 31, 2024 reflect certain assumptions related to Plan termination, including annuity purchase rates, insurer premium, and lump-sum window-optional form-of-payment assumptions.

4. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - This level includes inputs to the valuation methodology that are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 - This level includes inputs to the valuation methodology that are other-than-quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the assets or liabilities (including volatilities).
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability had a specified (contractual) term, the Level 2 input must have been observable for substantially the full term of the asset or liability.

Level 3 - This level includes inputs to the valuation methodology that are unobservable for the asset or liability (including the entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability) and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Plan management used the following methods and significant assumptions to estimate fair value of investments as of December 31, 2025 and 2024.

The investments held by the Plan as of December 31, 2024 are valued as follows:

Collective Funds - Collective funds were valued at the net asset value (NAV) of units of each bank collective trust. The NAV was used as a practical expedient to estimate fair value. The NAV was provided by the Trustee and is based on the fair value of the underlying investments held by the funds less their liabilities. Were the Plan to initiate a full redemption of a collective trust, the investment advisor generally reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments.

MasterBrand, Inc. Pension Plan

Notes to Financial Statements

103-12 Investment Fund - The 103-12 Investment Fund was valued at the NAV as reported to the Plan from the fund's manager. The NAV was used as a practical expedient to estimate fair value and is calculated based on the Plan's share of the total fund's net assets at fair value. The fund files an annual report on Form 5500 as a direct-filing entity. The fund provided a semi-annual partial redemption with a 95-day advance-notification requirement, and full redemption with a 95-day advance-notification requirement subject to a 10% holdback. There were no unfunded commitments related to the fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Plan's investments by level within the fair value hierarchy:

December 31, 2024

	Level 1	Level 2	Level 3	Total
Investments, in fair value hierarchy	\$ -	\$ -	\$ -	\$ -
Investments, measured at NAV:				
Collective funds				81,175,204
Total Investments, at fair value				\$ 81,175,204

5. Plan Termination

The Company has the right under the Plan's provisions to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

As discussed in Note 1, the Company approved a standard termination of the Plan commencing on May 31, 2024. Upon termination, the net assets of the Plan were allocated to Plan participants and beneficiaries in accordance with the terms and provisions of the Plan in accordance with applicable provisions set forth in ERISA. Upon the distribution of Plan assets either by the purchase of an irrevocable commitment from an insurer to provide an annuity or by a lump-sum payment, the PBGC's guarantee with respect to participant benefits ends.

6. Tax Status

The Plan obtained its latest determination letter on July 30, 2021, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed, and being operated, in compliance, with the applicable requirements of the IRC. On July 1, 2025, the IRS issued a favorable determination letter with respect to the Plan's termination.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not

be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress.

7. Information Certified by Qualified Institution

Certain information disclosed in the accompanying financial statements and ERISA-required supplemental schedules related to investments held as of December 31, 2025 and 2024, and net depreciation in fair value of investments, for the year ended December 31, 2025, were obtained by management and agreed to or derived from information certified as complete and accurate by The Northern Trust Company, a qualified institution.

8. Related Party and Party-in-Interest Transactions

Certain Plan investments are collective funds which are managed by The Northern Trust Company and Aon. The Northern Trust Company is the Trustee, as defined by the Plan, and Aon is the Plan's actuary and investment manager; therefore, these transactions qualify as party-in-interest transactions during the year ended December 31, 2025.

9. Purchase of Annuity Contract

On February 20, 2025, the Plan entered into a purchase agreement with American General Life Insurance Company (American General Life) to provide a standard single premium guaranteed annuity contract (GAC) in connection with the settlement of liabilities associated with certain benefits under the Plan. Under the terms of the GAC, the obligation to make future pension payments transferred to American General Life, and participants ceased to be participants in the Plan. American General Life will make all future benefit payments to the Plan's participants and beneficiaries. The GAC provides for the continued payment of the participants' pension benefit in the same form that was in effect under the Plan immediately before the annuity purchase, including any beneficiary designation and survivor benefit. The purchase price of the annuity contract was approximately \$74,000,000 and is reported in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2025. Under the terms of the GAC, the obligation to make future pension payments began on June 1, 2025.

10. Subsequent Events

Management of the Plan has evaluated subsequent events through July 31, 2026, the date these financial statements were available to be issued, for possible recognition or disclosure in those financial statements. On May 28, 2026 (the Closing Date), MasterBrand, Inc. completed its previously announced transaction with American Woodmark Corporation (American Woodmark). Pursuant to the Agreement and Plan of Merger, dated as of August 5, 2025 (the Merger Agreement), on the Closing Date, Maple Merger Sub, Inc., a Virginia corporation and wholly owned subsidiary of MasterBrand merged with and into American Woodmark at the effective time of the Merger, with American Woodmark continuing as the surviving entity. Pursuant to the Merger Agreement, each share of American Woodmark common stock outstanding was converted into the right to receive 5.150 shares of MasterBrand common stock, plus cash in lieu of any fractional shares. The Plan evaluated the impact of this merger and determined that it did not have an impact on the Plan's net assets available for benefits or changes in net assets.
