To the Plan Administrator of
DallasNews Pension Plan II

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of DallasNews Pension Plan II (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 18, 2025 (In Liquidation) and 2024 (On Going), the statement of accumulated plan benefits as of December 31, 2024 (On Going), and the related statements of changes in net assets available for benefits for the period from January 1, 2025 through December 18, 2025 (In Liquidation), and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of DallasNews Pension Plan II's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 18, 2025 and December 31, 2024, and for the period from January 1, 2025 through December 18, 2025, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Baker Tilly Advisory Group, LP and Baker Tilly US, LLP, trading as Baker Tilly, are members of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities. Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of DallasNews Pension Plan II and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter - Plan Termination and Liquidation Basis of Accounting

As discussed in Note 1 and 2 to the financial statements, the Board of Directors of the Company terminated the Plan effective date of August 1, 2025, and management determined liquidation is imminent. As a result, the Plan has changed its basis of accounting from the ongoing plan basis of accounting used in presenting the 2024 financial statements to the liquidation basis of accounting used in presenting the 2025 financial statements. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of DallasNews Pension Plan II's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

DallasNews Pension Plan II

Notes to Financial Statements

December 18, 2025 (In Liquidation) and December 31, 2024 (On Going)

1. Description of Plan

The following description of the DallasNews Pension Plan II provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The DallasNews Corporation Pension Plan II (the Plan) is a noncontributory defined benefit plan sponsored by DallasNews Corporation (the Company or Employer) established effective January 1, 2011, as restated November 1, 2014. The Company established the Plan and DallasNews Corporation Pension Plan I on January 1, 2011, upon the Company's withdrawal of its participants from The G. B. Dealey Retirement Pension Plan (the GBD Pension Plan), a noncontributory defined benefit plan sponsored by Belo Corp., the former parent of the Company. The Plan provides retirement benefits to current and former employees of The Providence Journal Company and employees of the Company's corporate headquarters who were withdrawn from the GBD Pension Plan. Accrual of new benefits to participants was frozen prior to plan inception. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Benefits Administrative Committee is responsible for oversight of the Plan. The Benefits Administrative Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Plan Termination

On June 26, 2025, the Company made the decision to terminate the Plan effective August 1, 2025. Upon termination, all assets remaining in the Plan will be distributed to the participants subject to the applicable requirements of ERISA and in accordance with the provisions of the plan document.

Effective April 10, 2025, the Plan entered into an irrevocable contract with an insurer, First Allmerica Financial Life Insurance Company (Allmerica), a subsidiary of The Global Atlantic Financial Group LLC, to provide Plan benefits to all active and terminated vested Plan participants, beneficiaries of deceased participants, and alternate payees under an applicable qualified domestic relations order. The purchase of the contract was funded by Plan assets and a cash contribution from the Company.

Master Trust

The Plan's investments are held in the DallasNews Corporation Pension Plan Master Trust (the Master Trust), which was established for the investment of assets of the Plan and another DallasNews Corporation sponsored retirement plan. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by Bank of New York Mellon/BNY Mellon, N.A. (Trustee).

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The minimum funding requirements of ERISA were met in 2025.

Pension Benefits

Monthly retirement benefit payments are computed based on several factors including, but not limited to, retirement date, age at date of retirement, years of credited service and final monthly compensation eligible for benefits as defined in the plan document.

Retirement is available to participants generally as early as age 55 and normal retirement starts at age 65. Participants can elect various payment options for their monthly retirement benefit. Payment options for participants consist of (i) a 10-year certain and continuous annuity paid each month to the participant and the designated beneficiary in the event of death, or (ii) a reduced amount, which is the actuarial equivalent of a 10-year certain and continuous annuity paid (a) in equal monthly installments over the life of the participant, or (b) in equal monthly installments over the life of the participant and in further reduced installments to the beneficiary in the event of death.

Participants have a 100% vested and nonforfeitable interest in their account balance. Plan participants are eligible for their plan benefit after terminating employment with vested rights.

Death and Disability Benefits

If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the equivalent normal retirement benefit they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age, at which time disabled participants will receive the normal retirement benefit computed as though they had been employed to normal retirement age, with their annual compensation remaining the same as at the time they became disabled.

2. Summary of Accounting Policies

Basis of Accounting

As a result of the resolution to terminate the Plan, the Plan considers liquidation to be imminent and, therefore, the financial statements of the Plan as of December 18, 2025, and for the period from January 1, 2025 through December 18, 2025, are presented on the liquidation basis of accounting.

The financial statements of the Plan for the year ended December 31, 2024, is presented on the ongoing accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held in the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan's interest in the investment income of the Master Trust, in the accompanying Statement of Changes in Net Assets Available for Benefits includes the Plan's allocation of interest, dividends, realized gains or losses from the sale of investments, and unrealized appreciation or depreciation in the fair value of investments held by the Master Trust, and fees charged to the Master Trust, which are netted against or included with net appreciation (depreciation) in fair value of investments. These fees represent charges by the Trustee for services provided in connection with recordkeeping and investment management. Net unrealized appreciation (depreciation) in fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investments as of the beginning of the period or the cost of the investment if purchased during the year.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments in the statement of changes in net assets available for benefits.

Recent Regulatory Developments

Setting Every Community Up for Retirement Enhancement Act of 2022 (SECURE 2.0) was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the period ended December 18, 2025, and continues to evaluate the impact of the adoption and implementation of this legislation on the Plan. The application of SECURE 2.0 Act did not have a material effect on the Plan's financial statements.

Subsequent Events

Subsequent events were evaluated through July 21, 2026, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, such as retirement, death, disability, and termination of employment, are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by Milliman, Inc. and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2025. Had the valuations been performed as of December 31, 2024, there would be no material differences.

The significant actuarial assumptions used in the valuations were:

Assumptions	
Interest rate	6.25%
Mortality	Pri-2012 Total Dataset Mortality Table projected forward using IRS 2024 adjusted Scale MP-2021 on a generational basis with sex-distinct employee rates before benefit commencement and retiree and survivor rates after benefit commencement
Retirement age	Age 62

The foregoing actuarial assumptions were based on the presumption that the Plan would continue. As discussed in Note 1, on June 26, 2025, the Board of Directors of the Company decided to terminate the Plan effective August 1, 2025, and initiated liquidation procedures. During the year, the Plan was terminated and all remaining assets were distributed. Accordingly, as of December 18, 2025, the Plan had no net assets available for benefits and no accumulated plan benefits remained.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2024.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts are valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustee, is based on the fair value of the underlying investments held by the fund less its liabilities. This NAV is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Master Trust to initiate a full redemption of the collective trust, the investment manager reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

*U.S. government securities c*onsist of U.S. Treasury Bonds that are valued based on unadjusted quoted prices in active markets for identical assets. U.S. Treasury securities are highly liquid and traded frequently in public markets, providing observable pricing without the need for valuation adjustments or modeling. The fair value of these bonds is determined using prices obtained from pricing services and reflects current market conditions as of the reporting date.

The following table sets forth by level, within the fair value hierarchy, a summary of the investments in the Master Trust at fair value as of December 31, 2024:

Master Trust Assets at Fair Value as of December 31, 2024	Level 1	Level 2	Level 3	Total
Common collective trusts	$ -	$ 81,403,824	$ -	$ 81,403,824
U.S. government securities	4,323,225	-	-	4,323,225
Mutual Funds	51,419,267	-	-	51,419,267
Total Master Trust assets, at fair value	$ 55,742,492	$ 81,403,824	$ -	$ 137,146,316

5. Interest in Master Trust

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2024, the Plan's interest in the net assets of the Master Trust was approximately 50%. Total investment income (including net appreciation in the fair value of investments) and administrative expenses of the Master Trust are allocated to the individual plans based upon the value of the plan's net assets in the Master Trust on the allocation date.

The following table presents the investments and other assets and liabilities of the Master Trust as of December 31, 2024:

	Master Trust Balances 2024	Plan's Interest in Master Trust Balances 2024
Investments at fair value:		
Mutual funds	$ 51,419,267	$ 25,565,816
U.S. government securities	4,323,225	2,149,521
Common collective trusts	81,403,824	40,474,228
Total investments at fair value	137,146,316	68,189,565
Receivables:		
Interest	66,143	32,887
Other	3,031,831	1,507,435
Total receivables	3,097,974	1,540,322
Liabilities:		
Cash held at broker	1,286,138	639,472
Net assets	$ 138,958,152	$ 69,090,415

Other receivables represent receivables from unsettled transactions. Cash held at broker includes collateral received by broker in connection with derivative transactions.

The following are net appreciation in the fair value of investments and investment income for the Master Trust for the period from January 1, 2025 through December 18, 2025:

Master Trust Investment Income for the Period from January 1, 2025 through December 18, 2025		
Net appreciation in fair value of investments	$	510,136
Interest and dividends		261,170
Total	$	771,306

6. Derivatives

As part of an overall portfolio strategy, the investment manager for the Master Trust uses futures contracts to manage exposure to U.S. treasury securities. Futures contracts are agreements between two parties to buy or sell a security or financial interest at a set price on a future date and are standardized and exchange-traded. Upon entering into a futures contract on behalf of the Master Trust, the investment manager is required to pledge to the broker an amount of cash or securities equal to the minimum "initial margin" requirements of the exchange on which the contract is traded. Pursuant to the contract, the investment manager agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded on a daily basis by the Master Trust as a realized gain or loss equal to the difference in the value of the contract between daily closing prices. Futures contracts involve market, interest rate and exchange rate risks in excess of the amount recognized in the statements of net assets available for plan benefits. There is minimal counterparty credit risk with futures contract since they are exchange traded and the exchange's clearinghouse, as counterparty to all exchange traded futures, guarantees the futures against default. The Master Trust's investment policies specifically prohibit the use of derivatives for speculative purposes.

The following provides the estimated fair value of futures contracts as of December 31, 2024, shown at the gross amounts. Daily margin settlement for futures contracts results in maintaining a zero-market value for the contracts.

Derivative Instrument	**Gross Assets**	**Gross Liabilities**
Futures contracts	$ -	$ -

The following provides the notional amounts of futures contracts as of December 31, 2024. Notional amounts represent the contract amount, not the amount at risk.

Derivative Instrument	Notional Amount 2024
Futures contracts	$ 71,139,025

Any gains or losses recognized on derivatives are recognized in current year investment income. For the period from January 1, 2025 through December 18, 2025, the amount of loss recognized as Master Trust investment income in the statement of changes in net assets available for benefits attributable to derivative instruments is as follows:

Derivative Instrument	2025
Futures contracts losses	$ 1,111,435

7. Information Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA for 2025 and 2024. Accordingly, Bank of New York Mellon/BNY Mellon, N.A., the Trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 18, 2025 and December 31, 2024, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the period from January 1, 2025 through December 18, 2025. Such information was obtained by management and agreed to or derived from information certified as complete and accurate by a qualified institution.

8. Related-Party and Party in Interest Transactions

Certain of the Plan's investments held by the Master Trust are shares of common collective trusts and mutual funds managed by Goldman Sachs. Goldman Sachs is the investment advisor of the Master Trust. Therefore, these transactions qualify as party in interest transactions for which a statutory exemption exists.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

9. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated August 7,2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Company applied to the IRS for a determination that the Plan’s termination complied with applicable provisions of the IRC. On December 8, 2025, the Company received a favorable determination letter from the IRS stating that the termination of the Plan does not adversely affect its qualified status.

10. Risks and Uncertainties

The investment allocation of the Plan's interest in the Master Trust is directed by the Company or the Plan's Benefits Investment Committee. Such investments are exposed to various risks, such as interest rate risk, market risk, concentration and credit risk. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is at least reasonably possible that changes in the value of investment securities in the near term could materially affect the amount reported in the Statements of Net Assets Available for Benefits and the funding status of the Plan.

Some of the Plan's investments held by the Master Trust may be illiquid, and the Plan may not be able to vary the portfolio in response to changes in economic and other conditions. Some of the investments that are purchased and sold are traded in private, unregistered transactions and are therefore subject to restrictions on resale or otherwise have no established trading market. In addition, if the Plan is required to liquidate all or a portion of its portfolio quickly, the Plan may realize significantly less than the value at which it previously recorded those investments.

As of December 31, 2024, the Master Trust had an investment of $100,263,027 which is concentrated in three funds.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change due to uncertainty inherent in the estimations and assumptions process. It is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

The Plan Year is the 12 month period beginning January 1 and ending December 31.

Participation

Employees, former employees, and beneficiaries of the company who participated in The G. B. Dealey Retirement Pension Plan immediately prior to January 1, 2011. Benefit accruals in The G. B. Dealey Retirement Pension Plan were frozen as of March 31, 2007, and no new participants have been included after that date.

Definitions

Accrued Benefit

a) 1.1% of Final Monthly Compensation multiplied by years of Credited Service; plus

b) 0.35% of Final Monthly Compensation in excess of monthly Covered Compensation multiplied by Credited Service up to 35 such years.

For prior Guild Non-Union Providence Journal participants, the benefit is the greater of benefit under DallasNews Corporation Pension Plan I (formerly A.H. Belo Pension Plan I) or the accrued benefit as of December 31, 1997, under the Providence Journal Plan plus a benefit under DallasNews Corporation Pension Plan I (formeraly A.H. Belo Pension Plan I) post December 31, 1997. For prior Guild Union Employees, the benefit is the greater of the benefit under DallasNews Corporation Pension Plan I (formerly A.H. Belo Pension Plan I) or the accrued benefit under Appendix D of the Plan as of July 31, 2004.

Excluding Guild Union, participants transferring to the STAR Plan have a vested accrued benefit at July 1, 2000.

Guild Union participants transferring to the STAR Plan have a vested accrued benefit at August 1, 2004.

For all remaining participants, accrued benefits were frozen on March 31, 2007.

Actuarial Equivalent

- **Interest:** the PBGC immediate annuity rate in effect on the first day of the Plan Year in which the Participant terminates employment
- **Mortality:** 1971 Group Annuity Mortality Table, Projected by Scale D to 1975, weighted 50% male and 50% female

Compensation

Base pay, overtime pay, shift differential pay, premium pay, bonuses (included termination bonuses paid in a lump sum at termination of employment), and commissions paid to an employee by the participating employers for services performed for the participating employer, excluding any awards other than annual incentive compensation and excluding any other form of remuneration. Compensation includes any contributions made by the employer on behalf of an employee pursuant to a deferral election under an employee benefit plan containing a cash or deferred arrangement under Code Section 401(k) or any amounts

that would have been received as cash but for an election to receive benefits under a cafeteria plan meeting the requirements of Code Section 125.

Covered Compensation

The average of the Taxable Wage Base in effect for each calendar year during the 35 year period ending with the last day of the calendar year in which the Participant attains Social Security Retirement Age.

Credited Service

Includes all service through December 31, 1975, credited under the provisions of the prior plan. For plan years 1976 and 1977, a year of service is granted for each plan year in which an employee has completed 1,000 or more hours of service with an employer.

Pension service after 1977 shall be the aggregate of an employee's periods of employment, including the first 12 months of authorized absence.

For the purpose of determining eligibility for benefits, an employee's pension service shall include all periods of absence of less than one year.

Employees of the Corinthian subsidiaries of The Dun & Bradstreet Corporation will receive pension service earned under the Dun & Bradstreet plan; he receives no credit prior to January 30, 1984, for benefit purposes. For the purposes of calculating the benefit under the plan, service shall be segregated into two periods, the first being the years of service that had been credited under the Dun & Bradstreet plan as of January 30, 1984 (D & B service), and the second being the years of service earned after January 31, 1984 (Belo Corp. service).

The WWL employees receive pension service starting on June 1, 1994, the KIRO employees receive pension service starting on February 1, 1995, and the Owensboro employees receive pension service starting on January 1, 1996. The KMOV-TV employees receive pension service starting on June 2, 1997. Employees of BHI Sub, Inc. (KENS-TV) receive pension service starting on October 15, 1997.

Excluding Guild Union participants choosing the STAR Plan, credited service ends June 30, 2000.

For Guild Union participants choosing the STAR Plan, credited service ends July 31, 2004.

For all remaining participants service accrual ceases as of March 31, 2007.

Each of the participants from the following groups (the "eligible groups") is given credit for an additional five years of credited service in determining his or her accrued benefit:

a) each participant who was accruing a retirement benefit and/or a disability benefit under the plan on March 31, 2007;

b) each participant who terminated employment on or before March 31, 2007, as a result of the company's information technology outsourcing;

c) each participant who terminated employment on or after September 29, 2006, and before March 31, 2007, by reason of death, retirement at or after age 55 or because of an involuntary reduction in force;

d) each participant who terminated employment on or before September 14, 2006, in connection with the Dallas Morning News voluntary severance program for newsroom employees;

e) each participant who was in qualified military service on March 31, 2007.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The amount needed to amortize the Funding Shortfall to the Applicable Funding Target, in combination with prior Shortfall Amortizations, for the plan year beginning January 1, 2025 is determined below. The net Funding Shortfall for a plan year is amortized in fifteen level payments. The present value and amortization factors shown below are based on the interest rates for determining the Applicable Funding Target for the current plan year.

1. Present Value of remaining prior Shortfall Amortizations

Date Established	Amortization Amount	Years Remaining	Present Value Factor	Present Value
1/1/2023	$573,691	13	9.729931	$5,581,974

2. Shortfall amortization for current plan year

a.	Applicable Funding Target	76,258,558
b.	Actuarial Value of Assets less Carryover and Prefunding Balances	67,360,163
c.	Is the plan exempt from establishing a Shortfall Amortization for the current year?	No
d.	Funding Shortfall [(a) - (b), but not < $0]	8,898,395
e.	Net Funding Shortfall [If (d) > $0, (d) - (1b), otherwise n/a]	3,316,421
f.	Amortization factor	10.724960
g.	Shortfall Amortization for current plan year [(e) ÷ (f)]	$309,225

3. Total Shortfall Amortizations
[(1) + (2g), but not < $0] 882,916

4. Total Shortfall Amortizations (prorated for short plan year) 570,610

Attachment to 2025 Form 5500
Schedule SB, Part V – Summary of Actuarial Assumptions/Methods

Plan Name: DallasNews Corporation Pension Plan II
Plan Sponsor: DallasNews Corporation

EIN: 38-3765318
PN: 005

Summary of Actuarial Methods

The ultimate cost of a pension plan is the excess of actual benefits and administrative expenses paid over actual net investment return on plan assets during the plan's existence until the last payment has been made to the last participant. A plan's "actuarial cost method" determines the expected incidence of actuarial costs by allocating portions of the ultimate cost to each plan year. The cost method is thus a budgeting tool to help ensure that a plan will be adequately and systematically funded. Annual contributions are also affected by a plan's "asset valuation method" (as well as plan provisions, actuarial assumptions, and actual plan demographic and investment experience each year).

Actuarial Cost Method

The actuarial cost method used for determining the Plan's ERISA funding requirements and the FASB ASC Topic 960 values is the Unit Credit method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on compensation and service at both the beginning and the end of the current year. The Plan's Normal Cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The Plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's benefits. This method is prescribed for ERISA funding requirements by the Pension Protection Act of 2006.

Asset Valuation Method

The Actuarial Value of Assets used for determining the Plan's ERISA funding requirements is based on the permitted three-year asset smoothing as defined under IRS Notice 2009-22. Under this method, the Actuarial Value of Assets equals the Adjusted Market Value of Assets minus one-third and two-thirds, respectively, of the investment gain or loss for each of the two immediately preceding plan years, but it must be within 90% to 110% of the Adjusted Market Value of Assets. The expected investment return for a plan year is based on the lesser of the expected rate of return on plan assets or the applicable statutory interest rate for the year.

Amortization Method

or the Plan's ERISA funding requirements, incremental Funding Shortfall amounts are amortized over a fifteen-year period, and the related shortfall amortization payment is determined on the first valuation date following the plan year in which it arises based on the segment rates used for ERISA minimum funding purposes on that date, as prescribed under IRC Section 430.

CHANGES IN ACTUARIAL METHODS SINCE PRIOR VALUATION
